Wayside Gardens

Autumn Planting
1954

The Best Time to Plant

The best time to transplant all plant material of definite hardiness is in the autumn. At this time of year weather and soil conditions are usually better than early spring. Little winter protection is required other than a light covering of hay or straw . . . Do not stop your garden operations because of the first light frost in the autumn. It is a help rather than a hindrance.

PLANT HARDY PLANTS FROM SEPT. 1st TO NOV. 1st; ROSES FROM NOV. 15th TO DEC. 15th; PEONIES, BLEEDING HEARTS, GERMAN AND JAPANESE IRIS FROM SEPT. 1st to FROST; ORIENTAL POPPIES FROM AUG. 15th to NOV. 15th; DUTCH BULBS FROM OCT. 1st UNTIL GROUND IS FROZEN; MADONNA LILIES FROM AUG. 15th to NOV. 1st; ALL OTHER LILIES IMMEDIATELY WHEN RECEIVED.

We ship no plants or bulbs except at the season they will grow best. This may mean two or more shipments to you—typical of the kind of service we render you. Place your order now and let us assume all responsibility of shipping dates.

To Customers in the Gulf Area, Texas, and California

We do not recommend the practice of planting imported bulbs in the warm states before November 15th. The prolonged warm weather produces a top growth before the roots have properly developed with the result that your flowers will not have proper stems and normal sized blooms. This applies particularly to the following states: Texas, California, New Mexico, Florida, Mississippi, and Arizona. Should bulbs be delivered to you before recommended planting time, store them in a cool place.

Order Now—We Ship at Planting Time

All orders are filled in the order of their receipt by us and are shipped at planting time. The reasons for this are obvious to you and it means that those who order early have a distinct advantage over those who wait until the last minute. Towards the end of the season many varieties are often sold out.

Ordering now gives us sufficient advance notice of your requirements, enabling us to determine the kind and quantity of stock we must have on hand. Only through such advance knowledge could we possibly hope to fill the number of orders which annually are sent to us from our thousands of customers.

QUALITY

The enviable reputation we enjoy is known to most gardeners. It is constantly strived for by giving faithful service and sending faultless quality.

Quality perhaps is the most important of the two for bulbs particularly, we can do more than most in that respect, because the President of our company is a member of the firm of Grullemans in Holland, internationally known as the finest growers of bulbs, whose early business years were spent with that firm, obtaining an intimate knowledge about bulbs, an opportunity which does not present itself to the average American importer who consequently is not as well informed.

Buy your bulbs from **Wayside Gardens** and see the difference!

Best Served are Those Who Order Early

The seasons, (as Shakespeare said of Time and Tide), wait for no man. For this reason the nursery business is a most exacting one where Nature, in the final analysis, is the only real Master. No other business is so subject to the whims and moods of the seasons and to the caprice of climate as is a nursery serving customers in all parts of the country . . . This means that in no other business is such a high degree of co-operation essential as that which must exist between customer and nursery. Won't you please continue this same splendid co-operation by sending in your order today?

Concerning Cultural Instructions

The U.S.A. is a large country with widely varying climatic conditions.

Within the states and counties the composition of the soil varies even more widely.

The cultural instructions given in this catalog are a guide in the right direction.

Our advice on winter protection as well as summer care of plants should always be adjusted to meet extreme local conditions.

Gardening practices in Augusta, Georgia, could hardly be the same as those in Augusta, Maine.

THE WORLD'S FINEST PLANT FOOD

So declared by experts. For Bulbs, Lawns, Flower Gardens. Used at WAYSIDE in the production of millions of fine plants. It is whole-heartedly endorsed for our customers.

Hundreds of customers and strangers alike have visited WAYSIDE GARDENS each year. They have marvelled at our plants. They have been known to actually gasp for breath at the sheer beauty of 400 acres of flowers brought to such a high degree of perfection. Invariably, they ask us the same question:

"To what do you attribute the superior qualities of your flowers?"

And invariably our answer is the same: "The chief reason for the high quality of WAYSIDE products is due to the fact that we use only the very finest Plant Food

that skill and money can produce!"

You will agree that we have entirely too much at stake to afford to use any other kind. In addition to the enormous investment represented by our nurseries, we have a reputation to maintain among thousands of the most critical floral customers in the land. We prize and guard very jealously such possessions . . . Contented only with the best, we advise our customers to adopt the same attitude, in order that the fine specimens grown at WAYSIDE may be duplicated in your own garden. We recommend only that which we ourselves use.

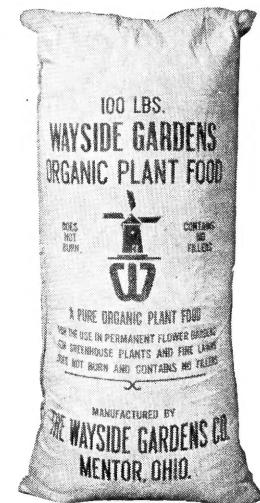

We Learn from the English About Lawns

We are indebted to a noted English gardener for the Exclusive Plant Food we use in growing thousands of plants of superior quality. Among other things, he said:

"A lawn should not be treated like a hayfield, but like a permanent garden. Therefore, I object to chemical fertilizers for lawns. It is not the QUANTITY of grass cut from the lawn each week, but the DENSITY AND LUXURIANCE OF THE GRASS which produces the effect of walking over a thick velvet carpet that counts. If you want a thick lawn in which there is no room for weeds, it is essential that you use a properly balanced ORGANIC Plant Food—one that sinks deeply into the soil for the grass or plant roots to go after. That is where the moisture is, and you will find it unnecessary to water so much in summer."

WAYSIDE'S superior Plant Food is made from bone meal, dried blood, ground fish, and muriate of potash,

in proportions recommended by the "old country" expert. These long-lasting ingredients, heavy with life-producing qualities, give your flowers a well-balanced diet, containing in just the right amounts those things that go to make strong roots, sturdy stalks, bright green leaves, a profusion of foliage and an abundance of large and healthy blooms year in and year out. It disintegrates slowly. It is excellent to use in bulb plantings as well as in Rose beds, or hardy plant borders. Use it consistently year after year, and your garden will be among the most beautiful.

Wayside Gardens Organic Plant Food Contains No Useless Weight or Bulk Producing Fillers

If your garden is an established one, apply twice a year, March first and October first. Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Roses, Annuals, and other Flowering Plants, Shrubs, and Bulbs. In making a new garden, double the amount and mix with the soil. Planting may be done at once. No burning is possible. For old lawns, use 10 to 25 lbs. for top dressing 500 sq. ft. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results.

A 100-lb. bag for \$10.00, 500 lbs. for \$40.00, 2000 lbs. for \$125.00.

Prices are f.o.b. Mentor, Ohio, and we ship by freight collect unless otherwise instructed.

"Wayside Gardens" Lawn Seed

WAYSIDE SUNNY Lawn Mixture

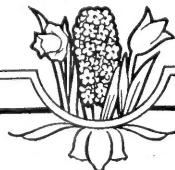

A blend of the finest grasses available to meet WAYSIDE GARDENS exacting specifications. Carefully selected strains of seeds for their resistance to weeds, crab grass and fungous diseases, their tolerance to drought, and for rich color and finer texture. If fertilized twice a year, and clipped to not less than one and one-half inches, this superb blend will produce a beautiful, almost indestructible turf. Sow at the rate of five pounds to 1000 square feet.

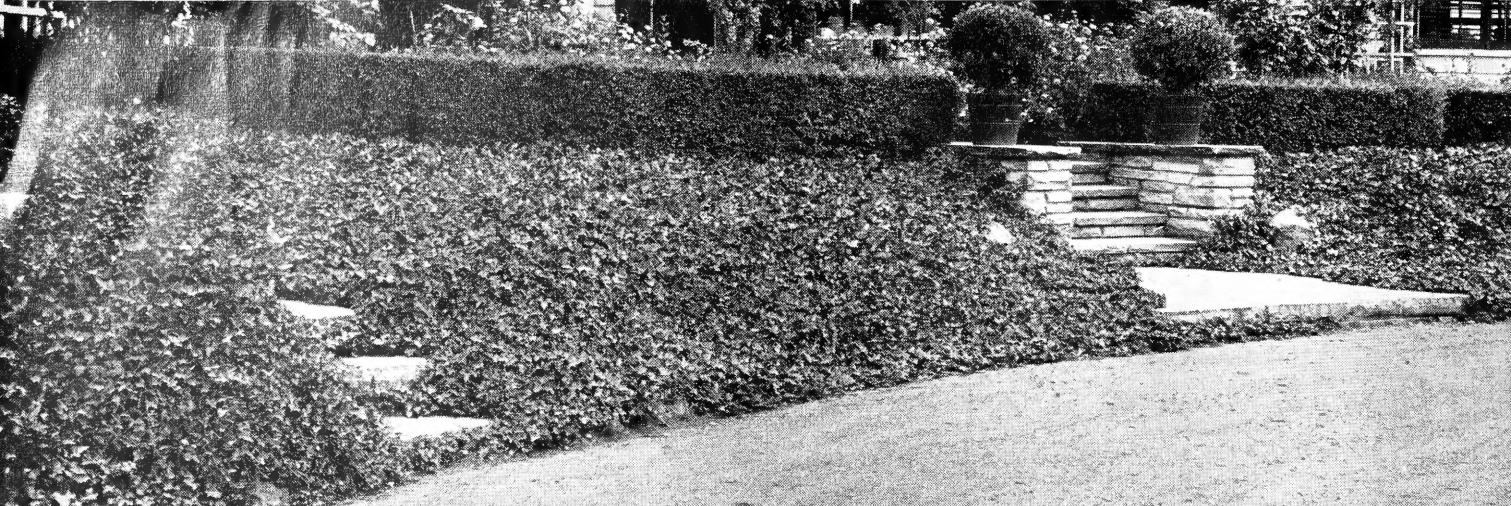

1 lb. \$2.00, 5 lbs. \$9.00, 25 lbs. \$43.00, 50 lbs. \$85.00

WAYSIDE SHADY Lawn Mixture

A similar blend in color and texture to WAYSIDE SUNNY. Blended of seed strains that will thrive in areas receiving little or no direct sunlight. Careful selection of the proper seed strains solves half of the shady lawn problem. This mixture will produce a superior lawn provided the shaded areas are regularly fertilized and watered at least once a week during dry periods. Sow at the rate of five pounds per thousand square feet.

1 lb. \$2.00, 5 lbs. \$9.00, 25 lbs. \$43.00, 50 lbs. \$85.00

Hardy Baltica Ivy Covering Bank—It is Very Hardy and Excellent on Banks—Creates a Beautiful Easy-to-Keep-Up "Lawn" as Well

Hardy Ground Covering Plants

for shady places where grass is not satisfactory

There's no need to despair over making attractive the shady places under trees and other places where grass won't grow. Here are several plants that are ideal for just such situations.

Once established they will spread quickly, last indefinitely and require practically no care. Although primarily foliage plants, some have

HARDY BALTICA AND ENGLISH IVY

The famous English Ivy with its familiar evergreen, glossy foliage, requires winter protection in cold sections of the country where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds anywhere. Gracilis is perfectly hardy and we recommend its use on the north side of buildings and walls or in shady places or as a ground cover under trees in dense shade. The 2½-inch pot plants offered are very economical.

ENGLISH IVY—*Hedera helix*

A lovely vine as well as a splendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in dense shade.

Plants from 2½-inch pots Doz. \$5.50, 100 \$25.00, 1000 \$225.00
For ground covering the 2½-inch pot plants are recommended and should be spaced 8 inches apart.

BALTICA IVY—*Hedera helix gracilis*

Identical in habit with the English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north exposures, also an excellent ground cover.

Plants from 2½-inch pots Doz. \$5.50, 100 \$25.00, 1000 \$225.00
For ground covering the 2½-inch pot plants are recommended and should be spaced 8 inches apart.

Plants from 5-inch pots Each \$1.25, Three \$3.95, Doz. \$9.50

EUONYMUS ACUTA

Ground Covering Size, Doz. \$6.00, 100 \$23.50, 1000 \$300.00

One of our favorite ground covering plants and also a great favorite with our customers. It is a fine prostrate, rapidly spreading vine; makes a smooth, shiny, dark, evergreen carpet, hardy anywhere, dense enough to prevent weeds from coming up through it. Does equally well in full sun, semi-shade or deep shade. Euonymus acuta is tops with us for covering large areas or banks.

LONICERA HALLIANA

Ground Covering Size, Doz. \$5.50, 100 \$25.00, 1000 \$225.00

Aside from being a favorite vine for both sunny and shady porches, Hall's Honeysuckle is extensively used for covering banks. Its growth is rapid and because it roots deeply is an excellent plant to prevent washing of soil. The fragrant flowers produced almost all summer long greatly add to its charm. It may also be used to cover semi-shady places in woods. May be planted in spring and fall. Plants should be spaced 18 in.

Vinca Does Well in Sun or Shade

blooms. The Myrtle, for instance, is sprinkled in the early spring with blue or white flowers.

Any of these ground coverings can be planted either in the spring or fall. Let us know the amount of ground you want to cover, and we'll gladly advise how many of any of the plants are needed.

Pachysandra Terminalis (Spurge)

A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations and the only plant which will thrive under pine trees. Some of its main uses are. Under all evergreen plantings, under all shrub plantings, for area-way copings, for loggia and enclosed porch uses, for shrub and flower bed borders, for bordering walks and drives, for steep terraces in sun or shade, for city yards it is ideal, for dense shade under any kind of trees. Plants should be spaced 4 inches apart.

Pot grown plants 25 \$6.00, 100 \$22.50, 250 \$53.00, 1000 \$200.00

We put 2 plants in each pot. Above prices are per pot.

Frame grown plants, bare root, not potted.

25 \$4.00, 100 \$15.00, 250 \$35.00, 1000 \$125.00
Tied in bundles of 25 per bundle. Excellent for inexpensive large plantings.

PACHYSANDRA SILVEREDGED

Pot grown plants Three \$1.70, Doz. \$5.50, 100 \$25.00

This is an exceedingly nice and valuable but still very rare form. It differs from the common Pachysandra by sporting a narrow silvery white margin around its leaves, and the leaves themselves are light green instead of dark green. The edge is seldom more than ¼ inch wide and never discolors.

The effect created by a grouping of this variegated type is most pleasing, giving a much lighter effect; in fact, the contrast is quite sharp. Everyone who has seen it wants it for that very purpose. The variegated form planted at the base of Rhododendrons or other evergreens is just what is wanted for relief of too much green.

Polygonum Reynowtria (Dwarf Polygonum)

This handsome ground cover was introduced a few years ago by Amos Perry, one of England's oldest and best known plantmen. It is of easy culture, very hardy, and establishes itself quite rapidly from underground runners. It does best in full sun and its pale green foliage turns brilliant red in the autumn. Height is between 4 and 8 inches, and in the fall produces numerous airy pink sprays of flowers not unlike those of the "Silver Lace Vine." The buds are deep red; adding much to its charm. One of the best ground covers for sunny places where Vinca and Pachysandra would not be satisfactory. Plants should be spaced 18 inches apart.

Three \$2.00, Doz. \$6.00, 100 \$32.50

Vinca - Periwinkle or Trailing Myrtle

The Periwinkles are suitable to grow as edgings to shrubbery borders, carpet the ground under the shade of trees, or in shady borders with Ferns, Lilies and other bulbs.

Ordinary soil in positions named above. Plant in autumn or early spring, 4 to 6 inches apart. Additional beauty is obtained by the interplanting of Daffodils, Mertensia or Plumbago larpetae. All these bulbs and plants do well planted under Vinca minor.

*Minor

A trailing evergreen plant, used extensively for carpeting the ground under shrubs or trees or on graves, where it is too shady for grass or other plants.

Plants from 2½-inch pots Doz. \$4.75, 100 \$20.00, 1000 \$185.00

*Minor alba

The rare white-flowered form of the preceding variety.

Plants from 2½-inch pots Doz. \$5.50, 100 \$25.00, 1000 \$225.00

Minor, Bowles' Variety

The foliage is broad and rich glossy green, of strong texture. The flowers are not only larger but of a deeper rich blue color and are borne with a remarkable profusion. Plants are supplied in pots.

Plants from 2½-inch pots Doz. \$5.00, 100 \$22.50, 1000 \$200.00

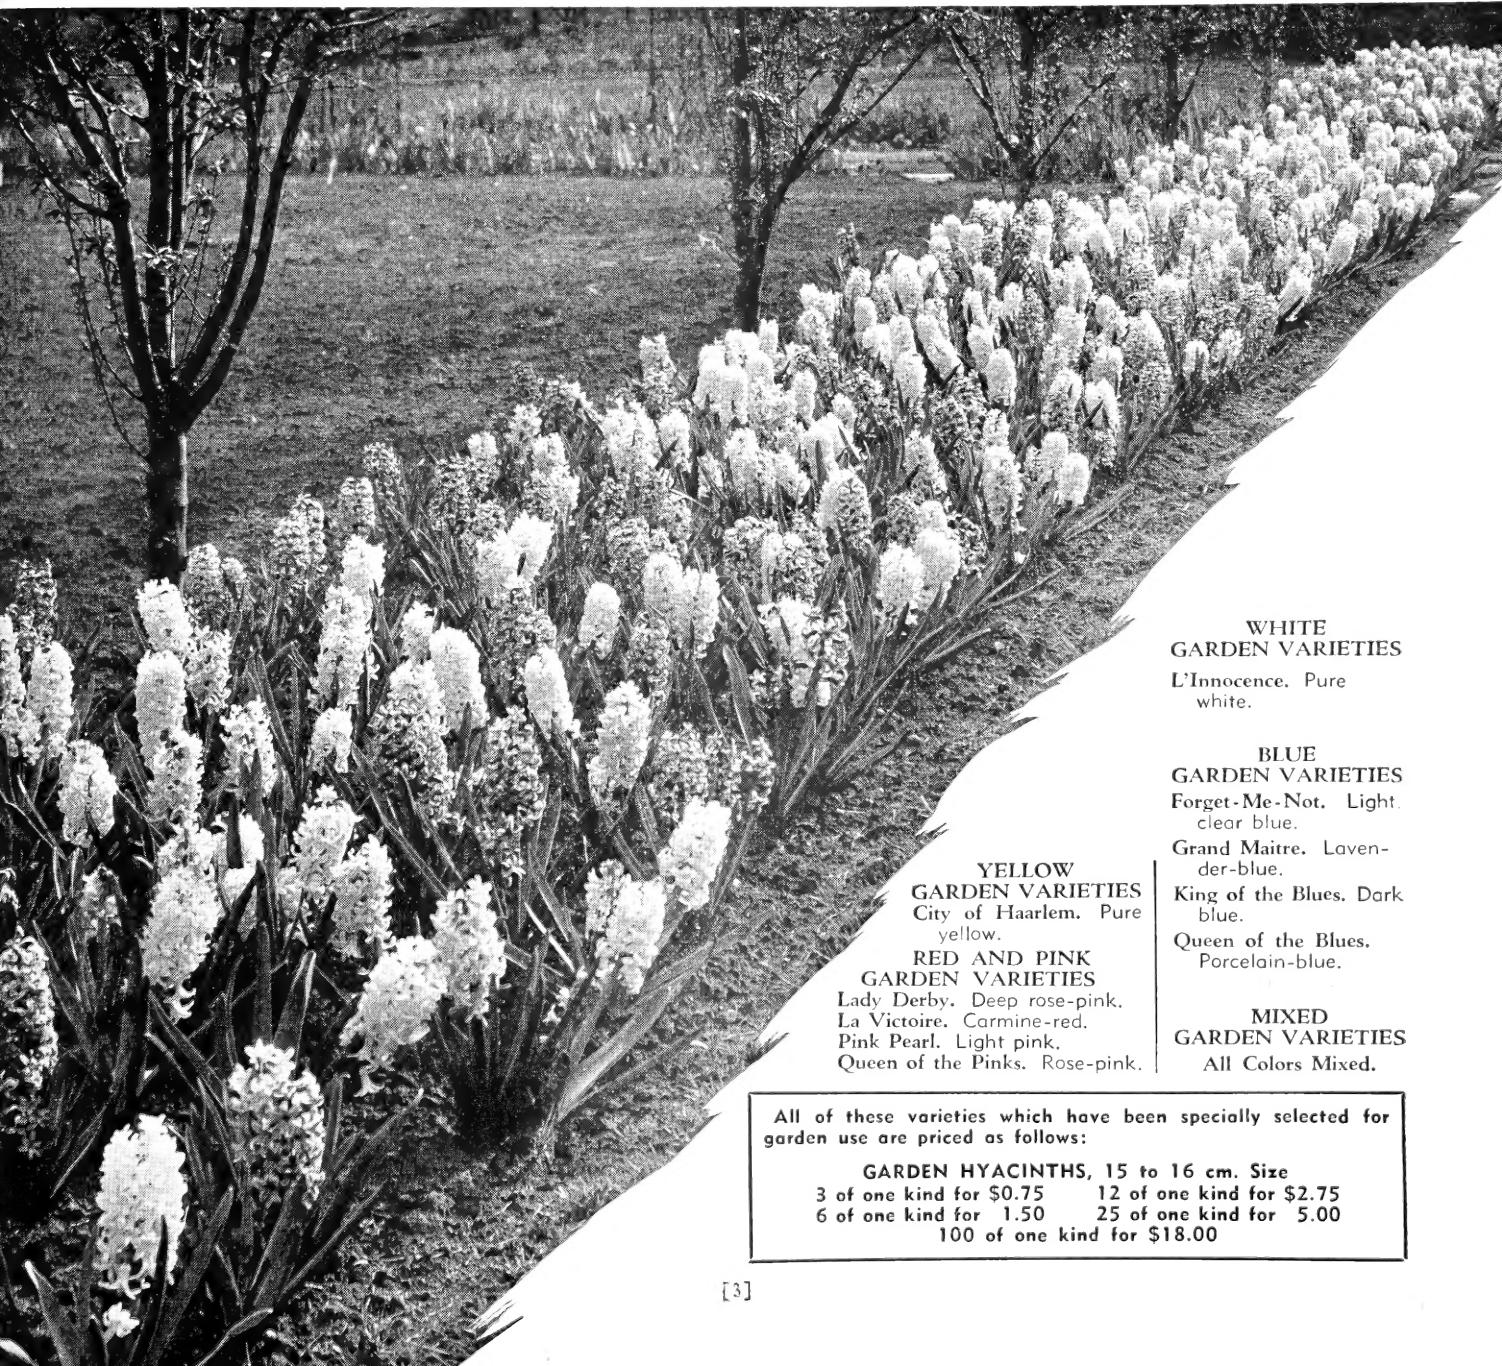

Sweet Scented Hyacinths

Distinct Colors in Our Carefully Chosen Varieties for Garden Planting

Hyacinths produce the first color of spring to which you so eagerly look forward. In no other way is it possible to obtain so early such a wide variety of gorgeous color. Equally desirable is their lovely fragrance . . . Plant them most anywhere, informally. Scatter them about with other spring flowers. Plant them by themselves in beds of one or more colors. Their beauty is enhanced by most any kind of background. Consistent and dependable, they are uniform in height, therefore popular in carrying out any pattern or design. How joyfully you will greet them as they bring to you the first fragrance and color of spring!

For your garden planting the most economical size of Hyacinth bulbs are those which measure 15 or 16 centimeters. They do not fall when in full bloom as the spikes are not too heavy, holding them upright. As the snows vanish they produce a most pleasing and fetching display of color when planted in beds, blooming from

4 to 6 weeks in advance of the Darwin Tulips. The varieties listed below are of the very finest obtainable for garden use. They have a wide range of vivid colors, the stems are strong and the blooms noted for their longevity. Left in the ground you may expect annual returns from your investment in color and fragrance.

WHITE GARDEN VARIETIES

L'Innocence. Pure white.

BLUE GARDEN VARIETIES

Forget-Me-Not. Light clear blue.

Grand Maitre. Lavender-blue.

King of the Blues. Dark blue.

Queen of the Blues. Porcelain-blue.

YELLOW GARDEN VARIETIES

City of Haarlem. Pure yellow.

RED AND PINK GARDEN VARIETIES

Lady Derby. Deep rose-pink.

La Victoire. Carmine-red.

Pink Pearl. Light pink.

Queen of the Pinks. Rose-pink.

MIXED GARDEN VARIETIES

All Colors Mixed.

All of these varieties which have been specially selected for garden use are priced as follows:

GARDEN HYACINTHS, 15 to 16 cm. Size	
3 of one kind for \$0.75	12 of one kind for \$2.75
6 of one kind for 1.50	25 of one kind for 5.00
100 of one kind for \$18.00	

Hyacinths

Large Bulbs for Garden Planting and Indoor Culture

Few flowers are capable of giving more lasting satisfaction than the Hyacinth. Sweet and delicate is their scent, and of a nature that everyone enjoys. Hardy and filled with energy, each Hyacinth produces its flowers time and again under the most adverse conditions, requiring little time or attention from you. Since the size of the flower is directly proportionate to the size of the bulb, it is advisable that you order the size best suited for the use you have in mind.

Fine results for outdoor garden or indoor growing are obtained from the 18 centimeter or larger bulb. Greater vigor is naturally found in the larger size bulbs and this added vitality produces enormous trusses, causing them to attain to the peak of perfection.

It is a simple matter to grow Hyacinths indoors during the winter months. They only require water and some sort of supporting medium such as soil or stones. In special Hyacinth glasses, obtainable at small cost, they are grown in water alone. Hundreds of thousands of bulbs are so grown in England and throughout Europe.

City of Haarlem

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
The finest of the yellows. Well-formed trusses of pale yellow bells. An excellent variety.

Grand Maitre

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
Deep lavender with long, compact spikes of large bells, on strong stems. One of the most popular lavender varieties.

Jan Bos

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
A fine clear scarlet bloom, good stem and habit, considered the best red.

King of the Blues

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
Dark violet-blue; splendid large trusses. One of the best dark blue Hyacinths.

Lady Derby

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
Beautiful and clear rose-pink, with large, compact trusses. Early and fine for forcing and bedding. The best of the pinks.

L'Innocence

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
This is the most satisfactory all-around pure white. Compact spikes with large bells. Does well anywhere.

La Victoire

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
Shiny carmine-red with large, well-filled spikes. A splendid bedder where brilliant color is required.

Pink Pearl

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
Rose-pink. A fine improvement over Gertrude. As an indoor flower or in the garden it leaves nothing to be desired.

Princess Margaret

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
A very fine novelty. The flower is large and perfectly formed. Color a clear soft pink. This is by far the best pink Hyacinth, both as to size and color.

Queen of the Blues

Each 50c, Three \$1.25, Doz. \$4.50, 100 \$30.00
Clear, light porcelain-blue; a strong variety with large, well-formed trusses. One of the best of its color.

Hyacinth Mixture of Big Bulbs

Size \$2.50, Doz. \$4.50, 100 \$30.00
This mixture is made up from the varieties listed under this heading. The bulbs are two sizes larger than the regular garden size. They will make a fine and fragrant showing in the garden. We do not advise you to grow several mixed bulbs in one pot because of difference in time required to force them into bloom.

Growing Hyacinths in Water

Imported Hyacinth Glasses

Leerdam Crystal

These crystal Hyacinth glasses are imported by us from the world famous Leerdam glass factory in Holland. They are beautifully made and when not in use for the growing of Hyacinths become handsome vases for cut flowers.

Each \$1.25, 3 for \$3.50, 6 for \$6.00, 12 for \$10.00

Giant Size Hyacinth Bulbs

For those customers who wish to grow the largest possible flowers in Hyacinth glasses, we imported a number of giant bulbs of six of the most popular kinds. These are real jumbos and should with care produce the finest and largest flowers it is possible to grow.

Grand Maitre Deep lavender.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$38.00

King of the Blues Dark blue.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$38.00

Lady Derby Rose-pink.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$38.00

L'Innocence Pure white.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$38.00

Princess Margaret Light pink.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$38.00

Queen of the Blues Light blue.

Each 60c, Three \$1.50, Doz. \$5.75, 100 \$38.00

Use biggest size bulbs preferably. Smaller sized bulbs, however, will produce nice blooms even though not quite as large as you obtain from bigger bulbs.

Open the bags upon arrival, and place in a cool, dry place until December 1st. The preferred storage temperature is 50 degrees F. but 60 degrees F. is allowable.

Before placing the bulbs on the well-known Hyacinth glasses, or Mason jars, the root base must be cleaned, so that all residue and old roots are removed. Fill the glasses with clean, cool water until the root base is touched. The glasses or jars are then placed in a cool, dark closet or cellar until the top growth is 4 inches above the bulb. This takes about eight weeks. Preferred temperature not over 50 degrees F.

When 4 inches top growth has been made, the glasses may be taken to a north window in the living room, and if necessary some water can be added; never change the water completely. Hold temperature to not over 70 degrees F. Avoid too much direct sunlight.

French Roman Hyacinths

The early Roman Hyacinth, with its graceful spike of fragrant bells, is one of the earliest of all winter-flowering bulbs.

They may be placed in the more artistic ornamental bowls, using peat moss as a filler, which only needs to be kept continually moist, requires no additional fertilizer, and in which the bulbs thrive and bloom luxuriantly. Bulbs planted in October bloom in December.

Blue

Extra large bulbs, Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00

Pink

Extra large bulbs, Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

White

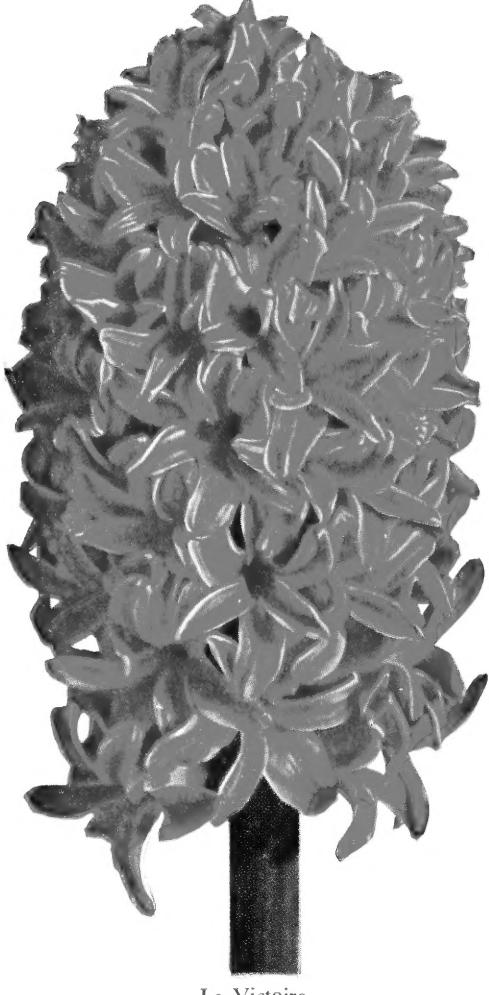

Extra large bulbs, Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

Our Special Daffodil Mixture

Known Throughout the Land

Three of the leading Daffodil growers of the world supply their entire crop of seedling Daffodils exclusively to WAYSIDE. To these superior seedlings the very highest quality of the standard named varieties are added.

In our constant striving for still greater perfection all of these seedlings are then submitted to a rigorous process of elimination. Undesirable seedlings are destroyed and the better ones tested for two or three years. A few of the very best and outstanding ones are chosen for growing on and introduction by name.

THE ENTIRE BALANCE GOES INTO OUR **SPECIAL MIXTURE**, NO MATTER HOW FINE. As a result, you will find flowers in this mixture which differ but slightly from catalog varieties which sell for \$3.00 each or more.

The fine standard varieties which are added to the seedlings are carefully selected for color, time of bloom and their ability to continue to produce a large number of flowers without the need of frequent transplanting.

The longest possible period of bloom is made possible through the selection of early, medium and late flowering kinds in proper proportions. This natural increase in bulbs through the proper selections of varieties will give you an ever-increasing number of lovely flowers through the passing years. So you see we have spared no effort to make a really wonderful mixture of Daffodils. It has been made with a definite purpose in mind. It is not a catch-as-catch-can sort of thing with everything in it a grower wants to get rid of at any kind of a price.

This Special Mixture is one of our most popular offerings and many are the letters of praise we have received regarding these superior bulbs. Plant them freely as all of these fine, early spring-flowering bulbs are of definitely high quality as well as rare value.

25 Bulbs, Wayside's Special Mixture \$ 3.75
50 Bulbs, Wayside's Special Mixture 7.00
100 Bulbs, Wayside's Special Mixture 13.00
1000 Bulbs, Wayside's Special Mixture 120.00
250 or more bulbs may be had at the 1000 rate.

(Please see page 51.)

Please turn to page 51 and read about an attractive package of mixed Daffodils.

Two Rare Daffodils

Narcissus Apricot Attraction

(New)

Each \$2.50

This is probably the rarest and finest Daffodil ever offered to gardeners. Never has there been anything quite as exquisite in color as is now seen in Apricot Attraction.

The short, frilled cup is of deep amber color with rich fiery glow. The petals are firm and well placed, colored a soft amber with yellow ochre overtones making a color effect often called majolica yellow. It is a strong growing, free reproducing variety everyone will want. A visitor, who saw the test planting at Wayside, suggested it be called "Forever Amber." Whatever it is named, we elect it as the finest Daffodil of the past 50 years. Only a limited number of bulbs available.

Narcissus Limone

(New)

Each 60c, 6 \$3.00, Doz. \$5.75,
25 \$10.75, 100 \$40.00

Here is a rare Daffodil which is being talked about by the "experts."

The perianth is primrose-yellow while the trumpet is of a much lighter shade but broadly edged with dark yellow which makes the fringed trumpet most distinct. Add to that the inside of the trumpet is creamy white and you have quite a combination. No wonder this variety is much sought after by collectors and growers! Order promptly, our supply is limited.

The New Weather Proof Daffodils

Without question one of the finest lots of New Daffodils to come from Holland is known as the Weather Proof or John Evelyn Hybrids. In the autumn of 1946 and 1947 the first bulbs were sent us by Grullemans of Holland. We, as well as several of our customers have tested these and all unreservedly claim them to be the finest selection of short cup Daffodils they have ever seen. The flowers have twice or more the substance of the varieties now generally in use. Rain, snow or wind, as well as a burning hot sun, which frequently occur during the blooming season, do not affect them. All multiply very rapidly and do not require frequent transplanting to keep them blooming freely. Thirty flowers from 6 bulbs the second year is a low average.

Here is a selection of varieties which will give you a rich return in pleasure, we don't hesitate to say for a lifetime. Each and every one offered is tops; differences in prices are only due to available supply. They multiply with great rapidity. Once planted they are there for keeps.

Don't miss planting these magnificent Weather-Proof Daffodils.

Brookville (New)

Each 40c, Six \$2.00, Doz. \$3.50, 25 \$6.50, 100 \$23.00

Giant flowers and a greatly improved form of the well known John Evelyn. It is distinguished by its tremendously heavy, broad, flat, white perianth and large, short, completely ruffled cup of pale lemon-yellow. A magnificent new hybrid of outstanding merit. It flowers freely and grows ruggedly; the general effect is bold and strong, yet handsome. One of the finest flowers for garden or cutting. Don't miss including this variety in your next planting.

Diamond Jubilee (New)

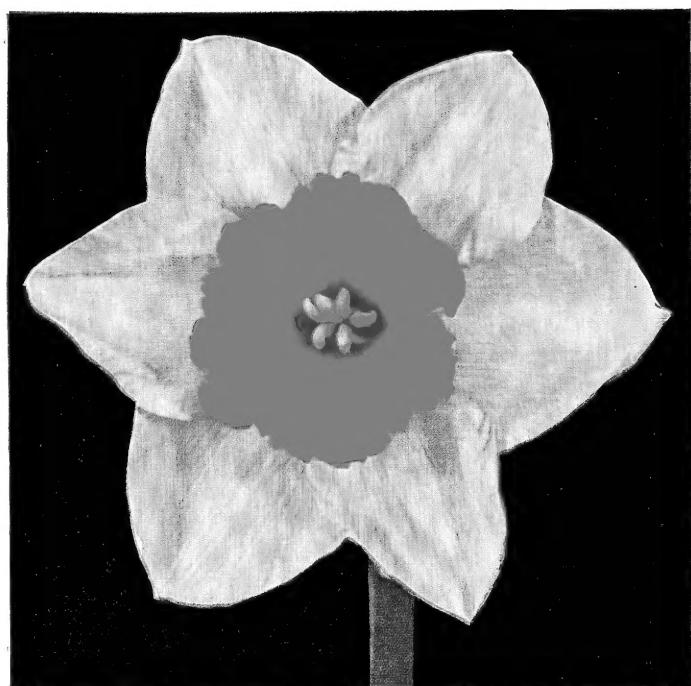

Each 65c, Six \$3.55, Doz. \$6.75, 25 \$12.50, 100 \$47.00

Smoothly rounded perianth almost pure white, crown is brilliant tangerine-orange, very flat but heavily fringed and ruffled. Outstanding and one of the best in this group. Like all others exceedingly free blooming and rapidly increasing.

Duke of Windsor (New)

Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

Magnificent, heavy, thick, pure white, overlapping petals with pale yellow cup very flaring and short, beautifully ruffled. The inside edge of the cup shows delicate tinting of a broad, deeper yellow band, and a most interesting variation in the soft over-all pale yellow shade of the cup. This also is one of the choicest John Evelyn hybrids destined to be a leader as soon as it becomes available generally.

Times Square

Green Emerald (New)

Each 50c, Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

The perianth is composed of short, heavy and thick, pure white petals. The soft lemon-yellow tinted crown is short, widely flaring and beautifully ruffled. We consider this one of the finest Daffodils Holland has sent us. It is distinct, handsome, very free flowering and multiplies fast. What more could be asked!

Leviathan (New)

Each 35c, Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00

The creamy white petals or perianth have a tendency to turn back, making a fine background for a large, pure yellow crown or cup which is wide, flaring and ruffled and laciniated. The ruffled edge has a slightly deeper golden yellow shade. A handsome flower of magnificent substance and size. Well named.

Majarda (New)

Each 35c, Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00

The cream-white perianth forms a fine background for the handsome clear, deep yellow crown which is beautifully proportioned. The crown is quite short and sharply flaring. The effect is that of boldness. Majarda is a tall grower, exceedingly free flowering and multiplies rapidly. Extra good for cutting.

Manco (New)

Each 55, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

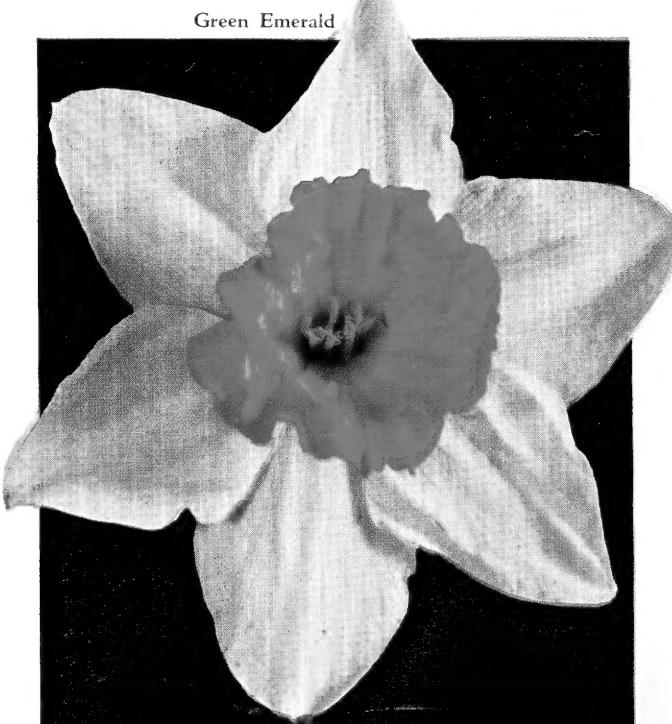

Large heavy perianth of pale yellow to ivory. Very broad and showy cup, nicely frilled, of deep golden yellow with broad orange ruffles. Excellent quality, great substance and vigor and increases rapidly.

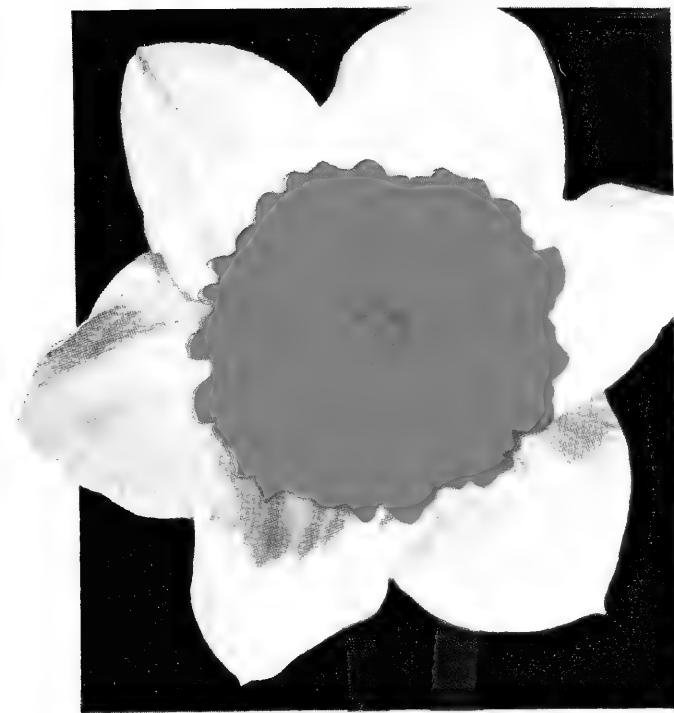

A superb variety.

Wodan

Green Emerald

Duke of Windsor

Mekkeda (New) *Each 50c. Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00*

A remarkable flower of great substance. Large, pale yellow perianth with wide open, graceful cup of solid, rich, deep orange throughout. Makes a great show in the garden. It is strong growing and very free flowering. In a few years time a few bulbs multiply and develop into a fine showy clump.

Milk and Cream (New)

Each \$1.25. Six \$6.25. Doz. \$12.50, 25 \$24.00, 100 \$90.00

A different Daffodil! Pure white perianth, enormous self colored flat crown of Indian yellow, heavily shaded with salmon. These colors are at their best when the flower is fully developed. We consider this one of the finer new varieties. Free blooming, strong growing and good stiff stem. Tops for garden and show table.

Times Square (New)

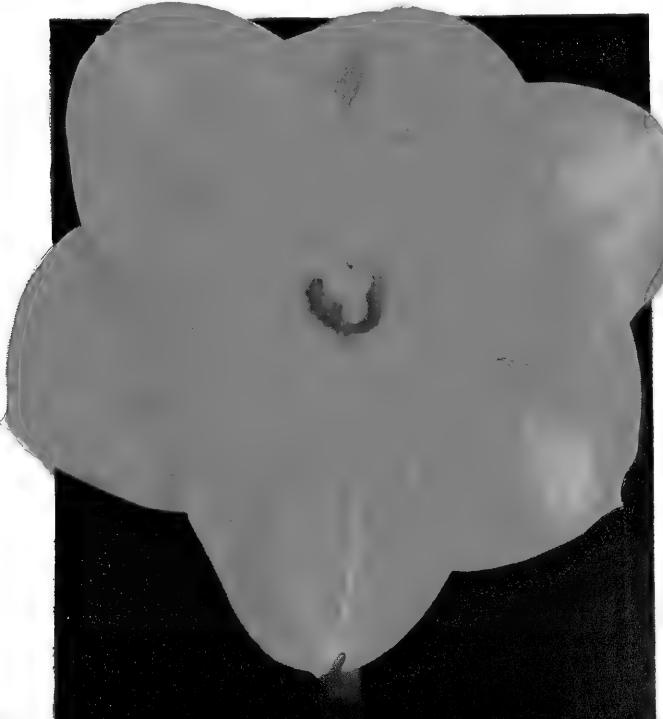

Each 55c. Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

A bold short cup Daffodil. The perianth or petals are well placed and tinted cream-yellow. The cup is flat, ruffled and fiery orange-red. We would say that this variety is well named because its cup certainly portrays the brilliant lights of Broadway at night. Free blooming, increases rapidly and makes a fine show in the early spring garden.

Wodan (New) *Each 60c. Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00*

Large canary-yellow perianth with very large, flaring crown of the same color, beautifully frilled and ruffled. The edge of the ruffle is tinted light orange which gives a fine character to the flower. It is a very rugged variety which multiplies rapidly and blooms very freely. A superb Daffodil for the garden as well as for cutting.

Milk and Cream

Weather-Proof Collections

COLLECTION No. 1

Collection Weather-Proof Hybrids: 1 each of the 10 varieties listed, not including Milk and Cream, for \$4.50.

COLLECTION No. 3

Collection Weather-Proof Hybrids: 3 each of the 10 varieties listed, not including Milk and Cream, for \$11.00.

Mixed Weather-Proof Daffodils *Doz. \$3.00, 25 \$5.50, 100 \$20.00*

We offer a beautiful mixture of Weather-Proof Daffodils which includes all varieties offered as well as some dozens of unnamed seedlings, at a very special price.

Brookville

Short Cup

Carbineer (New) *Each 50c, Six \$2.25, Doz. \$4.10, 25 \$7.50, 100 \$26.00*
A rare new Daffodil of rare substance and form. Never before have we seen anything quite like it. The perfectly proportioned flowers are most unusual and clean cut. The perianth is perfect and so is the cup. Both are the same color, of deepest tangerine-orange-yellow. An outstanding variety noted for its perfection of bloom in particular.

Carlton *Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00*
A most beautiful variety. Broad, overlapping flat perianth with a large, expanded cup. The whole flower is a soft uniform yellow. Very free flowering and a strong and sturdy grower. One of the outstanding varieties in this group.

Diana Kasner *Six \$1.30, Doz. \$2.15, 25 \$3.85, 100 \$13.25*
A pure white perianth and short fluted yellow cup with blood-red frill, very free flowering. We consider this variety most valuable for garden use and cannot recommend it too highly.

Dick Wellband *Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00*
The perianth is pure white and the cup a brilliant flame-orange. One of the most remarkable qualities is that the color does not fade but rather intensifies with age. The flower has unusual lasting qualities. Its greatest beauty lies in the startling contrast between petals and cup which makes it stand out even in the largest collection of Daffodils. An exhibition variety "par excellence."

Francisca Drake *Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00*
The pure white perianth petals are of unusual substance, an inch and a half wide, and tinted gold at the base, which shows through on the outside. The cup, wide and deep, is golden yellow at the base; changing gradually to flame-orange at the densely frilled edge. The flowers are held well above the fine foliage and give the effect of a flock of white seagulls taking flight; strong growing and free flowering.

John Evelyn *Six \$1.10, Doz. \$1.80, 25 \$3.25, 100 \$11.50*
Outstanding among the new *Incomparabilis* hybrids. Flatly opening perianth, 4 to 5 inches across, with a flat cup nearly 2 inches in diameter, densely frilled, the perianth being pure white without a trace of shading, and the cup lemon-yellow and fluted or shirred to the base; good neck. Strong grower; free flowering and a good propagator; one of the greatest Daffodils.

Kansas (New) *Each 35c, Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00*
Pure white perianth, large, lemon-yellow, flat crown with narrow, cinnamon colored edge which does not burn. Highly recommended.

SHORT CUP DAFFODIL COLLECTION

3 Bulbs each of 9 varieties illustrated on pages 10-11, 27 Bulbs \$ 9.00.
6 Bulbs each of 9 varieties illustrated on pages 10-11, 54 Bulbs 17.50
12 Bulbs each of 9 varieties illustrated on pages 10-11, 108 Bulbs 32.00

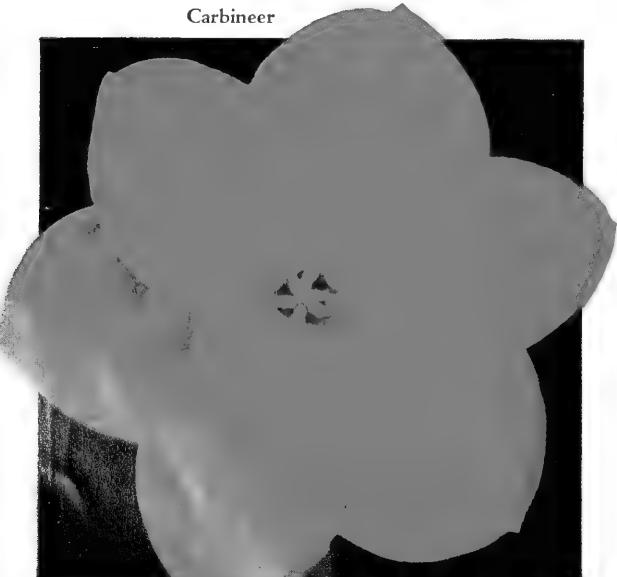

The varieties will be carefully labeled, all top quality bulbs.

This is a beautiful collection of the best and most popular of Short Cup Daffodils.

Silver Star

Carbineer

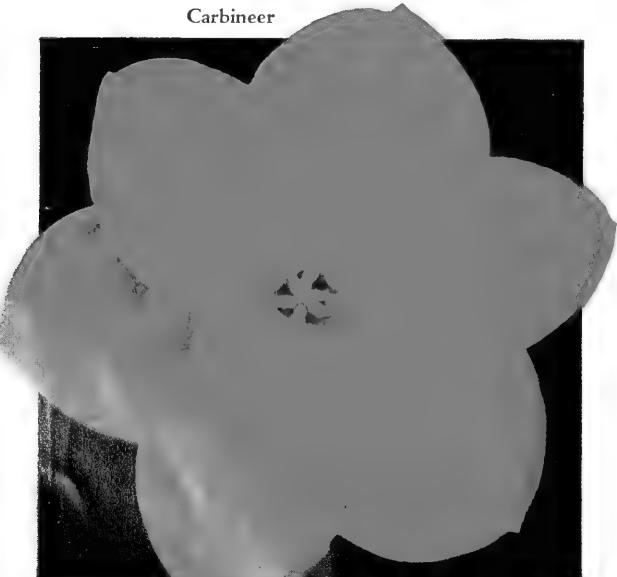

Red Marley

Dick Wellband

Carbineer

Daffodils

La Argentina (New)

Each 60c, Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00

Large and broad white perianth; the cup is white but filled with radiating stripes of yellow and orange, giving the appearance as of spokes in a wheel. These distinct markings make this variety unusual and distinct. It never fails to draw attention

Red Marley (New)

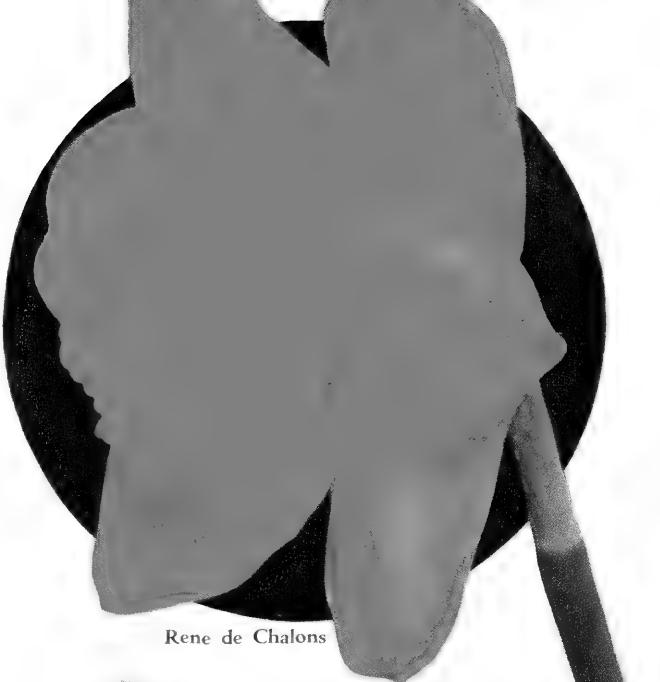

Each 75c, Six \$4.00, Doz. \$7.50, 25 \$15.00, 100 \$55.00

A choice and brilliantly tinted Daffodil. Perianth is a distinct dark golden yellow. The cup is quite long and tinted richest copper-red. This brilliant coloring remains throughout the life of the flower and is not affected by the sun. Red Marley is one of the finest Daffodils to come from Europe since the war. It multiplies freely and should be in every Daffodil fancier's collection.

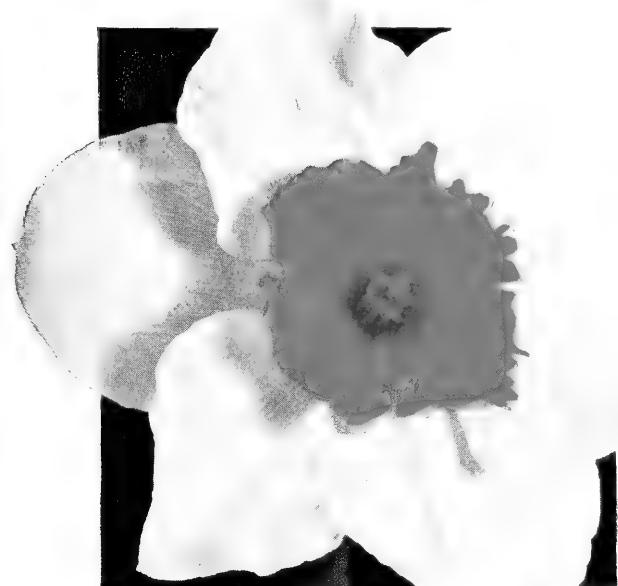

Rene de Chalons (New)

Each 60c, Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00

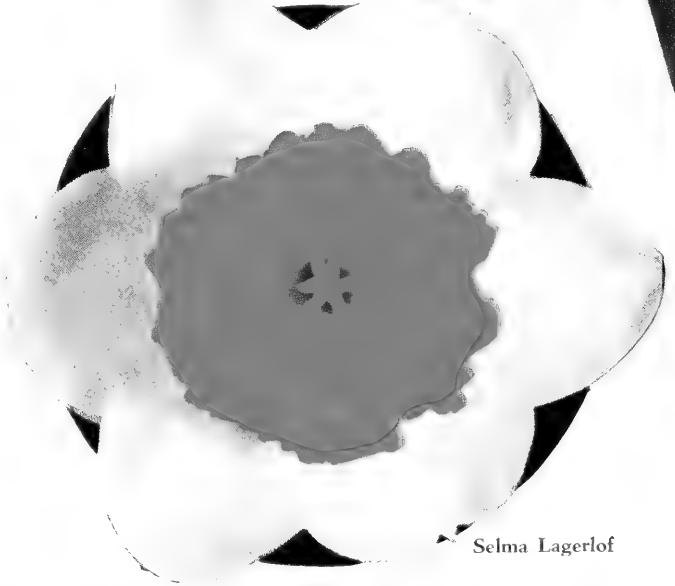

This is in a class with Carlton for size but is a much improved Fortune. Pale yellow, flat, broad petals with large, deep yellow beautifully ruffled cup, perfectly proportioned. It is perhaps the finest of all pure yellow Incomparabilis. In Europe it is considered far better than Fortune and from what we have seen of it we agree. It's a choice kind every connoisseur should have in his collection. In time it will be one of the most popular.

Rene de Chalons

Incomparabilis,
John Evelyn

Selma Lagerlof

Kansas

La Argentina

Scarlet Elegance *Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50*
 A superb Daffodil, one of the finest in this group. The substantial flowers are large and have well formed, dark yellow petals or perianth with medium sized but intensely brilliant orange-scarlet cup. During the war, experts on Daffodils in Holland quickly increased their stocks and now can offer this choice variety in quantity and at a remarkably low price.

Selma Lagerlof (New) *Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00*
 Perianth is pure white with broad, heavy, overlapping petals. Cup is large and flaring, beautifully ruffled, soft yellow inside with wide rim of orange shading to red along the edge. This belongs among the finest of the new Daffodils.

Silver Star *Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00*
 Perfect broad-petaled, star-shaped perianth of pure cream-white, with finely proportioned, wide-mouthed short trumpet of primrose, changing to cream-white, just a shade deeper than the perianth, extra fine and free flowering.

Triandrus Hybrids

These are the Cyclamen-flowered Daffodils with reflexing perianth. The flowers are more or less drooping, of elegant form and graceful habit.

Moonshine *Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00*
 A beautiful Triandrus Hybrid, star-shaped white flowers, often three to a stem, drooping gracefully, very beautiful and a great favorite, especially for the rock garden or for naturalizing in the shade. A fine exhibition variety.

Thalia *Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00*
 In addition to a peculiar attraction at first sight, this flower leaves one with an impression that it is white, yet it is a whiteness that is not white. The recurring petals and the angle of the three trumpets are unlike the conventional short-cupped Daffodil. The stem is dark green, round and reedlike thin. Some call it the "Orchid-flowered" Narcissus which adds to the mystery. Thalia provides unusually good material for artistic arrangement.

Jonquilla Hybrids

Hybrid Jonquils have two or more small, very fragrant flowers on one stem. The flowers of the Jonquil Hybrids are exceedingly long lasting and withstand heat and wind better than any other group of Daffodils. They are particularly good for cut flower use in the home.

Campernelle, Double *Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00*
 Two to three golden yellow, small, fragrant flowers on strong stems; lovely for cutting. Height 13 inches.

Jonquilla Simplex (Queen Anne's Daffodil) *Six \$1.00, Doz. \$1.55, 25 \$2.85, 100 \$10.25*
 The true tiny single Jonquil. The bulbs as well as the flowers of this miniature Daffodil are not very much larger than the Snowdrop. The flowers are pure golden yellow and delightfully fragrant; foliage is grasslike. Perfectly hardy and most satisfactory small Daffodil for the rock garden.

Trevithian (New) *Six \$1.30, Doz. \$2.15, 25 \$3.85, 100 \$13.25*
 A superbly beautiful variety. The translucent sparkling soft yellow flowers are wavy and fairly dance. Seldom does one see so much grace and charm in a flower. Trevithian has from two to four flowers on a tall, stiff stem which makes it an outstanding cut flower variety. In the garden it is equally satisfactory. High winds don't bother it, and like all Campernelle Hybrids, it is able to withstand the hottest sun without wilting or burning.

Jonquilla, Trevithian

Poeticus Recurvus

Poeticus Narcissi

Poet's Narcissi have pure white petals with a small very short scarlet cup and are some of the latest to flower. Highly fragrant and exceptionally good for naturalizing.

Actaea *Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00*
 One of the finest of the new Poeticus varieties, beautifully proportioned; small Pheasant's Eye, reddish cup. This variety was introduced by Englehart in 1927 and is still considered one of the best new varieties.

Recurvus *Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50*
 The old Pheasant's Eye. Perianth pure white, somewhat reflexing; cup margined deep scarlet; sweet scented. Fine for massing in borders or in grass.

Triandrus, Thalia

Sweet Scented Poetaz Narcissi

All Poetaz are hybrids from *Poeticus Ornatus* and *Polyanthus Narcissi*. The plants are tall and vigorous growers, bearing heads of large, well formed flowers, deliciously fragrant. There is no better group for indoor culture in flats, pots or bowls, while if planted in time, their hardiness outdoors leaves nothing to be desired.

Cheerfulness

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

The only double flowered Poetaz, 3 to 5 pure, fragrant, double white blooms on a stem; excellent for cutting.

Early Perfection

Six \$1.35, Doz. \$2.30, 25 \$4.15, 100 \$14.75

Creamy white perianth, lemon-yellow cup, free flowering. Excellent for growing in the house.

Glorious

Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

Tall, flower delightfully informal in habit, perianth *Poeticus*-white with eye orange, edged red; good for semi-shade, very early and an excellent variety for growing in the house.

Helios

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

This beautiful cluster-flowered Daffodil is especially lovely in full sunlight, as it has transparent character. The perianth, which is a cream-white, seems rather to be of the quality of soft taffeta silk, and the petals are slightly ridged lengthwise. The corona is of rich canary-yellow and there are usually about six flowers to a stalk.

Innocence

Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75

One of the handsome Poetaz Narcissi. It produces a fine cluster of flowers, five or more; petals are pure white, cup is brilliant orange. This color combination is cheerful and clear. It is a fine flower for cutting as well as for garden planting.

Glorious

Orange
Prince

Helios

Early Perfection

Innocence

Orange Prince

Six \$1.20, Doz. \$1.99, 25 \$3.40, 100 \$12.25

One of the finest of the yellow Poetaz. Perianth is of rich yellow with a slightly darker cup.

Poetaz Narcissi Mixed

Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00

This mixture includes all the varieties listed in this catalog as well as several other kinds we do not offer because of near duplication in color. The Poetaz Narcissi are very fragrant and make a wonderful show after the Trumpet Daffodils have faded, prolonging the Daffodil season by two weeks.

POETAZ NARCISSUS COLLECTION

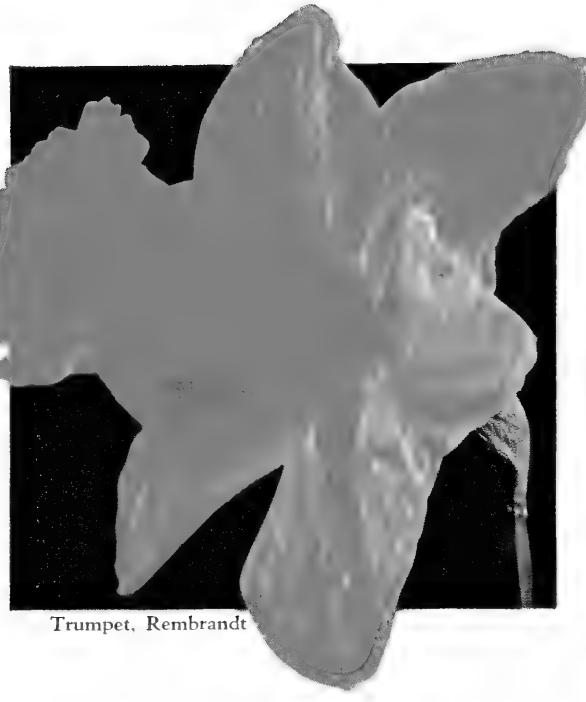

3 Bulbs each of the 6 varieties listed, 18 Bulbs \$3.50

6 Bulbs each of the 6 varieties listed, 36 Bulbs 6.25

Varieties will be carefully labeled, all top quality bulbs.

Trumpet, Diotima

Trumpet, Rembrandt

Trumpet, Mrs. E. H. Krelage

Trumpet, Peerless Gold

Trumpet Daffodils

Aerolite

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00

The large flower is beautifully proportioned, giving the impression of gracefulness, despite its size; perianth deep primrose, with a medium yellow trumpet which is left in bold relief by the broad pointed star formed by the opening outer petals, an inch and a half wide. Medium early, but remains until late, and is one of the longest lasting of all Daffodils in the garden or after being cut.

Beersheba

Each 50c, Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

Perianth and trumpet of magnificent proportions. Height 20 to 22 inches. Its color is not pure white, yet is expressive of purity in the highest sense. Those who are forming collections of fine Narcissus rate Beersheba at the top of the large white Trumpets.

Diotima

Each 60c, Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00

Considered by experts as the very best of the new super-giant yellow trumpets; despite its huge size (perianth being five to six inches across) the whole flower is beautifully proportioned and is carried gracefully on a two-foot stem, entirely free from the stiffness of many of the giant trumpets. The broad overlapping petals form a star-shaped perianth of medium deep primrose, trumpet somewhat more deeply colored. Undoubtedly one of the top-notchers for many years to come.

Trumpet,
Mount Hood

Shows flower at opening. Turns pure white the third day.

Insurpassable (New)*Each 50c, Six \$2.25, Doz. \$1.00, 25 \$7.00, 100 \$25.00*

An outstanding novelty. Extremely large, golden yellow flower of bold carriage. It is one of the finest of the big-flowered golden trumpet Daffodils. It grows well, blooms freely, and has long stems, altogether a great Daffodil of recent introduction.

King Alfred

Top Size Round Bulbs *Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00*
Mammoth Double Nose Bulbs

Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$29.00

A king among the fine varieties. Rich, lustrous golden yellow throughout. Extremely vigorous in habit. Perianth often 4 inches across, trumpet fully 2 inches. Most popular variety for forcing.

Lord Nelson (New)*Each 50c, Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00*

Lord Nelson is beyond any doubt the finest of the light yellow trumpet Daffodils. A superb flower and beautifully colored, as shown at right.

**Lord Nelson****Mount Hood (New)***Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00*

A magnificent, pure white Daffodil. It is strong in stem and flower has fine substance. The trumpet is well proportioned and of purest white color. In our opinion this is the White Trumpet Daffodil of the future. Only a limited number of bulbs available at this time.

Mrs. E. H. Krelage*Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00*

The pristine purity of this flower, the play of light on its balanced petalage, the graceful curve of the trumpet brim are unforgettable. An excellent grower. Easy to force, long-stemmed.

Peerless Gold (New)*Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00*

An extremely large golden yellow, Trumpet Daffodil of superb yet graceful proportions. Massive overlapping deep golden yellow perianth; large, flaring, well formed golden trumpet. Vigorous grower suitable for exhibition.

Rembrandt (New)*Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00*

Pale yellow flowers of perfect form and substance. This is one of the most attractive varieties in this color. There are not many pale yellow trumpet Daffodils and we believe this to be one of the best in this group Holland has to offer us.

Roxane*Six \$1.50 Doz. \$2.75, 25 \$5.00, 100 \$18.00*

One of the choicest of white Daffodils. The large trumpet is creamy white with round, overlapping, pure white perianth. Until just recently this variety sold at one dollar per bulb or more. A larger supply makes this tempting price possible. Stock up on Roxane as one of the choicest new Daffodils.

Trumpet Daffodil Collection No. 1415

3 each of the 7 varieties illustrated on pages 14-15, 21 bulbs ... \$ 7.50
6 each of the 7 varieties illustrated on pages 14-15, 42 bulbs ... 14.00

Varieties will be carefully labeled, all top quality bulbs.

**Trumpet, Aerolite****Cyclamineus Hybrids****MINIATURE TRUMPET**

Cyclamineus blood, like that of Triandrus, imparts such a distinct form to Daffodils, that a separate division has been made of its hybrids, which have trumpets of rich yellow, straight and tubelike, and perianths reflexed as a Cyclamen; very early flowering.

February Gold *Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$17.00*
Perianth golden yellow, trumpet tinged orange; very early.

**Cyclamineus Hybrid, February Gold**

Pink Fancy

Rosy Sunrise

Lady Bird

Pink Select

Siam

Champagne

Pink Rim

Pink Glory

PLEASE NOTE:

All pink and apricot-tinted Daffodil flowers, while in bud stage or at earliest opening, do not show the pink shadings. This develops when the flowers are about a day or more old.

New Pink Trumpet Daffodils

Calling this group of *Narcissi* "Pink" Daffodils is taking liberties, but it is common practice to refer to the well known Mrs. R. O. Backhouse as "The Pink Daffodil" and certainly the varieties offered here merit the same privilege. They are lovelier and more delicately tinted than Mrs. R. O. Backhouse, which is their parent. Each one of them is a jewel in any Daffodil collection. All are excellent growers and multiply rapidly. Wayside Gardens has possibly imported and distributed more fine and rare bulbs than any other nursery firm in America. Grullemans of Holland now make this collection available to us.

One of the most remarkable facts is that it is not uncommon to count 20 to 30 perfect blooms on 6 bulbs, the second year after planting. Their rapidity of increase and blooming is truly outstanding.

Champagne Each 65c, Six \$3.65, Doz. \$6.75, 25 \$12.50, 100 \$47.00

Pure white perianth, well formed and of good substance. The cup is large, pale cream-pink, with broad apricot-ruffled edge. When in full bloom the color turns to salmon-pink. One of the first to bloom and one of the very best.

Lady Bird Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

White perianth, of perfect form. The large trumpet is distinctly pink and flaring, evenly ruffled, pale apricot outside, deep orange-apricot inside at opening, deepening towards the throat. Strong stem. Most outstanding variety. It resembles Daisy Schaeffer in form and size.

Lady Peek Each \$1.10, Six \$6.00, Doz. \$11.50, 25 \$22.00, 100 \$80.00

One of the finest Pinks. Stiff white perianth of perfect form and substance. Long, large trumpet of a distinct shrimp-pink. Flowers are substantial and last a long time and it is very free flowering. Good strong grower and increases quite rapidly.

Fragrant New Pink Daffodil LOUISE DE COLIGNY

Louise de Coligny is in our estimation, the most unusual Daffodil ever offered because it is deliciously fragrant. The reflexing perianth, which is pure white and of good substance, tends to throw the neat apricot-pink cup into focus. This variety, on opening, shows its color immediately while some of the other pinks do so on the second or third day. Although the flowers are not giants, they are produced in great quantity. A clump of six bulbs in our test garden produced over 22 good flowers the second year. It is a rapid multiplier. When walking past a cluster of flowers, the air is perfumed with a fragrance not unlike violets and vanilla mixed. There has never been anything like it. The flower closely resembles that of Pink Fancy.

Each 85c, Six \$4.75, Doz. \$9.25, 25 \$18.00, 100 \$65.00

Mrs. R. O. Backhouse Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

This is the old "Pink Daffodil," fine informal perianth of ivory-white, and beautifully proportioned, slim long trumpet of apricot-pink, changing to shell-pink at the deeply fringed edge. Delicately beautiful but of exceptional substance; long lasting; early. Belongs in every collection.

Pink Fancy Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

White perianth, well formed, with a pale apricot cup, broadly fringed soft pink. This is a very free flowering variety and lovely for cutting. A few bulbs soon develop into a big clump. It is for that reason it can be offered for less. It is a splendid multiplier.

Pink Glory Each 70c, Six \$3.75, Doz. \$7.00, 25 \$13.50, 100 \$50.00

The "Orchid" among the *Narcissi*. Pure white perianth, somewhat loose but graceful, with an exquisite long trumpet opening light Indian yellow soon shading to a lovely pink, inside deep pinkish apricot remaining so till the end. Without any question one of the most beautiful "pinks" ever raised. When used in a small corsage with some Asparagus green, it is as delicate as an Orchid.

Pink Rim Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

The stiff, pure white perianth is of exceptionally good form. The cup is soft citron-yellow with a sharply defined picotee-like pink rim. It is quite distinct in its marking and coloring and always draws a lot of attention wherever shown. Strong stem and free blooming plus a rapid increaser makes this one of the best new pink Daffodils.

Pink Select Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

Pure white perianth of fine form, opening pale yellow, soon turning to a lovely pink with apricot shadings, but mostly pink when fully developed. The trumpet is nearly 2 inches long and 2 inches wide.

Rosy Sunrise

Each 70c, Six \$3.75, Doz. \$7.00, 25 \$13.50, 100 \$50.00

This is one of the choicest of the Pink Daffodils. It is a strong grower and one of the freest bloomers. Perianth is white, of good substance, with a fine, strong, much-fringed cup or trumpet which is heavily ruffled. Color is salmon-apricot with pink shadings. Inside trumpet color soft corn-yellow, a difficult color to describe and still more difficult to illustrate.

Siam

Each 55c, Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

Pure white perianth, well formed and of good substance. The cup is wide and flaring, apricot-tinted changing gradually to a soft pink. This is perhaps the largest flowered one in the collection and we predict it will be used by the hundreds of thousands in the future. Last but not least, it is deliciously fragrant.

COLOR PLATE COLLECTION PINK DAFFODILS

Here is a superb collection of these new Daffodils. All are perfectly fine growers increasing rapidly and all bloom freely. Here are the 8 varieties: Siam, Pink Fancy, Pink Rim, Lady Bird, Champagne, Pink Glory, Rosy Sunrise and Pink Select.

1 each of the 8 varieties illustrated for \$ 4.25
3 each of the 8 varieties illustrated for 12.00
6 each of the 8 varieties illustrated for 22.00

MIXTURE OF PINK DAFFODILS

Besides the varieties offered there are many dozens of seedlings which are very much alike and it would not do to give them all names. Too fine to destroy, we offer them in this mixture to which also has been added a quantity of bulbs of the varieties listed here.

6 Mixed Pink Daffodils for \$ 2.25
12 Mixed Pink Daffodils for 4.00
25 Mixed Pink Daffodils for 7.00
100 Mixed Pink Daffodils for 25.00

Read's Large Flowered Fragrant Pansies

Offered for the first time in America

The originator of these wonderful fragrant Pansies (not to be confused with Violets) writes us as follows:

Three generations of the Read family have devoted unlimited time and patience to the perfecting of this lovely fragrant strain of Pansies. For over 60 years they have never been grown outside the family garden. The present generation of Reads now feel they should be distributed and enjoyed by others.

The Reads are an old family of nurserymen in England and only recently introduced the Shasta Daisy, Esther Read. The packets will contain approximately 200 seeds and are priced at \$1.00 each.

Double, Mary Copeland

Little Daffodils

(NARCISSUS SPECIES)

The following are charming little subjects for rock work, where their dainty flowers are seen to perfection. They should be left undisturbed for years, and if happy, will soon establish themselves and afford a lovely picture in early spring. All the Bulbocodiums (except Monophyllum) and the Cyclamineus like moisture and should, therefore, be planted at the foot of the rockery. Triandrus Albus (Angel's Tears) and Juncifolius delight in partial shade and a light, gritty soil, and should be given a well drained position.

Bulbocodium citrinus *Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25*
Large sulphur Hoop-Petticoat, very beautiful pale citron-yellow. Height 6 to 8 inches.

Bulbocodium, Conspicuum *Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00*
Yellow Hoop-Petticoat; flowers rich golden yellow of hoop-petticoat form and rushlike foliage. Height 6 inches.

Canaliculatus *Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00*
A dainty little Polyanthus Narcissus from Mentone, suitable for sunny positions in the rock garden. It has narrow, erect bluish green foliage and bears heads of 3 to 4 flowers with white perianth and globular golden cup, sweetly scented. Height 6 inches.

Juncifolius *Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50*
Small, graceful, rich yellow flowers, rather smaller than a Buttercup with a dainty little flat crown.

Triandrus albus *Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50*
An exquisitely beautiful little species, it is of slender growth and produces a cluster of elegant creamy white little flowers with globular cup and perianth reflexing as in the Cyclamen. Height 7 inches.

Minimus *Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00*
A miniature trumpet Daffodil not over 6 inches tall. Its tiny yellow trumpet is perfectly formed and not much over 1/2-inch long. A choice variety for the rock garden.

Narcissus Bulbocodium

[18]

Double Narcissi

Albus Plenus Odoratus *Six \$1.10, Doz. \$1.80, 25 \$3.25, 100 \$11.50*
The old Gardenia-flowered Double Poet's Narcissus. Pure snowy white; wonderfully fragrant. Should be planted in a wet place, or at least damp. Blooms extremely late, after most of the Narcissus have gone. A rare old variety preserved jealously in many gardens. Plant it at least 6 inches deep. There is nothing like it; needs no care.

Daphne *Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50*
The most promising novelty of this division. Sweet scented, dainty, pure white double flowers; early forcer.

Holland's Glory *Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25*
A handsome, double trumpet Daffodil, the color of which is soft sulphur-yellow. This is the double form of Narcissus Emperor and possesses the same sterling qualities of that fine old variety. It blooms freely, multiplies readily and grows anywhere.

Mary Copeland *Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50*
One of the famous varieties of the new Doubles. This variety has been termed the most striking double in cultivation; the longer petals are pure cream-white with a golden ray down the center, interspersed with shorter petals of lemon and brilliant orange, giving a three-color effect; unsurpassed for garden or show.

Twink *Six \$1.35, Doz. \$2.30, 25 \$4.15, 100 \$14.75*
It is double, of the semi-full type, the petals alternating a soft primrose and clear orange; and so arranged as to give the flower a most attractive appearance; and making it a most adaptable flower for large scale decorative work; is very free flowering and hardy.

Narcissi for Growing in Water

PAPER-WHITE NARCISSUS

Paper-White Grandiflora *Six \$1.40, Doz. \$2.50, 25 \$4.60, 100 \$16.50*
The popular bunch-flowering, pure white Narcissus, frequently having 30 individual blooms and splendid decorative foliage from a single bulb. We offer top size bulbs best suited for growing indoors in pebbles and water.

GOLDEN YELLOW NARCISSI

Soleil d'Or *Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50*
Soleil d'Or resembles the Paper-White Narcissus very much in habit but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We have some very fine stock of this variety to meet the steadily increased demand.

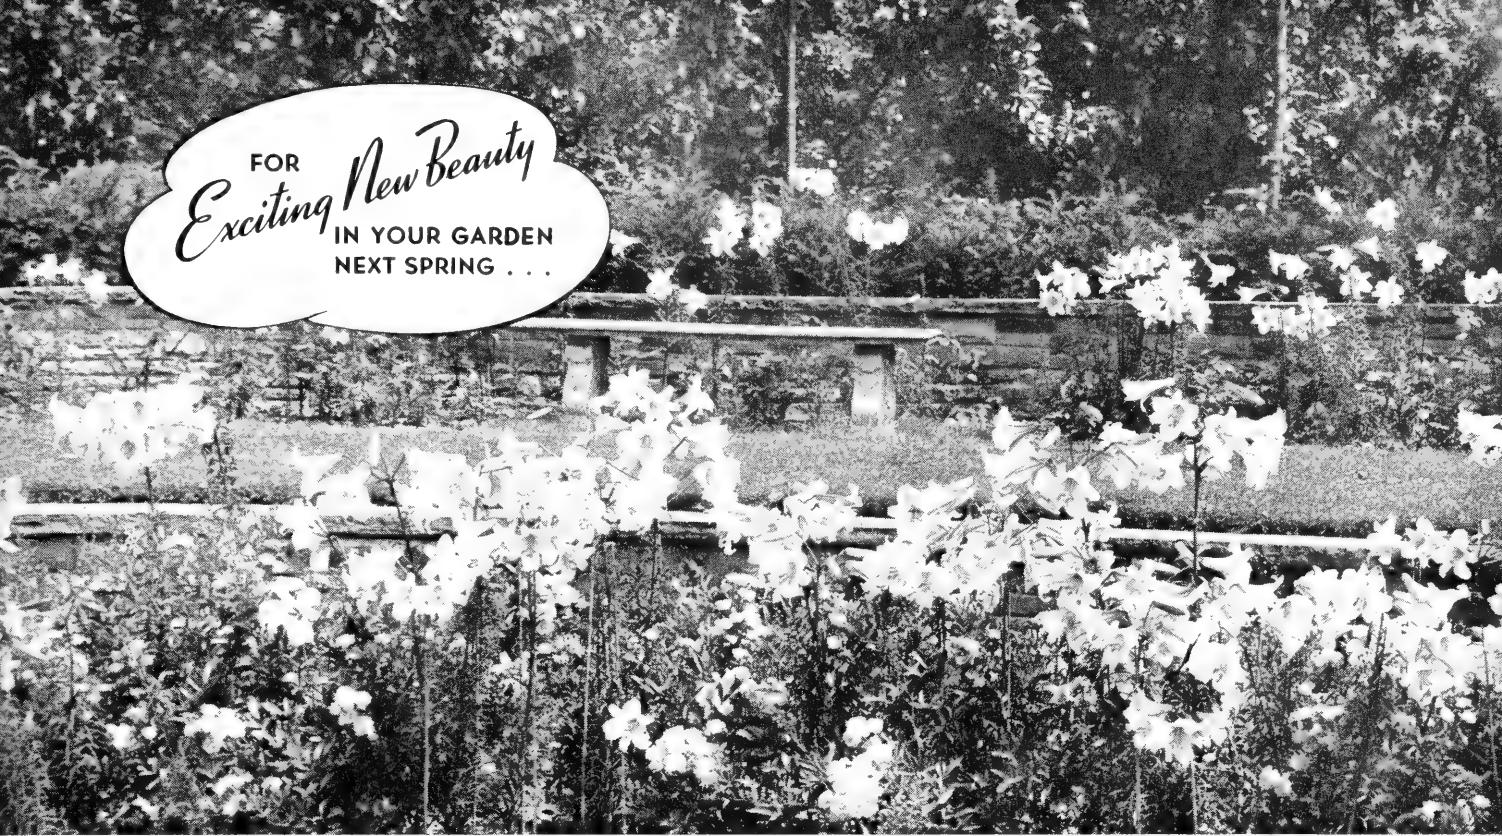

NARCISSUS, FEBRUARY GOLD

This is a little known, extremely early blooming, small golden Daffodil. One of the parents of this Hybrid is the little "Cyclamen" Daffodil which is responsible for its extreme earliness and "perky" flowers which in March or sometimes in late February start off the Daffodil season. It is one of the earliest Daffodils to grow indoors. Start a few bulbs in pebbles and water in **November**. Keep bowls in a dark, cool place for three weeks and then bring into light or put six bulbs into a shallow 5-inch flower pot with earth in **October**. Keep pot moist and in a dark, cool place for six weeks. Then bring into light. You'll have dozens of small golden Daffodil blooms in no time. Several plantings will give you a continuation of blooms. *Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$17.00*

Narcissus Triandrus Albus (Life Size)

FOR
Exciting New Beauty
IN YOUR GARDEN
NEXT SPRING . . .

Lilium Centifolium Planted Between Floribunda Roses

Don't Miss the All-Summer Glory of Lilies

Few flowers bring your garden the unusual and exotic beauty of Lilies, the romance of the far corners of the earth in which many of them were discovered. They have come from Europe, Asia, Africa and the wild crannies of America to delight you with their **different** grace and loveliness, their uncommon charm and colors that offer you the pleasure of "pointing with pride." Growing some of the stranger varieties gives you enjoyment and satisfaction like that of collecting rare jades and porcelains.

Lilies have taken their rightful place in American gardens, large and small, not only for their beauty but because of their challenge to the gardener's originality and skill. As a group they are not the easiest flowers to grow; but in the past few years it has been demonstrated that a great many kinds are not difficult, in fact some are just plain easy while others just difficult enough to stimulate gardening interest. And they pay you well in distinctive results, a steady parade of changing bloom from early June to late October.

Lovely Lilies Easily Grown

Among those easily cultivated, certainly you want the fragrant whiteness of MADONNA LILIES (LILUM CANDIDUM). A beautiful and healthy type is now being cultivated in Oregon, and there are also again available fine bulbs from France as in the past. The NANKEEN LILY or LILUM TESTACEUM gives you the delicate brilliance of soft apricot against bright orange anthers, a perfect combination—still called the most beautiful of Lilies.

Of recent introduction are the "MID-CENTURY HYBRIDS." Nothing equals them in vivid colors, ease of culture, freedom of disease as well as rapid increase. They create a superb color effect in early summer. Look at pages 22 and 23, for complete descriptions and color illustrations. Printer's ink simply cannot

reproduce the sparkle and glow these flowers possess.

For later bloom there is the true and tried REGAL LILY which is now put into second place by the introduction of the new CENTIFOLIUM HYBRIDS. There is nothing that can compare with these for midsummer bloom, colors vary subtly from purest white to others faintly shaded emerald-green or pink. Their wide flaring trumpets are superb, and last but not least they are of easiest culture.

Then there is TALISMAN, not to forget the SPECIOSUMS and AURATUMS to close the season. Don't miss the enjoyment and adventure of them, and many others.

Lilies, unlike most bulbs, are not all grown in one locality under one and the same conditions, but are gathered together from many foreign countries. All ripen at different times of the year; therefore, orders for Lilies cannot always be filled at one time. The requirements of Lilies vary with each variety. We have a booklet on their culture, which will be sent to you upon receipt of 50 cents. Because of the lack of knowledge and the carelessness of many planters, we cannot guarantee Lilies to grow. We do, however, guarantee to supply you bulbs in good condition and will replace without charge any damaged bulbs immediately upon hearing from you.

Centifolium Lilies

Side by side field tests have definitely proven them to be the finest strain of hardy garden Lilies available. Their breeding history includes such varieties and species as L. Centifolium, L. Leucanthum, C. G. Creelman, Sargentiae, Brownii and Regale. Careful selection of the finest and choicest plants from these crosses has resulted in the present Olympic strain which is characterized by its extreme vigor and size, form, coloring and good placement of flowers. There is a pleasing variation among the individual plants of the strain and all types, from the stylized typical trumpet-shaped flowers to the more unusual forms such as the widely opened bowl-shaped flowers with petals slightly twisted and ruffled. The color range of all the parent plants is present in the Olympic Hybrids in addition to new combinations and types which include creamy yellow trumpets, soft fuchsia-pink and the popular cool, icy green. The exteriors of the petals are delicately shaded with light greenish, greenish brown or soft wine tints and in some instances are a pure glistening white. They do equally well in full sun or partial shade. Bulbs form strong stem roots in addition to very extensive basal root system which provides good insurance against drought. Plant bulbs 5 to 6 inches deep in well-drained soil and they can be left undisturbed for several years.

Lilium Centifolium—Grown in Holland

Lily-of-the-Valley

(*Convallaria Majalis*)

We are happy to be able to offer you again our fine strain of imported Lily-of-the-Valley. This bold, strong form is especially well adapted for garden planting. If reasonably taken care of, a bed of them will produce beautiful long-stemmed flowers in abundance for as long as you live.

But you must not be thoughtless about them. Their culture is so simple. True, they will grow anywhere, under almost any conditions—sun or shade, wet or dry, but truly spectacular results are obtained if, during each winter (December preferred), you will cover your Valley bed with a heavy coating of manure or apply a heavy dose of Wayside Gardens Plant Food. The response to heavy organic fertilizing is remarkable. These pips are imported in units of 25 per bunch and we prefer to sell them that way but will gladly break these bunches if you only want a dozen.

We recommend the Lily of the Valley for ground covering, particularly in shady places.

Bunch of 12 pips \$2.25

Bunch of 25 pips \$4.00

Pips per 100 \$13.50

Pips per 1000 \$125.00

Lilium Centifolium Hybrids

Grown in Holland

Splendid work has also been done in developing a fine strain of Centifolium Lilies in Holland.

Beautiful flowers are produced from bulbs imported from abroad. The bulbs are spotlessly clean and healthy, vigorous and long-lived. They differ from the Olympic Strain in color only. Great emphasis has been placed in Holland in producing bulbs which would give pure white flowers. Therefore, Holland grown Centifoliums do not contain the shadings of white and blush as are noticeable in the Olympic Strain.

Mass production abroad is responsible for a considerable reduction in price. Here is a real opportunity to obtain a fine planting of Lilies at a modest price. All sizes offered will produce an abundance of flowers.

Dutch Centifoliums, 7 to 8 in. circum.

Three 90c, Doz. \$3.00, 25 \$5.00, 100 \$21.00

Dutch Centifoliums, 8 to 9 in. circum.

Lilium Centifolium Olympic Hybrids

American Grown

Centifolium "Olympic Hybrids"

These magnificent hybrids are quickly replacing the Regale Lily. As they are grown from seed, there is a pleasing variation in flower form as well as coloring. Some show a cool sea-green, others delicate shell-pink. Many are tinted soft shades of yellow.

Top Size, Strong Flowering Bulbs, 6 to 7 inch circum.
Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50, 100 \$33.00

Mammoth Size, Strong Flowering Bulbs, 7 to 8 inch circum.
Each 60c, Three \$1.70, Doz. \$6.00, 25 \$11.00, 100 \$42.50

Giant Size, Flowering Bulbs, 8 to 9 inch circum.
Each 75c, Three \$2.00, Doz. \$7.50, 25 \$15.00, 100 \$52.50

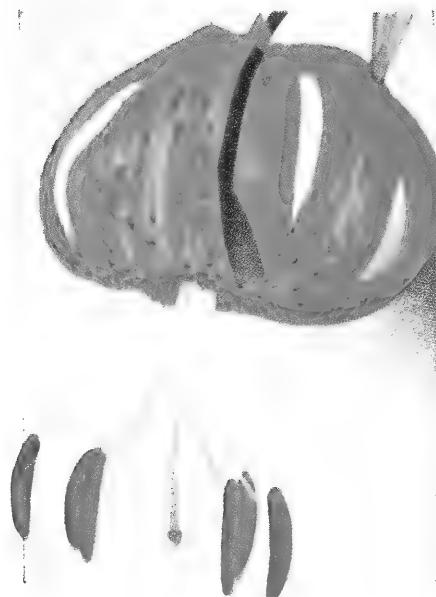

Centifolium "Olympic Hybrids Special Select"

Each \$1.00, Three \$2.85, Doz. \$11.00, 25 \$21.75

For the more discriminating gardener we are now able to offer a limited number of specially selected bulbs of the Olympic Hybrids. These plants are tagged in the fields during the flowering season and represent the choicest and finest as selected from acres of trumpet Lilies. Each one represents the pick of several thousand flowering seedlings. Quantities are limited and all reservations must be received early. The general types available are the large, formal waxy white trumpets characteristic of the trumpet family, of unusual substance and vigor, and exhibiting ideal placement with either white or light pink exteriors—the wide flaring open bowl shaped type, usually with brownish or light greenish exteriors to the petals and the very large flowered irregular form which has recently shown up in our seedling plants, possessing longer petals which are often slightly twisted or ruffled, giving the flower a most graceful, informal shape.

Centifolium "Pink Selections" Each \$2.00, Three \$5.50, Doz. \$20.00

This is the first offering of a strain which has had our closest attention for several years. Although in habit and in culture the plants are similar to the Olympic Hybrids, the flowers are shaded pink. This color extends over the inner surface as well as the outer surface of the petals and is indescribably beautiful. This offering is bound to become one of the most popular of garden Lilies as soon as sufficient stocks are available. Specially hand selected.

Lilium Shuksan

Shuksan Each 75c, Three \$2.00, Doz. \$7.50, 25 \$15.00, 100 \$52.50

A new Hybrid Lily with a great future. Also a fine bill of health. Through careful cultivation a very high state of health has been maintained and we have never seen any bulbs infected with mosaic, that fatal disease some Lilies are subject to. Shuksan is a very vigorous grower, 5 to 6 feet tall, and produces its flowers in open heads; 15 to 25 flowers on one plant is not unusual. The color is soft buff-yellow broken by large, quite widely spaced, soft brown spots. At opening, the flowers are star-like. The petals reflex and roll back when in full bloom. Flowers last a week when cut.

Mid-Century Hybrid Lilies in Mixed Colors

Enchantment

Mid-Century Hybrid Lilies in Mixed Colors

For the past few years we offered a number of named varieties of the Mid-Century Lilies. The response was so overwhelming that we found ourselves oversold even before the normal season opened. This year with still only limited quantities available of the named varieties, we decided to offer a mixture consisting not only of the kinds offered but including hundreds of fine hybrids as well. We guarantee this mixture to contain only the choicest of our new hybrids in a range of most brilliant colors.

Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50, 100 \$33.00

Serenade

Mid-Century Hybrid Lilies

For literally hundreds of years fruitless attempts have been made to cross the *Umbellatum* and *Tigrinum* Lilies in Europe. Finally and possibly because of more favorable conditions, this feat was accomplished a few years ago in Oregon. The results are astounding and sensational. The cross produced magnificent plants 4 to 5 feet tall, rigid stems which do not require staking, beautifully formed flowers growing in big open clusters. Fool-proof and perfectly hardy; they will grow anywhere. Here at last is what every gardener has been waiting for—Lilies that will grow, multiply and live under almost any conditions. From the hundreds of seedlings were selected twelve superb and distinct, long blooming varieties which we now have the pleasure of offering you. We cannot say too much about these remarkable new Hybrids. Be sure and plant a set of them this year and when you see the results, we are sure you'll be more enthusiastic about them than we. This group of Lilies is truly a horticultural sensation.

Enchantment (Plant Patent No. 862) *Each 80c, Three \$2.25, Doz. \$8.00*

A veritable giant, growing about 36 to 40 inches tall when established. Color is nasturtium-red. Flowers upright in big heads blooming week after week, providing a blaze of the richest possible color in the garden. Enchantment is probably the most vigorous Lily in cultivation, as well as the most rapid multiplier of bulbs. There is a surprise in store for you. If you ever failed growing Lilies, you won't with this one.

Fireflame *Each 90c, Three \$2.50, Doz. \$9.75*

This is possibly the best in the red shades. Color is described by customers who have seen it as Indian red, burnt orange and mahogany-red. Flowers grow horizontally, are wide open with recurring broad petals in big heads on stems about 25 to 28 inches tall. It produces bulbils on the stem, all of which will bloom in 2 years. Sturdy, rugged grower.

Gold Rush *Each 95c, Three \$2.75, Doz. \$10.75*

Outstanding golden yellow Lily with huge, outward-facing flowers, from three to five per stem. The beautifully spaced and proportioned head is borne on a deep brown stem with olive-green, glossy foliage. A sensational novelty of great merit.

Pagoda *Each 80c, Three \$2.25, Doz. \$8.00*

This is one of the best upright blooming hybrids. On top of the 34-inch stem a beautiful head of flowers is produced. The flowers are well placed, forming a nice open head. Petals recurve gracefully. Color is a rich apricot to chrome-yellow and one notices again a soft pinkish overtone. There are only very small widely spaced spots of soft brown in evidence. A fine, robust grower.

Serenade *Each 90c, Three \$2.50, Doz. \$9.75*

Later than the others, it has a good, clean and clear orange coloring. It stands only a little over two feet tall in our nursery which makes it an ideal plant for the herbaceous border and for pots. The fine proportions, the sturdy stems and the healthy, glossy foliage make this an unusually fine garden Lily, impervious as it is to disease and pests.

Valencia *Each 80c, Three \$2.25, Doz. \$8.00*

Beautiful heads of flowers of softest gold to rich yellow, clear and clean. A slight midrib and a very few small coppery gold spots on the flower petals create an excellent effect. This is a brilliantly colored variety. It stands out and we consider it one of the best. Flowers grow horizontally, are nicely balanced, petals broad. Its color glows. One of the "tops" in the collection. Grows about 27 to 30 inches high.

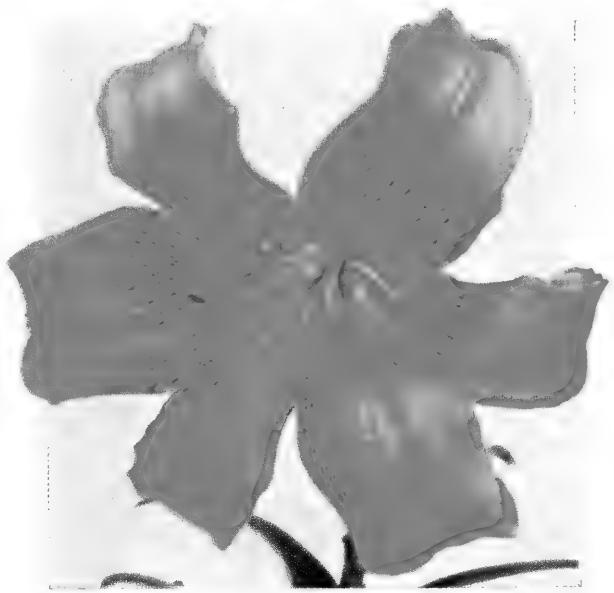

Pagoda

[23]

Valencia

Fireflame

Gold Rush

Speciosum Lilies

The petals are well rolled back and are handsomely spotted, often branded with distinct color. The anthers are conspicuous for their size and color, and extremely delicate poise. In addition to these attractive qualities, it has a strongly waved outline to the petals, which adds much to its beauty. It flowers through the late summer into autumn. The cultivation of this Lily is simple, sending up its flowering stems year after year in increasing numbers.

Lilium Speciosum Magnificum

Speciosum album

Beautiful snow-white with golden green stripe through the center of each petal, and anthers of a coppery tint. Alike in the form of the flower and in the way of growing, this Lily is one of the most beautiful we have.

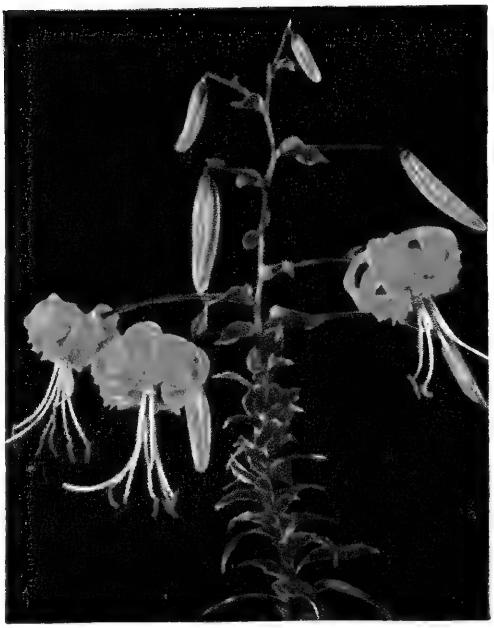

Large Bulbs, 8 to 9-inch circum.

Each 80c, Three \$2.25, Doz. \$8.00, 25 \$15.50

Speciosum magnificum

Rich ruby-carmine, margined white; stout of substance and broad of petal, this variety stands out prominently on account of its vigorous growth as well as the size and depth of coloring.

Large, No. 1 Bulbs Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50
Mammoth Size Bulbs Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00

Lilium Henryi

Often called The Yellow Speciosum

Lilium Henryi

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00
A splendid garden plant, vigorous in its growth, failing very seldom. One of the best border Lilies reaching over 8 feet and more in height when established, and bearing more than 20 flowers of a rich, deep orange-yellow, fine foliage. Does well in both light and heavy loam. August-September flowering. Often called the Yellow Speciosum.

Speciosum rubrum "Red Champion"

A handsome deep colored variety of the Speciosum Lily. Superb for garden decoration, cut flowers or pot culture in a cool greenhouse. Our strain is uniform, disease free, vigorous, and AMERICAN-CROWN. The foundation stock was discovered locally on the slopes of Mount Hood where it had grown undisturbed for some forty years. It likes a situation in well drained soil. Likes light shade during the hottest part of the day.

Each 90c, Three \$2.50, Doz. \$9.75, 25 \$18.50

Lilium Candidum

Lilium
Speciosum Album

Lilium Auratum

Havemeyer Hybrid Lilies

These beautiful Hybrids are raised from seed taken from Lilium Theodore Havemeyer. They closely resemble the parent variety but vary slightly in color and form. We therefore offer them as Havemeyer Hybrids. A group of six or more of them in the border will provide many lovely flowers in unusual shades of cadmium, burnt orange, pale yellow, and light buff. They grow freely and can be easily increased by seedling. Only a limited number of these magnificent Lilies are offered, and we predict they will be as important as the Regal Lilies in the very near future. We offer for this spring a limited number of flowering bulbs about 6 inches in circumference at—

Each \$1.10, Three \$3.00, Doz. \$11.50, 25 \$22.75

Havemeyer Hybrid Lilies

Lilium Auratum

(Gold-Banded Lily)

One of the finest and most outstanding Lilies. A well grown clump of Auratum Lilies is a marvelous sight. The flowers are large, often seven to eight inches in diameter, borne in clusters of 6 to 12 blooms on a 3-foot stem. They are ivory-white with broad golden band, recurving petals and delightfully fragrant, blooming July to September. They dominate the garden at that time.

Flowering Bulbs, 8 to 9 inches

Each 45c, Three \$1.30, Doz. \$4.50, 25 \$8.25

Flowering Bulbs, 9 to 10 inches

Each 60c, Three \$1.70, Doz. \$6.00, 25 \$11.00

Flowering Bulbs, 10 to 11 inches

Each 80c, Three \$2.25, Doz. \$8.00, 25 \$15.50

Lilium Candidum

MADONNA LILIES

The Madonna Lily is one of the loveliest of white Lilies, popular throughout the world, loved and admired by all. Its delightful fragrance and lovely white flowers have made it a universal symbol of purity. Plant it in groups of three or more bulbs, close to the pale blue Delphinium Belladonna. It will be the loveliest spot in your garden during late June and early July. Madonna Lilies are simple to grow if you plant in full sun and perfectly drained soil.

Top Size Imported French Bulbs, 22-24 cm.

Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.50, 100 \$33.00

Giant Size Imported French Bulbs, 26-28 cm.

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00, 100 \$45.00

AMERICAN GROWN LILIJUM CANDIDUM "CASCADE STRAIN"

Cascade Strain

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00, 100 \$45.00

One of the prides of our Lily stocks is this new strain of Madonna Lilies which have been slowly developing for the past several years. Careful selection and pollination has finally produced a race of the Madonna Lily with large flowers of unusual texture and form. They will produce exhibition spikes the first year. They increase rapidly by natural division and will soon form a large clump. Bulbs we send will measure 6 or more inches in circumference.

Lilium Theodore A. Havemeyer

A Very Rare and Choice Lily!

A special gold medal was awarded to a display of this variety in the Gardens on Parade at the New York World's Fair. The flowers are a tender shade of buff or creamy old ivory with three or four buff, longitudinal lines, and marked with rosy amber on the basal half of the segments. This lovely shading is enhanced by attractive brown anthers. The flowers are of fine size, broad and spreading. Begins to bloom the end of July, and blooms over a very long period.

Theodore A. Havemeyer

Lilium Testaceum

Also known as the "Excelsum" and as the "Nankeen Lily." One of the choicest garden Lilies. The warm apricot tone, almost a *cafe au lait*, set off by brilliant orange anthers, puts it in a color class by itself; in fact, many people consider it the most graceful and lovely of all Lilies. It is beautiful for every kind of garden use. In combination with light shaded Delphiniums or with Madonna Lily, which it resembles, it is most effective. It has the texture of *Lilium Candidum*, with reflexed petals, and does well under the same conditions as *Candidum*. Four to five feet high. June-July flowering.

Top Size Bulbs

Each \$2.25, Three \$6.00, Doz. \$22.50

Japonicum (Also called *Kramerii*)

Each 90c, Three \$2.50, Doz. \$9.75, 25 \$19.00

This is one of the few "pink" Lilies for our gardens and a very lovely thing it is. The flowers are carried horizontally on stems 3 feet high. Somewhat capricious in its requirements, it is a Lily so beautiful and of a color so lovely and unusual that it is worth taking pains with. The funnel-shaped finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color often shaded blush. June-July flowering.

Lilium Regale

(The Regal Lily)

One of the most beautiful and one of the easiest of Lilies to grow, it never fails—"Lilium Regale" is truly a Royal Lily; worthy of a place in every garden; it is a lover of loam and sunshine. A vigorous grower with sturdy stems, 4 to 6 feet high, densely covered with fine foliage. Center of flower flushed with yellow shading to white at outer edges; externally the flowers are streaked with brown on the "ribs," shaded through almost translucent petals with a delightful pearly tint; the contrast between the color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. The Regal Lily is very floriferous and when thoroughly established, bears as high as 18 to 20 flowers.

Flowering Bulbs, 7 to 8 inch circum.

Each 35c, Three 90c, Doz. \$3.00, 25 \$5.50, 100 \$20.00

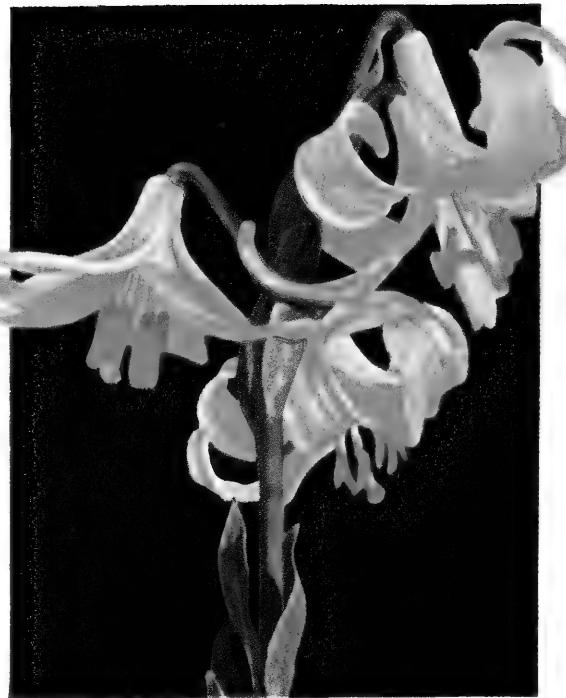

Flowering Bulbs, 8 to 9 inch circum.

Each 45c, Three \$1.30, Doz. \$4.25, 25 \$7.75, 100 \$27.50

Flowering Bulbs, 9 to 10 inch circum.

Each 50c, Three \$1.40, Doz. \$5.00, 25 \$9.75, 100 \$36.00

The flower illustrated has nine blooms and was grown from a bulb of 8 to 9 inches circumference

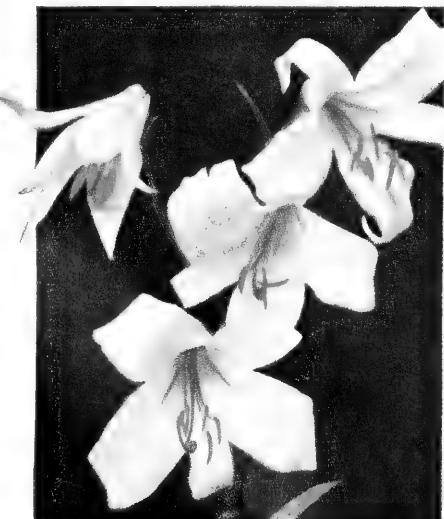

Lilium Testaceum

Lilium Hansoni

Lilium Japonicum
Also Called Kramerii

Lilium Regale

General List of Hardy Lilies

Canadense

Each 45c, Three \$1.30, Doz. \$4.40, 25 \$8.00

Broad, funnel-shaped, drooping flowers, varying from yellow to orange; spotted inside; graceful and pretty. Fine among Azaleas, in damp peat beds, or leaf mold. Excellent for naturalizing. June-July flowering.

Formosanum Giant Late Flowering Form

Each 35c, Three 90c, Doz. \$3.00, 25 \$5.50, 100 \$20.00

The latest flowering of all the popular Lilies, this white trumpet type is particularly desirable for gardening in moderate climates. The plants are often in flower as late as December in the mild sections of the country. Of easiest culture, this Lily should be in every garden. Our strain is tall and free flowering and has been grown from selected plants for several generations. The bulbs are very small, but should be planted 5 to 6 inches deep since Formosanum produces very heavy stem roots. Full sun or partial shade suits it well and for better flower production if some water is provided during the hottest part of the summer, you will be well rewarded for your trouble.

Giganteum Himalaicum

Each \$3.50

The most majestic of Lilies, having stems 10 to 12 feet high when established, with large, handsome, long white, trumpet-shaped, sweet-scented flowers. Groups of this noble Lily in woodland or gardens produce a grand effect. It requires to become established before flowering freely and thrives best where there is an abundance of leaf mold. Plant very shallow.

Hansoni

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00

Plant among the low plants to protect young shoots, this being one of the earliest Lilies to appear in spring. Does as well in thin woodland as it does in the border. Height 4 to 5 feet, carrying blossoms 2 inches across, regularly reflexed, the petals being of a bright orange-yellow, spotted more or less with brown; of a heavy waxy texture. June flowering.

Fiesta Hybrid Lilies

A Magnificent and Brilliantly Colored Race of New Lilies

This new race of seedlings has neatly reflexed flowers, nicely spaced on thin, wiry stems. Resulting from crosses between *L. Davidi* (*L. Willmottiae*) and related types, they are one of the brightest patches of color in our Lily fields during July. The colors range from bright yellow through orange to a beautiful dark rich red. The latter color is new to this type of Lily. Most of the flowers are of typical recurved Turk's Cap shape and many of the plants have blooms facing outward or somewhat upward with the petals only slightly recurved. A sun loving group, plant them 5 to 6 inches deep where they will get plenty of direct sunlight. Propagation is most rapid from the numerous underground stem bulblets. Award of Merit, Massachusetts Horticultural Society, 1945.

Mixed Colors Only

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00

Fiesta Hybrid Lilies

Lilium
Tenuifolium

Martagon album

Each 95c, Three \$2.75, Doz. \$10.75, 25 \$20.75

There are few more beautiful things than the white Martagon Lily. The appearance of these Lilies is graceful and delightful in the extreme. On slender stems 4 to 5 feet high, the numerous drooping, waxy-like, white Turk's Cap flowers, with yellow tipped stamens, look fascinating. The small flowers are symmetrical in shape, with reflexed petals and are borne in pyramidal-shaped clusters.

"Western Sunset" (Pardalinum Californicum Select)

Each 65c, Three \$1.80, Doz. \$6.50, 25 \$12.00

This brilliant Lily is of easiest culture, in fact, it's "fool-proof." It is vigorous, dependable, very hardy, and multiplies rapidly. It does equally well in full sun or shade. They reach a height of five to six feet. Stems are stout and require no staking. A clump of six or a dozen when in bloom makes a brilliant picture in any garden. Each stem is topped with a dozen or more beautiful flowers in July. The petals are somewhat recurving and a brilliant sunset-red, while the base of the bloom is yellow, beautifully marked with amber-brown dots.

Superbum

Each 45c, Three \$1.30, Doz. \$4.40, 25 \$8.00

The color in this desirable Lily varies from pale yellow to deep crimson, more or less spotted on the inner surface of the petals. Fine established specimens often reach a height of 10 feet or more, bearing from 20 to 30 elegantly reflexing flowers arranged in large, cone-like clusters. Does well in ordinary garden soil. July flowering.

Talisman

Each 69c, Three \$1.70, Doz. \$5.75, 25 \$10.75, 100 \$40.00

A gorgeous orange tinted nicely spotted Lily which is so prolific that from a few bulbs you can raise a large quantity in a few years. All the way up and down the stem bulblets grow in the axils of the leaves. These, when planted in September, will flower the following year. The stems are tall, 4 to 5 feet, on top of which grows a cluster of lovely, nodding flowers with gracefully reflexing petals in July. Does equally well in light shade or sun.

Tenuifolium

Each 39c, Three 80c, Doz. \$2.35, 25 \$4.25, 100 \$16.50

A charming little early flowering Lily with strongly recurved petals of waxy texture; deep scarlet. A gem in the rock garden as in the border. Likes a cool, damp, loamy soil and partial shade, but does well anywhere in well drained soil.

Tenuifolium, Golden Gleam

Each 40c, Three \$1.05, Doz. \$3.75, 25 \$6.75, 100 \$24.00

A beautiful, robust and floriferous hybrid of this type, bearing numerous flowers of a pure apricot-yellow. June flowering.

Tigrinum Splendens

Each 35c, Three \$1.00, Doz. \$3.50, 25 \$6.50

The finest form of Tiger Lily with the richest color. The large, shapely flowers are of a rich dark salmon-orange spotted with glossy black. Very robust in habit and of easy culture. August-September flowering.

Umbellatum grandiflorum

Each 45c, Three \$1.30, Doz. \$4.50, 25 \$8.25, 100 \$30.00

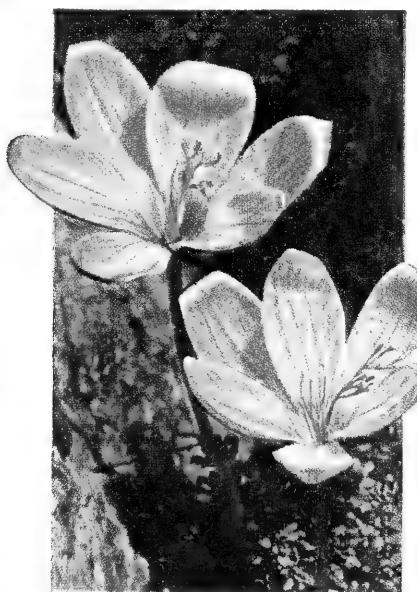

A very free flowering Lily of easy culture. Carries large umbellate heads of light orange red flowers.

Crocus, Etrucus

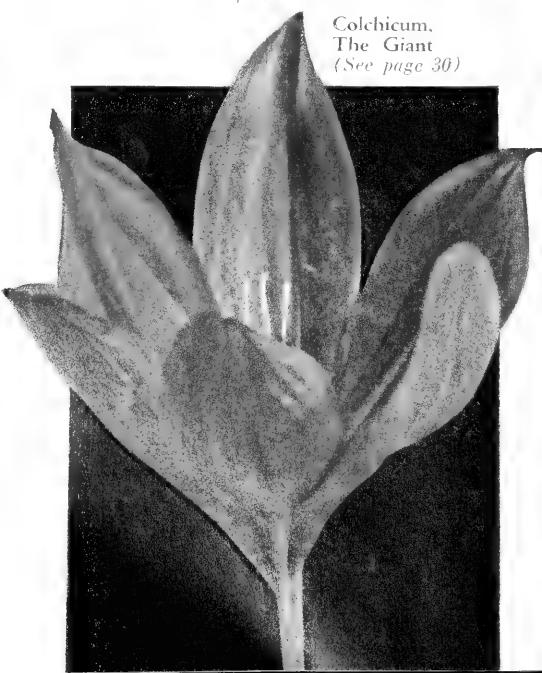

Colchicum, Autumn Queen
(See page 30)

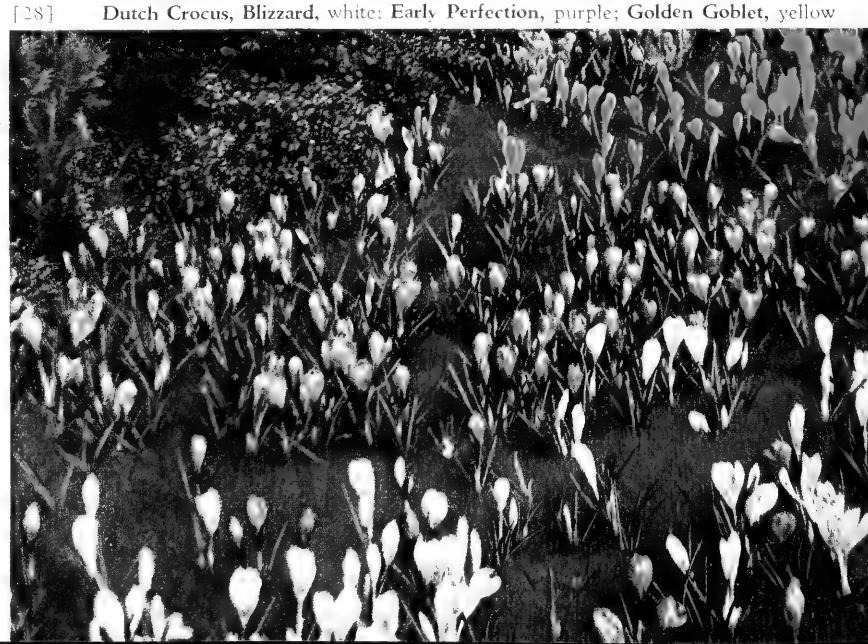

Crocus Speciosus, Artabir (Autumn-Fl.)
(See page 30)

Crocus Zonatus (Autumn-Fl.)
(See page 30)

Colchicum,
The Giant
(See page 30)

[28] Dutch Crocus, Blizzard, white; Early Perfection, purple; Golden Goblet, yellow

IN ADDITION to the Dutch Crocus there are certain species that bloom much earlier, frequently before the snows have gone. Also, they are of long life, flowering season after season with little care or attention.

Flowering in late February is the Crocus Sieberi. Accompanying it is the Crocus Susianus. Many believe the latter even more appealing in the bud stage with its dark, rich brown flowers on the outside of its segments. These are followed by the Crocus Tomasinianus. Nothing short of exquisite describes its lovely vase-like form and its color ranges from pale mauve to deep purple. Tomasinianus is so hardy and persistent that when once planted under shrubs, it is permanent, rapidly increasing into ever bigger clumps from year to year. We would say it's almost indestructible.

The loveliest of all in our opinion are the Chrysanthus varieties. Be sure to plant a few.

Spring Flowering Crocus Species

Besides the well known Dutch Crocuses there are certain species that bloom very much earlier in the year, often before the snow has gone. And what is more all are permanent, coming up season after season without care.

No garden is complete without some *Crocus Chrysanthus Canarybird* and *E. A. Bowles*. Their brilliant yet delicate yellow flowers are exceptionally fine. Yellow-colored Crocus varieties are few and we, therefore, want to call your attention to these two little known varieties which are perfectly beautiful in the spring when they open their flowers to the first warm rays of the spring sun.

Once planted they will take care of themselves for many years.

Aureus (Moesiacus) Doz. \$1.05, 25 \$1.80, 100 \$7.00

Deep golden yellow. The most brilliant of the early Crocus.

Biflorus Doz. \$1.05, 25 \$1.80, 100 \$7.00

White, outside purple lined. Slightly scented.

Chrysanthus, A. P. Bowles Doz. \$1.05, 25 \$1.80, 100 \$7.00

A beautiful early flowering variety. Its pale yellow, brilliant flowers are outstanding. An additional attraction is the bright reddish orange stamens. We consider this and the other two *Chrysanthus* varieties the finest of the early Crocus species.

Chrysanthus, Canarybird Doz. \$1.05, 25 \$1.80, 100 \$7.00

Orange-yellow cup with bronze tints on the exterior of the flower petals. Exceptionally free flowering. A choice variety giving additional shades of yellow so much needed in Crocus. You will like this.

Chrysanthus, E. Aug. Bowles Doz. \$1.35, 25 \$2.50, 100 \$9.00

Butter-yellow, outside base bronzy gray tinged, large and beautifully rounded blossoms, the most beautiful of all Crocus species.

Chrysanthus, Snow Bunting Doz. \$1.20, 25 \$2.20, 100 \$8.00

This is a lovely form of the *Chrysanthus* group. The flowers are pure white with an occasional delicate striping of purple on the outside. When flower is fully open, it displays a pure golden center. One of the loveliest of spring flowers.

Etruscus Doz. 90c, 25 \$1.65, 100 \$6.00

Self-colored mauve flowers.

Fleischeri Doz. \$1.05, 25 \$1.80, 100 \$7.00

White, anthers orange-red.

Korolkowi Doz. \$1.05, 25 \$1.80, 100 \$7.00

This unusually fine early species is invaluable for the rock garden, for clumps in the border or for grouping near the terrace or house, under trees. The color is brilliant golden yellow shading to orange, exterior of the petals shaded bronze; the very earliest of spring flowers.

Crocus Chrysanthus, Canarybird

Sieberi

This is a very lovely spring-flowering variety which will bloom as early as February. The graceful flowers are delicate blue with gold in the throat. Potted in October they will bloom for Christmas. Can be grown easily in pebbles or peat in water throughout the winter, same as Paper-White Narcissus.

Susianus (Cloth of Gold)

Doz. \$1.05, 25 \$1.80, 100 \$7.00
Bright golden yellow flowers, outside brown striped, produced in great profusion. Specially recommended for naturalizing.

Tomasinianus

Doz. 85c, 25 \$1.60, 100 \$5.75
Pale lavender, outside silvery gray, a very charming species which blooms with numerous flowers in early spring; one of the best for naturalizing, especially in woods or shady places. No other Crocus does as well and multiplies or flowers as freely from one year to another without care or attention.

Versicolor picturatus (Cloth of Silver) Doz. 90c, 25 \$1.65, 100 \$6.00
White outside, purple feathered, very pretty and free.

Mixed Crocus Species, Spring Flowering 25 \$1.65, 100 \$6.25

Dutch Crocus — Spring-Flowering

Whether you particularly enjoy gardening or not, one of the great delights of spring is seeing the first blooms of the Dutch Crocus. Not only because of its early flowering, but because of its sheer beauty and brilliant coloring, it never fails to captivate us. Then, too, they are so easily grown and persistent that the merest amateur can obtain perfect results. They multiply with amazing rapidity in number, from year to year, another reason why they are so popular.

Only top size bulbs are listed below, this for the reason they produce the largest number of blooms.

Blizzard Doz. \$1.05, 25 \$1.80, 100 \$7.00

Pure white, globular flowers of great beauty.

Early Perfection Doz. 90c, 25 \$1.65, 100 \$6.00

Dark violet-blue; deep and intense coloring.

Enchantress Doz. 90c, 25 \$1.65, 100 \$6.00

Clear porcelain-blue, large flowers; very pleasing; early.

Golden Goblet Doz. \$1.30, 25 \$2.40, 100 \$8.50

Giant golden yellow flowers.

King of the Whites Doz. \$1.05, 25 \$1.80, 100 \$7.00

Large, white. One of the best whites.

Mammoth Yellow

Golden yellow flowers in abundance.

Doz. \$1.30, 25 \$2.40, 100 \$8.50

Queen of the Blues

Dark lilac; one of the best.

Doz. 90c, 25 \$1.65, 100 \$6.25

Striped Beauty

Blue striped white, late.

Doz. 90c, 25 \$1.65, 100 \$6.25

The Sultan

Dark purple-blue, almost black; large flowers.

Doz. 90c, 25 \$1.65, 100 \$6.25

Mixed Colors of Crocus

A beautiful mixture of all the kinds offered and will make a cheerful and colorful display early in the spring. Bulbs are all top size.

[29]

Dutch Crocus Naturalized in Lawn

Colchicum

GIANT AUTUMN-FLOWERING CROCUS

These have large Crocus-like blossoms and appear during the months of September and October, without foliage. The foliage, however, appears early in the spring. Their dashing, checkered, Crocus-like blossoms are shown to best advantage when planted between the early spring flowering plants such as Iris. They do remarkably well when planted in the woods or in naturalistic plantings of any kind.

Autumnale

Six \$1.50, Doz. \$2.75, 100 \$18.00
Commonly called the Autumn Crocus; very free flowering; of easy culture.

Autumnale album

Each 55c, Three \$1.35, Doz. \$4.50, 100 \$30.00
Pure white, increasing fast; free flowering.

Giganteum

Each 60c, Three \$1.69, Doz. \$5.75, 100 \$40.00
Large, soft violet, white center; late flowering.

Speciosum, Autumn Queen

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00
An outstanding large flowered hybrid, gives huge clusters of flowers of deepest rose-purple.

Speciosum, The Giant Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00
Truly a giant, makes a fine show growing in a ground cover such as Vinca. The immense flowers are pure lilac.

Waterlily

Each \$2.50
Very large, double flowers, 4 to 5 inches in diameter; bright lilac-mauve; beautiful. Very scarce.

Hybrid Mixture of Colchicums

Six \$2.70, Doz. \$4.85, 100 \$33.00
This mixture consists of a fine lot of bulbs raised from seed. All are in colors of rosy purple to violet and deep rose.

Autumn-Flowering Crocus Species

September, October, November flowering. Order immediately as they must be planted early.

The Crocus listed below bloom in the autumn. Growing equally well in sun or light shade, they are permanent and multiply freely. Once planted they increase year after year without time or trouble to you. They are wildlings and do best when left to their own resources. The outstanding ones in the group are of the Speciosus varieties especially

Asturicus

Doz. \$1.05, 25 \$1.80, 100 \$7.00
A very showy species from the Asturia Mountains. Pale mauve to purple-lilac with darker stripes at base.

Medius

Doz. \$1.35, 25 \$2.50, 100 \$9.00
Flowers lovely rich violet with handsome purple veining at base; stigmata rich glowing orange-red; one of the handsomest.

Sativus (Saffron Crocus)

Doz. 85c, 25 \$1.60, 100 \$5.75
Habitat Italy to Kurdistan. Large flowers, purplish lilac, feathered violet, with showy orange stigmata, slightly scented. Flowering freely when established.

Speciosus

Doz. 85c, 25 \$1.60, 100 \$5.75
Large bright blue flowers, beautifully veined, orange-red anthers and bright yellow throat; a very fine autumn Crocus.

Speciosus Albus, a truly beautiful Crocus. The Zonatus is very popular and extremely attractive coming through some low growing Sedum. Sativus, the saffron Crocus, is both handsome and useful. Its golden yellow pistil is the saffron of commerce.

Speciosus albus

Grand pure white variety, large snow-white flowers are produced in abundance and are marvelous when seen coming through dwarf Sedums or springing up as from nowhere under the shrubs. One of the loveliest of autumn flowers.

Speciosus, Artabir

Doz. 90c, 25 \$1.65, 100 \$6.25
Pale blue, dark feathered, large flowers. This variety contrasts well with the white form.

Zonatus

Doz. 85c, 25 \$1.60, 100 \$5.75
Flowers rose-lilac with yellow throat, freely produced. One of the most satisfactory kinds, lovely in the rock garden or under tall shrubs. Does well planted under trees between Vinca, Pachysandra, or other ground covers. Easily grown indoors.

Mixed Varieties of Autumn-Flowering Crocus 25 \$1.80, 100 \$7.00

CHIONODOXA - Glory-of-the-Snow

Luciliae alba

Doz. 95c, 25 \$1.70, 100 \$6.50

A very beautiful pure white variety of the Luciliae.

Luciliae rosea

Doz. \$1.45, 25 \$2.70, 100 \$9.75

A fine variety with pink flowers of the Luciliae form.

Sardensis

Doz. 75c, 25 \$1.35, 100 \$4.25

Top-size bulbs. Same as above with true gentian-blue flowers.

Mixed Chionodoxa, All Varieties Listed Doz. 70c, 25 \$1.30, 100 \$4.00

Chionodoxa

Crocus Speciosus Albus

BRODIAEA

These are easily naturalized in almost any soil. Plant them about 3 inches deep and leave them alone. They are especially happy under deciduous trees, in the rock garden or rough, gritty soils.

Mixed

Six 60c, Doz. 95c, 25 \$1.70, 100 \$6.50

This mixture contains the following colors: blue, red, yellow, white, and is good for naturalizing. Bulbs self-sow and increase quite rapidly.

CALOCHORTUS - Mariposa Tulips

Until one has seen a good collection of these plants, he has no idea how much Nature can do in the variation of one flower. One to many on a stem, wonderfully marked with eyes and dots, and penciling in rich colors, are characteristics. "Mariposa" is simply the Spanish word for butterfly, and is applied to these Tulips because the eyes and markings are so like those on a butterfly's wings.

Mixed Colors and Varieties

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

They grow from 1 to 2 feet high and branch. The flowers are simply marvelous in their variety of colors and markings. Scarcely two are alike; in a mixed lot they may vary through white, lilac to purple and again through shades of pink to claret-red. In any mixture whites, more or less eyed, predominate. There is no better investment for the flower lover than a quantity of these bulbs. They thrive best in a rather porous soil, either sandy or gritty, and grow either in sun or light shade. Flowers are 2 to 4 inches in diameter.

CALLAS - Zantedeschia

Plant Callas indoors in the late fall of the year. In April or May dormant bulbs may be planted near the pool in a sunny spot where they will flower beautifully in August or September.

Elliottiana (Yellow Calla)

Each 80c, Three \$2.25, Doz. \$8.00, 100 \$60.00

One that should be planted extensively. The deep golden yellow flowers are truly magnificent and produced in abundance. The green foliage is spotted white which adds to its beauty; lovely house plant as well as garden subject.

Godfrey (White Calla)

Each 55c, Three \$1.35, Doz. \$5.00, 100 \$35.00

Most ornamental foliage if grown near pool where it will get plenty of water; an excellent, easily grown house plant.

Ethel Roosevelt

Each 70c, Three \$1.90, Doz. \$7.00, 100 \$50.00

This rare variety produces pale yellow flowers which are about one-fourth larger than those of Calla Elliottiana and it grows about 6 to 8 inches taller. It is easily grown in the house but also makes a fine garden plant blooming over a long period during the summer. The bulbs should be dug in the late fall and stored like Gladioli over the winter. They increase in size, producing a greater number of blooms from year to year.

Rehmannia

Each 55c, Three \$1.35, Doz. \$4.50, 100 \$30.00

The pink or rose Calla. A rather uncommon species native to Natal. The flowers are small but pink and therefore most unusual. An uncommon plant for the greenhouse or indoor culture.

CAMASSIA (Hardy)

There are few bulbous plants that meet climatic or soil conditions better or give a more attractive bloom. They are hardy without protection, and thrive either under ordinary garden conditions or when naturalized in open, moist woods or in not too dense a grassy growth. The flower stems are 2 to 4 feet high with as many as a hundred star-shaped flowers measuring 1 1/2 inches across and flowering in long succession.

Esculentá

Six 50c, Doz. 85c, 25 \$1.60, 100 \$5.75

Very showy in mass planting. Forms flower spikes 2 feet high, bearing a cluster of star-shaped flowers of a very fine, rich purple. Fine for wet or swampy places where other bulbs do not grow.

Leichtlini, Blue

Six 65c, Doz. \$1.10, 25 \$1.90, 100 \$7.50

Same as preceding but stronger, flowers are larger and come in various hues of blue and creamy white. Again does well where other bulbs fail.

ERANTHIS - Winter Aconite

Plant Bulbs Immediately Upon Receipt

These produce about two weeks before Crocus are in bloom, little yellow flowers like Buttercups about 3 inches above the ground, with settings of fine green, frilled collars which never seem to mind the worst of weather conditions. Will thrive under trees where few other plants can hold their own. They seed themselves freely and colonies from self-sown seed are soon formed. Plant at once upon receipt, firmly, 2 inches deep, in shade or full sun, about 18 bulbs to a square foot.

Glicicá

Six 70c, Doz. \$1.25, 25 \$2.30, 100 \$8.25

Deep yellow flower, foliage bronzy and finely cut; lovely rock garden variety.

Hyemalis

Six 70c, Doz. \$1.15, 25 \$2.10, 100 \$7.75

The common Winter Aconite, clear yellow, very early. Good for the rock garden, under Sedums or under trees. Plant bulbs at once when received.

ERYTHRONIUM - Trout Lilies

These are charming woodland plants, producing in early April, small Lily-like flowers of which the colors run in delicate tints of white, pink, cream, bright yellow and rose. They thrive in wooded places under shrubs and in shaded corners or crevices of the rockery.

Tuolumnensis

Six \$1.15, Doz. \$1.90, 25 \$3.35, 100 \$12.00

Glacier Lily, Mountain Lily, or Golden Easter Lily. One of the most beautiful and rarest of Dog-Tooth Violets, do best in shady woodland places, well drained soil. Not unusual to see them with 10 to 12 golden flowers, the flowers often being 3 inches across. Plant in colonies.

Mixed Colors

Six 85c, Doz. \$1.45, 25 \$2.65, 100 \$10.00

This mixture is made up of many varieties. Splendid for naturalizing and for rock garden in light shade. It is best to plant them in groups of six and more. Once planted they will remain and multiply very rapidly. Are perfectly hardy and simple to grow.

FRITILLARIA - Imperialis

(Crown Imperial)

The Crown Imperials with their stately gracefully drooping flowers should not be missed in any garden. They want a good soil, much sun, and can be left undisturbed for years. Must be planted as early as possible and have to be carefully protected against sharp winds, as the tall plants grow 4 feet or more high. They are real "grandmother's favorites" and should be in every hardy border or old-fashioned flower garden.

Maxima, Red

Each \$1.25, Three \$3.25, Doz. \$12.50
Robust and strong growing variety with large orange-red flowers. Height 34 inches.

FRITILLARIA - Guinea Hen Flower

Fritillaries are lovely bulbous plants for the rock garden or indoor culture. The stems are leafy and most graceful, with many pendent, bell-like flowers. One species found in Southern California is called "Mission Bells," while in other places local species are called Brown or Chocolate Lilies.

Meleagris

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.25
These produce in early April dwarf, pendent, reddish brown and purple, bell-shaped flowers in curiously checkered shades, on stems 12 inches high. They are very effective in colonies, requiring a somewhat dry situation. Invaluable for the rockery, for naturalizing and very lovely grown in pans indoors; use same culture as for Freesia.

GALANTHUS - Snowdrops

Snowdrops belong to the most beloved early flowering spring bulbs. They require very little attention, and can remain undisturbed for years and years. They like rather moist and cool soil. To get a lovely effect they must be planted thickly, while they can be grown under trees and shrubs, in woodlands and in lawns. In the latter case, the lawn should not be mown before the leaves are withered or next year's blooms may be spoiled.

Nivalis

Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
This is the old-fashioned favorite. Its lovely white nodding blooms are out before the frost is out of the ground; one of the lovely bulbs that tell us spring is almost here. A group naturalized in the shade of shrubs or under trees is worth while. Once planted they remain for a lifetime.

Nivalis flore-pleno

Six \$1.00, Doz. \$1.55, 25 \$2.85, 100 \$10.25
Double form of the common Snowdrop, requiring same care.

GLORIOSA - Climbing Lily

Superba

Each 75c, Three \$2.00, Doz. \$7.50
A splendid low climber, easy to grow in the garden, it does well in sheltered spots out-of-doors. Grows 2 to 3 feet high, producing a dozen or more gorgeous Lily-like flowers which open a bright yellow and red, but change to a deep scarlet. In bloom through the summer and autumn months. Most unusual and rare garden bulbs. Store tubers in winter like Gladioli; may be used season after season. It may also be grown in a 4- or 5-inch pot in a cool greenhouse where it makes a beautiful show.

Gloriosa

Amaryllis Hybrids

Whether you grow them in the house or in the garden, these Giant-flowering Amaryllis produce truly magnificent blossoms. Even the amateur gardener can confidently expect results with the least possible care and attention. Planted in a pot in winter, they bloom about 6 to 8 weeks later. You will have a succession of bloom throughout the winter if the bulbs are kept dormant and planted ten days or two weeks apart. March, April and May are the months to plant them in your garden and they will bloom during July and August as easily as Gladioli. From these lovely bulbs a vigorous stem shoots out, carrying 4 to 6 very large blooms. The colors range all the way from pure white grounds with varied markings of rose, red and crimson to the richest main colors of scarlet, crimson and bright red. We can supply them from November until June, but place your order early. We guarantee them to bloom for you.

MAMMOTH ROYAL DUTCH HYBRIDS

This is the finest strain available. The flowers are superby shaped and of mammoth size. Only a very limited number of this genuine type is available and we believe we are the only source where they can be obtained.

Royal Dark Red Shades	Each \$3.50.
Royal Pink and Rose Shades	Each \$3.50
Royal Salmon-Pink with White Stripes	Each \$3.50
Royal Violet-Rose Tints	Each \$3.50
Royal Pure White	Each \$5.00
Mixed Mammoth Royal Dutch Hybrids	Each \$3.00, Doz. \$30.00

These popular flowers of French origin are exceedingly brilliant when in flower and excellent for cutting. They like to be planted about 6 inches deep in a cool, moist but well drained soil. Will establish without any trouble and remain for years. For northern states we advocate early spring planting, for the southern section of the country, fall planting is best. Cover in winter with straw manure.

DOUBLE ANEMONE

Double Anemone in Mixture Six 60c, Doz. \$1.00, 25 \$1.75, 100 \$6.75
This mixture contains a riot of colors in all shades of blue, red and pink as well as white.

SINGLE ANEMONE

Lieutenant (Blue Poppy) Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Large, single blue flowers on long stems, resembling a blue Poppy.

His Excellency Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
A grand variety bearing flowers measuring as much as 3 inches across, of the most vivid, velvety vermillion, with glistening, silvery white base and a handsome blue-black central boss. Height 1 foot.

The Bride Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Single, pure white flowers sometimes showing a faint reddish rim.

Single Giant Flowering Mixed Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
These are the popular Anemones so frequently seen in the florists' shops in the early spring. The flowers are unusually large with a wide range of rich and brilliant colors.

Double Anemone

GIANT CALIFORNIA HYBRIDS

This is a fine strain of large-flowered California grown Amaryllis Hybrids. The bulbs when potted from January to May will flower freely indoors. They may also be grown in the garden where they do beautifully.

California Dark Red Shades	Each \$2.00, Three \$5.50
California Red Shades	Each \$2.00, Three \$5.50
California Variegated and Striped	Each \$2.00, Three \$5.50
California Mixed Hybrids	Mammoth bulbs about 3" to 4", Each \$1.75, Three \$5.00, Doz. \$17.50.

Great improvements have been made in Amaryllis culture in this country. Not only are the flowers bigger and of better form, but they have better and clearer colors.

HARDY AMARYLLIS

Halli (Lycoris squamigera)	Each 70c, Three \$1.90, Doz. \$7.00
Produces in early spring attractive green foliage which grows until July when it ripens and disappears. About a month later, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing on umbel of large, Lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy. Cover crown about 4 inches. We offer heavy American grown bulbs.	

Anemone

HARDY ANEMONE, BLANDA

Blanda Atrocoerulea	Six 70c, Doz. \$1.15, 25 \$2.10, 100 \$7.75
Quantities of rich violet-blue, star-shaped flowers appear in early spring just about after the Snowdrops have bloomed. The fern-like foliage grows about 3 inches tall, above which the flowers are carried in rich abundance. Perfectly hardy and liking light shade they make a wonderful show under Shrubs, in rock gardens or in naturalized masses under trees. Always plant in clumps; preferably of a dozen bulbs, spaced 2 inches apart and planted 3 inches deep.	

Blanda Mixed Colors	Six 65c, Doz. \$1.10, 25 \$2.00, 100 \$7.50
This mixture contains numerous shades of blue and pink and makes a most cheerful picture in the early spring garden.	

Fulgens Annulata Grandiflora

Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$9.00
We do not know of any bright red in flowers that can match the fiery brilliant scarlet of Anemone Fulgens. Plant in full sun in well drained soil and give some winter protection and you will be well rewarded.

OXALIS

Suitable for pots or hanging baskets for winter flowering. Very easily grown in the house. Their Clover-shaped leaves are most attractive as well as the small cup-like blooms. They are excellent inexpensive small plants for decorating the home and growing on window sills.

Bermuda Buttercup Yellow. Doz. 75c, 25 \$1.35, 100 \$4.50
Hirta Lovely pink variety. Doz. 75c, 25 \$1.35, 100 \$4.50

PUSCHKINIA

Libanotica Doz. 90c, 25 \$1.65, 100 \$6.00
A beautiful little April-flowering bulb prized for the permanent hardy flower border and rock garden; it is also an easily grown indoor pot plant. The flowers are white, shaded and striped a soft clear blue, about 6 inches high.

RANUNCULUS

Their brilliant lovely globular-shaped flowers are splendid cut flowers and lovely at all times. May be left undisturbed for years. In the North, bulbs may be planted in April and May outdoors, will bloom in July and should be taken up for winter and stored dry until the following season.

Giant Wayside Hybrids Doz. 90c, 25 \$1.65, 100 \$6.00
This new giant Ranunculus is far ahead of the common types. The perfectly double flowers are produced on tall, stout stems and appear in every conceivable shade and color. The blooms are many times larger. The color range is exquisite and the long stems make them superb for cutting.

SPARAXIS

Finest Mixed Doz. 80c, 25 \$1.50, 100 \$5.25
Delightful spring blooming Cape bulbs of the Ixia group, their beautiful flowers being borne on graceful spikes about 6 to 8 inches high and the colors of the brightest and all shades. They are tigereed, blotched, spotted, streaked and flushed, a complete riot of color. They are also excellent for conservatory and indoor treatment. For the southern rock garden they are indispensable. Protect in cold climates.

STERNBERGIA

Lutea major Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25
A very effective autumn-flowering bulbous plant producing Crocus-like flowers of a rich golden yellow. The bulbs make a charming decoration if planted in bowls or pots and flower a few weeks after planting. Out-of-doors the Sternbergia likes a warm, well drained situation on banks or borders, where it should be left undisturbed. Bulbs should be planted 9 inches deep and in cold districts a covering of dry litter should be given in winter. Fine for rock gardens.

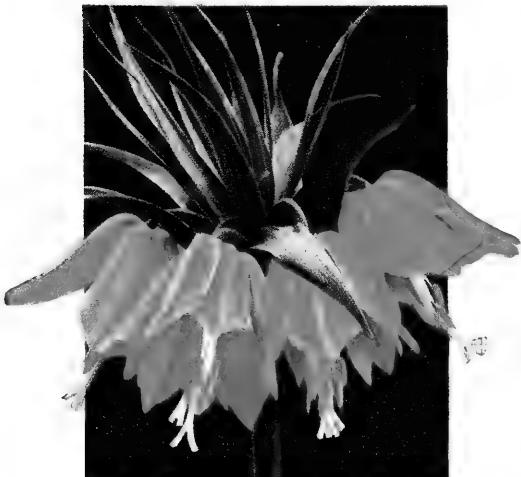

TRITELEIA - Milla

Uniflora violacea Doz. 75c, 25 \$1.35, 100 \$4.50
A rootlike bulb which produces in early spring a pale violet-blue flower with white center. Somewhat resembles the Chionodoxa, is delightfully fragrant. They spread and multiply with amazing rapidity and are excellent in the rockery, or under shrubs or trees where nothing else will grow. They are hardy, but like a little protection. About 3 inches high.

Amaryllis, Mammoth Royal Dutch Hybrids

Anemone Blanda

Fritillaria Imperialis (See page 31)

Single Giant Flowered Anemones
His Excellency
The Bride

Hardy Amaryllis
(*Lycoris squamigera*)

FREESIAS (Large Flowered)

Without doubt the most sweetly scented flower grown; a single bloom permeates the living-room with its delicate perfume. Although they are quite popular and very easily raised, we suggest the following treatment: procure the bulbs as early as possible and plant them in August, 6 to 25 bulbs for a single pan. The soil should be a mixture of good loam. The bulbs planted early, say August and September, must be placed outdoors until cold weather sets in; must be regularly watered and kept growing all the time. In November, before frosts appear, the pots should be placed in the window of a cool room.

Golden Giant *Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$9.00*

A yellow Freesia of unusually sturdy growth; tall, straight stems. Flowers large and wide open. Great lasting qualities. Very prolific producer with several laterals.

White Giant *Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$9.00*

A new giant white, stems average 18 to 20 inches long. Single flowers 2½ inches long; early bloomer.

Mixed Colors *Six 75c, Doz. \$1.35, 25 \$2.50, 100 \$9.00*

A lovely mixture made up out of many varieties. All the shades of the rainbow.

HARDY GLADIOLUS BYZANTINUS

This hardy European Gladiolus has a rigid stem about 24 to 30 inches tall, covered with nice plum-purple flowers. Blooms late May to early June. Bulbs are perfectly hardy and can remain in the ground over winter. They multiply rapidly and produce larger clusters of flowers each season. It likes a warm, sunny, well drained location.

Six 65c, Doz. \$1.10, 25 \$2.00, 100 \$7.50

Giant Desert Candles From Tibet *Eremurus*-Foxtail Lilies

They are among the finest of hardy bulbous plants. Striking, sensational and dignified, are extremely effective in hardy plant borders where they form early, colorful groups. Absolutely hardy, they grow giant flower spikes that reach a height from five to eight feet. They should be planted in autumn, from September until December, and they flourish in any sunny, well drained border. After blooming, the plant disappears above ground. Annuals may be planted right over them to fill the vacant space. Many of our customers fill such spaces with Gypsophila. Eremurus roots are persistent and once planted will last for ten or fifteen years or more without resetting or dividing, growing stronger and better from year to year. In the very coldest regions a light mulching is advised for their protection.

PASTEL SHADED SHELFORD EREMURUS

Stately—Daintily Graceful—Charmingly Dignified

That is the impression these fall flower spikes make on one. These hardy hybrids are truly lovely. Their inflorescence is three feet long, containing great numbers of coppery pink, orange, pale yellow and pink flowers. Attaining an average height of four to five feet, these rich and rare blooms are excellent for cutting as well as garden planting. They create a most fascinating impression in the garden. They last three weeks or more indoors when kept in water. After many years of patient growing, our supply is now such that we can offer them at low cost, enabling you to plant them in groups of three, six or twelve, for it is when they are planted in units of three or more that they show to best advantage. Once planted, the roots will last for ten years or more.

Shelford Pastel Hybrids

Each \$2.00, Three \$5.50, Doz. \$20.00

Eremurus Robustus

SHELFORD HYBRIDS, NAMED VARIETIES

Isobel. Coppery orange. *Each \$3.25*

Moonlight. Pale yellow. *Each \$3.25*

Rosalind. Bright pink. *Each \$3.25*

White Beauty. Pure white. *Each \$3.25*

GIANT EREMURUS Spectacular and Rare Garden Plants

Bungei

This is the parent from which the Shelford Hybrids were produced. Bungei is not as big a plant as, for instance, the Robustus but it makes a fine spike of golden yellow flowers about 3 to 4 feet tall. It is the easiest and hardiest of the varieties offered, blooming freely. Its root system is smaller and must not be compared with that of Robustus for instance.

Elwesianus

Each \$3.00, Three \$8.00, Doz. \$30.00
Blush-white flowers similar in form and height to Robustus. A magnificent species growing easily 7 feet tall. This as well as all other Eremurus, is produced from seed which results in slight variation of tints and shadings.

Robustus

Giant roots, Each \$2.50, Three \$7.00, Doz. \$25.00

Flowering roots, Each \$1.75, Three \$4.75, Doz. \$17.50

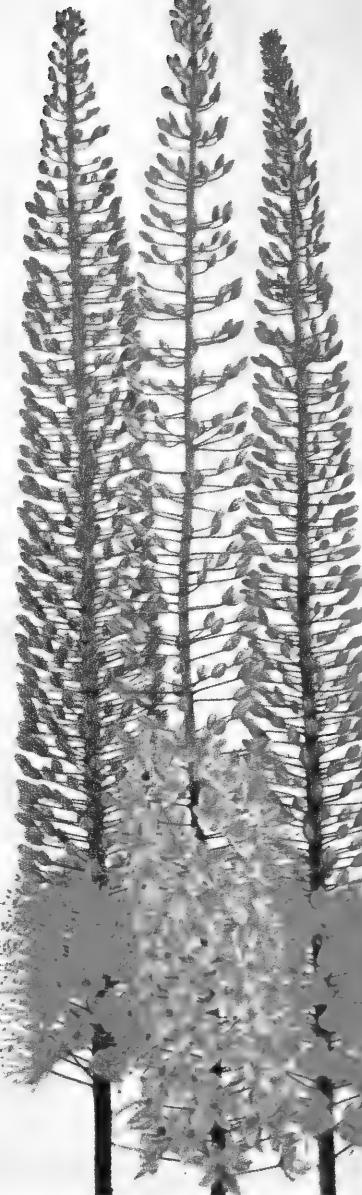

Light rosy pink flowers grow on stems 6 to 8 feet tall. One-third to one-half of the stem is covered with sparkling, small cup-like flowers. This is one of the giants of the family, easily grown and lasts from year to year. Giant roots produce one or more spikes.

Himalaicus

Each \$1.75, Three \$4.75, Doz. \$17.50
A veritable giant. It is a simple matter to grow flower stalks 7 to 9 feet tall on this variety. The rigid spikes are covered with waxy white, cup-like flowers with golden anthers and remain in bloom four weeks or more. We have withheld Himalaicus from sale for several years because we wanted to sell this plant in quantity and at a popular price. With reasonable care they will flower for you ten years or more without need of transplanting.

Him-Bob

Each \$3.00, Three \$8.00, Doz. \$30.00
This tremendous flower is the result of a cross between Himalaicus and Robustus. Its 7- to 9-foot flower spikes are studded with shiny cup-like flowers which vary from pale to deep pink, the flowers lasting four weeks and longer. As in the case of Himalaicus we did not offer this variety for sale until a large stock was first available. Here really is something outstanding for your garden at a price never before possible.

Galanthus Nivalis (See page 31)

Dutch and Spanish Iris

Great Beauty, Yet Fast Growing and Inexpensive

Be prepared for a surprise after you plant some of these for they multiply so rapidly that their numbers increase each year and must be weeded out from time to time. These blooms bear a striking resemblance to the Orchid and their rich colors are most fascinating, ranging from pure white through golden yellow to Cornflower-blue, dark violet and deep purple. They are excellent for cutting, stand a lot of handling and last even longer when put in water. All they ask is a sunny spot, fairly well drained and a little protection when the weather is extremely cold. We know of no other bulb that is so lovely and, at the same time, so low in cost. It is not without reason that in England they are known as "The Poor Man's Orchid." By all means, include some of these lovelies in your order today.

Dutch and Spanish Iris Collection

This collection will be made up of 10 distinct varieties of our selection, selected from the varieties offered below. They will be labeled and packed separately. Just the thing for the hardy border.

100 bulbs in 10 varieties for \$7.00

King Mauve

Lemon Queen

Saxe Blue

King of the Yellows

Blue Horizon

Standards steel-blue; falls very dark blue. A very large Iris of robust growth. A-1 for cutting and garden use.

British Queen

Pure white, good form and substance; one of the best and much used commercially because of its good keeping qualities. 24 inches tall.

Bronze Queen

A beautiful deep coppery bronze-colored variety, the best of this color. It is quite a rare shade in flowers. One of the most artistic of the bulbous Iris.

King Mauve

Standards very dark blue; falls dark blue. A very early Iris of remarkable substance; the best medium-priced blue. 22 inches.

King of the Whites

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Fine substantial pure white flowers, good grower and multiplies rapidly; fine for cutting and garden use.

King of the Yellows

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Standards and falls soft yellow; very early and exceptionally good for forcing. Multiplies well in the garden where it makes a fine show.

Lemon Queen

Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
Standards creamy white; falls canary-yellow with orange stripe; very large flowers; early. 28 inches.

Saxe Blue

Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
A brilliant, clear, delft-blue flower with golden spot on petal near base makes this one of the outstanding new varieties. It has great substance and is fine for cutting.

Wedgewood

Six 60c, Doz. \$1.05, 25 \$1.85, 100 \$7.00
Standards blue; falls lighter blue; excellent for cutting and makes a bold show in the garden as well.

White Excelsior

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00
Uniform pure white; falls very broad, very good form and substance; very early; the best medium-priced white. 22 inches.

Mixed Colors

Here we offer a mixture of about 20 varieties at a very special price for cut flower use. The bulbs are all flowering size but are slightly smaller than those of the named varieties. Hundreds of blooms can be had from these for very little money.

Doz. 90c, 25 \$1.65, 100 \$6.00

Regelio Iris

Andromache (Rare)

Each 45c, Three \$1.20, Doz. \$3.75, 25 \$6.75, 100 \$24.00
A rare and beautiful hybrid, belonging to the Regelio-Cyclus group. Grows about 18 inches tall with several heavily veined flowers of soft lilac, with dark violet sheen. It is the first time since World War II that we are able to offer this rare plant. It loves a sunny, dry place and multiplies quite freely. In very cold sections protect from too cold weather. Blooms in May.

Susiana (Extremely Rare)

Each \$1.25
Unique in form and color, and equally handsome. Intricate veining and speckling of deep dark blackish brown almost completely covering a grayish white ground. Nothing surpasses Iris Susiana as a most unusual and artistic table decoration which usually creates a mild sensation. It is perfectly hardy, increases well. All it asks is a warm, sunny dry place in the garden where it will produce its exotic flowers from year to year. 24 inches.

Iris Species

Danfordiae

Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

A beautiful little Iris from Eastern Asia Minor which was unobtainable for many years; bright golden flowers resembling in form Iris Reticulata, produced in early February. Height 3 inches.

Pavonia (Moraea glaukopis)

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00

Called the Peacock Iris because of a beautifully clear, sky-blue blotch in the center of a pure white flower. Iris Pavonia is hardy and a dozen or so planted together make a very lovely group when in bloom. They multiply quite freely.

Reticulata (Fragrant Iris)

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Spanish or Dutch Iris. Its main value lies in the fact that it may be forced into bloom in the house with the greatest ease. Six or eight bulbs put into a 4- to 5-inch pot when received will bloom about Christmas time. The fragrant blossoms remind one of a bunch of fresh Violets. Perfectly hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rockery. To show it off well, plant a number of bulbs under the white *Arabis Alpina*; you'll enjoy the results more than we can tell you.

Tuberosa

Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00

A rare species, producing charming small green flowers with vivid black blotches. An attractive and unusual flower.

Regilio Iris, Andromache

Iris Reticulata
Perfectly hardy. March blooming. As fragrant as Violets.

LACHENALIA

These bulbs are especially useful for forcing as they can be grown in flats or in pots. Do well out-of-doors in milder climates and are showy in beds, borders, and rock gardens. They have from one to two dozen generally pendulous, firecracker-like flowers, three-quarters to one inch in length, on stems six to nine inches and bloom from late November to February, depending on the time of planting and the temperature in which they are grown.

Cultural Directions: Same as Freesias. May be had to bloom at Christmas. Bulbs multiply freely and may be used from year to year.

Aurea

Six \$1.15, Doz. \$1.90, 25 \$3.35, 100 \$12.00

A beautiful variety producing 8 to 10-inch spikes of golden yellow flowers; very easily grown in the house. It can be had in bloom for Christmas by simply growing it on the window sill in full sun.

LEUCOJUM - Snowflake

Vernum (Summer Snowflake)

Six \$1.50, Doz. \$2.75, 25 \$5.00, 100 \$18.00

This large-flowered Snowflake produces in April and May gracefully drooping white bell-like flowers. Does best when growing in a shady situation and should be left alone as much as possible because the flowers become larger when the bulbs are not disturbed. Particularly fine for cutting.

Ixiolirion Pallasi

IXIOLIRION

Pallasi (Tataricum)

Six 55c, Doz. 90c, 25 \$1.65, 100 \$6.00

A little known but choice hardy bulb which in early June produces several deep blue tubular flowers on slender stems. One of the last of the small "spring" bulbs to flower. Supply very limited.

IXIA - Corn Lilies

Mixed

Doz. 75c, 25 \$1.35, 100 \$4.50

The colors run through all the shades of red, pink, yellow, blush and pure white. These beautiful bulbs from the Cape Colony (South Africa) are far too little known; they should be planted in late autumn and in cold districts must be covered with a thick layer of straw or leaves. Splendid for southern states. Few bulbs are so lovely and graceful and those who live where the climate is mild should plant them freely.

Leucojum Vernum

Dutch and Spanish Iris

Great Beauty, Yet Fast Growing and Inexpensive

Be prepared for a surprise after you plant some of these for they multiply so rapidly that their numbers increase each year and must be weeded out from time to time. Modern Breeder, Cottage and Ideal Darwin Tulips

Recent Introductions—All Superb Varieties

When in 1945 Tulip bulbs could again be imported from Holland, we received from Grullemans, the world famous originators of Ideal Darwin Tulips, a selection of over 100 varieties of their latest creations. All of these new kinds have been carefully tested. The finest of them are now offered in this book and are identified by the word "New." Many are illustrated in color, but printer's ink cannot do them justice nor is there enough space available to illustrate them life-size.

We can unhesitatingly say that any and all are "tops" in color and quality as well as most desirable for our climate. The flowers last longer and are better in every respect. Varieties such as Don Alma, Garden Magic, Chinese Bandit, Treasure Island, and Wm. Tell are but a few which will enthuse you as much as they have done other customers and us, as well.

They are superb and surprising in quality of bloom as well as vigor of growth. There is no doubt that these new varieties as well as many others listed in this catalog will be "the" popular leaders as soon as they are generally available, just as today, Mrs. Grullemans, Glacier, Queen of the Night, and Niphos are in general demand and recognized as the best in Tulips. All of these were introduced by Wayside Gardens some fifteen years ago.

Quality and Size of Bulbs Offered

All Tulip bulbs offered are of XX select grade which is a size larger than usually offered. They are the best obtainable—the cream of the crop.

Abraham Lincoln

Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00

For a number of years, American visitors to the Grullemans Bulb Nurseries have consistently picked one variety which appealed to them more than any other. It is outstanding and a magnificent flower. When last spring, a group of visitors was told it would be introduced next year in America, one suggested it be named Abraham Lincoln as he said—a great Tulip named for a "great man." The color is bright crimson-maroon, outer petals shaded somewhat darker, close to chestnut-red, base dark blue. The flower is larger than usual and of excellent substance. Height 29 inches. Unquestionably, the finest Tulip in the deep red shades.

Six \$1.30, Doz. \$2.15, 25 \$3.75, 100 \$13.00

Advance

A gorgeous new Hybrid introducing into the Cottage strain the blood of *Tulipa Greigi*, the finest red of the Botanicals. It produces giant, blazing red flowers with glittering black centers, growing on strong stems about 30 inches tall.

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

Annie Speelman

A tremendous white Tulip with white base and anthers. The flower is oval-shaped and of remarkable texture. A beautiful garden Tulip of great substance. Will last from two to three weeks, when cut the flower does not open too wide when placed in a warm room. Straight, stiff stem. Height 30 inches.

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00

Arabian Night (New)

Large, perfectly shaped flowers of heavy texture and substance. The color is a most unusual Indian red with darker sheen. No such color has heretofore been available among the Darwin Tulips, nor the flower substance. Stems are 28 inches high. Here is a magnificent dark red Tulip without an equal. We consider it the finest of the dark reds in commerce today. Until last year it was only available in limited quantities but we are happy to announce a good supply.

Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50

Atlantic

The form and habit of this variety are perfect. A Tulip of no mean qualities and of rare beauty. For three years in our trial garden it has been greatly admired. The cup-shaped flower is of good size and of the richest and most brilliant intense deep purple which shines when the sun strikes it. The anthers are pitch-black and the base of deepest blue. A glorious Tulip on a 29-inch stem. Plant it together with ideal Darwin Glacier, for stunning effect.

Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00

Belle Jaune

A beautiful and outstanding yellow hybrid Cottage Tulip, in fact it is one of the finest of the deep yellow. The egg-shaped blossoms are perfect; outside petals are a deep golden yellow; inside sparkling yellow of slightly lighter tone, pure yellow anthers. Stems are strong and erect, about 28 inches tall.

Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$16.75

Bronze Glory

This is one of the most exotic of Tulips in this list. The coloring is superb. The handsomely shaped blooms are rich copper shaded olive and purple; a combination of colors so rich it never fails to draw attention and receive admiration. The excellent substance of the flower and rigid stem make this Tulip one of the choicest. Height 29 inches.

Ideal Darwin Tulip, Annie Speelman

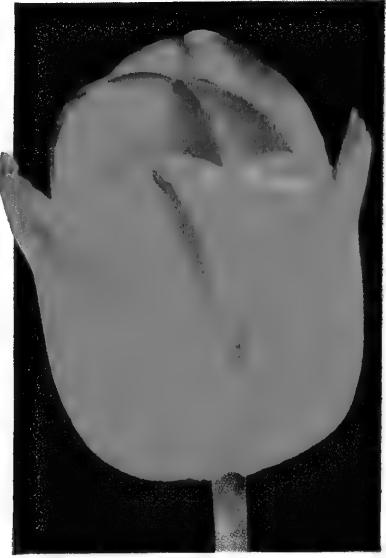

Darwin Tulip, Deborah

Giant Breeder Tulip, Dixie Sunshine

Giant Breeder Tulip, Chinese Bandit

Caroline Testout

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

We named this variety after the well known Rose, Caroline Testout. The color of this Tulip is even more beautiful; of perfect shape, it has exceptional lasting qualities; a soft, glistening pure pink with a large white base. Should be used for the show garden. A Tulip with a great future and the loveliest pink Tulip in existence. Height 30 inches.

Carrara

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

This white Cottage Tulip, no matter where or in what garden it is grown, never fails to create a sensation. In England it is "the" favorite white Cottage and so it is here. The flower is round and beautifully molded and as purely white as the marble from which it takes its name. Height 29 inches. It is no use offering other white Cottage Tulips. None are as good or as cheap.

Charles Needham

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

For simple, unadulterated emphasis, this red Darwin has no superior. It is a color so dominant that it is best in combination with pure white or pure yellow. A superb variety for contrast planting. Flowers of excellent size on stiff, straight stems. Height 28 inches.

Chinese Bandit (Mikado) (New)

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

Immense oval-shaped flower. Chinese red with considerable shading of warm, bronzy orange. The inside of the flower is bright and has a vivid yellow base. Fine, old, striking flower, stem not too tall, about 25 inches. We believe this to be the largest Tulip flower ever raised. It makes a tremendous show in the garden and in addition has remarkable lasting qualities. Looks at its best in front of a dark green background and would be superb in mass plantings.

City of Haarlem

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

A reliable, handsome Darwin of great substance and of a fiery cardinal-red. The dark violet base of this Tulip, outlined in white, gives it a striking effect when open. It is admirably at home among all the lighter colored spring flowers, such as the hardy Alyssum citrinum. Height 31 inches.

Clara Butt

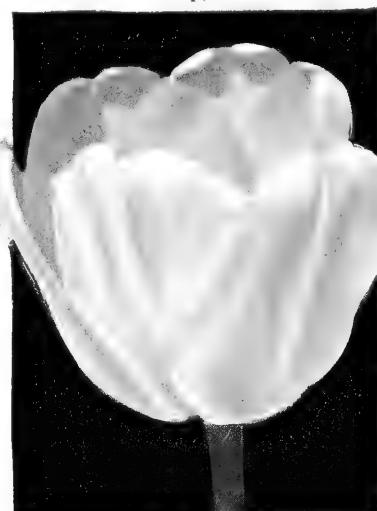

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

Lovely old time pure pink Tulip that should be in quantity in every garden. In some lights elusive soft salmon suffusions in this fine flower add to the interest of the beautiful blossoms. Height 30 inches.

Giant Breeder Tulip, Don Alma

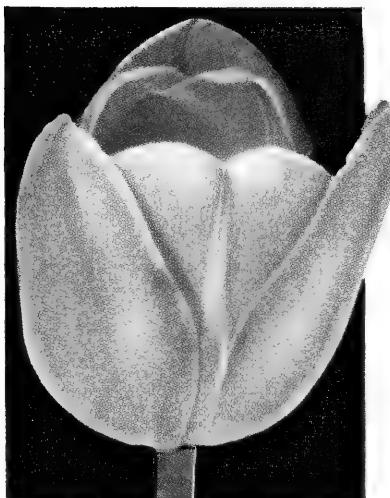

Ideal Darwin Tulip, Caroline Testout

Darwin Tulip, Crimson Giant

Ideal Darwin Tulip, Drammen

Ideal Darwin Tulip, Glacier

Ideal Darwin Tulip, Lafayette

Don Hugo (Improved Indian Chief)

Six \$1.40, Doz. \$2.50, 25 \$4.60, 100 \$16.50

Perhaps the most artistic of all Breeder Tulips; a flower of enormous size carried on a very tall, stiff stem. Of glorious coloring and in every way desirable for every purpose. The beautiful intriguing color is of an Indian-brown, flushed coppery brown; a very effective dark, wood-brown Tulip with a burnished metallic sheen and elusive rose colored lights. One of the handsomest of the brown Breeders, standing on a stem 38 inches high.

Drammen (New) *Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.75*
Outside petals are soft rosy violet, somewhat deeper and more vivid inside with clear light blue base and black anthers. A rare coloring in Tulips and we consider this one of the best new varieties in this particular shade. Height 27 inches. Very long lasting and stands up perfectly under bad weather conditions. Never spots or fades.

Garden Magic (New) *Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25*
This is the nearest to clear yellow ever produced in Breeder Tulips. A golden goblet-shaped bloom with outer petals slightly flushed with purple; the base is clear yellow, the anthers pitch-black. This beautiful variety is a great favorite in our test garden. Height 29 inches.

General de la Rey (New) *Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50*
A large salmon flower shaded lilac-rose and buff with distinct orange in the center, cream-white base. A lovely variety and a color combination not found in other Tulips. This is considered the finest of the new Cottage Tulips.

Glacier *Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50*
A giant among pure white Tulips, white base and white anthers. Tremendous oval-shaped flower of great substance, will last three weeks in the garden or when cut. We do not know of another Tulip its size, some of the flower petals measuring six inches in length. This Tulip is a gem in any collection. Sturdy, straight stem. Highly recommended. Height 30 inches.

Golden Age *Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50*
This is a much improved Yellow Giant, which we do not any longer recommend; a perfect golden yellow bloom on a tall, stiff stem, very brilliant and showy. Height 29 inches. You will like this variety much better than Yellow Giant.

Golden Harvest

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00
Large, deep lemon-yellow flower of great substance; tall, stiff stem. There is a lovely shading of pale green through this flower which makes it one of the loveliest of Cottage Tulips. Height 28 inches.

Golden Smile (New)

Each 50c, Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00

A beautiful new golden-yellow Ideal Darwin. This is one of Grullemans' best and latest new Darwins. The inner row of flower petals are brilliant, clear golden-yellow while the outer row of petals are a shade lighter. The color effect is outstanding. The stems are rigid, 30 inches high. The flower is large and able to take unfavorable weather without damage. We think this is the finest yellow Tulip yet introduced. Supply is limited, so please speak for yours as soon as you possibly can.

Grand Slam

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00
The large oval flower on a 28-inch stem of excellent substance makes this one of the fine new Ideal Darwin varieties. The color is rich rose-red and does not fade when flower ages. An excellent Tulip for American gardens.

Helen Gahagan

Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50
A delightful sulphur-yellow Tulip, inside dark lemon-yellow with yellow anthers; it will turn to creamy white when planted in the garden. Excellent for exhibition purposes. Large, oblong flower which is carried on a stiff, tall stem. Highly recommended. Height 30 inches.

Insurpassable

Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
A mammoth lilac Tulip flower of great substance and carried on a tall and strong stem. This is a great improvement on the well known Darwin Tulip, Wm. Copeland, as the flower is at least three times larger and of better color. Highly recommended. Height 28 inches.

Ivory Glory

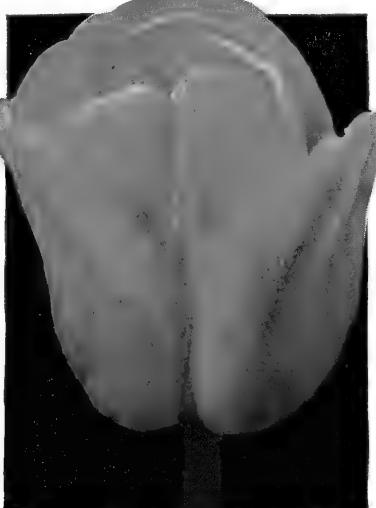

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00
Enormous egg-shaped flower, clear ivory-white and white center. This is without question one of the finest Tulips introduced of this color. Outstanding bedding Tulip and of good substance.

Kathryn Truxton (New) *Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00*

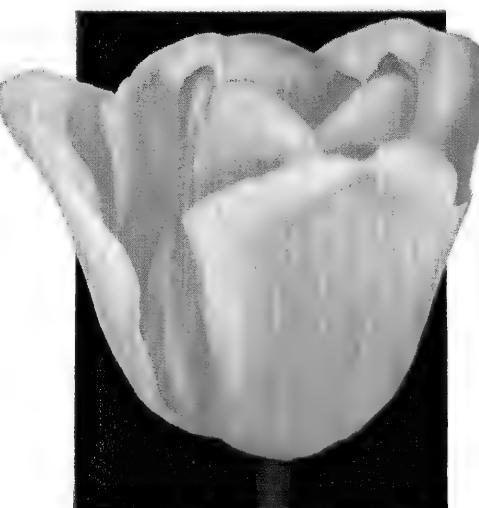

Outside petals soft smoky rose with handsome soft copper-yellow edging; inside soft pinkish lavender lightly shaded with old copper; olive-green base and wiry stem. Long oval-shaped flower of superb form and extra good lasting qualities. Height 28 inches.

Ideal Darwin Tulip, Helen Gahagan

Ideal Darwin Tulip, Grand Slam

Ideal Darwin Tulip, Niphetsos

Ideal Darwin Tulip, Mahogany

Lafayette

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

A great improvement over The Bishop. Without doubt this is the loveliest of the violet Tulips. Nothing so far equals it. The color is pure deep purple-violet and vibrates with life. The substance of the bloom is unusual. Height 30 inches

Mahogany

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

Beautiful deep mahogany with a much darker base; rare color in Tulips. Very large flowers of excellent form. Extremely fine when planted with deep yellow or pure white. Height 29 inches.

Margaux

Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00

Deep wine-red, with broad light edge. Tremendous flower, oval shaped with blue base, and carried on a strong and stiff stem. One of the largest. Height 30 inches

Marjorie Bowen

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

A very unusual shade—a combination of buff and salmon which passes to a deep rose-pink with salmon shading. Large, well formed, and borne on a fine strong stem. Height 24 inches.

Mavourneen

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

A delicate lavender with lighter edges on the petals and bluish base hardly describes this lovely Tulip. Best planted with soft pinks or pale yellows. It is a splendid garden variety. Stiff stems about 30 inches and one of the best of the light blues.

Mr. Farncombe Sanders

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

A vivid rose-scarlet flower of superb form and great size. While an old variety, still a favorite. Splendid for distant effects against evergreens; one of the very best for borders and mass planting where individual size does not matter.

Mrs. Grullemans

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

A lovely pure white Darwin Tulip; flowers are large and of great substance with pure white center, light sulphur-yellow anthers and stiff stem. A noble flower bearing a great name. The best all around white Darwin. Height 27 inches.

Ideal Darwin Tulip, Treasure Island

Giant Breeder Tulip, Olson's Favorite

Mrs. John T. Scheepers

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

Elegantly formed, oval shaped, large flowers of deep golden yellow, very clear of color, are carried on tall, thick, sturdy stems with clear green foliage. The entire plant is of the strongest development. The blooms are enormous with petals of unsurpassed substance and of fine lasting quality. A real giant. This magnificent variety is recognized by experts as one that especially suits the American climate. Awarded highest honors whenever exhibited.

Niphетос

Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50

A glorious soft yellow flower with lighter base and anthers, of perfect ideal Darwin form; the reflexing petals are of a remarkable texture, and have, therefore, greater lasting qualities. The flower is carried on a strong erect stem. It is far superior to any Tulip in this color, and the most beautiful in our collection. Highly recommended. Height 29 inches Acclaimed as the handsomest Tulip grown.

Olson's Favorite (New)

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

Long oval flower, Chinese-red to flame-red, somewhat darker outside; margin of petals is soft clear Chinese-red with orange overtones. Inside flower sparkling reddish flame, base olive and yellow mixed. A very fine flower of immense size and brilliance; looks very good against a dark green background. Height 27 inches.

Persian Beauty

Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50

Here is a perfect flower. Glorious in its extraordinary luminous light effects and its long and slender form, poised firmly at the top of its tall, straight stem. It strikes everyone as one of the wonders of the world of Tulips. Color is deep rich pink or light Jasper-red, with topaz lights and amber edges to the petals, the base and anthers pale corn-yellow. A lovely combination of shades and sweetly fragrant. It has no peer. Where a bright color effect is needed it is superb. Definitely an improvement over Marjorie Bowen. Height 32 inches.

Pride of Haarlem

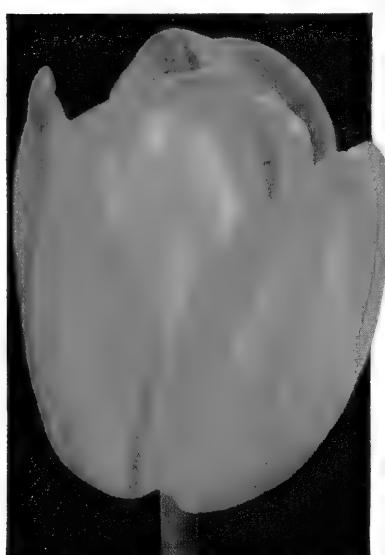

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

Brilliant rosy carmine with blue base; very large flower on tall, strong stem; sweet scented. Height 25 inches.

Pride of Zwanenburg

Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50

This variety appears to be the finest rose-colored Tulip in existence. The color is pure and radiant. The flower is huge, of beautiful form and long lasting; very tall, straight stem. A truly superb Tulip. Height 32 inches.

Giant Breeder Tulip, Kathryn Truxton

Lily-Flowering Tulip, Golden Duchess
(See page 51)

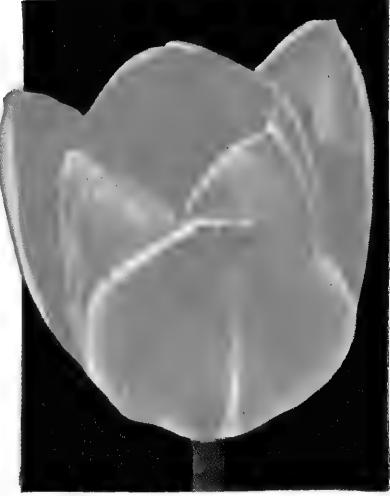

Giant Breeder Tulip, Garden Magic

Chinese Lantern Tulip, Good Gracious
(See page 50)

Ideal Darwin Tulip, Scotch Lassie

Cottage Tulip, Smiling Queen

Princess Elizabeth

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

A charming and extraordinarily lovely rose-pink Tulip with topaz lights and hints of Fuchsia shadowings on the exterior; inside a clearly defined white base with a blue halo. The cup is large and rather deep, of slender yet rounded form, and opens well. Delightful with a foreground of Phlox Lilacina or planted in front of dark green evergreens. Height 28 inches.

Queen of Spain

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$14.00

A charming cream-colored flower delicately flamed and feathered with pink and light rose. There is no other Tulip which can compare with this lovely variety. Flowers have excellent substance; stem strong and wiry. Truly a rare beauty. Height 25 inches.

Queen of the Night

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

One of the darkest Tulips ever introduced. It is superior to Darwin Tulip Mystery and La Tulipe Noire. At last a real black Tulip of rare beauty. Large flower on tall, stiff stems. Height 30 inches.

Roman Eagle (New)

Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25

Rich dark red with beautiful glow and sheen. The flower is very large and long, of excellent substance and quality, carried on a strong stem about 30 inches high. Here is a superb red Tulip never changing color or fading. Makes a perfect show until the end of its blooming season. A fine counterfoil for the pure white Tulip, Glacier.

Rosabella

There are few Tulips that can match this flower. Its color may be described as a delicious pink, warm, delicate yet rich, handsome as a pink rosebud with a blush of deeper color suffusing each petal, and smart black anthers. Not overly tall, yet it carries itself nicely on a stem of 27 inches. An engaging combination with Phlox divaricata or pale yellow Iris.

Royal Guest

Six \$1.35, Doz. \$2.30, 25 \$4.15, 100 \$14.75

A superb white Darwin Tulip which makes a beautiful picture in the garden. Its pure white, bold flowers on strong stems put it in the top class of white Tulips.

Scotch Lassie

Six \$1.00, Doz. \$1.55, 25 \$2.90, 100 \$10.50

Purest deep lavender with darker shade inside and with dark blue base. This variety is far superior to the well known Melicette or any other kind in this color, larger and a far more substantial flower, slightly reflexing. Will last three to four weeks either in the garden or when cut. Among the best lavender Tulips in our collection. Height 26 inches.

Smiling Queen

Six \$1.40, Doz. \$2.50, 25 \$4.60, 100 \$16.50

A beautiful new Tulip. Color Paul-Neyron rose shading silvery pink towards edge of petal. The large pure white base helps create a lovely clear pink effect. The tall stem measures about 30 inches.

Starlight

Six \$1.30, Doz. \$2.15, 25 \$3.75, 100 \$13.00

Very fine lemon-yellow, flushed darker yellow inside with still darker yellow base. Elegant, oblong-shaped flower on straight stem. Highly recommended. Height 24 inches.

Sunkist

Six \$1.30, Doz. \$2.15, 25 \$3.75, 100 \$13.00

The flowers are brilliant golden yellow. The petals are of unusual thickness enabling it to survive the most undesirable weather without damage. It has excellent lasting quality, one of the finest of yellow Darwins. Height 30 inches.

The Bishop

Six \$1.30, Doz. \$2.15, 25 \$3.75, 100 \$13.00

The desirable Tulip is considered the best in its color. It is a tall variety with a medium sized cup of a lively tone of Bishop's purple with fawn colored lights in the reverse of the petals and a white interior base with black anthers. Superb above a carpet of Viola, Sutton's Apricot. Height 30 inches.

Treasure Island (New)

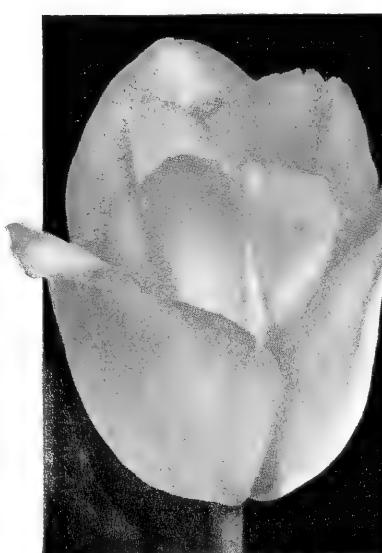

Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00

A rare Tulip. The three outside petals are a soft silvery yellow deepening to primrose-yellow, while the three inside petals are a rich deep shiny yellow. The two-toned effect created is unique as well as charming. Huge, squarish flower with outer petals pointed and tapering outwards. The colors do not fade and the flower has enormous substance, beautiful anywhere. Height 30 inches.

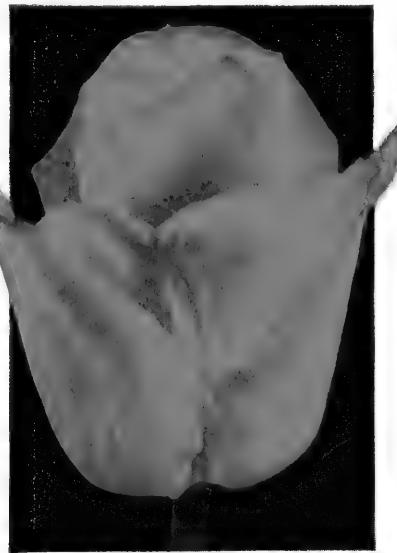

William Tell (New)

Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$17.00

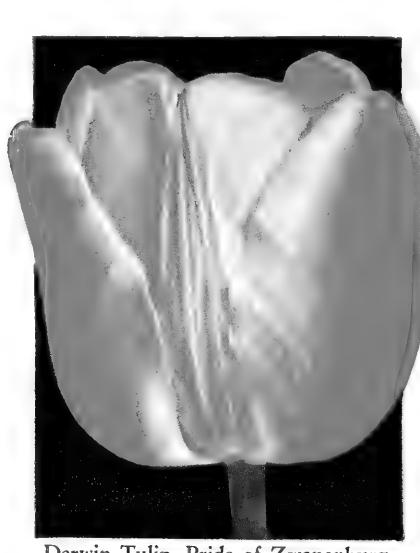

A deeper edition of Clara Butt. Uniform color of pure raspberry-rose with slightly paler flush on edge of petals, rich rose-pink inside; long, stiff stem. Center white, black anthers. We consider this the finest rose-pink novelty in existence. It is a much improved Clara Butt and will be as popular and used in as great quantities as Clara Butt was when the bulbs are more plentiful and available. Height 26 inches.

Cottage Tulip, Queen of Spain

Wayside's Tulip Mixture of Famous Varieties

A Symphony of Harmonious Colors—Long, Strong Stems
Containing Only the Finest Varieties, Carefully Mixed

Each year we arrange with Grullemans of Holland to set aside for us several thousands of choice and top size Tulip bulbs in hundreds of varieties. The finest among them are then blended into our popular mixture.

Among these superior bulbs you will find Cottage Tulips, Darwin Tulips, Ideal Darwin Tulips, Giant Breeder Tulips, as well as Multi-flowered, Lily-flowered and Chameleon Tulips. The colors are harmoniously blended and properly proportioned. Likewise, only those of the most graceful shapes and forms are deemed fit to go into this pleasing mixture.

The demand for this ever-popular Tulip Mixture will be very heavy. It is each year; in fact, most everyone who has ever bought it asks for additional bulbs each season. Therefore, we urge you to place your order TODAY. Order with confidence, remembering our iron-clad guarantee of Superior Quality. Be assured that this Tulip Mixture cannot be duplicated anywhere at double the prices shown below.

Therese

Parrot Tulips

You will enjoy some of these new quaintly shaped flowers, particularly for house decoration. They are stunning in clumps here and there in the border, in front of shrubs or groups of evergreens. Their artistic form and coloring make them especially suitable for cut-flower purposes. Fantasy is recommended for pot culture also. Forced slowly, in not too high a temperature, it develops into one of the most unusual Orchid-like flowers you have ever seen.

Blue Parrot

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

A glorious Parrot Tulip of bright violet shaded steel-blue. The unusual flower is large and carried erect on a strong 30-inch stem. A rare novelty.

Fantasy

Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00

The gorgeous pink Parrot Tulip. A sport of Clara Butt, with the same habits, height, strength of stem and time of flowering. The flowers are of unusual and beautiful form, the petals being laciniated, having curious excrescences on the outside. It is not only the rare form of this Tulip or its main color, which is a soft rose-pink; the shadings of the cup are a deep velvety rose color which is more sumptuous than words can tell. The encrustation of back petals often carries a delightful shade of apple-green. Height 26 inches.

Gadelan

Six \$1.40, Doz. \$2.50, 25 \$4.60, 100 \$16.50

A sensational flower, reminding one of a Cattleya Orchid in color and shape. When fully developed it often measures 7 inches across with a blending of blues and purples, edged white with blue-green markings. The inside of the flower is bright violet-purple with white center and contrasting black anthers. Fine sturdy stems. Height 22 inches.

Orange Favorite

Six \$1.00, Doz. \$1.55, 25 \$2.85, 100 \$10.25

Glistening deep orange, shaded rose, inside deep orange-scarlet with yellow base; sweet scented flower of great size and brilliant coloring. Height 23 inches.

Pink Champion

Six \$1.40, Doz. \$2.50, 25 \$4.55, 100 \$16.25

Blush-pink and heavily laciniated flowers make this the best of the Parrots in this particular shade. It is a variety which is much used in Europe for cutting. We prefer the deeper colored kind, Van Dyck, but many people like the apple-blossom color of Pink Champion.

Texas Gold

Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

A bright, clear, golden yellow flower of excellent substance is carried on a stiff stem about 24 inches tall. Texas Gold is much superior to Sunshine which we have discontinued.

The Black Parrot

Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00

This rare, black-flowered Parrot Tulip we can offer only in a very limited quantity. It is a most exotic flower and in tremendous demand by Dutch growers who are all trying to obtain a few bulbs for growing on and building up their stocks. This purple-black Parrot flower is so unique and strange we thought we would offer a few to our customers but we cannot guarantee delivery of bulbs if ordered after September 1st. The bulbs are too rare and will be planted by the grower immediately after that date.

Culipa Grullemanni

The result of crossing Kaufmanniana with the Darwin. The flowers are long and large, carried on stout stems holding the blossom boldly upright. All are about 27 inches in height and of remarkably robust habit, resisting disease or all sorts of ailments. Their coloring is unique and most attractive. Inga Hume being greatly admired at London, Paris, and Berlin Flower shows. Easily grown and tremendously long lasting. In the garden they will outlast any Tulip in existence. The bulbs multiply rapidly. May we suggest you plant a few this fall.

Inga Hume

Six \$1.30, Doz. \$2.15, 25 \$3.75, 100 \$13.00

Inside deep yellow slightly sprayed red, outside red with broad, shapely lined yellow edge, large black base, perfectly formed large flower on erect stem, very fine variety. Highly recommended for forcing, it will outlast any other Tulip and becomes more beautiful as the flower ages. Height 24 inches.

Multi-Flowered Tulips

Bunch-flowering or Multi-flowered Tulips are a most interesting lot. Instead of producing the conventional single stem with one bloom on top, the varieties offered under this heading all grow a strong main stem with from three to six branches half way up the stem, each side shoot or branch carrying its own flower. The result is that three to six, or sometimes eight, flowers are obtained from one bulb on one stem. All the blooms are of good size, are gracefully spaced and as you can well imagine, produce an unusual and great mass of color.

Rose Mist

Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00

A lovely pink-colored variety with five to six flowers open at the same time. We highly recommend this variety as it is without question one of the best pinks. Height 26 inches.

Wallflower

Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00

Shiny Wallflower-red, interior clear yellow. Of vigorous growth; tall straight stem with five or more good sized flowers. A favorite in all trial gardens in America. Highly recommended. Height 27 inches.

Multi-Flowered Tulips in Mixture

Six \$1.40, Doz. \$2.45, 25 \$4.45, 100 \$15.75

There are several more varieties of bunch-flowered Tulips available in Holland. We, however, list only the two most popular because of their unusual colors. This mixture contains the kinds offered as well as several others in many shades.

Therese

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

Bright cochineal-red with green markings on outside. Inside of flower is a vivid scarlet with white center tinted blue. This variety is the Parrot form of Darwin Tulip, Farncombe Sanders. A brilliant and most interesting Parrot Tulip. Height 30 inches. The best by far of the red Parrot Tulips.

Van Dyck

Each 50c, Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

This variety is without question the finest of the Parrot Tulips. The remarkable flowers are brilliant rose-pink, somewhat paler at the edges on the outside. Inside very bright rosy red. The flowers are enormous and carried on a strong stem. Van Dyck may well be termed a vastly improved Parrot Tulip Fantasy which still is a great favorite. Height 26 inches.

Violet Queen

Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50

Here we come close to perfection. A flower of remarkable size, colored a delicate and beautiful pearly blue. The stem is 27 inches tall and carries the flower very gracefully. A rare novelty.

Mixture of Parrot Tulips

Many gardeners are not familiar with these flowers so in order to give you a chance to see and learn to know them, we offer a small lot of 30 bulbs, 3 of each kind, without name.

Three Bulbs Each, not labeled, of the 10 Varieties listed above, for \$6.50

Collection of Parrot Tulips

Illustrated on opposite page are the very best varieties of Parrot Tulips including the rare true Black Parrot. A Collection of these in your garden will be an item of unusual interest. All bulbs will be carefully labeled.

6 Bulbs Each of the 6 Varieties Illustrated for \$8.50
12 Bulbs Each of the 6 Varieties Illustrated for 15.00

Tulipa Kaufmanniana

Chinese Lantern Tulips

The general effect is that of lighted delicately colored Chinese Lanterns. The perfectly formed globular blossoms glow with an iridescent light not heretofore seen in Tulips. The colors are too exquisite to accurately describe. They have been admired by visiting growers from all over Europe.

Good Gracious Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.75
Brilliant salmon outside, inside of cup is translucent salmon-pink of great beauty. Height 25 inches. One of the loveliest of Tulips.

Double Early Tulips

Double Tulips are chiefly grown for their show effects in masses and are very lasting. Where a display of color is desired they are very satisfactory. Excellent for growing in pots or pans.

The following list contains the worth-while sorts.

Marechal Niel Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
A bright orange-yellow Tulip of great beauty and substance; its color resembles that of the famous Marechal Niel Rose. The best in this color for forcing.

Mr. Van der Hoef Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
A yellow sport of Murillo with all its superb qualities. One of the very finest of the primrose-yellow, Double Tulips. A very lovely flower.

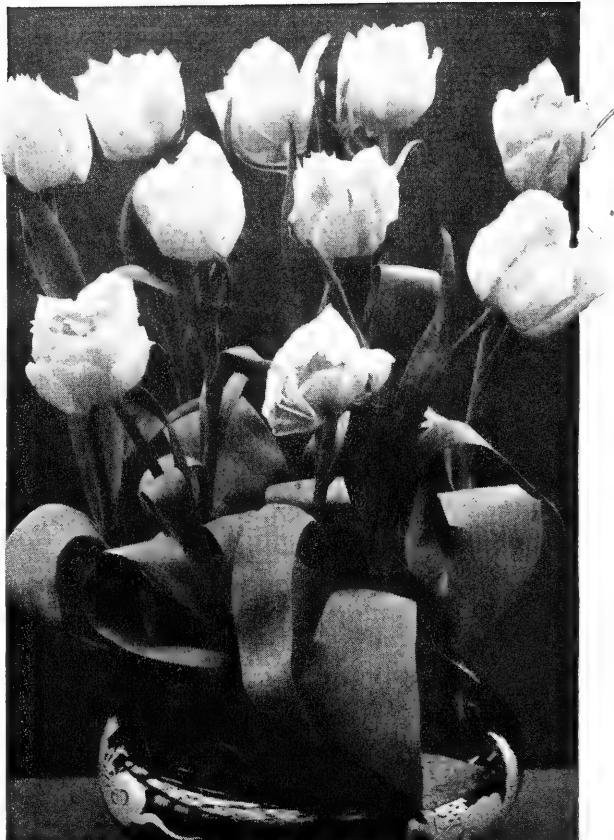

Murillo Maximus Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
Delicate rose-pink, flushed white. Fine for bedding, and excellent for forcing.

Peach Blossom Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
Bright rose-pink, flushed white, deepening with age to carmine-rose; large. Excellent for pots.

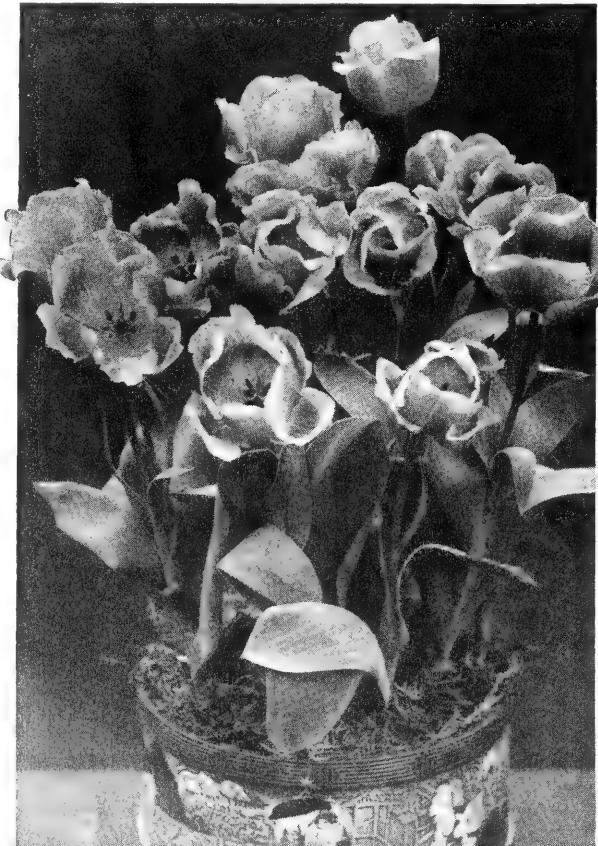

Scarlet Cardinal Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00
Excellent scarlet for bedding and forcing. The best of the double red varieties.

Schoonoord Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
A beautiful, pure white sport of Murillo, with the same excellent forcing qualities. One of the best double white varieties, if not the best.

Mixed Double Tulips Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. Made up of the best named sorts and in equal proportions of each variety.

Double Early Tulips

Single Early Tulips

Single Early Tulips

Few, if any, of the spring-blooming flowers rival the Single Early Tulips for brilliancy of bloom or ease of culture. They are excellent subjects for formal beds on the lawn or for garden borders. While they do not possess the same size of bloom and length of stem as the May-Flowering Darwin, Breeder, and Cottage varieties, they are used where earlier blooms are desired. All of the varieties may be forced into bloom in January, while all of them may be easily had in flower pots late in February or early March.

Brilliant Star Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
Bright vermillion-scarlet, same color as Vermilion Brilliant, but larger and of great substance. Splendid early forcing, flowering easily for Christmas.

Couleur Cardinal Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
Brilliant crimson-scarlet with a deeper tone of bloom on the outer petals. A bed planted wholly of this variety is a grand sight. Fine for mid-season forcing.

De Wet Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00
Golden yellow flushed deep orange; large, sweet-scented flower of erect habit. Quite different in color from any other variety.

Diana Six \$1.10, Doz. \$1.80, 25 \$3.25, 100 \$11.50
Large, long, snowy white flowers of splendid shape. The finest white for bedding, and superb for pots or pans.

Keizerskroon Six \$1.35, Doz. \$2.40, 25 \$4.35, 100 \$15.50
Brilliant crimson-scarlet edged clear, rich yellow; excellent, large flower on long stem. Fine bedder; splendid for forcing.

Princess Juliana Six \$1.10, Doz. \$1.85, 25 \$3.30, 100 \$11.75
Bright cherry-rose, center of petals striped white. It has no equal as a bedder, for the stem is strong and the white center of the big, fleshy petals shows very conspicuously against the broad, vivid rose edges. Does well in pans, but not before March.

Rising Sun Six \$1.30, Doz. \$2.15, 25 \$3.85, 100 \$13.25
A variety used for exhibition on account of its pure yellow color and wonderful size and substance. The finest golden yellow Early Tulip introduced to date.

Rose Luisante Six \$1.40, Doz. \$2.50, 25 \$4.50, 100 \$16.00
Large, brilliant, deep rose-pink flower. Splendid for bedding or pots.

Single Mixed Six \$1.05, Doz. \$1.70, 25 \$3.00, 100 \$11.00
This is our own special mixture which we recommend where the best results are desired in beds of mixed colors. This mixture is made up of hundreds of named sorts and in equal proportions of each variety.

Peony-Flowered Tulips

(Double Cottage Tulips)

These flower at the same time as the Cottage Tulips. They are thankful for a little shading against hot midday sun which will help them to carry their heavy Peony-like blossoms erect.

Bleu Celeste Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00
Large, violet-purple Tulip flowering later than any other double sorts. It is very fine for indoor decoration and for the garden. Height 18 inches.

Clara Carder Six \$2.10, Doz. \$3.65, 25 \$6.65, 100 \$23.50
A fine, big bold flower, fully double, of richest Tyrian purple. It is considered one of the best in this group and certainly the best in this color.

Eros Six \$1.75, Doz. \$3.25, 25 \$5.75, 100 \$22.00
Very large flower of clear old rose. A very interesting Tulip, as the flower resembles a Peony flower very closely. One of the best doubles for the American garden as the flower has fine substance. Height 20 inches.

Mount Tacoma Six \$1.25, Doz. \$2.00, 25 \$3.50, 100 \$12.50
A magnificent giant double white Tulip which reminds one of a Peony in full bloom; superb for beds.

Rocket Six \$2.10, Doz. \$3.65, 25 \$6.65, 100 \$23.50
A magnificent crimson-red Peony-flowered Tulip. It really is a "sport" of Eros. It has the same form and habit as Eros (which is illustrated) but as stated before, it is of brightest crimson-red. Makes a bold show in the garden.

Royal Yellow Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00
18 inches. The finest double yellow ever introduced, of a lovely clear yellow color, exquisitely formed blossom. A flower of unusual symmetrical perfection.

Peony-Flowered Tulips in Mixed Colors
Six \$1.75, Doz. \$3.00, 25 \$5.50, 100 \$20.00
This mixture contains not only the varieties offered but also several other kinds which we do not list. For a riot of color this will answer the purpose splendidly.

Collection of Peony-Flowered Tulips

Lily-Flowering Tulips

The Tulips offered under this heading have been kept by themselves because of their distinct Lily-like flowers. They really belong with the Cottage Tulips but would be lost or difficult to find if offered in that already quite large group.

Lily-flowered Tulips bloom the same time as the Cottage Tulips, and are best used where a light, airy, and graceful effect is desired. The delicately curved petals give a delightful effect. As a flower for cutting, it surpasses the regular Tulip because they are so much more graceful. Don't miss planting a few this year. The best varieties in existence are offered here.

Astor Six \$1.35, Doz. \$2.25, 25 \$4.10, 100 \$14.50
A delightful salmon and rose tinted flower with soft buff-pink shadings. The gracefully pointed petals create a delicately formed flower. The stem is about 26 inches high.

Fascinating Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00
Exterior bright sulphur-yellow, interior dark lemon-yellow, large reflexing petals of perfect shape; tall, straight stem. Height 26 inches.

Golden Duchess Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00
Large, long-pointed flower with golden yellow reflexing petals on stiff stem. We believe this to be the best of the Lily-Flowered Tulips in this color; not overly tall, 23 inches.

Martha Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50
American-beauty-red blooms which when open are star-like and reveal a white center which is edged with vivid blue. This variety is quite outstanding. The flowers are exceptionally long lasting. Height about 26 inches.

Rhodes Six \$1.40, Doz. \$2.45, 25 \$4.45, 100 \$15.75
Deep satiny pink flowers which, when open, show a pure white center. A charming variety about 24 inches high.

Sidonie Six \$1.45, Doz. \$2.60, 25 \$4.75, 100 \$17.50
The flower is perfectly shaped and of the most unusual Bordeaux-wine red shade with a rich undertone of purple which becomes more pronounced as the flower ages. Grows about 21 inches tall.

Spitfire Each 50c, Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50
Without doubt, the finest of the red Lily-Flowering Tulips. Large, long, handsomely vase-shaped flower with sharply pointed petals. Color brilliant scarlet and very long lasting. It is superb as a cut flower and most attractive and showy in the garden where it will outlast most other Tulips. Height about 26 in.

The Bride Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00
Handsome, creamy white flowers which with age turn to purest white. A graceful Tulip for cutting and for use in combination with other flowers. A "must" for 1954. Height about 23 inches.

Yankee Girl Six \$1.40, Doz. \$2.50, 25 \$4.60, 100 \$16.50
A glorious Tulip of a salmon-buff color. The flower petals are strongly reflexed and curled in a half-circle. The only Lily-flowered Tulip of this shape. Standing up straight, petals are very thick and it has better lasting qualities than any other. Height 24 inches.

Lily-Flowering in Mixed Colors Doz. \$2.15, 25 \$3.75, 100 \$13.00
This is a mixture containing the above varieties as well as several more which could not be offered for lack of space. You will find the Lily-flowered Tulips charming for cutting as well as for garden display.

FOOD FOR THOUGHT

As Well as for Your Flowers

Plants, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers. But, they are mostly only stimulants.

What your plants need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce good sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 1 and get the full facts about it.

Culip Species and Hybrid Species

Particularly valuable because they are permanent. Once planted they need no further care and come up every year.

Tulip species, coming as they do from southern Europe and Asia, should be planted in dry, sunny locations. The following collection of Tulip Species or Botanical Tulips include a great number of beautiful and interesting varieties, which show a bewildering variation of size and shape of flowers, structure of the leaves, habits, etc., and they only have in common that they grow wild in some part of the world, Asia Minor, Central Asia, Greece, the Mediterranean, etc. Cultivation has not modified them and they may be planted in the rock garden between creeping plants or in colonies in small, warm nooks where they will come up year after year without any care.

Acuminata (Cornuta stenopetala, Chilensis)

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00

The long, very narrow tapering petals end almost in a threadlike point. One of the most unusual and distinct species. The long flower is yellow streaked with orange-red. Height 10 inches.

Biflora

Six \$1.20, Doz. \$1.85, 25 \$3.35, 100 \$12.00

This species is a native from the Altai Mountains and does not grow over 5 inches tall. The short stem is crowned with a cluster of several small, dainty white flowers. A charming variety for the rock garden.

Chrysanthia

Six 70c, Doz. \$1.20, 25 \$2.20, 100 \$8.00

Small flowers on slender stems, yellow exterior of petals often flushed with copper-red, very charming. Height 6 inches.

Clusiana

Six \$1.35, Doz. \$2.25, 25 \$4.00, 100 \$13.50

A charming species, known as the Lady Tulip. Small flower on 14-inch stem, white; exterior crimson, dark blue base; very fine for cutting.

Dasystemon

Six \$1.35, Doz. \$2.35, 25 \$4.25, 100 \$15.25

A dwarf growing species, white flowers with bright yellow eye. Usually blooms with 3 to 5 flowers on a stalk. Height 5 inches.

Eichleri

Six 75c, Doz. \$1.35, 25 \$2.55, 100 \$9.25

Splendid large crimson-scarlet flowers, yellow and black center, effective in the flower border or rock garden. Height 10 inches.

Hageri

Six \$1.45, Doz. \$2.50, 25 \$4.65, 100 \$16.75

Small flowers, coppery red with darker base, very distinct, inside a dusky copper. Height 6 inches.

Humilis

Six \$3.50, Doz. \$6.50, 25 \$12.00, 100 \$45.00

This is also named Celsiana Kotschy. It is a native of Persia, not over 6 to 8 inches tall. Its dainty flowers are soft purple. Multiplies freely and is one of the earliest to bloom.

TULIPA, FOSTERIANA Red Emperor

Six \$1.60, Doz. \$2.95, 25 \$5.35, 100 \$19.00

Magnificent variety, large, rounded, vermilion-scarlet petals; handsome black, yellow bordered base. Height 18 inches. A veritable giant!

This is the true giant early flowering kind and not something like it.

Kaufmanniana

Six \$1.50, Doz. \$2.75, 25 \$5.00, 100 \$18.00

White and yellow, pink outside, called the Waterlily Tulip, as the expanded flowers resemble a *Nymphaea*. The earliest to flower of all Tulips, large flowers. Height 7 inches.

Kolpakowskyana

Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00

Yellow, outside scarlet striped. A beautiful species carrying its flowers on slender stems. Height 14 inches.

Linifolia

Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00

Charming for the rock garden. Narrow undulated leaves, small brilliant scarlet-vermilion flowers with black base. Height 6 inches.

Marjoletti

Six 80c, Doz. \$1.40, 25 \$2.60, 100 \$9.50

A very pale yellow, exterior edge of petals rosy red, very charming in the rockery. Height 16 inches.

Persica (Breyiniana)

Six \$2.25, Doz. \$4.00, 25 \$7.00, 100 \$25.00

Yellow, outside bronze, dwarf and late. Two or three flowers on one stem. Height 3 inches.

Praestans

Six \$2.75, Doz. \$5.00, 25 \$9.50, 100 \$35.00

A fine tall growing species, several scarlet flowers to each stem. Height 9 inches.

Rockery Beauty

Six \$2.25, Doz. \$4.10, 25 \$7.50, 100 \$26.00

One of the earliest of Hybrid Species Tulips to bloom. The intensely brilliant vermilion-red flowers last a long time and surely "set the garden on fire." Height only 8 inches, and therefore quite a favorite in Europe in the rock gardens.

Saxatilis

Six \$1.35, Doz. \$2.30, 25 \$4.20, 100 \$15.00

Very rare, bearing often two lilac flowers with yellow center on each stem. Should be planted in a sheltered position as the leaves appear early. Height 7 inches.

Sylvestris (Florentina Odorata)

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

Small flowers golden yellow, usually in pairs and nodding, fragrant, recommended for wild gardening. Height 10 inches.

Turkestanica

Six 90c, Doz. \$1.50, 25 \$2.75, 100 \$10.00

Miniature Tulip, many flowered, white, yellow center. A lovely rock garden subject. Height 5 inches.

Culipa Kaufmanniana Variations

SOMETIMES CALLED WATERLILY TULIPS

One of the most charming Tulip Species is *Tulipa Kaufmanniana*. Blooming long ahead of other Tulips on short stems with its wide open flowers exposed to the sun, give it a charm all its own. Last but not least it is one of the most permanent Tulips, coming up year after year without any care. No question but what the lovely variations offered here will be even more popular. All have the same characteristics as the original species; they differ only in color and size.

Cesar Franck

Six \$2.60, Doz. \$4.65, 25 \$8.50, 100 \$31.00

Golden yellow inside, outer petals marked brilliant red with red and black center.

Johann Strauss

Six \$2.40, Doz. \$4.25, 25 \$7.75, 100 \$27.50

Little larger than most. Creamy white, outside of petals soft red.

Gaiety

Six \$3.00, Doz. \$5.75, 25 \$10.75, 100 \$40.00

White inside, outside striped dull red. Exceedingly dwarf, flowers seem to rest on the foliage.

Gluck

Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00

Large round sulphur-yellow flower, center tinted reddish brown, outside petals are a distinct red. Foliage attractively spotted brown.

Primrose

Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00

Soft primrose-yellow with deeper yellow center. Very cheerful.

Scarlet Elegance

Six \$2.25, Doz. \$4.10, 25 \$7.50, 100 \$26.00

Inside brilliant scarlet, outside soft dull red. Gives a most brilliant effect.

Shakespeare

Six \$2.50, Doz. \$4.50, 25 \$8.25, 100 \$30.00

Apricot-orange with sparkling yellow center.

Sweelinck

Six \$2.70, Doz. \$4.85, 25 \$9.25, 100 \$33.00

All over yellow but with small marking at the tip of each flower. Flower shows up brilliantly on top of its green but chocolate-brown-edged foliage.

Vivaldi

Six \$2.65, Doz. \$4.75, 25 \$9.00, 100 \$32.00

An unusual flower of red and white. The effect is quite unusual. A good strong grower.

Kaufmanniana Hybrid Mixture

Doz. \$4.00, 25 \$7.00, 100 \$25.00

Contains all varieties listed as well as several more. Here is something that will give you an attractive small patch of color long before your other Tulips come into bloom.

Hardy Herbaceous and Alpine Plants

For Autumn Planting

Dicentra Bountiful—This is one of the most unusual and free flowering plants ever introduced.

Funkia Variegata (See page 54)

Dicentra Hybrid, Bountiful

(U. S. Plant Patent No. 1198)
The New Perpetual Flowering
Bleeding Heart

This is a remarkable Hybrid, in a robust way resembling the Plumpy Bleeding Heart (*Dicentra Eximia*) but vastly superior. It forms a clump fully 18 inches in diameter, of handsome dark blue-green foliage, about 10 inches high. The flowers appear in early May and as many as 30 to 40 flower stems can be counted on a 2-year established plant. Stalks are about 18 to 20 inches tall and topped with fuchsia-red flowers which are about double the size of the common Plumpy Bleeding Heart. It comes into bloom before *Dicentra Eximia* and the flowers last well into July. Throughout the summer a few flowers are produced; but in the early autumn, it blooms as freely again as it did in spring. Perfectly hardy, does well in any well drained soil and prefers sun to shade. As we said before, a remarkable plant with a great future, we predict it will, before long, be growing in most of the gardens in this country. Happy in either light shade or in full sun.

Each \$1.25, Three \$3.05, Doz. \$9.50

Phlox

Stolonifera, Blue Ridge

Each \$1.00, Three \$2.55, Doz. \$7.25
This creeping Phlox came to us from England a few years ago. It has been carefully tested for habit and winter hardiness at Mentor and we find it perfect in that respect as well as outstandingly beautiful. It creeps over the ground but sends up upright stems about 3 or 4 inches tall which carry on top a cluster of the handsomest blue flowers you have ever seen and a shade which cannot be reproduced accurately by printer's ink. Here is a choice small plant for shady places in border foreground or rock garden.

Phlox Stolonifera, Blue Ridge

A superbly colored dwarf blue Phlox for shady places as well as in sun.

New Giant Hibiscus

Here are Three Examples of the New
SUPER GIANT HIBISCUS

They are offered in finest mixed colors
at 90c Each; Three \$2.25; Doz. \$6.50.

For named varieties and additional information
please turn to page 65.

Hardy Herbaceous and Alpine Plants

This is not a complete listing of all the Hardy Plants grown at Wayside Gardens. At this time we offer only those varieties and kinds which do best when transplanted in the autumn.

* Indicates plants suitable for either rock garden or border.

** Dwarf or low growing plants best grown in the rock garden.

ACHILLEA - Milfoil or Yarrow

Showy rock and border perennials, some of which are valuable for cut flowers. Some have silvery and others elegantly cut foliage, which adds considerably to the beauty of the plants.

Culture. All will succeed in any good, ordinary soil in sunny borders. A too rich soil should be avoided. Plant in autumn or early spring, 8 to 10 inches apart. As nearly all grow freely, it is advisable to lift, divide, and replant every third year. Directly after the plants cease flowering, cut the shoots back.

Ptarmica, Snowball *Three \$1.70, Doz. \$5.50, 100 \$25.00*

An improvement on "The Pearl," which we have discontinued, with fuller and more perfect flowers. Best for borders; neat plant. Excellent cut flower.

Taggetea *Three \$2.00, Doz. \$5.75, 100 \$30.00*

A splendid plant for hot dry sunny places. Does well in the most indifferent soils. The pale yellow flowers grow on 18-inch stems which are produced in great profusion from June until the end of September. Excellent cut flowers as well as a first rate border plant.

ALYSSUM - Madwort; Basket of Gold

Attractive early flowering perennials, suitable for growing on the margins of sunny borders or in sunny places in the rock wall or rock garden.

Culture. The varieties offered will succeed in any good, ordinary soil which must be thoroughly drained. They are best grown in groups of three or more in the rock garden, or as edgings to beds. Plant in fall or spring, about 6 to 8 inches apart. *Alyssum Saxatile* is frequently used for carpeting beds planted with spring bulbs, and is very effective for that purpose.

***Saxatile compactum** *Three \$1.70, Doz. \$5.50, 100 \$25.00*

Big clusters of bright yellow flowers in early spring. An excellent plant for the rockery or front of borders. One of the best early yellow plants to use with Tulips; 12 inches high.

***Saxatile citrinum** *Three \$1.80, Doz. \$5.65, 100 \$28.00*

Same habit of growth as *Saxatile Compactum* but the flowers are a lovely pale yellow; much more desirable. They blend beautifully with pink and lavender Tulips and are outstanding in the spring garden or rockery.

Two Each of the Above Two Varieties, \$2.15.

AJUGA - Bugle

Dwarf, creeping perennials. The leaves are a rich shiny green, and the shoots more or less creeping. Excellent plants for edging or carpeting bare spots. Suitable for sun or shade.

Culture. They will thrive in good, ordinary soil in sun or partial shade. They make excellent edging plants in shady borders or for shady spots in the rock garden where a quick growing plant is required, also excellent for carpeting ground under shade trees where grass will not grow. Plant in autumn or spring, 5 inches apart.

***Genevensis** *Three \$1.70, Doz. \$5.50, 100 \$25.00*

Grows 6 to 8 inches high; dense spikes of blue flowers in May and June. A neat ground covering plant for shady as well as sunny places.

ANCHUSA - Alkanet

Stately and handsome herbaceous perennials belonging to the Forget-me-not order. It is difficult to imagine a more beautiful plant than a well grown specimen of a *Dropmore* when in flower. The leaves are hairy and silvery green and the brilliant blue flowers are borne in racemes on branching stems.

Culture. Anchusas require a deep, well drained soil, not too damp or heavy, and a sunny position. They are best grown singly, so that they can display their natural contour to good advantage. Plant in fall or early spring, 18 inches apart, except *Myosotidiflora*, which should be planted in groups of three or more, about 8 inches apart.

Dropmore *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*

Tall spikes of beautiful blue flowers in June and intermittently all summer. 4 to 5 feet. A very valuable border plant.

***Myosotidiflora** *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

A distinct dwarf perennial from Russia, with clusters of charming blue flowers resembling Forget-me-nots. An effective plant for shady or sunny places, flowering in May and June. 12 inches high. Hardy as an Oak. Grows anywhere.

ANTHEMIS - Chamomile

Free flowering perennials with elegantly cut foliage and Daisy-like flowers. Suitable for edgings or grouping on the margins of borders. Flowers are especially fine for cutting.

Culture. Ordinary soil and a sunny position will suit all kinds. Plant in autumn or spring, 10 to 12 inches apart.

Golden Dawn *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

(Patent No. 859.) A splendid addition to the perennial border plants for gardens everywhere! Bold upright stems with absolutely fully double flowers. The color is clear, golden yellow, unaffected by sun; the solid flowers withstand the most impossible weather without damage. The stiff stems are long and excellent for cutting. Flowers are long lasting and the plant blooms throughout the summer. It will grow in almost any kind of soil providing it is reasonably well drained, be it Alaska or Alabama. It is hardy as an Oak. What more could be asked?

Moonlight *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

Few plants are more satisfactory in the garden than *Anthemis Moonlight*. Its pleasing pale yellow Daisy-like flowers are 2 1/2 inches in diameter and produced by the hundreds, making a gorgeous show in early summer. They are superb for cutting and the handsome flowers last for several days in water. They blend beautifully with all other flowers. The habit of growth is neat. Insects do not bother it, grows in almost any kind of soil, does not spread unduly and crowd out other plants. The foliage is ornamental. Not much more can be asked of any plant.

Anthemis Grallagh Gold

Introduced in Europe three years ago, it has been one of the most popular border plants. It forms a huge bouquet of several hundreds of golden flowers. Grows 2 1/2 ft. high and 2 ft. through. It is an ideal border plant and par excellence for cutting. It is perhaps as a cut flower that *Grallagh Gold* will most appeal. The flowers are borne on stiff wire-like stems and last over three weeks when cut. It is in full bloom from early June till September. Absolutely hardy anywhere. Loves sun and a well drained soil.

Each \$1.00, Three \$2.55, Doz. \$7.25

AQUILEGIA, GIANT LONG-SPURRED HYBRIDS

By careful selection we have produced a lovely strain of long-spurred Aquilegias. Their colors range through all shades of pink, rose, blue and yellows. A number of these in full bloom is a lovely sight in the garden. They are excellent for cutting and blend gracefully with other flowers. We suggest planting them in combination with Japanese Anemones so that the spot in your garden where the Columbines bloomed in early summer will again be colorful in the autumn. We offer a fine lot of big plants which will bloom the first year.

Giant Blue Hybrids

Fine shades of blue.

Three \$1.70, Doz. \$5.50, 100 \$25.00

Giant Pink Hybrids

Three \$1.70, Doz. \$5.50, 100 \$25.00

A variety of lovely shades of pink.

Giant Mixed Hybrids

Three \$1.70, Doz. \$5.50, 100 \$25.00

This is a very choice mixture of all the colors listed above, including several intermediate colors. A planting of the Giant Mixed Columbines will make a beautiful show in the spring garden and are unexcelled for cutting.

ARABIS - White Rock-Cress

Useful plants, suitable for forming edgings to beds and borders, and fine for rockery or dry wall.

Culture. Any good, ordinary soil that is not too damp will suit the *Arabis*. Plant 6 inches apart in autumn or spring. After the flowers have faded cut the straggling shoots back moderately to encourage a new tufted growth. Do well in either shade or full sun.

*Alpina

Pure white flowers produced in dense masses, splendid for border and rockery work, and last quite some time when cut.

*Alpina flore-pleno

Three 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Same as above but with double white flowers; very fine rock plant and fine for cutting. Really a lovely thing when combined with other small flowers.

*Pink Charm

Three 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

A novelty of merit. Its bright rose-pink flowers form a fine contrast for those of the white *Arabis*. Does quite well in shade, looks fine in the rock garden or on rock walls, of easy culture and as hardy as the others.

Two Each of the Above 3 Varieties, \$3.75.

Arabis Alpina Flore-Pleno

Hardy Asters- Michaelmas Daisies

Lovely autumn-flowering perennials, the value of which for border decoration or cut flowers is inestimable. There are scores of lovely varieties in all shades of blue, white, pink, and crimson to select from. They range in height from about 2 to 4 feet. Both the species and varieties may be grown in the hardy borders.

Culture. Michaelmas Daisies will thrive in any soil and almost under any rough treatment. They may be grown with other perennials in the mixed border, or in a border in conjunction with Lilies and Tritomas, where they form a gay autumnal display. Plant in fall or spring, 2 feet apart, in full sun, in moist soil. Asters require a lot of moisture.

Little Red Boy

Each 80c, Three \$2.00, Doz. \$6.00

A compact globe-like plant not over 18 to 20 inches tall and about 2 feet across, completely covered with small, star-like flowers of brightest China-rose. Makes a brilliant spot of color that is hard to duplicate. Because of its fine, compact and low growth, it is a perfect plant for the foreground in the border. Starts blooming in early September and lasts until early October.

Peace

Each 95c, Three \$2.35, Doz. \$7.00

This is the companion variety to Plenty, introduced by the same English originator. The color is pinkish lavender and the semi-double flowers are fully 2 inches across. They are produced in immense quantities and are perfect for cutting as well as a magnificent plant for the garden where it will make a lovely showing from early September until late October. Grows about 3 1/2 to 4 feet tall.

Prosperity

Each 95c, Three \$2.35, Doz. \$7.00

Large, deep rosy pink flowers in great wavy masses on plants about 3 1/2 to 4 feet high. It commences to bloom in early September and lasts well into October. It was sent to us from England last year. It has made a beautiful showing in our nursery and has been greatly admired by visitors.

Violetta

Each 80c, Three \$2.00, Doz. \$6.00

The deepest and richest blue Michaelmas Daisy. It grows into a plant about 3 feet high and about as wide. During September it is completely covered with semi-double flowers from the top of the plant to the base. It simply turns into a perfect mound of glittering deep violet-blue. This is a "must" for every garden, big or small. Its neat habit of growth and extreme floriferousness place it in a class all by itself.

Winston Churchill

Each \$1.00, Three \$2.55, Doz. \$7.25

A very free flowering variety, producing rich ruby-crimson flowers. It is freely claimed that this fine new English variety is by all means the reddest of the Hardy Asters. It is exceedingly popular abroad and greatly admired by those who saw it for the first time last year in this country.

2 Superb New England Asters

Survivor

(Plant Patent No. 584)

Each 95c, Three \$2.35, Doz. \$7.00

This beautiful pink hardy fall-blooming Aster received the Award of Merit at the "Harvest Show" of the Massachusetts Horticultural Society in 1940.

We quote in part from a letter to Massachusetts Nurserymen by the Agricultural Experiment Station at Waltham, Massachusetts.

"Among the four hundred varieties of Asters in the testing gardens of the Waltham Field Station, the outstanding variety this year was Curtis Pink (now named Survivor because of its lasting qualities). This Aster was sent to the Station by an amateur who declared it superior to the popular Harrington's Pink. Unquestionably this Novae-Angliae proves to be a worthy rival of the older sort, and because of its unusually late flowering period will at least supplement it, if not replace it entirely.

"Survivor extends the season two weeks longer, with larger flowers of bright rose-pink color."

It is particularly well suited for difficult wet or poorly drained locations in the garden where it is not possible to grow other flowers. Hardy as an Oak.

Incomparabilis

Each \$1.00, Three \$2.55, Doz. \$7.25

For an outstanding splash of color this Aster takes first place. The brilliant fuchsia-purple flowers completely cover the plant creating a vivid spot of color which lights up the entire garden. There is nothing in bloom at this time of the year which equals it. It likes a moist sunny location, is perfectly hardy, neat in habit, and not over 2 1/2 to 3 feet tall.

Habit of growth is similar to that of Survivor, but not as tall. It does not spread all out of bounds, but remains a neat orderly permanent plant in the border.

Aster Frikarti- Wonder of Staffa

Lavender-blue flowers from 2 to 2 1/2 inches across, produced from June 1st until the middle of November. The plant does exceedingly well in light shade and comes to perfection in full sun. We consider it the finest garden plant introduced during the past twenty years. There are no other hardy plants which bloom so persistently over so long a period—a constant display of flowers the entire summer and autumn until stopped by frost. Excellent for cutting.

Each 90c, Three \$2.25, Doz. \$6.50

Campanula Carpatica, Blue Carpet

CAMPANULA - Bellflower

In their various sizes from the dwarfs up to those 3 feet high, some thriving in semi-shady places, others glorious in sunny spots, no garden can be quite complete without them. Some bloom continuously from June to October, a wealth of white and blue blooms.

Culture. A rich well drained light soil will grow them to perfection. It is well to protect fall-transplanted plants with a little dry covering; remove covering early in March before new growth starts. Plants in early autumn or very early spring 8 to 10 inches apart in full sun.

***Carpatica** Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

(Carpathian Harebell.) A pretty species growing in compact tufts not exceeding 8 inches high; flowers clear blue held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for the hardy border or for the rockery it is unsurpassed.

***Carpatica alba** Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

A pure white form of the preceding.

Carpatica, Blue Carpet

A beautiful compact grower and prolific blooming variety of recent introduction. It flowers over a long period from June until October. Plants are completely covered with deep blue flowers. Its uniformity of habit and its remarkable freedom of bloom unquestionably make this the finest of all the Carpatica type Campanulas. It makes a charming low edging to a flower garden or along walks. Here's an exceptionally good iron-clad hardy perennial for the foreground of the border.

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

**Garganica

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

A gem for the rock garden. Forms a low spreading tuft, which in June is covered with starry light blue flowers having a white eye. Exquisite hanging over a rock.

Persicifolia, Misty Morn

Each 75c, Three \$2.00, Doz. \$6.00

The 30-inch spire-like flower stems are covered with beautiful double lavender-blue bells. The soft, frosted shadings of the flowers give them a lovely and most distinct appearance. This variety is far superior to any other double Campanula Persicifolia now in use. It is a magnificent plant for the garden and superb for cutting. To test it as a cut flower we sent many flowers of it to the Boston Cut Flower Market where they received a high price, as well as high praise.

Persicifolia grandiflora alba

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

One of the finest Campanulas, with large, handsome, white, bell-shaped flowers. A great acquisition. Height 2 feet.

Persicifolia grandiflora coerulea

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

An excellent companion to the white variety, the large bright blue flowers making an effective contrast. Height 2 feet.

*Rotundifolia

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

(Blue Bells of Scotland or Harebells.) 1 foot. June to August. In the wild it is more slender and taller than in the garden; clear blue flowers. Especially suited for crevices in the rock garden or deep slopes, best planted so as to show pendent habit. Does well also in light shade.

CENTAUREA - Perennial Bachelor Button

Hardy perennials of easy culture and attractive appearance. Are showy plants in sunny borders, and useful for cut flowers. Flowers are more or less thistle-like.

Culture. All will succeed in good, ordinary soil in sunny borders. Best grown in groups of three. Plant in autumn or spring, 8 inches apart; divide and replant every third year.

Montana

Three \$1.80, Doz. \$5.65, 100 \$28.00

(Perennial Cornflower.) Grows 2 feet high, bearing large, violet-blue flowers from July to September. Showy and of easy culture.

CIMICIFUGA - Snakeroot

Handsome, herbaceous perennials. They have large, palmate leaves, and small flowers borne in feathery racemes.

Culture. Grow in ordinary moist soil in colonies of six or more, in partially shaded borders or in open woods. Plant in autumn or spring, 8 to 12 inches apart.

Racemosa

Three \$1.70, Doz. \$5.50, 100 \$25.00

Handsome shade-loving plant, bearing in July and August spikes of pure white flowers, 4 to 6 feet high; well suited for planting at the back of border, or for naturalizing at the edge of the woods.

Simplex

Each \$1.15, Three \$2.90, Doz. \$8.50

This is one of the finest, if not the finest, of fall flowering plants. Its flower stems are 2 1/2 to 3 feet high, terminated with a dense plume-like spike of white flowers which, when cut, last in perfection a long time. As a garden plant it is hard to beat but its greatest asset is that it grows superbly in shade. We know of no other plant quite as useful for that purpose. The flowers are at their best from September to middle October, and it's perfectly hardy anywhere.

Chrysanthemum Arcticum

Hybrids (Northland Daisies)

Astrid (Imperial)

Each 70c, Three \$1.70, Doz. \$5.50

Astrid is a hybrid of the extremely hardy species, *C. Arcticum*, and the first hybrid of this variety to be introduced. The single, Daisy-like flowers are three inches or more in diameter, and are a lovely shade of shell-pink, warmed with old rose tints with a bright yellow center. The plants have attractive light green foliage, not bothered by diseases or insects. It is the hardest hybrid Daisy we know of, having come through many severe winters without protection and without damage.

Good Morning

Each 75c, Three \$1.80, Doz. \$5.65

A fine soft yellow form of Astrid. Its beautiful, sparkling, soft yellow, Daisy-like flowers cover the plant completely, and, like Astrid, it is as hardy as an Oak.

Kristina

Each 75c, Three \$1.80, Doz. \$5.65

Large, daisy-like flowers, extremely deep rose-pink with purple glow; color effect is almost true purple. A most unusual shade in the fall garden, brilliant, distinct and colorful. Fine foliage and ironclad hardy. In full flower October 10th.

Polaris

Each \$1.00, Three \$2.55, Doz. \$7.25

Looks like a buff-yellow Shasta Daisy when in bloom. Makes a fine plant with stems 24 to 30 inches high crowned with big Daisy-like flowers of a most pleasing shade of pink. Extremely hardy.

Garden Chrysanthemums

We do not think it advisable to plant all Chrysanthemums in the autumn. We here list only those types which may safely be transplanted at this time. In our spring catalog you will find a complete list of all the best garden Mums introduced in recent years.

Hardy Rubellum Chrysanthemums

At the Chrysanthemum Trials held by the Royal Horticultural Society in September, 1949, these beautiful varieties were honored with the AWARD OF MERIT. They are of particularly neat habit, each plant forming into a symmetrical bush, which, when in full bloom—with its masses of flowers—appears as a delightful bouquet often three feet or more across. They are perfectly hardy and good perennials, ideal for border, bedding and cutting—a bunch of Duchess of Edinburgh remained in perfect condition in our office for over three weeks when cut last September. Culture: same as Shasta Daisy.

Their complete hardiness is repeatedly stressed. Their perennial character is established—they are permanent plants—and will continue to add color and beauty to your garden year after year. Last but not least they do exceptionally well in such locations where there is a little shade and it is difficult to grow other flowers.

Anna Hay Each \$1.00, Three \$2.55, Doz. \$7.25

Big, single, salmon, shading to rosy salmon-pink. Grows into a beautiful rounded plant literally covered with hundreds of big pink, daisy-like flowers. About 2 1/2 feet high and 2 to 3 feet across.

Crown Jewel

Each \$1.00, Three \$2.55, Doz. \$7.25

Quite double, very free flowering, low growing, not over 2 feet high. Soft pinkish lilac flowers turning to almost white remain in perfect condition for a long time. It is well named, truly a Crown of Jewels.

Duchess of Edinburgh

Each \$1.00, Three \$2.55, Doz. \$7.25

Big, single, maroon-red at opening, fades to tannish copper as the flowers age. Makes a big plant covered with hundreds of blooms, grows about 3 feet high and 2 1/2 to 3 feet across.

Jessie Cooper

Each \$1.00, Three \$2.55, Doz. \$7.25

Giant, daisy-like flower of soft Indian-copper-bronze with big golden yellow center. An out-

standing variety. Produces immense quantities of flowers on a 3-foot plant which is often more than 3 feet across.

Paul Boissier

Each \$1.00, Three \$2.55, Doz. \$7.25

Light copper and orange-bronze, semi-double flowers make this rather a distinct one in a group of single varieties. A fine plant about 2 1/2 to 3 feet high producing an immense quantity of flowers.

Princess Margaret

Each \$1.00, Three \$2.55, Doz. \$7.25

Showy, a superb single variety. It is an attractive salmon-shrimp tint. Has *C. rubellum* blood and therefore, is very hardy. Grows 2 feet tall and is in bloom in mid-September.

Royal Command

Each \$1.00, Three \$2.55, Doz. \$7.25

Big, Daisy-like flowers of rich wine-red with velvety sheen completely cover the plant, hiding all foliage. It is exceedingly brilliant and conspicuous. The individual flowers are often 3 inches or more across. Grows about 2 feet high and 2 to 2 1/2 feet across.

Each 85c, Three \$2.10, Doz. \$6.25

The new varieties offered at left are Hybrids of this fine plant with all of its fine characteristics.

Collection—1 each of the above 8 varieties, including *Clara Curtis*, for \$7.00.

Hardy Chrysanthemum, *Clara Curtis*

All *Rubellum* Chrysanthemums are rugged plants, producing several hundred flowers in early autumn.

WINTER HARDY CHRYSANTHEMUM RUBELLUM *Clara Curtis*

This was introduced several years ago and has proven to be one of the finest of perennial plants.

The hundreds of single salmon-pink Daisy-like flowers are about 3 inches in diameter and are at their best in August and early September, so early that they are never damaged by frost. They are well arranged on short much-branched stems not over 12 to 18 inches high in such numbers that the plants look like solid mounds of pink. After a short rest period in the fall the plants may be dug up in early winter, potted, and forced into bloom in February and March. They make splendid pot plants. The habit of *Chrysanthemum Clara Curtis* is spreading. A two-year-old plant grows about 18 to 24 inches across. It is perfectly hardy anywhere and not particular as to soil or location.

Each 85c, Three \$2.10, Doz. \$6.25

The new varieties offered at left are Hybrids of this fine plant with all of its fine characteristics.

Chrysanthemum Maximum

SHASTA DAISY

Hardy perennials of easy culture, and especially noteworthy for their freedom in flowering. There are two distinct types of this genus. One is the Shasta Daisy, which bears large, white flowers on long stems, and is therefore, invaluable for cutting, and the other is the Leucanthemum, the Daisy of our meadows. **Culture.** The Shasta Daisies require a deep, rich soil. They must have a sunny position. They should be planted 1 foot apart. It is advisable to lift and divide the rootstocks every alternate year, then the plants will be more compact in growth and also yield much finer flowers than if left undisturbed.

Double Shasta Daisies

Aglaya

Each \$1.10, Three \$2.75, Doz. \$7.50

A splendid, large, double-flowered Shasta Daisy. It is a sturdy grower and perfectly hardy. The flowers are double and have fringed petals. After its main early crop of blooms, it continues to produce flowers practically throughout the entire season.

Mount Shasta

Each 95c, Three \$2.35, Doz. \$7.00

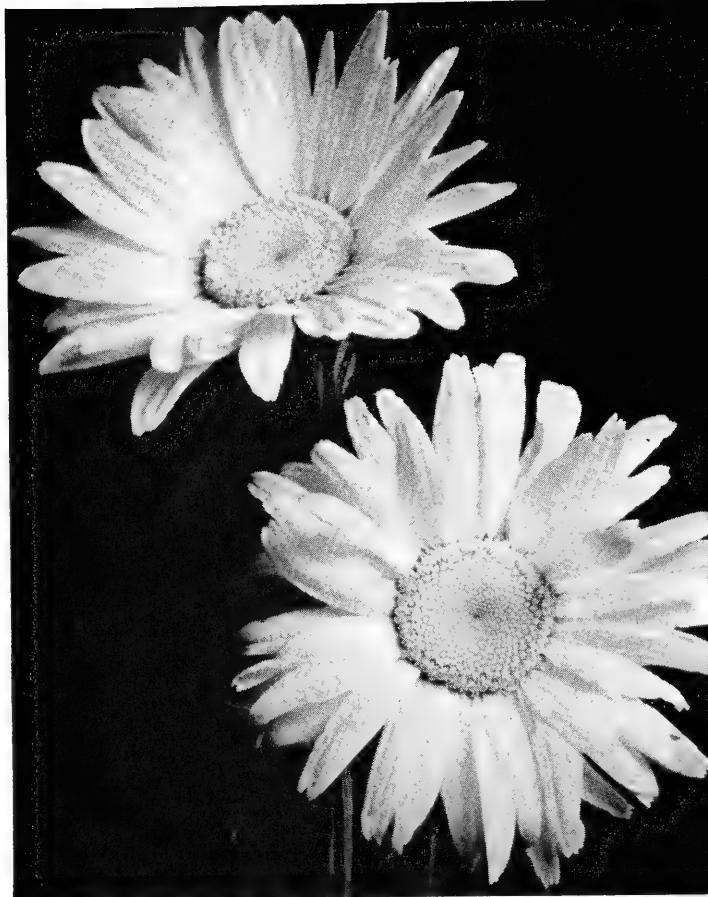

The pure white, fully double flowers have a high crested center and average four inches across or more. A double row of overlapping guard petals enhances the beauty of this fine double Daisy. The flowers come singly on stiff, 24-inch stems from spring until frost. Especially fine for cutting. Mount Shasta in our opinion is a top notch plant, a healthy, vigorous grower and a great improvement over Esther Read, which we have discontinued.

Wirral Pride

Each \$1.10, Three \$2.75, Doz. \$7.50

A fine, vigorously growing and very profusely flowering Shasta Daisy from England. Flowers are usually 3 to 4 inches in diameter, heavily crested with short white petals in the center which produce a fine double effect. It has given excellent results here in Mentor and we recommend it without reservation.

Double Shasta Daisy, Mount Shasta

Chrysanthemum Maximum, Majestic

Single Shasta Daisies

Alaska

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

Handsome plant, with large, glistening white blossoms in June and July.

Majestic

We are more than pleased by the many words of praise from our many customers who have grown it. It is a hardy resistant grower, notwithstanding unfavorable conditions. Its immense white flowers are real beauties, 5 to 6 inches in diameter with a small yellow center. Has a double row of straight and overlapping petals making the flowers full and compact, giving it great value in floral designs and bouquets. The petals are very stiff with no drooping. Has 28 to 30-inch straight stems. To sum up its good points: It has wonderful large flowers; straight, long stems for cutting; is a healthy, strong, vigorous grower; blooms medium early.

Mark Riegel (See page 61)

2 New English Veronica Spicata Varieties of Exceptional Merit and Freedom of Bloom

Baccarole

Each \$1.00, Three \$2.55, Doz. \$7.25

It grows compactly to about 10 inches. The flower spikes are solidly covered with deep rose-pink flowers. Vigor and freedom leave nothing to be desired. It produced over 20 spikes on 2-yr.-old plants. Flowers are from late June until the end of August. This new English Hybrid bids well to become a great favorite border plant in this country.

Pavane

Each \$1.00, Three \$2.55, Doz. \$7.25

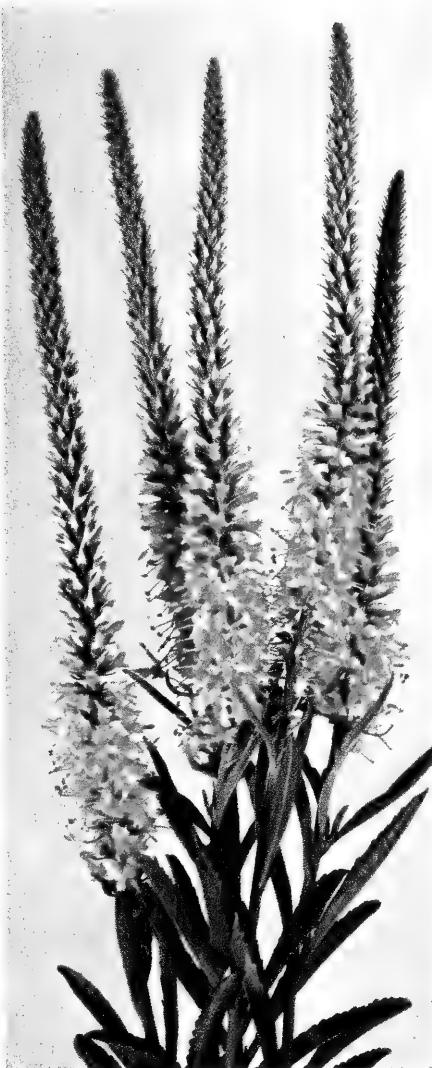

This new English introduction will be well received over here. Its lovely 18-in. spikes are rigidly erect and of a fine shade of clear pink. It has performed beautifully at our nursery where it flowered from late June and throughout August. As many as 20 spikes on one plant. Like Baccarole, it withstands heat and drought remarkably well and is of easiest culture.

VERONICA COLLECTION

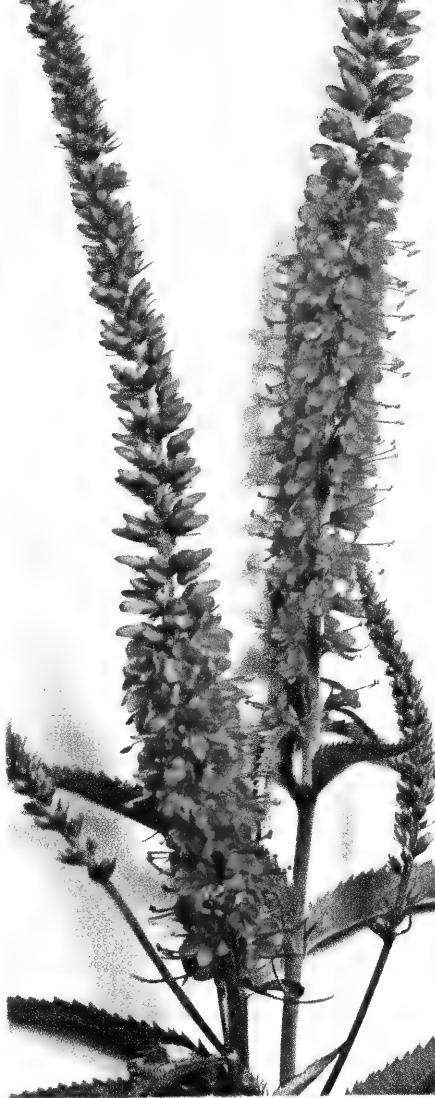

1 Each of the 3 varieties illustrated for \$2.50.

3 Each of the 3 varieties illustrated for 6.50

Veronica, Blue Champion listed on page 79.

Veronica, Pavane

Veronica, Blue Champion (See page 79)

Veronica, Baccarole

Chrysanthemum Maximum,
Mark Riegel

The Outstanding and Hardy Shasta Daisy Mark Riegel

With the introduction of Mark Riegel Daisy, we move another step forward. First of all its flowers have a distinct form. The broad glistening white petals which overlap, come in a double row, are long and curve slightly at the tips. The center of the flower is very small and soft canary-yellow. Stems are thin and rigid and about 2 to 3 feet long. As many as 15 to 20 flowers to a plant at one time. Flowers frequently measure 4 to 5 inches across, and will last longer than any other Daisy we have grown.

The plants are compact, forming a tight neat clump with long ornamental dark green foliage. It is the hardiest of the new Daisies and we consider it tops in every respect.

Each \$1.25, Three \$3.05,
Doz. \$9.50

Iris Ochroleuca, Golden Nugget

IRIS SIBIRICA (See page 69)

Llewellyn

Gatineau
Snowcrest

Caesar's Brother

COLLECTION OF IRIS SIBIRICA

1 Each of the above 4 varieties for	\$2.50
3 Each of the above 4 varieties for	6.50

IRIS SPURIA

(Finest Iris for cut flowers.) These are so different from all other Bearded Species and Hybrids as to deserve a separate subdivision. The flowers are quite unlike all other Iris, and very artistic, making exquisite cut flowers for which purpose they are used extensively by florists. They are hardy anywhere. While not indispensable to their success, they prefer a moist spot and make a most imposing effect in the garden.

Ochroleuca gigantea Each 95c, Three \$2.35, Doz. \$7.00

A stately garden plant and a beautiful long lasting cut flower. In good rich moist soil it will grow 5 feet or more. The flowers have pure white standards while the falls are yellow, with a quarter-inch margin of white. An A-1 plant for garden or cutting.

Ochroleuca, Golden Nugget

Each 95c, Three \$2.35, Doz. \$7.00

This is a fine golden yellow selection from the type. Grows same height and size except its flowers are rich golden yellow. A beautiful plant for the garden and superb for cutting.

Monnierii

Each 95c, Three \$2.35, Doz. \$7.00

A soft yellow. The flowers have rather broad petals and are of smooth texture. Height 3 feet. Superb for cutting.

IRIS KAEMPFERI (See page 69)
Katherine Havemeyer and La Favorite

Delphinium-Larkspur

Giant Pacific Hybrids

Here are offered the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo-blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendlings. Among these new hybrids are flowers of huge size and fully double. They are particularly fine for cutting. These gorgeous Pacific Hybrids are, unfortunately, not long lived, so for permanent groups in the garden we recommend our own Wayside Gardens Hybrids. They are particularly fine for cutting.

GIANT PACIFIC HYBRIDS IN POTS

Recommended Rather Than Field-Grown Plants

Experts prefer to set out Hybrid Delphiniums from pots. These young plants were started by us last summer and have developed into nice vigorous plants that will flower this summer for you with magnificent spikes of blooms. Space them 18 inches apart and plant in groups of three or more for stunning effects.

Galahad Series Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Giant pure white glistening flowers with white bees often reach three inches in diameter, and are of beautiful heavy texture on 5- to 6-foot stems.

King Arthur Series Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

The color of this series is a rich royal purple with velvety texture and large white bee. The flowers are beautifully formed and carried on stiff, thin, woody stems. We consider these the most brilliant of Delphiniums.

Summer Skies Series Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

As the name indicates, this is the blue of a summer sky, with the white bees representing fleecy clouds; a color long sought in the Hybrid Delphiniums.

Round Table Series Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

This is a superb mixture comprising all available shades in Delphiniums. Nothing yet has been created that equals them for sheer beauty, vigor, and quality.

Dianthus - Pinks

A great selection of plants for the sunny border or sunny, exposed places in the rock garden or rock wall. In fact, no rock garden is complete without a liberal planting of the various Dianthus. In England where rock gardening is a well understood art, Dianthus are used by the thousands. They are perfectly hardy anywhere.

Culture. Plant in ordinary good soil, which must contain some lime and should be well drained. Planting may be done in fall or early spring, 6 to 10 inches apart, in sunny, dry places in the rock garden, rock wall or on the margin of the border. All love lime and gritty soils.

DIANTHUS LATIFOLIUS - Garden Pinks

Latifolius, Beatrice Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

This everblooming cluster Pink is a very valuable plant for the garden, constantly in bloom from June until September. Its color is a lovely pure pink. A fine cut-flower variety.

Latifolius, Silver Mine Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

Exactly the same habit of growth as Beatrice or Furst Bismarck but flowers are pure white, very free and constant from June until September. A No. 1 border plant and cut flower.

DIANTHUS PLUMARIUS - Border Pinks

Cheerfulness Each 90c, Three \$2.25, Doz. \$6.50

The name is well chosen. Nothing is more cheerful than to look at this Pink when in bloom. The plants are medium-sized, very compact with stems about 4 to 6 in. tall. Each one topped with a big single flower. We have seen them 2 1/2 to 3 in. across. Color is Tyrian rose with a big formal center of maroon. A striking effect along with spicy fragrance make this a "must."

Crimson Glow Each 90c, Three \$2.25, Doz. \$6.50

A deep or dark red colored Hardy Garden Pink has always been something we have wished for. Crimson Glow is the deepest red we have been able to develop up to this time. The color is a really dark red and the flowers are freely produced on 15-in. stems. The plant is compact in growth. Foliage a blackish green. Spicy fragrant and hardy. While not "a perfect red Pink", we are coming close to it.

Dinah Each 80c, Three \$2.00, Doz. \$6.00

This "Border Pink" is the companion to Evangeline. It is just as spicy fragrant, just as prolific flowering in spring and autumn. The color is a deep Persian rose with maroon center. The flower stems are perhaps 12 inches long with about 2 to 6 flowers on a single stem which is stiff and just right for cutting. The flowers are perfectly formed, never a split calyx. Plants are about 8 inches high and 10 to 12 inches across. Good for foreground in the border or as an edging to walks and paths. Its spicy fragrance, freedom of bloom, hardiness, neatness of plant and ease of culture will make this "Border Pink" a garden favorite everywhere.

Evangeline Each 80c, Three \$2.00, Doz. \$6.00

A new "Border Pink" with a most delightful, spicy, penetrating fragrance. Early in the spring the plants are covered with an unbelievable number of flowers. These, when faded, should be removed so that in the early autumn you can enjoy a second display of flowers equally as prolific. Two to four flowers grow on a stiff 10-inch stem and are perfectly formed. The calyx never splits. The color is a soft Persian rose. Habit is perfect; the plant grows in a low, tight mound about 6 inches high and 10 to 12 inches across. Perfect for an edging to walks or beds. This spicy Pink will give you a great amount of pleasure, fragrance, prolific blooming, neatness, and last but not least, its absolute hardiness and ease of culture make it a "must" in every garden.

English Delphiniums

Wayside Garden Hybrids

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

This is one of the most permanent and at present the most popular strains of the garden Delphinium. It is distinct because of its broad, conical spike and enormous individual flowers, 1 1/2 to 2 inches in diameter, in all shades of blue blended with mauve and violet. Also contains some fine clear white types. For permanent groups in the garden this mixture has no equal.

DELPHINIUM BELLADONNA

The Belladonna Delphinium does not grow quite as tall as the popular English Hybrids, but they produce more spikes and are more graceful, therefore more useful for cutting. In fact, they are our loveliest early blue flowers for that purpose. They require the same care and treatment as suggested for the English Hybrids, but may be planted a little closer together, 12 inches apart is sufficient space for them. Their lovely blue spikes are about 3 or 4 feet high and produced in June and again in September.

Belladonna Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00
Light sky-blue. A great favorite for cutting.

Bellamosa Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00
A dark blue form of Belladonna.

Belladonna, Cliveden Beauty Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

This is a fine English improvement over the common Belladonna, growing much taller, many more flowers to each spike and of a brighter color. A fine form for garden as well as for cutting.

Dianthus - Pinks

Essex Witch Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00
A very dwarf and compact pink producing a legion of rose-pink flowers on short stems. They are very fragrant and petals are finely fringed. When in bloom, not over 5 inches high. A fine old-fashioned variety which is hardy anywhere. A splendid variety for edging beds or walks.

Her Majesty Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00
Grows about 4 inches high and when in bloom it is literally covered with fragrant double white flowers on 6-inch stems. It is an old-fashioned favorite of neat habit and absolutely hardy. Excellent for edging beds or walks.

Moon Mist Each 90c, Three \$2.25, Doz. \$6.50
Pure white and spicy fragrant double flowers on 12-inch stems. This border pink has Carnation-like flowers which are perfect for cutting. Flowers throughout the summer with its heavy crop of blooms in spring and again in the autumn.

Salmon Unique Each 90c, Three \$2.25, Doz. \$6.50
The richly clove-scented flowers are salmon-pink on stiff stems about 15 inches tall and produced the entire summer and into the fall. Nice compact habit and very hardy. The flowers are crisp and wavy and Carnation-like in form. Always perfectly formed, almost formal in character. You will like this variety very much.

The Bishop Each 90c, Three \$2.25, Doz. \$6.50
Here we have a variety that is a splendid grower; stays neat and compact and at the same time blooms very freely. Its unusual Bishop-purple flowers are very fragrant and are produced in abundance on 12-in. stems. After the first flush of spring bloom, there is a constant procession of flowers throughout the summer and early autumn. Looks very well planted along with the white variety Moon Mist.

Highland Hybrids in Mixture Each 65c, Three \$1.60, Doz. \$5.00, 100 \$22.50
A beautiful and very varied mixture, including unnamed hybrids of all possible shades. Especially noted for their fragrance and long bloom.

Dianthus Old Spice

(U. S. Plant Patent No. 499)

Each 90c, Three \$2.25, Doz. \$6.50, 100 \$37.50

A choice Hybrid, possessing, it seems, all the good qualities you can ask for in a plant.

First—It is as hardy as an Oak.

Second—Habit of growth is neat, cushion-like and compact. Stems are about 12 inches tall.

Third—It flowers prolifically over a long period, 20 or more flowers on a single plant.

Fourth—Color of the beautifully moulded flowers is rich salmon-pink like that of the popular greenhouse Carnation, Loddie.

Fifth—The calyx does not split as is the case with the old-fashioned Clove Pinks. All the flowers are perfectly formed.

Sixth—The flowers, when cut, last a long time.

DICENTRA - Bleeding Heart

Old-fashioned perennials; also known under the name of *Dicentra*. The species named below have fleshy, brittle stems and finely cut fernlike foliage.

Culture. Spectabilis should be grown in a partially shady border. *Eximia* will do well in a similar position, or in the woodland garden, or in a shady nook of the rockery. Plant in fall or very early spring, 8 to 12 inches apart.

***Eximia** Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00
(Plumy Bleeding Heart.) A dwarf-growing scrt, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. Too much cannot be said for this fine border plant as it is equally at home in full shade or sun and perfectly hardy anywhere.

Spectabilis Each \$1.10, Three \$2.75, Doz. \$7.50
(Bleeding Heart or Seal Flower.) An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps.

Dicentra Hybrid, Bountiful (U. S. Plant Patent No. 1198)

Each \$1.25, Three \$3.05, Doz. \$9.50

This is a remarkable hybrid, in a robust way resembling the Plumy Bleeding Heart (*Dicentra Eximia*) but vastly superior. It forms a clump fully 18 inches in diameter of handsome dark blue-green foliage, about 10 inches high. The flowers appear early May and as many as 30 to 40 flower stems can be counted on a 2-year established plant. Stalks are about 18 to 20 inches tall and topped with fuchsia-red flowers which are about double in size of the common Plumy Bleeding Heart. It comes into bloom before *Dicentra Eximia* and the flowers last well into July. Throughout the summer a few flowers are produced; but in the early autumn, it blooms as freely again as it did in spring. Perfectly hardy, does well in any well drained soil and prefers sun to shade. As we said before, a remarkable plant with a great future, we predict it will, before long, be growing in most of the gardens in this country. See page 55.

DORONICUM - Leopardenbane

Very showy yellow-flowered perennials. Their yellow, Daisy-like flowers are invaluable for cutting. As they flower chiefly in spring, they are indispensable in the border at that period of the year. They have bright green, heart-shaped leaves which disappear during July and August when the plant is dormant.

Culture. Thrive well in heavy soils and succeed in sunny or partially shaded borders. Best grown in groups of six or more. Plant in autumn or early spring, 6 to 8 inches apart. Lift, divide and replant every third year; remove the flower heads directly after they fade, then a second crop of flowers will follow. Water freely in dry weather. Lovely with pale lavender Tulips.

Caucasicum Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Large, bright yellow flowers on 2-foot stems; one of the most sparkling early spring-flowering perennials. Effective in a hardy border in combination with Tulips. It is a splendid flower for cutting, as it carries well and lasts a long time in water.

Mme. Mason Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

A fine large flowered and compact growing variety. Particularly well suited for the early garden. Its yellow Daisy-like flowers blend well with Tulips and other early spring blooms. Excellent cut flower.

ECHINOPS - Globe Thistle

Handsome perennials with pinnate or spiny foliage, woolly beneath, and globular, thistle-like flowers. A well-grown plant has a pleasing effect in the border.

Culture. Ordinary soil in sun or light shade in border or wild garden. Plant in autumn or spring 10 to 12 inches apart.

Taplow Blue Each 85c, Three \$2.10, Doz. \$6.25, 100 \$35.00

This variety is particularly desirable. The flower heads are larger and are intense metallic blue. It is very free flowering and does beautifully in difficult, dry soils. A clump of Taplow Blue makes a fine contrast growing alongside of White Phlox. Plant in full sun. Hardy anywhere.

Doronicum

FERNS - Hardy Varieties

The cultivation of Hardy Ferns is remarkably simple. All they want is a little light alluvial soil, a little loam or peat or leaf mold sufficient to keep the soil light and open, plenty of moisture, position varying from partial to deep shade.

Culture. A shady position is, of course, preferred, or a spot which gets practically no sun, will be an ideal place for a fernery. If the position should be a very damp one, it will be advisable to raise the surface about 6 inches to a foot. For a good effect plant 8 to 10 inches apart.

Adiantum pedatum Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00
The well known Maidenhair Fern, grows at its best on moist banks, stony and well shaded. It will thrive in any shaded location, even if dry, but will not be as tall as it will with plenty of moisture. Try it with Bleeding Heart under trees.

***Aspidium acrostichoides**

Each 65c, Three \$1.60, Doz. \$5.00, 100 \$22.50
(Wood Fern.) (*Polystichum*.) An evergreen species with deep green, divided fronds. Should be planted in a shady position, 12 inches.

Aspidium spinulosum Each 65c, Three \$1.60, Doz. \$5.00, 100 \$22.50
The most beautiful of the evergreen wood ferns, and most useful, too. It is picked for florists use, but it is as useful in shade, especially if moist, for it will make a strong clump to 30 inches high. Beautifully divided pinnae give a lacy effect. Easily cultivated.

Asplenium filix-femina

Each 65c, Three \$1.60, Doz. \$5.00, 100 \$22.50
The Lady Fern is both our most common, and our most valuable form. Fine and delicate, it is very attractive and if one wants a cover for shade, or partial sun, this is the plant.

Osmunda cinnamomea Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00
In wet swampy land, the Cinnamon Fern will grow six feet tall. Yet it thrives in deep shade, and is tall enough. A luxuriant plant, very sturdy, and because of the root size, able to care for itself in competition.

Osmunda Claytoniana Each 65c, Three \$1.60, Doz. \$5.00, 100 \$22.50
Clothed with loose wool when unfolding its fronds in spring, but soon becoming perfectly smooth. This Fern, two to three feet high, is found in rather dry, shaded places and does quite well under cultivation.

FUNKIA - Hosta

Hardy, herbaceous perennials with handsome green or variegated foliage, and Lily-like flowers borne on graceful spikes. The ovate, cordate, or lance-shaped leaves grow in tufted form. Excellent plants for growing in sunny or partially shady borders on the margins of water or as edgings to beds and walks.

Culture. Funkias require to be grown in a rich, well manured soil. The variegated kinds are best grown in partial shade. The others will succeed in sunny borders, or as specimens in groups. Subcordata should be grown in a warm, sheltered position. Plant in fall or early spring, six inches apart.

Coerulea lanceolata Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00
Bread green leaves; blue flowers from July to August.

Glaucia Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00
A very fine species with large blue-gray leaves. It develops into a stately, handsome foliage plant for the open border and is superb in shady places. May also be used in the rock garden.

Subcordata grandiflora

Each \$1.15, Three \$2.90, Doz. \$8.50, 100 \$50.00
Very large, pure white, Lily-shape, fragrant flowers in August and September. One of the best and used very extensively as a ground cover for Lily beds. The foliage provides protection to the bulbs, and the flowers because of their Lily-like appearance blend in well with the taller growing Lilies.

Thomas Hogg

A most desirable, strong growing kind. Does well in shade or sun and loves moisture. Its rich, large green leaves have a narrow, clear silver edging which greatly enhances its beauty.

Variegata Each 90c, Three \$2.25, Doz. \$6.50, 100 \$37.50
Variegated foliage; blue flowers. Beautiful edging plant.

GAILLARDIA - Blanket Flower

We consider the Gaillardia one of the most desirable hardy plants in cultivation. Everyone will have noticed how grandly Gaillardias have thriven through droughts; they seem hardly to need water. The gay blossoms are obtainable in perpetual profusion from June to November, and the greater the drought and scarcity of other flowers the more the utility of the perennial Gaillardia is demonstrated.

Culture. A rich, but light soil is essential to grow Gaillardias successfully. They cannot be depended upon to survive the winter on heavy, clay soils, but do splendidly on those of a light or medium character. Require a sunny position. Plant in fall or spring, 6 to 8 inches apart.

General George Patton (Plant Patent No. 962)

Each 95c, Three \$2.35, Doz. \$7.00, 100 \$40.00

The flower is a brilliant dark red with a narrow, distinct golden tip on the flower petal. It is enormous in size yet beautifully proportioned and the first flowers are borne on 3 1/2-ft. or even taller husky stems. These first big flowers are followed during the summer by great quantities of somewhat smaller flowers on the lateral growth. The plant is a strong dependable grower, and is so amazingly colorful that it will attract attention in any garden. It is not at all unusual to grow flowers four and five inches in diameter. Like all Gaillardias, it must be grown in a warm, sunny and well drained soil.

GYPSOPHILA - Chalk-Plant; Baby's Breath

They are remarkable for their numerous feathery panicles of small, starry, white or pink flowers borne in profusion on threadlike stalks during early summer. The flowers are highly prized for cutting.

Culture. Gypsophilas will succeed in any well drained and not too heavy soil. They are very partial to lime, and it is well to mix some lime with the soil before planting. A sunny position is essential. Plant all fully two feet apart; Repens 8 inches apart. Plant in autumn or early spring.

Bristol Fairy

Bristol Fairy produces large panicles of double, white flowers, in which the individual blossom is quite large, and of the purest white. It also flowers continuously throughout the summer. A No. 1 plant for cut flowers.

Repens, Rosy Veil

Each 90c, Three \$2.25, Doz. \$6.50
A new dwarf pink double-flowering Gypsophila. Established plants reach a height of 2 feet and bloom in summer and fall. They start blooming two weeks earlier than the tall double Gypsophila and continue later in the season. Fit perfectly in the small garden and are fine for cutting.

HELENIUM - Helen's Flower

A showy and useful family of plants for the summer and autumn decoration of the border, and lovely copper shaded or yellow flowers for cutting. The period of bloom is just before the outdoor Chrysanthemums, and they give us that first touch of autumn tints. Particularly valuable for those sections of the country where the Chrysanthemum is not hardy. No garden is complete without them.

Culture. All will thrive in good, ordinary light soil, all require a sunny position. May be grown singly or two feet apart in masses. Plant in autumn or spring.

Chippersfield Orange *Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50*
Grows 4 feet tall with large heads of copper and gold blooms. A fine new variety blooming in August and September.

Peregrina *Each 95c, Three \$2.35, Doz. \$7.00, 100 \$40.00*
Unquestionably the finest and having the largest flowers. They are a shining dark mahogany with the edges of the petals faintly seamed golden yellow. A most impressive July and August flowering perennial. Height 3 feet. A worth-while plant for the summer border. Excellent for cutting.

HELIOPSIS - Orange Sunflower

Allied to the perennial Sunflower, belonging to the same order, and natives of America. They bear their large, orange colored flowers on long, wiry stems, and are invaluable for cutting.

Culture. Grow in ordinary rich soil in a sunny border. They make a most effective feature grown in bold masses. Plant in autumn or spring, 12 inches apart. Lift, divide and replant every third year.

Gold-Greenheart *Each 80c, Three \$2.00, Doz. \$6.00*
This new variety was received a year ago from Europe where it is recognized as well as in the United States as the best of the Heliosis. It grows into a fine floriferous plant about 3 to 4 feet high with clean foliage. It produces a prolific display of fully and closely double buttercup-yellow flowers which are superb for cutting. It makes a wonderful display in the garden. An added interest is the small emerald-green heart which shows when the flowers are opening. This disappears when the blooms are fully developed. The recurring petals, its clear yellow color as well as freedom of bloom make this a wonderful plant. Absolutely hardy anywhere and of easiest culture.

HELLEBORUS - Christmas Rose or Lenten Rose

There are two distinct types, one, Christmas Rose, flowering in late winter, and the other, Lenten Rose, in spring. Both are valuable for garden decoration because of their flowering during the dull period of the year.

Culture. Require to be grown in a cool, moist, shady position, such as under the shade of trees or among ferns. The ideal soil is a retentive loam, freely mixed with leaf mold and well rotted manure. As Helleborus are impatient of disturbance at the roots it is advisable to select a position for them where they will not be required to be disturbed for many years. Planting may be done in fall or spring, 12 inches apart. Each autumn add a top dressing of leaf mold and well rotted manure, and let it lie on the surface. In summer give plenty of water.

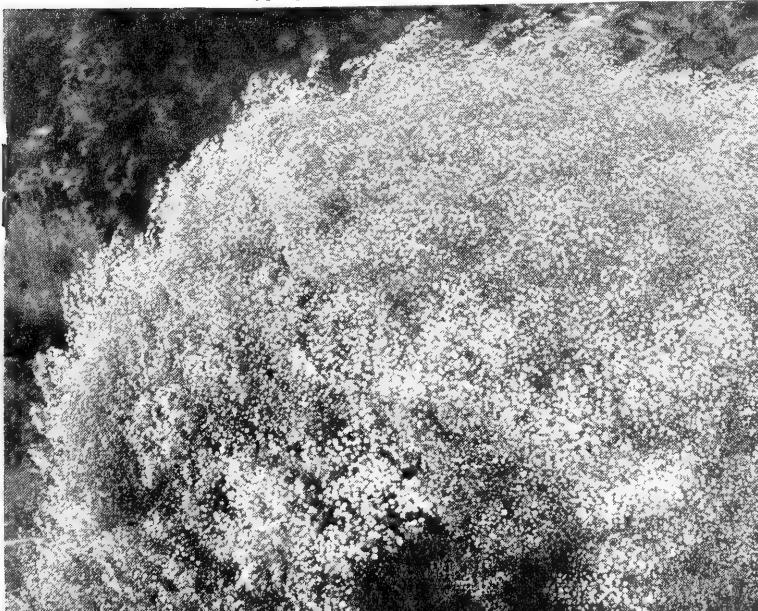

Niger (Strong flowering plants)

Each \$1.70, Three \$4.25, Doz. \$15.00

Helleborus Niger is a dwarf growing hardy plant, able to withstand temperatures many degrees below zero. Its palmlike leaves are evergreen and of leathery substance. In December, January and February, depending on locality, large, single, white, bell-like flowers which last for weeks, are produced regardless of cold or snow.

Orientalis (Lenten Rose) *Each \$1.70, Three \$4.25, Doz. \$15.00*
Orientalis is known as the "Lenten Rose." The colors of its flowers range from pale green through white from pale brown to the deepest tones of chocolate-red. Easier grown than Niger, very interesting plants for shady nooks. Can only be supplied in mixed colors.

Gypsophila Repens, Rosy Veil

HELIANTHUS - Perennial Sunflower

Very showy and attractive plants for border decoration, massing in the wild garden or flowers for cutting.

Culture. Ordinary soil and a sunny position will suffice to grow Helianthus. Lift, divide and replant every second or third year to keep the plants compact and shapely. Few plants can equal the Helianthus for providing a gay display of color in the autumn garden. Plant in fall or spring, 12 inches apart.

Multiflorus fl-pl. *Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50*
Clear yellow; closely resembling a small Dahlia in shape and finish. 4 feet high.

HEUCHERA - Alum Root; Coralbells

Neat growing and graceful flowering perennials yielding an abundance of flowers suitable for cutting, effective subjects for the margins of borders, as edgings to walks, flower beds, and excellent for the rock garden. They have heart-shaped leaves and bear their dainty blooms in graceful panicles or racemes.

Culture. Heucheras require a well drained, fairly rich, and not too heavy soil, also a sunny position. Plant 6 inches apart in autumn or early spring. Each spring top dress with well decayed manure. Lift, divide and replant every third year for best results.

Matin Bells *Each 95c, Three \$2.35, Doz. \$7.00, 100 \$40.00*
A very fine variety with coral-red flowers produced in great quantities. Spikes are straight and stiff and about 18 inches tall. When not in bloom, the handsome foliage continues to make this a fine low border plant.

***Rosamundi** *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*
We have carefully tested several varieties of Heuchera in all the pink shades during the past few years, and we find that this is the most desirable of the coral-pink sorts. It is a strong grower, not subject to any blight, and produces an abundance of fine coral-pink blossoms on tall, strong stems, which last over two months.

***Sanguinea** *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*
Flowers bright crimson, on 12- to 18-inch stems in June to September; very free flowering. Nice for cutting. Excellent for rock garden.

HIBISCUS - Mallow

About one hundred and fifty to two hundred species are known, some annual, others perennial or as shrubs. We are dealing here only with the Giant Mallow of recent introduction which is a tall plant about three to four feet high with immense white, pink or red, Hollyhock-like flowers, freely produced during the summer.

Culture. A rich, moist, well drained soil suits them best. Best planted as single specimens in full sun in the border, or in groups of three or more on the lawn. Plant in fall or spring, 25 inches apart.

Giant-Flowering Mallows

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow. We supply 3-yr. flowering plants.

Red, Pink or White in Separate Colors

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Mixed Colors and Shades

Three \$1.80, Doz. \$5.65, 100 \$28.00

NEW SUPER GIANT HIBISCUS

Blooms 10 to 12 inches in diameter.

When, many years ago, the Giant Hibiscus were introduced, they created quite a lot of comment. The New Super Giants in many instances produce flowers which are 50% bigger or even more. A well grown plant with its immense flowers is quite a sight to behold. The varieties offered were all produced from selected plants noted for their size and freedom of bloom. Increase from divisions is slow but the results justify the extra effort. Give these plants ample room and grow them in full sunlight, watering freely.

Clown. White with pink veins.

Each \$3.50

Crimson Wonder. Bright brilliant vermillion-red.

Each \$3.50

Fresno. Light silvery pink giant blooms.

Each \$3.50

Satan. Deep dark crimson-red.

Each \$3.50

Poinsettia. Bright scarlet.

Each \$3.50

Super Giant Hibiscus in Mixture

Each 90c, Three \$2.25, Doz. \$6.50

See page 56 for color illustration of just 3 examples of these magnificent hybrids which contain a wide variation of colors and forms. They are superb.

IBERIS - Candytuft

When in flower in spring and covered with a mass of snow-white blossoms, they add considerably to the attractions of the garden. They are of shrubby growth, with dark green, evergreen foliage.

Culture. Grow in good, ordinary soil. Plant in fall or spring, 6 inches apart. When plants become straggly, trim them directly after flowering.

***Little Gem (true form)** *Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50*

Dwarf, pure white flowers in June. Its uniform, neat habit makes it one of our best compact low formal edging plants; perfectly hardy. There is nothing much better for edging small flower beds.

***Purity** *Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50*

A neat, evergreen, compact and low-growing plant with immense pure white flowers which cover the plant entirely when it is in bloom. This new variety is in our opinion the best of the dwarf Iberis. Its neat, compact habit and rich deep evergreen foliage make it an A No. 1 edging plant for flower beds or along walks. Its uniform habit creates a very neatly finished little edging.

***Sempervirens** *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage; a particularly fine plant for the border. Does well in light shade and therefore excellent as a ground cover in front of shrubs. May be used for edging to parks or walks. Little Gem, however, is more formal and upright for these purposes.

Hemerocallis - Lemon Lilies

If the value of a plant is to be judged by the aggregate qualities of absolute hardiness, floriferousness and complaisance under almost any circumstances, then the Day Lily must be placed among the elect. From 18 inches to 4 feet in height they stand on stalwart stems. Their flowers are new in a multitude of shades from softest yellow through to almost fiery red, all with a clean and pleasant fragrance. By a careful selection of varieties, flowers may be had in abundance from June until September. Few plants surpass the vigor and beauty of well flowered clumps of the Day Lily. You will find offered here some very interesting new varieties in a fine range of colors.

CULTURE: Any kind of soil will grow these plants successfully. They prefer partial shade, but do excellently in full sun. May be grown singly or in masses. Plant one to two feet apart in autumn or spring. Lift, divide and replant every third year to ensure the plants flowering freely. Very graceful and stately plants for the waterside, naturalizing in grass, or growing in the partially shaded border.

Duchess of Windsor (Traub) Each \$1.00, Three \$2.55, Doz. \$7.25
Cup-shaped blooms of broad, overlapping petals crimped along the edges. The coloring is deep cream shading to soft golden with a very soft, delicately flushed rosy brown halo in the throat. Late July and early August blooming. Height about 24 to 30 inches.

Dr. Regel Each 80c, Three \$2.00, Doz. \$5.75
Handsome rich orange-yellow flowers in early May and June. Very fragrant. Fine for cutting. 1 1/2 feet.

Flava Each 80c, Three \$2.00, Doz. \$5.75
Sweet-scented, clear full yellow; 2 1/2 feet. Flower in June in great profusion.

Franz Ver Wilt Each \$1.00, Three \$2.55, Doz. \$7.25
Brilliant flaming velvety red, golden throat, petals slightly veined. Very similar to Flaming Velvet. A bold, clean colored, free flowering variety. Late July and early August flowering. Height about 36 to 40 inches.

Hyperion Each \$1.10, Three \$2.75, Doz. \$7.50
The giant Amaryllis-like flowers of Hyperion are citron-yellow and delightfully fragrant. It is one of the most prolific flowering plants ever seen. The stems are gracefully thin and have exceptional substance; about 40 inches tall, carrying delicately sparkling clusters of flowers, the soft color of which "carries" a great distance. Experts as well as amateurs consider Hyperion the **finest pale yellow** Hemerocallis available at a moderate price. Few plants surpass the beauty and vigor of a well flowered clump of this wonderful Day Lily. It received an Award of Merit of the Royal Horticultural Society of Great Britain. Its graceful arching foliage always looks handsome. The flower buds open well in water. It is perfectly hardy, grows in dry, wet, sunny or shady places. Blooms in July and August.

Indian Sunset Each \$1.00, Three \$2.55, Doz. \$7.25
A bold flower of soft cadmium-orange, conspicuously marked with soft broad mahogany star, deep golden to soft orange throat, over-all effect is soft chestnut-brown. A distinct as well as most unusual color in Hemerocallis. Flowering late July. Height 30 inches.

J. A. Crawford Each 80c, Three \$2.00, Doz. \$5.75
Rich apricot-yellow shaded light cadmium. Many flowers on 4-foot stems; at their best about late June, flowering until end of July. A lovely plant which looks well in light shade.

Lemona Each 95c, Three \$2.35, Doz. \$7.00
Delicate and pale lemon-yellow flowers on 4 1/2-foot stems. Blooms are at their best July 1st. One of the finest large blooms, much like a large Japanese Iris in form.

Mongolia Each \$1.00, Three \$2.55, Doz. \$7.25
The bronzy Chinese coral tint of the petals is separated by a soft but clearly defined star-like band of Indian red from a golden throat which lights up the flower and gives it much brilliance. Early July flowering. Height 36 inches.

Mrs. W. H. Wyman Each 80c, Three \$2.00, Doz. \$6.00
Lovely light pale lemon-yellow flowers on 4-foot stems. In full bloom August 1st. Very free flowering and lasts a long time. One of the latest to bloom.

Rajah (Stout) Each \$1.00, Three \$2.55, Doz. \$7.25
A fine, big, well proportioned flower sparkling and iridescent. Flower petals are light burnt orange, circular deep chestnut-red or mahogany band with violet shadings; throat old gold. A brilliant flower and because of its late blooming a valuable one. Late July flowering. Height 30 to 36 inches.

Stromboli Each \$1.00, Three \$2.55, Doz. \$7.25
Large flower with very substantial petals tinted old gold. A soft amber tinted band inside the flower gives great charm while the tips of the petals are distinctly veined with amber. Very brilliant in sunlight and delightfully fragrant. Height 38 inches. July flowering.

Summer Pride Each \$1.00, Three \$2.55, Doz. \$7.25
A profuse bloomer bearing ruby-red flowers with violet flush and small golden throat, faint yellow vein on midrib. This is a most unusual coloring and we have not seen anything like it in any of the new Hemerocallis now offered for sale. Late July to early August blooming. Height about 30 to 36 inches.

The Gem Each 80c, Three \$2.00, Doz. \$5.75
Rich, deep orange-yellow flowers on 3 1/2- to 4-foot stems. In full bloom June 20th. Very finely formed bloom, equal to the best Lilies; truly a gem.

Two Featured Groups of New Hemerocallis

Croesus Each \$1.25, Three \$3.05, Doz. \$9.50
Noted for its clear and big flowers of brilliant, rich amber-yellow with a soft golden glow, carried on tall, stiff stems. A bold and colorful plant. One of the best of the new Lemon Lilies. Height about 40 inches.

Crusader Each \$1.00, Three \$2.55, Doz. \$7.25
Visitors describe the color as Indian red, rich mahogany, velvety chestnut, etc. It's a shading difficult to describe, glowing richly but softly in the sun. Lighted by a golden throat, it is one of the fine, distinct varieties. Petals of flower are delicately pencilled with a fine golden line through the center. Late June and early July flowering. Height 30 in.

Dido Each \$1.00, Three \$2.55, Doz. \$7.25
Clear, warm soft apricot. It is one of the outstanding colors in our Hemerocallis field. A very choice variety greatly admired by visitors, flowering late June. Height 36 inches.

Erie Each \$1.00, Three \$3.05, Doz. \$9.50
Buff-shrimp-pink with soft buff-yellow midrib deepening to dull gold in the throat of the flower. A most unusual color combination. General effect created by flowers in bloom is soft buff-shrimp-pink. Flowering late June. Height 24 inches.

Fascinating Each \$1.00, Three \$2.55, Doz. \$7.25
Soft Chinese yellow somewhat deeper tinted in center of flower, lighter along the edges of the petals, all overlaid with a soft shading of apricot, creating a delightful cool and delicate effect. Very fragrant. Flowering late June. Height 28 inches.

Hercules Each \$1.25, Three \$3.05, Doz. \$9.50
Well shaped flowers of maroon-red with red-mahogany overtones and deep golden yellow center. Particularly bright and brilliant, totally devoid of dullness often present in the New Lemon Lilies. Grows about 40 inches tall and makes a fine clump. One of the best of the reds.

Insulinda Each \$1.25, Three \$3.05, Doz. \$9.50
Fine bold flowers of apricot-buff with pink overtones. Hemerocallis enthusiasts refer to this type of bloom as pink but it is not. However, the feeling of pink is present. Center clear yellow. Grows about 36 inches tall and is free blooming. One of the best of the New Lemon Lilies.

Magnificence Each \$1.00, Three \$2.55, Doz. \$7.25
Soft burnt orange with undertones of Chinese coral inside of flower, side shows buff and gold, center inside golden. A rare and choice color combination which glows and sparkles in sunlight as if dusted with gold and coral. Flowering in early July. Height 38 inches.

HEMEROCALLIS COLLECTIONS (See illustration)
Collection No. 3: 1 each of the above 8 varieties \$ 8.00
Collection No. 4: 3 each of the above 8 varieties 20.00

Gratia Each 80c, Three \$2.00, Doz. \$6.00
A massive gold reddish mahogany flower with big golden yellow throat; center of flower petals is veined yellow, giving the whole a brilliant star-like effect. A bold flower which stands out clearly, making it especially good for planting in the background or where a tall, bold effect is desired. Flowers are delicately fragrant. July flowering. Height 36 to 40 inches.

Linda (Stout) Each 80c, Three \$2.00, Doz. \$6.00
Color is soft, pale amber-yellow, Havana or Egyptian buff. The throat of somewhat deeper tone is separated from the main color by a well defined, narrow, delicately shaded starlike band of soft mahogany. The three main or broadest flower petals are heavily ruffled while the separating three narrow petals are not. The effect is very pleasing. Height 30 to 34 inches.

Primrose Mascotte Each 80c, Three \$2.00, Doz. \$6.00
Cool empire-yellow deepening to lemon-yellow in center. Visitors to our nursery call this 'The Dwarf Hyperion' and consider it the best of the dwarf summer flowering pale yellow Hemerocallis. In addition to its cool icy yellow shade, it is delightfully fragrant and forms fine clumps. A perfect plant for foreground planting or corners of flower beds. Flowers about mid-July. Height 20 inches.

Morocco Beauty Each 80c, Three \$2.00, Doz. \$6.00
Medium size flower but very brilliant. Color seems to be a mixture of velvety maroon-chestnut with purplish undertone; deep golden yellow throat, midrib in center of petals golden. Makes a very bright spot in the garden. Late June and early July flowering. Height 24 inches.

Nigrette (Leonian) Each 80c, Three \$2.00, Doz. \$6.00
This is the darkest colored Hemerocallis in our collection. Flowers are deep pansy-purple with very dark mahogany overtone; throat deep golden yellow. The flowers are not as large as we would like them to be but that fact can be overlooked because of their distinct color. Late June and early July flowering. Height 26 inches.

Tasmania Each 80c, Three \$2.00, Doz. \$6.00
Chinese coral overlaid with purplish glow, star of same color but several shades deeper, center golden yellow. The general effect is unusual. Several visitors wanted to know what this pink Hemerocallis is and rightly there is a definite pinkish shade produced by this flower. Flowering from middle to late June. Height 30 to 36 inches.

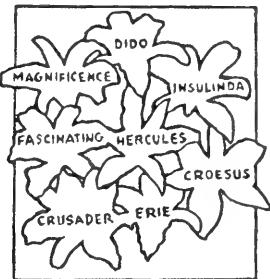

HEMEROCALLIS COLLECTIONS (See illustration)
Collection No. 1: 1 each of the above 6 varieties \$ 4.50
Collection No. 2: 3 each of the above 6 varieties 10.75

Leonian Hybrid Hemerocallis In Mixture

In height they vary from 3 to 5 feet. They stand on stalwart stems. Their flowers are of every shade from deepest burnt orange through flaming orange-red into amazing tints of pastel, old rose and maroon shades, all with a clean and pleasant fragrance.

Colors will be similar to those of the named varieties illustrated on this page.

Unit of 6 plants Leonian Hemerocallis for \$3.50; unit of 12 plants Leonian Hemerocallis for \$6.75; unit of 25 plants Leonian Hemerocallis for \$13.00.

Hemerocallis *Hyperion*

The Finest of All Yellow Lemon Lilies!

Art. Amaryllis-like flowers of Hyperion are citron-yellow and deeply fragrant. They are one of the most prolific flowering plants ever seen. The flowers are unusually thin and have exceptional substance; about 40 flowers are produced in each erect, slender stem. The flowers are perfectly sparkling clusters of flowers, the soft color of which is more apparent at a certain distance. Experts, as well as amateurs, consider Hyperion the finest pale yellow Hemerocallis available at a moderate price.

Few plants surpass the beauty and vigor of a well-flowered clump of this wonderful Day Lily. It received an Award of Merit of the Royal Horticultural Society of Great Britain. Its graceful arching foliage always looks handsome. The flower buds open well in water. It is perfectly hardy, grows in dry, wet, sunny, or shady places. Blooms in July and August.

Each \$1.10, Three \$2.75, Doz. \$7.50

Iris Kaempferi - RAJNBOW IRIS

The ancient poets called their Iris, Ground Rainbows; also Children of the Gods. A promise from them that beauty on earth would ever be. The finest of all their varieties is the Kaempferi which we offer you in a wide choice of colors. Not the least of their fine points is the graceful foliage. A thing of beauty after the blooms are past.

Planted in a mass, or as a border, they are ideal. A few edging a reflecting pool or stream, is something to remember. No matter how fine your Iris collection may be, not to have these is to deprive yourself of something that will make it complete.

CULTURE. Late plantings should be protected by a light covering of straw or leaves after the ground is permanently frozen to prevent roots from being heaved out of the ground by frost. Plant in spring or September and October. Avoid all lime.

Blue Bird Each 75c, Three \$1.80, Doz. \$5.65

Beautifully formed flower; rich uniform blue.

Caroline G. Childs Each 70c, Three \$1.70, Doz. \$5.50

A choice variety; single, white petals veined blue-violet; standards blue and white. Height 32 inches.

Columbia Each 75c, Three \$1.80, Doz. \$5.65

Double. Blue with pure white veins, yellow center; a striking variety.

Dominator Each 75c, Three \$1.80, Doz. \$5.65

Single. Rich indigo-blue with narrow white stripes and lighter center. One of the finest and richest colors.

Gold Bound Each 75c, Three \$1.80, Doz. \$5.65

A fine double, pure white; cream glow at the gold-bordered center.

Katherine Havemeyer Each 75c, Three \$1.80, Doz. \$5.65

Medium-sized, 6-petaled variety of a lavender-blue shade, intensifying to true blue with lighter veining at the center. Deep yellow center, 3 creamy white style arms tipped lavender-blue. This is considered one of the best Japanese Iris.

La Favorite Each 70c, Three \$1.70, Doz. \$5.50

Large, fine; white freely veined blue, and a rich purple center.

Lucia Marshall Each 70c, Three \$1.70, Doz. \$5.50

Fine, large double pansy-violet with white veins; center of flower is white with yellow spots.

Margaret Each 70c, Three \$1.70, Doz. \$5.50

Medium sized, 6 to 9 petals, somewhat irregularly placed, richly tinted medium blue, fading lighter at the petal edges. Center of flowers heavily crested, sometimes completely covering the yellow petal centers. Blossoms are substantial and stand up exceptionally well in bad weather.

Matchless Each 75c, Three \$1.80, Doz. \$5.65

Large, double flowers heavily veined blue on white ground with rich blue blotch around yellow center.

Melpomene Each 75c, Three \$1.80, Doz. \$5.65

Soft blue, double flowers of extra large size and fine substance. A late bloomer, of medium height, with the blooms well above the foliage.

Mount Hood Each 75c, Three \$1.80, Doz. \$5.65

Double. Light blue shaded darker, bright orange center.

Nishiki-Yama Each 70c, Three \$1.70, Doz. \$5.50

Large, vinous mauve double, flushed and veined white. Center of petals banded with mauve. A rare Iris.

Pyramid Each 70c, Three \$1.70, Doz. \$5.50

Double. Violet-purple veined white in center of each petal.

Respime Each 75c, Three \$1.80, Doz. \$5.65

The flowers are a beautiful azure-blue and are completely double. A variety of exceptional merit and the last to bloom.

Mixed Colors Doz. \$5.00, 100 \$22.50

Both single and double varieties. Splendid mixture of the choicest Japanese varieties.

IRIS KAEMPFERI RAINBOW COLLECTION of Beautiful Colors

Few plants are as easily grown or provide as beautiful a display of flowers early in summer. Both form of flower as well as the coloring is charming, while the foliage is always graceful and ornamental. The collection offered is made up from some of the choicest varieties grown. Distinct Color Collection of 10 plants, each one labeled, for \$5.50

Iris Sibirica

Caesar's Brother Each 75c, Three \$1.80, Doz. \$5.65

A stately plant not too tall, 30 inches high. It is the best of the entire lot of dark blue Siberian Iris and was given Honorable Mention by the American Iris Society. The flowers are an unusually rich black pansy-violet of a beautiful depth of color. A superb plant for any flower garden.

Gatineau Each 75c, Three \$1.80, Doz. \$5.65

Extra large, clear blue flowers; tall grower. An outstanding variety.

Llewellyn Each 75c, Three \$1.80, Doz. \$5.65

A very large flower of a most unusual and attractive shade of soft blue. Distinctive and outstanding. Height 42 inches.

Perry's Blue Each 75c, Three \$1.80, Doz. \$5.65

A beautiful sky-blue variety. It is one of the most popular in this class. Grows 48 inches tall and blooms freely.

Snowcrest Each 75c, Three \$1.80, Doz. \$5.65

An exquisite hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower border or waterside. 3 feet high.

Iris Pumila

Early Flowering Miniature Iris

These beautiful little Irises do not grow over 4 inches high and bloom in April and May. They are fine for bordering flower beds or planting in the rock garden.

Atroviolacea Three \$1.50, Doz. \$4.75

Wine colored reddish purple; very dwarf, free blooming.

Excelsa Three \$1.50, Doz. \$4.75

A very dwarf pale lemon-yellow; very free flowering.

Keepsake Each 75c, Three \$1.80, Doz. \$5.65

Tiny flowers of brightest yellow on very slender, graceful stems. Dainty and of clean color. Stems 12 inches tall. Very floriferous.

Sambo Three \$1.50, Doz. \$4.75

Dark violet-blue; very distinct and showy.

Sapphire Three \$1.70, Doz. \$5.50

Rich sapphire-blue and somewhat taller than the others offered.

Schneecuppe Three \$1.50, Doz. \$4.75

A large, showy, pure white; very floriferous.

Tampa Each 75c, Three \$1.80, Doz. \$5.65

Tiny flowers of a delicate redness for a dwarf Bearded Iris, carried on slender stems that are often gracefully reflexed. Stems 14 inches tall. Very floriferous.

Iris Germanica. See pages 80 to 85.

Iris Pumila

Spring as Well as Autumn Flowering—Flowering Twice Each Year

These autumn-flowering Irises have two or more normal flowering seasons each year. They blossom in the spring along with other early flowering varieties and again in the autumn, beginning in September and continuing until killed by heavy frosts. Some of them also flower intermittently throughout the year.

Autumn Queen

This is a reliable spring and fall bloomer. A pure snow-white. It belongs in almost the same class as Jean Siret and Lieut. Chavagnac so far as size and height are concerned, but is a little larger and a little taller.

Jean Siret

This variety and Lieut. Chavagnac are the most persistent bloomers of the Iris family. They begin to flower quite early in the spring with the earliest miniatures and have a long spring-flowering season. They also have an equally long autumn-flowering season. Clear chrome-yellow.

Lieut. Chavagnac

A new everblooming, fragrant, violet-colored variety, with the same qualities as Jean Siret. The two go well together.

Olive White

This is a good cream-colored spring and fall bloomer.

Iris Pumila, Excelsa

LIATRIS - Blazing Star or Gayfeather

Culture. They will all thrive in ordinary garden soil, in sun or in shade, and are grown in groups of three or more. Plant 8 inches apart. Plant in autumn or early spring. May be grown by the waterside, and bees are very partial to the flowers.

Pycnostachya *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*

Nothing can be planted that will attract more attention on account of its unusual appearance; but it is beautiful as well as odd. It blooms in midsummer and throws up long, narrow spikes of rich purple flowers, four feet high, which last a long time.

Scariosa, September Glory

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

A giant 6-foot spike solidly covered with purple flowers from top to bottom. The flowers, unlike the common variety, come into bloom all at the same time, creating a marvelous effect. A splendid improvement over the old variety. Late flowering. September.

Scariosa, White Spire

Each 80c, Three \$2.00, Doz. \$5.75

A magnificent pure white Gayfeather. Just as tall as the September closely spaced on three to four-foot spikes. The effect made by these garden as well as stunning flower for cutting.

LUPINUS - Lupine

Stately, colorful and beautiful perennials. The pea-shaped flowers are closely spaced on three- to four-foot spikes. The effect made by these colorful spires places the Lupines in the front rank of hardy border plants.

Culture. Growing Lupines well is not as much a problem of soil as it is one of atmospheric conditions. They require ample moisture, full sun and do not like the hot driving winds of summer. They do equally well in heavy or light sandy soils. Water freely when ground is dry. They look best planted in bold groups. Plant in fall or early spring, ten inches apart. Whenever possible do planting and transplanting in fall.

Polyphyllus, Blue *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*
(Hardy Lupine.) Clear blue spikes, 3 to 4 feet high, during June.

Polyphyllus albus *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*
A white variety of the above.

Polyphyllus roseus *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*
Flowers of beautifully shaded rose.

LUPINES IN MIXED COLORS

Reselected Russell Hybrids

You will find in our reselected Russell Lupines, the same gorgeous colors: self blues, pinks, reds, yellows, maroon, purples, etc. Bicolors such as violet and white, blue and yellow, red and bronze, red and white, etc. The standards one color, the keel another. Individual flowers above average size, upright standards of some being an inch across. The flower spike resembles a closely set, well rounded column of Sweet Peas. All flowers on spikes open at one time from top to bottom. Spike 3 to 5 feet tall. The sensation of the English horticultural world in 1937.

We offer fine two-year, field-grown plants that will give you a mass of blooms the same year they are planted.

Three \$2.00, Doz. \$5.75, 100 \$30.00

LYTHRUM - Purple Loosestrife

Suitable showy plants for moist, shady or sunny borders and the water-side. The plants are of stately growth, and bear their rosy or purplish flowers in tall leafy spikes.

Culture. Grow in ordinary soil in moist, sunny or shady borders, or in groups by the waterside. Plant in autumn or early spring.

Robert *Each \$1.00, Three \$2.55, Doz. \$7.25, 100 \$42.50*

During the past few years, several varieties of Lythrum have been introduced, each one better than the last. The variety ROBERT came to us from England and is unquestionably the best of the lot. It grows nice and dwarf as well as bushy, about 18 in. tall, with a dozen or more spikes on 2-yr. plants which are a clear fuschia-pink with sparkling reddish glow. A very bright and cheerful color. It does superbly near a pond or stream where it receives a lot of water. Makes a fine garden plant in those difficult wet spots. Hardy anywhere and of easiest culture. Here is an easy subject which responds to almost any kind of treatment and requires no care.

Superbum, Morden's Pink

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

This fine Lythrum originated at the Morden Experiment Station, Morden, Manitoba, Canada. The plant grows to a height of three to four feet and bears dozens of spikes covered with deep phlox-pink florets from June to late September. Lythrum Morden's Pink can be grown anywhere. It is as hardy as a tree. It does well during the driest weather but comes to perfection in a moist, sunny location where it develops into a magnificent showy clump 3 feet across or more. An excellent summer flowering perennial that requires no care.

MONARDA - Bee-balm; Bergamot

The flowers are borne in close heads or whorls on stems about 2 to 3 feet high, surrounded by colored bracts, and the leaves are more or less fragrant. Attractive plants for the semi-shady or sunny border, the wild garden, or for the city gardens.

Culture. Grow in ordinary soil in sunny borders or in light shade. All may be naturalized in the wild garden. Plant in bold groups in autumn or spring, 10 inches apart. Divide and replant every third year.

Didyma alba *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

The white Monarda is similar in habit of growth to Cambridge Scarlet. Excellent in light shade or full sun.

Didyma, Cambridge Scarlet

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Brilliant crimson-scarlet flowers are produced freely from June until August. A good plant for shady garden as well as border or garden in the city where other flowers don't grow well.

Didyma, Croftway Pink *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

Not many new plants arrived from England in wartime but this is one of them, and it's a valuable acquisition. A most appealing rich rose-pink. Hardy and free blooming. Like other Bergamots, it presents an irresistible for hummingbirds. Does well in shady gardens and is excellent for cutting. It replaces the old variety Salmon Queen which we have discontinued.

NEPETA - Ground Ivy; Catmint

Really only 2 varieties are worthy of culture, and are suited for massing in the garden. The foliage is aromatic and silvery gray, the small flowers are lavender-blue.

Culture: Ordinary soil, well drained, and a sunny position will suit the Nepetas. Plant in autumn or spring, 8 inches apart.

Blue Beauty (Upright Growing)

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

From France came this profusely spring-flowering border plant where it is called Souvenir de Andre Chaudron. It is compact and upright in growth. Twenty to thirty stems to one plant. Excellent for cutting as well. It grows about two feet tall and does exceptionally well in hot dry places. Flowers are produced throughout the summer. The foliage is gray-green, contrasting well with surrounding plants. A most satisfactory plant of very easy culture.

Mussini

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

Of dwarf, compact habit, producing masses of bloom of a beautiful shade of lavender all spring and intermittently during the summer.

OENOTHERA - Evening Primrose

The species named below are especially suitable for growing on the margins of sunny borders and rock gardens, and all make a continuous and brave display of color throughout the summer with little attention.

Culture. All require a well drained, medium sandy soil, freely intermixed with well decayed manure, and a sunny position to grow and flower freely. Show to the best advantage when grown in groups. Plant 8 inches apart in spring or fall. They are apt to perish in winter if grown in heavy, damp soil.

Youngi

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

A strong, stocky, large leaved plant with firm, shiny foliage, numerous bright lemon-yellow flowers on stems about 24 inches tall from June to August.

PACHYSANDRA TERMINALIS

SEE PAGE 2 FOR COMPLETE LISTING

PLATYCODON - Chinese Bellflower

Very satisfactory hardy plants for the sunny border. It has broad, blue or white, bell-shaped flowers all summer and is therefore a very fine garden plant.

Culture. Must be grown in a light, more or less sandy soil, in a well drained, sunny border. If the border is slightly elevated so much the better. Plant in early spring or fall, 8 inches apart. Disturb as little as possible.

Grandiflorum

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

Large, showy, deep blue flowers on 20-inch spikes are produced all summer. A splendid plant for the hardy border.

Grandiflorum album *Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00*

White-flowered form of the above.

Mariesi

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

A beautiful dwarf species with broad, thick foliage and large, deep violet-blue flowers on 12-inch stems in great profusion throughout the entire summer. Plant in front of the border or in the rock garden.

Platycodon Grandiflorum

Paeonias - Peonies

VOTED THE FINEST

(We do not ship Peonies into California, Washington, or Oregon.)

The numbers or RATINGS given immediately below the name are the averages tabulated from the votes of the members of the American Peony Society throughout America and Canada. Ten is highest possible score; none under seven are offered. This list contains the best only.

Alice Harding

3-5 Eyes, Each \$3.00, Doz. \$30.00
(9.2) A midseason creamy white with soft pink guard petals. Lemoine considers this his best introduction. It is a beautiful variety and its delicately colored flowers are always admired.

Baroness Schroeder

3-5 Eyes, Each \$1.25, Doz. \$12.50
(9.0) Rose type; late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant.

Festiva Maxima

3-5 Eyes, Each \$1.25, Doz. \$12.50
(9.3) Paper-white, crimson markings in center. Very large and full rose type; very tall, strong growth. Early.

Frances Willard

3-5 Eyes, Each \$1.25, Doz. \$12.50
(9.1) Rose type; opens an exquisite blush-white, with an occasional carmine touch, changing to pure white. Listed among the world's twenty most beautiful Peonies.

Kelway's Glorious

3-5 Eyes, Each \$3.00, Doz. \$30.00
(Kelway, 1909) (9.8) Buds slightly tinted pink, opening into large blossoms of iridescent white. Fragrant. Late midseason. This is undoubtedly one of the finest Peonies.

Le Cygne

3-5 Eyes, Each \$3.00, Doz. \$30.00
(9.9) Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony.

Longfellow

3-5 Eyes, Each \$2.00, Doz. \$20.00
(9.0) Everyone concedes Longfellow one of the most popular red Peonies because of its distinct, fadeless color and general dependability, both for cutting and garden decoration. It is as striking in the field as in the show room. It comes into bloom early midseason. The plant has excellent foliage and strong, stiff stems. The flower is a bright crimson and is always found among the winning classes.

Martha Bulloch

3-5 Eyes, Each \$2.00, Doz. \$20.00
Mammoth cup-shaped blossoms often 9 to 12 inches across. The largest of the good Peonies. Deep rose-pink in the center, shading to silvery shell-pink in the outer petals. Stalks strong and erect.

Mary Brand

3-5 Eyes, Each \$1.50, Doz. \$15.00
(8.7) No red Peony ever won favor so quickly as Mary Brand. Always found among the winning reds in every show room. Comes into bloom with Frances Willard. Color so distinct it is easily recognized by amateurs, no matter how often they find it in our fields. A red in which there is little trace of purple. One of the most satisfactory reds as a cut flower as it will last a week if cut in the bud.

Mons. Jules Elie

3-5 Eyes, Each \$1.25, Doz. \$12.50
(9.2) A beautiful silvery pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence.

Philippe Rivoire

3-5 Eyes, Each \$4.50, Doz. \$45.00
(9.2) A very bright rich crimson coming into bloom late midseason. The beautiful form of this flower and its uniform soft rich color make it a flower loved by all who see it. This is a fine show flower and is absolutely void of stamens. It has a pleasing fragrance and is the highest rated of any red Peony.

Primvere

3-5 Eyes, Each \$2.00, Doz. \$20.00
(Lemoine, 1907) (8.6) Guard petals deep creamy yellow and center petals sulphur-yellow. If not exposed to the full sun the flowers will hold a canary-yellow which is most attractive. Very fine. Midseason.

Sarah Bernhardt

3-5 Eyes, Each \$1.25, Doz. \$12.50
(9.0) Apple-blossom-pink, very free blooming and flowers of perfect form on graceful stems. This is the ideal pink cut flower Peony.

Solange

3-5 Eyes, Each \$1.50, Doz. \$15.00
(9.7) Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer.

Peonies in Mixed Colors

Three \$2.50, Six \$4.50, Doz. \$8.00
This mixture is a choice one. It contains many varieties in a wide range of colors and forms. Each season small quantities of a great many kinds are left. These are put together along with several other varieties of which we have a surplus. A real buy for good cut flowers and lots of color.

PAEONIA OFFICINALIS (Early Peony)

Officinalis Albo-Plena

Double white. Each \$2.00, Doz. \$20.00

Officinalis Rosea Fl.-Pl.

Brilliant deep rose-pink fragrant flowers; one of the earliest to bloom. Each \$2.00, Doz. \$20.00

Officinalis Rubra Fl.-Pl.

The old-fashioned early red, that even in our latitude blooms before Decoration Day. Each \$1.75, Doz. \$17.50

PEONY OFFICINALIS HYBRID

Veritas

Each \$2.50, Doz. \$25.00
Unusual type of bloom, narrow center petals, pointed, with yellow stamens fastened to the edges of some, and other stamens forming a yellow collar. A very brilliant dark red, glistening and enduring like varnished mahogany. Early and a very strong grower.

PAEONIA TENUIFOLIA

Tenuifolia Flora-Plena

Each \$3.00, Doz. \$30.00
A rare and early flowering variety especially noted because of its fine fernlike, lacy foliage. Among the first to bloom with medium sized, brilliant, dark red, double flowers. It is not wise to ever cut the flowers with long stems if you want your plants to develop into nice specimens. Better consider this as one of your choice garden gems.

Graceful Anemone-Flowered Peonies

A type not very generally known, but awakening great interest and enthusiasm. The opened flowers are of extra wide spread, with one or more layers of broad guard petals which act as a cup to the mounted center. In place of the pollen-bearing stamens, the stamens and anthers are greatly enlarged into narrow, thick, twisted petaloids of various colors, forming a dense cushion. They produce an enormous amount of flowers, creating a riot of color in the garden and are superb for cutting, lasting longer than the double flowers.

(We do not ship Peonies into California, Washington, or Oregon.)

Alstead

Each \$3.00, Doz. \$30.00
Deep pink with all yellow petaloids on extra fine plant. Very strong growing and produces an abundance of flowers. Superb for garden use as well as for cutting.

Eva

Each \$2.00, Doz. \$20.00
Bright light crimson flowers with lilac overtones. A very lively and artistic shade. Outstanding are the large round petals, making the flower look like a large Tulip. It flowers unusually free and is an outstanding kind for garden planting, not too tall. It fits well in the hardy border.

Fuji-No-Mine

Each \$3.00, Doz. \$30.00
Blush-white with golden yellow stamens, star-shaped flower. Very large and a strong grower, giving many blooms.

Isani-Gidui

Each \$4.50, Doz. \$45.00
Pure white with golden center; resembles a large, white Poppy.

Jeanne Lepandry

Each \$3.00, Doz. \$30.00
Glittering pure white. A most lovely and desirable variety; reminds one of a cluster of Water Lilies. Good, strong grower.

Kewanee

Each \$2.50, Doz. \$25.00
Dark red single flowers, brilliant and unfading, with fine clusters of yellow stamens. Plant erect in growth, requires no staking. Blooms last long on the plant and for cut flowers. Outstanding and artistic.

Kinsui

Each \$1.50, Doz. \$15.00
Light salmon-pink, two rows of petals, pure golden center. Large flowers. A very fine variety.

L'Etincelante

Each \$1.50, Doz. \$15.00
Semi-double to single in appearance with petals deep rose, inner petals pale rose, white at edges, golden crest of stamens. Large blooms, in clusters of 4 or 5 on one stem, a bouquet in itself. A very showy variety for the garden and handsome as a cut flower.

Mikado

Each \$2.00, Doz. \$20.00
A rich red with long, rounded petals of brilliant red surrounding a great dome of golden staminodes. Exceedingly brilliant.

Nippon Beauty

Each \$1.75, Doz. \$17.50
A late, rich deep garnet-red. Center petaloids are garnet-red edged with golden yellow. A strong grower and a free bloomer. An excellent variety that is always admired. Makes a superb show in the garden and is lovely for cutting.

Nippon Brilliant

Each \$3.00, Doz. \$30.00
A medium dark red with red petaloids which have a broad yellow edge. Flowers late in the season. The plant grows tall with strong stem. Intensely brilliant, making a magnificent show when in full bloom.

Tomate-Boku

Each \$5.00, Doz. \$50.00
Lively China-pink, golden center; the largest flowers.

Yokohama

Each \$2.50, Doz. \$25.00
Cream-pink, turning to white; opening like Rose buds; very tall.

Papaver Orientale - Oriental Poppy

Oriental Poppies are the royal representatives of this popular family. They have shown a remarkable increase in public favor in recent years because so many new and better colors have been added. Rich tints of rose, salmon-pink, white and lavender, as well as Indian-copper-red are now available besides the brilliant reds. Growing 3 to 3½ feet in height, they contribute a rare splendor of bloom throughout the late spring. Plant them singly or en masse; they have a way of dominating, by their gorgeous display of rich and bright coloring and the splendor of blooms, that portion of your garden where they are placed.

They flower in May and June, at which time their sheer burst of vivid and brilliant colors render them without an equal.

Culture: Almost any kind of soil suits them, but they do best in deep, rich loam. Set the plants out in the fall or early spring before the first of May, 12 inches apart. Give them water occasionally during dry spells in the early part of the season. Mulch with dry litter to prevent crown rot in the fall; and they will increase in size and floriferousness for several years. The proper planting season for field-grown roots is during the last of August, September and October. In spring, strong plants are supplied in pots to insure success.

Australia

Large, massive and substantial flowers of oxblood-red or spectrum-red on rigid, tall, 42-inch stems. This fine red variety is an Australian introduction.

Barr's White

Large pure white flowers with purplish black spots. This is a free blooming and healthy grower.

Cavalier

Each 80c, Three \$2.00, Doz. \$6.00

One of Dr. Neeley's latest and best. Strong grower and free bloomer. Flowers are crinkly and deep scarlet-red.

Cerise Beauty

Each 95c, Three \$2.35, Doz. \$7.00

Distinct cerise-pink flowers on stems of medium height, often 8 to 10 stems per plant, make this an outstanding variety. You will like it for its brilliant coloring and fine habit.

Crimson Pompon (Double)

Each 80c, Three \$2.00, Doz. \$6.00

Blood-red, pompon-like flowers, fully double. The first double Poppy in a really red shade. It is of medium height, multiplies readily and flowers very freely. This is a Dutch introduction of which we were fortunate in obtaining a few plants just before the war and now have sufficient stock available for introduction. You'll want to add this to your collection. The first Poppy to bloom in spring.

Curtis Giant Flame

Each 95c, Three \$2.35, Doz. \$7.00

Established plants grow flowers 11 inches across, on 4-foot stems. The giant blazing red flowers are immense and almost barbaric in appearance. This is the biggest of the Giants and as a visitor expressed it well, looks like a good sized fire in the garden.

Curtis Giant Flesh-Pink

Each 95c, Three \$2.35, Doz. \$7.00

A mammoth sized Poppy. The flower is flesh-pink, slightly tinted lavender; blooms are 9½ inches across on stems 3 feet high. One of the fine attributes of the variety is that it also grows exceedingly well in shade.

Curtis Salmon-Pink

Each 80c, Three \$2.00, Doz. \$6.00

A rugged grower; 3-foot stems and 8-inch blooms of the most pleasing salmon-pink, showing more pink than salmon. This, while not the biggest of the Giants, is without doubt one of the best.

Helen Elizabeth

Each 80c, Three \$2.00, Doz. \$6.00

Considered by many as the best pink. It is a rugged grower. The straight 34-inch stems are topped by La-France-pink flowers without dark spots. We also think it one of the best.

Henri Cayeux Improved

Each 80c, Three \$2.00, Doz. \$6.00

Much larger flowers than Henri Cayeux but otherwise similar. The big blooms are a peculiar tint of ashes of roses or an old rose shaded burgundy. If grown in light shade this flower really comes to perfection.

Indian Chief

Each \$1.10, Three \$2.75, Doz. \$7.50

Larger than the old favorite and a much better grower and more free blooming variety. This beautiful mahogany color is badly needed and for that reason the old Mahony was always in demand. We have now discontinued this and are introducing Indian Chief in its place. It grows well, blooms freely, and its flowers are distinct and handsome.

Salmon Glow. (Double)

Each 75c, Three \$1.80, Doz. \$5.65

A fine double salmon-orange not to be confused with Olympia. The flowers are exceptionally large, fully 8 inches across. It is a Dutch origination and selected for the Wisley trials. It received a first-class certificate in Holland and is spoken of as a beautiful double salmon-orange, upright growing Poppy.

Snowflake (Plant Patent No. 365)

Each 90c, Three \$2.25, Doz. \$6.50

The lower half of the flower is pure white, the upper half a flame-orange, creating a most unusual and brilliant effect. The orange band of the upper half of the petals varies considerably in width with each flower, helping to increase the charm of this rare variety. The flowers are medium size and grow on stiff stems. A few clumps of Poppy Snowflake in your garden will create nothing short of a sensation.

Watermelon

Each 95c, Three \$2.35, Doz. \$7.00

This new Poppy is liked by everyone who sees it. The flowers are 6 to 7 inches across and about three shades deeper in color than Wunder-kind, grow on 30-inch stems and flowers are produced in liberal quantities. Here is a charming Poppy and again in a really worth-while color addition.

Mixed Colors of Oriental Poppy varieties listed on this page

Three for \$1.70, Doz. \$5.50

New Wayside Gardens' Hybrid Oriental Poppies

Salome

Each \$1.25, Three \$3.00, Doz. \$9.50

Here is a real beauty. The nicely formed flowers are colored a beautiful French rose. A plant in flower makes a showing you will not soon forget. There are so few flowers of this color, we feel sure this will be a favorite with all gardeners.

Sonate

Each \$1.25, Three \$3.00, Doz. \$9.50

Beautiful soft camellia-rose flowers in great numbers grace this variety in early spring. Large in size, pleasing in color, it stands out among the Poppies as one of the choice ones. A rare shade of clear, deep rose-pink we have never seen in Oriental Poppies before.

Souvenir

Each \$1.25, Three \$3.00, Doz. \$9.50

Vivid Poppy-red with copper tinting. Its huge flowers are flamboyant and commanding. It is a rugged grower and free blooming. This will be a popular variety in the years to come and well worthy of being in this collection.

Sultana

Each \$1.25, Three \$3.00, Doz. \$9.50

Brilliant watermelon-pink flowers of extraordinary size make a wonderful showing in spring. No other color in Poppies is like it and few Poppies produce as many flowers or last as long. Here is a variety to make your mouth water.

Sungold

Each \$1.25, Three \$3.00, Doz. \$9.50

A brilliantly colored Poppy, bright Saturn-red with golden glow. Outstanding in color, vigor and bloom. There is nothing like it. Shows up brilliantly in the garden.

Surprise

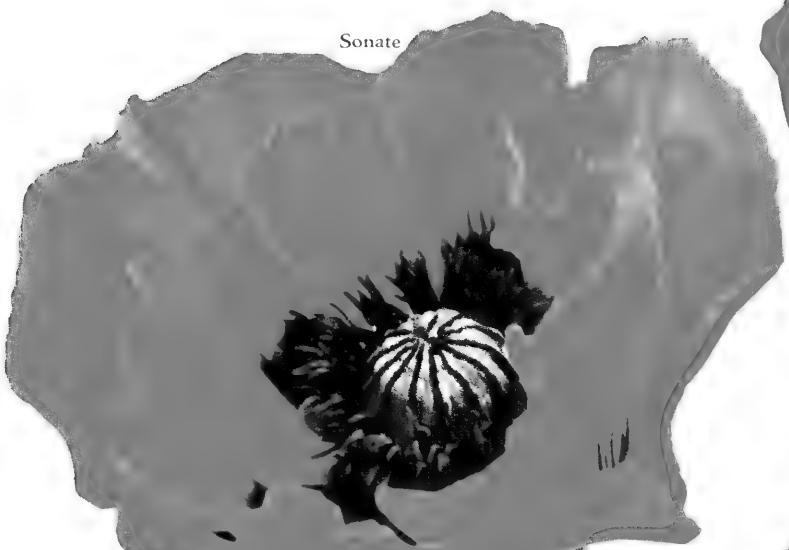

Each \$1.25, Three \$3.00, Doz. \$9.50

Giant flowers in unusual quantities of the brightest vermillion-red which is enhanced because of the pronounced blue-black, round spots at the base of the flower. Its rich clear color is not matched by the older varieties.

Tree Peony, Mme. Ferdinand Lemaitre

Tree Peony, Reine Elizabeth

Tree Peony, Lactea

Paeonia Moutan - Chinese Tree Peonies

One of the choicest plants available for the garden. Quite hardy, and does well under the simplest treatment. It flourishes in the most astonishing manner, bearing blossoms from 6 to 8 inches across, which increase every year in beauty and size. A grand addition to the garden, as they do not die down to the ground like the herbaceous sorts, but make fine bushes 3 to 4 feet in height covered every spring with elegant flowers.

Culture. It is advisable to avoid wind-swept locations and to protect the early bloom buds in case of late spring frosts. The south or east side of a planting of evergreens shrubs, wall or building is a very good location for Tree Peonies. Mulching is advisable the first winter after transplanting. Apply mulch of light material after ground is frozen solid. Any good, well drained garden soil is satisfactory. **Never cut back woody branches.**

3-Year-Old, Field-Grown, Ready to Bloom

Adzuma Kagami

3-year-old, field-grown plant, Each \$9.00
Beautifully formed, double, rose colored flower with a fine shade of lilac through it. Outstanding and most unusual color. One of the top rank varieties.

Comtesse de Tudor

3-year-old, field-grown plant, Each \$9.00
Lively salmon, petals tipped satiny white; fine full double flower; tree bloomer. Lovely sparkling variety.

Chromatella

3-year-old field-grown plant, Each \$10.00
This striking novelty is a sport from the beautiful variety Souv. de Maxime Cornu. Color is a pure sulphur-yellow without any shade of salmon or buff. The flower is fully double. Very choice.

Flambeau

3-year-old, field-grown plant, Each \$10.00
Large, double flowers of a bright salmon-red with purple veins.

Flora

3-year-old, field-grown plant, Each \$12.00
Semi-double blossoms, immense size, pure white with purple blotches at base of petals.

Fragrans Maxima Plena

3-year-old, field-grown plant, Each \$9.00
Fragrant flowers which are fully double and clear salmon. This is one of the best of the deep pink kinds and a great favorite.

Godaishu

3-year-old, field-grown plant, Each \$9.00
The semi-double flowers are pure white and of great size. It is one of the finest of the white Tree Peonies which are so much sought after.

Gyoku Senshiu

3-year-old, field-grown plant, Each \$9.00
An exquisite variety. Semi-double to double rose-pink flowers of immense size. Amongst the best.

Iro-No-Seki

3-year-old, field-grown plant, Each \$9.00
Huge deep salmon-pink flowers, fully double. A most interesting and striking bloom. The plant is a good grower and produces its flowers in abundance.

Jeanne d'Arc

3-year-old, field-grown plant, Each \$9.00
White, flushed salmon-pink, deeper salmon tinted inside. Handsome in every respect. A beautiful flower produced on a strong plant.

Konron Koku

3-year-old, field-grown plant, Each \$9.00
Enormous semi-double, velvety maroon blooms. A very striking variety.

Tree Peony, *Fragrans Maxima Plena*

Lactea

3-year-old, field-grown plant, Each \$9.00
Pure milky white flowers of great beauty. A good grower and blooms freely. Develops into a superb plant

La Lorraine

3-year-old, field-grown plant, Each \$10.00
Large, well expanded, full double flowers of good substance; the petals nearly imbricated, a soft sulphur-yellow with a salmon tinge when opening, becoming lighter and purer when fully expanded.

Louise Moucheton

3-year-old, field-grown plant, Each \$9.00
Very large, double, salmon-rose-pink blooms. One of the largest flowered Tree Peonies. Makes a particularly fine display in the garden.

Mikasa Yamare

3-year-old, field-grown plant, Each \$9.00
One of the fine rose-pink Tree Peonies. Exquisite flowers, semi-double to double. Considered one of the top varieties in this particular color.

Mme. Ferdinand Lemaitre

3-year-old, field-grown plant, Each \$9.00
Large, fully double, fragrant flowers. Color is a distinct deep rose-carmine which passes into silvery rose. A most vigorous variety.

Mme. Stuart Low

3-year-old, field-grown plant, Each \$9.00
The many deep red blooms make this a very showy variety. It makes a fine contrast if grown near one of the pure white forms.

Mme. de Vatry

3-year-old, field-grown plant, Each \$9.00
Soft tinted satiny rose blooms of great size. Do not confuse this variety of Tree Peony with the well-known double Peony of the same name.

Morris

3-year-old, field-grown plant, Each \$9.00
Brilliant cherry-red flowers of good size. One of the best in its color.

Osiris

3-year-old, field-grown plant, Each \$10.00
The exotic chestnut-brown flowers make this an outstanding variety which never fails to draw attention. There is no other Peony we know which produces blooms of such unusual color.

Regina Belgica

3-year-old, field-grown plant, Each \$9.00
Large, flesh-pink, handsomely shaped flowers of great size, free blooming. Grows into a fine plant which produces many flowers and increases in beauty as it grows older and bigger.

Reine Elizabeth

3-year-old, field-grown plant, Each \$9.00
Flower perfect in shape, vivid salmon-pink. A brilliant color, considered amongst the finest of all double Tree Peonies. A-1 plant.

Reine de Violettes

3-year-old, field-grown plant, Each \$9.00
Richly tinted violet blooms, a most outstanding color; quite rare and sought after by collectors for its unusual coloring.

Ruribana

3-year-old, field-grown plant, Each \$9.00
Deep, glowing purple, large, fully double flowers. A most unusual and striking variety.

Souvenir de Ducher

3-year-old, field-grown plant, Each \$9.00
Clear violet, immense flowers on a vigorous plant. Makes a brilliant display, a most unusual variety. Very rare color.

Souvenir de Maxime Cornu

3-year-old, field-grown plant, Each \$20.00
It forms a bush 3 to 4 feet high with abundant and healthy foliage; every stem carries 2 to 3 full flowers, 8 inches or more across with crowned and wrinkled petals of a deep yellow, heavily shaded orange.

Tama Fuyo

3-year-old, field-grown plant, Each \$9.00
Exquisitely fully double pink flowers. It is considered one of the most beautiful of the double flowered pink Tree Peonies. Grows well and blooms freely. An A No. 1 variety in every respect.

\$5.50

New English Phlox, *Sir John Falstaff*

A giant among Phlox and unquestionably the most outstanding in the field ever seen. Indeed it is so far in advance of all others that it is difficult to predict it will retain the lead for a very long time to come. The flowers are rich, luminous salmon-pink, one of the loveliest colors in the entire spectrum of summer. The individual "pips" are larger than a five-cent piece, about $1\frac{1}{8}$ inches in diameter. The flower truss is truly

massive—there is no other Phlox comparable in size to these majestic bouquet-like heads of bloom.

Sir John Falstaff has a first-class habit and a constitution as befits the name—robust, vigorous, with sturdy stems and bold substantial foliage. And as to growth, it is one of the most accommodating we know. Height 24 to 36 inches depending on soil conditions.

Each 95c, Three \$2.35, Doz. \$7.00, 100 \$49.00

Phlox Decussata - Hardy Phlox

Search where you will, say what you will, after all is said and done, Phlox still holds its head highest as an indispensable in every garden from coast to coast.

None other has so many desirable attributes or adapts itself so happily to all gardens. Do you know of any that give an equal in showy, colorful blooms? What other hardy plant needs as little attention or grows as prolifically and flowers so long? What one of your garden friends blooms so long through the hot summer months?

The great many varieties generally offered are quite likely to be confusing; we have, therefore, discontinued growing any but the best and newest varieties noted for their clear colors, freedom of bloom, and ruggedness. Our list contains no poor growers or undesirably colored varieties.

It's Easy to Grow Phlox

To grow Phlox well soil should be well drained, deeply spaded, and enriched with Wayside Gardens Plant Food. Planting may be done in fall or spring in a sunny border. Set plants 10 inches apart. Lift and divide every 3 or 4 years or they will become crowded, resulting in poor, small flowers. Never let plants go to seed, never water overhead, always keep blooms and foliage dry, letting hose run slowly on ground. This method of watering prevents mildew.

Africa

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem and not subject to mildew.

Augusta (Plant Patent No. 252)

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

The finest American-Beauty-red Phlox ever introduced. A strong growing plant of medium height, about 2½ feet when fully grown, with rich, bronzy green foliage and stem. Color is best described as a brilliant cherry-red, not quite as deep as Bacon and much more intense and sparkling. The young florets at opening show a decided amount of orange. The color remains perfect under all weather conditions. Augusta is a beautiful vivid colored variety of exceptional growth and qualities, and will eventually replace all other varieties of similar shade.

Blue Boy

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Blue Phlox just do not exist. In semi-shade, however, certain varieties develop good blue tints. So far Blue Boy is the nearest to dark blue we have been able to come. Planted with Mary Louise a stunning contrast is made. Blue Boy is a good grower and of medium height.

Brigadier

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

A variety of English origin has excellent qualities and is a good grower and blooms freely. The large flower heads are a most unusual and pleasing, carmine-red with claret-pink shading. The eye is small and clear red. A brilliant flower in the border.

Bright Eyes

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

This is a seedling of the well known Daily Sketch and possesses its parent's fine quality. The florets are extraordinarily large, possibly the biggest of any Phlox and amazingly brilliant red with dark eyes or centers. Bright Eyes makes a great show and is conspicuous for its size and magnificent color.

Charles Curtis

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

The most brilliant Phlox in cultivation. The color is outstanding and difficult to describe. Sunset-red probably comes nearest to it. It is a fine strong grower about 2½ to 3 feet tall, has good clean foliage. The flower head is large and unusually clear and sparkling due to the fact that the flowers do not discolor in the sun or fade with age. A brilliant and colorful companion for Mary Louise. A single plant of this magnificent Phlox was discovered in our nurseries 5 years ago growing in a large bed of what is now one of the most popular red varieties. Phlox Charles Curtis in our opinion is the finest of its color and will replace, as soon as better known, all those of similar shades.

Columbia (Plant Patent No. 118)

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

The finest light pink Phlox ever introduced. The color suggests a delicate cameo-pink with faint blue shading at center. The clearness of tone is remarkable, the brilliancy is so pronounced that immediate attention is given to this wonderful plant. As the flower ages, the blooms always retain their delicate pink shade; there never are any magenta tones visible. Out of each leaf joint grows a lateral or secondary flower spike continuing the display of blooms long after the main flower head has disappeared. Columbia is well called the "perpetual flowering" Phlox.

Daily Sketch

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Extra large trusses—large and individual florets. Color is light salmon-pink with crimson-rose eye. Viewed from a short distance, the effect is a magnificent rose Phlox. Daily Sketch is an outstanding variety. Although introduced several years ago, it is practically unknown. It is robust and rugged in growth and about 3½ feet high.

Dr. Klemm

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Large trusses of silvery lavender with diffused violet eye. One of the showiest of Phlox in this color range. The effect of a clump in bloom is silvery lavender-blue, that combines well with pink and salmon shades.

Elizabeth Arden

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

A fine Phlox, particularly desirable because of its free flowering qualities. Heavy bloom trusses are soft Rhodamine-pink with a pale pink ring around the red eye. Grows about 24 to 30 inches high.

Harvest Fire

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

A tall growing Phlox with mammoth fiery salmon-orange flower heads. The large florets are 1½ to 2 inches across. Clean, healthy foliage. Long bloomer and the flowers are long-lasting. Bottom branching type, growing 30 inches tall.

Leo Schlageter

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Seldom has one seen a shade of red such as produced by this fine Phlox. Its brilliant scarlet blooms seem to glow with fire. This impression is heightened by the fact that there seems to be a decided orange cast to the blooms. Of splendid habit, about 3 feet high with full rich heads of bloom; early. The best red Phlox in existence today.

Mary Louise

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

The finest white—as white as Carrara marble. Pure white heads of unusually large size, reminding one of Carrara marble; the individual flowers are twice as big as other white Phlox. Perfectly beautiful; unquestionably the best white to date. The favorite in English gardens. A good grower with clean foliage and a prolific bloomer. Of medium height.

Mies Copyn

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

A beautiful pure clear pink Phlox with carmine eye that produces massive trusses of flowers throughout the summer season. It has an excellent erect habit of growth and will be a delightful asset to any garden and will make a very splashing effect on the landscape. This is a variety we can heartily recommend. It is a recent introduction from Holland, particularly noted for its rugged growth.

Pinkette

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

The large florets are soft, delicate pink, very pure and lovely. This unusual coloring is heightened by the fact that the little narrow tubes which fasten the florets to the stem are clear, deep pink. Pinkette belongs among the loveliest of Phlox. Flower heads are large, it is a good grower and combines beautifully with Columbia and Rosy Blue.

Progress

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Superb light blue, handsomely set off with deeper purple-blue eyes. Extremely large flower heads with 1½- to 2-inch florets. Different climates have an interesting effect on the particular hue the flowers display. Rich dark green foliage. Height 2½ feet.

Purple Heart

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

The individual flowers are large and are carried in good size trusses. The color is a brilliant, live shade of deep blue-purple intensified by a darker center given sparkle by the dainty cream colored anthers.

Rosy Blue

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Soft lavender-blue with delicate pink undertones have created here one of the finest of Phlox. There never is at any time a sign of objectionable purple or violet tinting. Rosy Blue is one of the finest in this color grouping. The florets are large and grow in fine big clusters. The plant is vigorous and makes a superb companion to Columbia.

Salmon Beauty

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Rich salmon-pink with white eye. There are many Phlox of this general color, but when all is said and done, we believe Salmon Beauty is one of the first on the list in this shade.

Sir John Falstaff

Each 95c, Three \$2.35, Doz. \$7.00, 100 \$40.00

A giant among Phlox and unquestionably the most outstanding variety we have seen. It is so far in advance of all others that we predict it will retain the lead for a very long time to come. Color is a rich luminous salmon-pink, one of the loveliest colors in the floral pageant of summer. Individual "pips" are larger than a five-shilling piece, about 1½ inches in diameter. The flower truss is truly massive—there is no other Phlox comparable in size. Sir John Falstaff has a first-class habit and a constitution as befits the name—robust, vigorous, with sturdy stems and bold substantial foliage. And as to growth—it is one of the most accommodating we know. Height 24 to 36 inches depending on soil conditions.

Starlight

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

Rich violet with a very sharply defined white star in the center. The rich, brilliant color has made it a favorite in many gardens. For finest effect plant it in combination with the white Phlox, Mary Louise.

Sweetheart

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

Its soft salmon flowers create a fine clean effect of pink. The eye is quite pronounced, strengthening the color. There are no magenta tints at any time, just a clean, pure salmon-pink. A rugged grower and free bloomer. Height about 3 feet.

Von Lassburg

Each 70c, Three \$1.70, Doz. \$5.50, 100 \$25.00

A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering. Rather tall, fine for the back of the border.

White Admiral

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Beautiful big heads of bloom like great mounds of snow. Here is a brand-new white Phlox guaranteed to bring more beauty to your garden. It produces enormous pure white heads and the continually breaking side branches give an excellent late bloom. Reaches a height of 2 to 2½ ft. and blooms profusely in July and August. It is delightfully fragrant.

PHLOX SUFFRUTICOSA - Early Phlox

Miss Lingard

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Has beautiful, long, shiny green foliage and is absolutely free from disease. It flowers from early June until October with large heads of white flowers with faint pink shading in center. The best early white Phlox.

PHLOX SPECIES

*Divaricata canadensis

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

One of our native species, worthy of extensive planting, blooms from early in April through May, with large, fragrant, lavender flowers on stems 10 inches high. In spring this plant is sold in pots to insure best results; in fall field-grown plants are best. Like shade. Very attractive in combination with Tulips or other early spring-flowering bulbs.

PLUMBAGO - Leadwort

Lovely low-growing plants with leathery, small, heart-shaped leaves of bronzy green color. The flowers are a deep peacock-blue borne in small clusters just above the foliage.

Culture. They require a sandy loam which is well drained and not too rich. Do well in the rock garden in full sun or partial shade. May be used also as edging to beds or garden paths. Plant in fall or spring, 6 to 8 inches apart; cover lightly during winter in exposed places. Starts into growth quite late in spring.

***Larpentae** *Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00*

One of the most desirable border and rock plants. It is of dwarf spreading habit, growing 6 to 8 inches high, covered with brilliant blue flowers during late summer and fall.

POLYGONUM - Dwarf Lace Plant

Reynoutria *Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50*

This handsome ground cover was introduced a few years ago by Amos Perry, one of England's oldest and best known plantmen. It is of easy culture, very hardy and establishes itself quite rapidly from underground runners. It does best in full sun and its pale green foliage turns brilliant red in the autumn. Height is between 4 and 6 inches. In the fall it produces numerous airy pink sprays of flowers not unlike those of the "Silver Lace Vine." The buds are deep coral and salmon, adding much to its charm. One of the best ground covers for sunny places where Vinca and Pachysandra would not be satisfactory.

POLYANTHUS - Bunch Primrose

The Polyanthus was obtained by crossing the Cowslip (*Primula veris*), and the Primrose (*Primula vulgaris*). It has the large flowers of the Primrose and the flower umbel of the Cowslip.

Culture. They like a moist, shady position, and a rich, liberally manured soil.

***Munstead Giant Mixed Colors** *Three \$1.70, Doz. \$5.50, 100 \$25.00*

This is perhaps the finest strain of large-flowered Primroses in cultivation. The plants grow vigorously and produce numerous stems which are topped with heavy clusters of bold flowers in all shades of yellow, cream, orange, buff, mauve, pink, bronze and dark rose. They create a riot of color in early spring which lasts for a month and more.

PYRETHRUM - Colored Marguerite or Painted Daisy

They produce showy flowers of all shades of color, except blue and yellow, freely on long stems throughout spring, which are of inestimable value for cutting. They grow in neat, compact tufts, and have elegant, finely cut foliage which adds to the attractiveness of the plants.

Culture. The best time to plant is in spring; early fall planting is also very successful. Grow them in groups of not less than three plants, planted a foot to 15 inches apart.

Robinson's Dark Crimson

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Single large disk-like flowers of rich crimson-red. Grows well and flowers freely. A favorite with florists for cutting. Three or more clumps make a very brilliant group in the border.

Finest Mixed English Varieties

Three \$1.80, Doz. \$5.65, 100 \$28.00

This mixture contains double and single flowered sorts in many shades of pink, rose and white. Strong clumps that will give immediate results.

RUDBECKIA - Coneflower

Hardy, free-flowering and easily grown perennials, somewhat akin to the Sunflowers in habit. Excellent and showy plants for sunny or partially shaded borders, and for yielding flowers for cutting.

Culture. Ordinary soil in sun, or shade. Can be grown singly or in groups. Plant in autumn or spring, 12 to 15 inches apart. Divide and replant every third year.

The King

Each 80c, Three \$2.00, Doz. \$6.00

It bears its large, starlike, deep crimson-red flowers nobly on stiff stems. An established clump will produce, from 10 to 20 fine spikes, never failing, no matter how hot or dry it may be. From half-open buds to the orange-brown seed pod, the plant is always attractive. Insect free, not bothered by weather, easily grown, almost indestructible. Height 3 feet.

Plumbago Larpentae

SCABIOSA - Scabious or Pincushion Flower

Charming perennials for border culture and for cut flowers. The Scabiosa caucasica are particularly valuable for the latter purpose, as its large, showy, blue or white flowers are borne on long stems. The species are of easy culture, and desirable to grow in sunny borders.

Culture. All will thrive in well drained, good, ordinary soil, which is not heavy or damp. Cold and damp is fatal to these plants. An ideal soil for them is a sandy loam. Plant in early autumn or early spring. The plants are best in groups of three or more. Plant about 8 inches apart. A full sunny position is essential.

Caucasica, Isaac House Hybrids

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

(Blue Bonnet). Their lovely flowers are a soft and charming shade of lavender, commences to bloom in June, throwing stems 18 to 24 inches high until September.

Caucasica, Miss Willmott

Each 95c, Three \$2.35, Doz. \$7.00

Large and beautiful produced snow-white flowers from July to October. Grows to a height of 2 feet. It is a beautiful variety for cutting and an exceptionally fine garden plant. One of the favorite white flowers of English gardens.

SEDUM - Stonecrop

Culture. Ordinary soil and dry, sunny borders or dry, sunny places in the rock garden will suit all. Spectable, indeed, will also thrive in shade. Plant in autumn or spring, 4 to 8 inches apart.

Caucitolum

Each 95c, Three \$2.35, Doz. \$7.00

A lovely low growing Sedum. Arching branches covered with fleshy gray-green small leaves, giving a fine effect throughout the summer. However, it is in the late autumn that it is at its best when the plants are covered with rose-red flower heads. We consider this one of the finest late fall flowering plants. Excellent, of course, in rock garden or rock wall. Height not over 4 inches.

*Sieboldi

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

Round, thick, silvery gray leaves with faint reddish margin all summer. Bright pink flowers follow in the fall, from September until frost. It is also a good pot plant, easily cared for in the house and forces readily. The loveliest of all the Sedums. There is no doubt about it.

Spectabile "Brilliant"

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

Rich amaranth-red flowers often 8 inches in diameter. Grows about 10 to 12 inches tall, with handsome silvery gray-green foliage. One of the best.

SHASTA DAISY (See Chrysanthemum Maximum, page 60)

SPIRAEA - Astilbe

Deutschland

Each \$1.00, Three \$2.55, Doz. \$7.25

A lovely pure white variety of strong growth and very free flowering. 2-foot spikes. The best white grown.

Fanal

Each \$1.00, Three \$2.55, Doz. \$7.25

This brilliantly colored new Spirea not only develops plants that are delightfully decorative, with their bronzy, divided foliage all season, but the flowers are the darkest in color of the family. Height of both plant and bloom spike is about 2 feet, at least a foot of which is a feathery spike of rich deep garnet which appears to be lightly dusted with tiny frost crystals. Bloom lasts over a long period during early summer, providing a vivid splash of unusual color in the border.

Rheinland

Each \$1.00, Three \$2.55, Doz. \$7.25

Conspicuously beautiful with dense, feathery plumes of brilliant pink.

STATICE - Great Sea-Lavender

The leathery, dark green leaves spring directly from the root stock and the flower stems are more or less twiggy, bearing their small flowers in much-branched panicles. The flowers are useful for cutting for indoor decoration, also for drying for winter use.

Culture. A sandy loam is essential to grow these plants well. A sunny position, too, is indispensable. Plant in autumn or spring, 6 inches apart. They show to the best advantage grown towards the front of the border.

Latifolia

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00

A valuable plant either for the border or rockery; immense heads, frequently 1 1/2 feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months.

STOKESIA - Cornflower Aster; Stokes' Aster

A very handsome perennial, with China-Asterlike flowers, that appear late in the season, about September. It prefers a warm, sheltered location. Should certainly be grown in all gardens since its flowers are most beautiful in form and color.

Culture. Grow in a sunny, well drained border in sandy loam, 6 inches apart. Plant in March or early autumn.

Blue Moon

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

The immense light blue disk-like flowers are 5 to 6 inches in diameter, growing on stiff 12- to 18-inch stems. In the foreground of the border they make a picture not easily duplicated. Stokesia, Blue Moon, is a vigorous growing and free flowering variety of exceptional merit and distinction. It is perfectly hardy and has no insects bothering it. It is of easy culture and flowers throughout the summer and autumn until stopped by hard frosts. A most worth-while addition to the hardy plant garden.

TEUCRIUM - Germander (See page 105)

Sedum Sieboldi

THALICTRUM - Meadow-Rue

Hardy perennials, with elegant, finely divided, Columbine or Maiden-hairlike foliage, which is most useful for cutting for mixing with cut flowers. Are borne in featherly clusters or panicles, and they add considerably to the beauty of the plants. They are of easy cultivation in sun or shade.

Culture. They will thrive in any good, ordinary, well drained soil. May be grown in sunny or partially shaded borders, are most effective when grown as single specimens in the front of shrubbery borders, or in the wild garden. Plant in autumn or spring, 8 to 12 inches apart.

Aquilegiformum Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00
Graceful foliage like that of Columbine, and rosy purple flowers from June to July on 2- to 3-foot tall spikes; lovely planted together with Poppy Wm. Perry.

Glaucum Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00
Similar in habit to the Aquilegiformum; blue-gray leaves rather finely cut, with heads of Chinese yellow, fragrant flowers. 3 to 4 feet. July.

TRILLIUM - American Wood-lily or Wake Robin

Spring-flowering perennials with three leaves borne in a whorl, and flowers with three petal-like segments.

Culture. The Trilliums require to be grown in peat and leaf mold in shade or partial shade. Plant in autumn or very early spring, 3 inches apart, in large colonies to produce the best effect.

Grandiflorum Three \$1.30, Doz. \$4.10, 100 \$16.00
Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early spring. 12 to 18 inches high.

TROLIUS - Globeflower

Hardy perennials belonging to the Buttercup order. The flowers are globe-shaped, yellow or orange in color, and particularly useful for cutting.

Culture. They require a deep rich soil containing plenty of humus. They also like plenty of moisture, hence, should be grown in damp, shady corners, or, better still, by the waterside, in bold masses. Plant in autumn or very early spring, 8 inches apart.

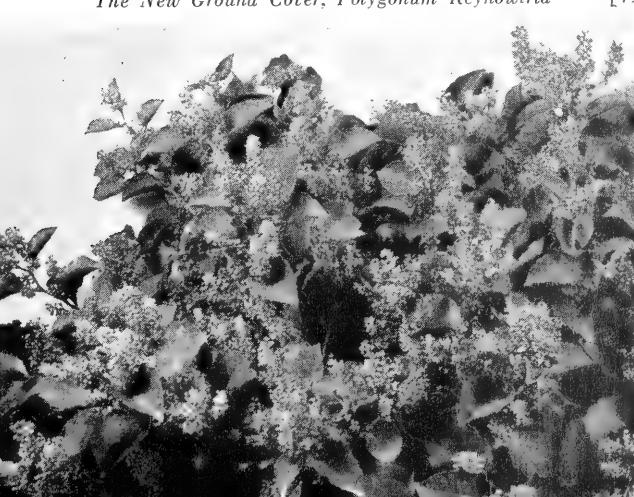

Europaean, Orange Globe Each 95c, Three \$2.35, Doz. \$7.00
Desirable free-flowering plants, producing their giant orange-yellow, Buttercup-like blossoms on stems 1 to 2 feet high from May until August; succeeds admirably in the border in a moist position.

Ledebouri Each 95c, Three \$2.35, Doz. \$7.00
A magnificent variety of very deep orange color. Its great merit lies in its late flowering propensities. One for cutting.

Lemon Queen Each 95c, Three \$2.35, Doz. \$7.00
A vigorous plant and free blooming with large lemon-yellow globe-shaped flowers in May. Does well in moist places but should have full sun. Excellent for cutting and a fine subject to plant with Tulips.

Choice Mixed Colors Three \$2.00, Doz. \$6.00, 100 \$32.50
Colors range from pale yellow to deep orange. A wide variety of shades and forms include also a quantity of the above named varieties. They will provide at little expense an abundance of cut flowers.

The New Ground Cover, Polygonum Reynoutria

[79]

VERONICA

We cannot imagine a garden or a well kept rock garden without just quantities of Veronicas. No matter what may be introduced in novel plants, no matter how fine the garden or border in which they are to grow, this garden would not be complete without such plants as *Veronica longifolia subsessilis*. From July to September it is one of the highlights. The color created by Royal Blue in June is outstanding. *Spicata rubra* with its pinkish lavender blooms and silvery gray foliage is a lovely plant anywhere.

Culture. Good, ordinary soil will suffice for all the following kinds. Grow the dwarf sorts in masses on the margins of sunny borders or rock gardens, and the others in colonies in positions according to their height. Plant in autumn or spring, 6 to 8 inches apart.

Amethystina "Royal Blue"

Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50
Beautiful spikes of rich gentian-blue flowers. 10 to 15 inches. June and July flowering.

Blue Champion

Each 85c, Three \$2.10, Doz. \$6.25, 100 \$35.00
Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worth-while border plant.

Blue Peter

Each 85c, Three \$2.10, Doz. \$6.25, 100 \$35.00
A recent novelty from England and without doubt the best of the early summer-flowering Veronicas. The flower spikes are of deepest navy blue on stiff stems about 15 to 18 inches tall. This variety will replace Blue Spires as soon as it is better known because of its better color and far superior habit of growth and floriferousness. A heavy bloomer and of easy culture. A "must" for your garden. (Blue Peter is the name given the blue flag displayed by ships ready to leave port.)

Crater Lake Blue

Each 85c, Three \$2.10, Doz. \$6.25, 100 \$35.00
For foreground planting in the border where you want a strong growing plant and a rich mass of color, there is nothing much better than *Veronica Crater Lake Blue*. It grows about 18 inches tall, prefers sun but does well in light shade. The dozens of flower spikes are the color of Oregon's famous blue Crater Lake.

Longifolia subsessilis

Each 85c, Three \$2.10, Doz. \$6.25, 100 \$35.00
2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one of the best plants for the hardy border.

VINCA - Periwinkle or Trailing Myrtle. (See page 2.)

VIOLA ODORATA - Sweet Violet

***Double Russian** Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50
Perfectly hardy anywhere, producing double sweet scented violet flowers in abundance. A splendid variety for that troublesome shady place.

*Odorata Semperflorens

Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50
A sweet scented perpetual flowering Violet. It never stops blooming. The flowers are fair size and you can always pick a nosegay from a few plants. The fragrance leaves nothing to be desired. This perpetual flowering Violet is a good grower, and if you plant it in a favorable location will soon become a big clump. Does well in light shade. Perfectly hardy. A joy to own.

*Rosina

Each 80c, Three \$2.00, Doz. \$6.00, 100 \$32.50
Producing not only in spring but again in late autumn, quantities of dainty, deliciously fragrant, pink or old rose flowers. Useful for bordering or as a ground cover in half shade or full sun.

*Royal Robe

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00
This glorious variety is a lustrous shade of deepest violet-blue. The blossoms are delicately fragrant and open out flat like a Pansy or Viola. It is quite unnecessary for us to expatiate on the transcendent beauty of this Violet. Suffice to say a trial in your own garden will bear out all we have had to say and more. A few plants of this Violet in the garden will serve to furnish quantities of bloom either during early winter or early spring and at a time when cut flowers are most highly prized.

White Czar

Each 75c, Three \$1.80, Doz. \$5.65, 100 \$28.00
A beautiful white Violet. The flowers are on long stems; they are large and substantial and are produced in great abundance. In addition to its free flowering it is also a strong growing variety and is quite happy in full sun. A fine companion for Royal Robe which still continues to be the best of blue Violets.

Veronica Longifolia Subsessilis

Bearded Iris Collection

Each season we receive numerous requests from our customers for assistance in selecting collections of Bearded Iris. The interest in these fine new Iris is growing constantly because they are so beautiful, hardy and reliable. The collections we offer below are in various price ranges. Each one contains only the finest and most prolific blooming kinds. We know that any of these selections will give you endless enjoyment and pleasure. The varieties will all be carefully labeled and the plants will be of the finest quality. You will notice that the variety Great Lakes appears in each collection because this is simply a "must." No collection would be complete without it.

Bearded Iris Collection No. 5410

3 Each of the Above 10 Kinds,
Special Collection Price \$13.50

Wayside's Famous "Blue Ribbon" Iris

A truly wonderful collection of lovely new Bearded Iris has been developed at *WAYSIDE GARDENS* in recent years. These new varieties were created by American and European hybridizers. Genuine progress and lasting improvements have been made in the new varieties of Iris which we offer you now; in fact, so great has been their improvement that Iris which were considered without an equal a few years ago have now been relegated to a secondary position.

Startling new colors and combinations of colors, heretofore unknown in any other Iris, are to be found in the new Bearded Iris. Of incredible loveliness, they rival the wings of the most beautiful butterfly. There are richer blues, purer reds, better pinks, finer and larger yellows, while other shades are reminiscent of smooth old ivory or fine porcelain. Their colors are so delicate and ethereal as to remind one of their true kinship with Orchids. In addition to their great beauty, many have the added attraction of being delightfully fragrant.

Of the hundreds of varieties offered to us by ardent hybridizers and enthusiastic specialists, those shown below and on the following pages were selected by us, as well as a committee of experts on Bearded Iris. These successfully passed the rigorous *WAYSIDE GARDENS* test of the "survival of the fittest." During the past few years we have grown goodly numbers of these new hybrids and our fields are a sight to behold when they are in bloom.

Make room for some of these lovely new Iris in your garden. You will be enthralled with their dazzling beauty.

Action Front Each 75c, Three \$1.80, Doz. \$5.65
A huge flower of glowing deep coppery red, with extra broad falls and solidly colored haft. Beard is brilliant yellow. A grand grower, with strong stalks and heavy foliage. This is an outstanding variety and should be in every garden. Height 3 feet.

Angelus Each 60c, Three \$1.50, Doz. \$4.75
In color a bright light pink, with slight lavender iridescence just below the lemon beard. Throughout the center there is a delicate infusion of lemon-yellow. Large, beautifully shaped flower, 3 feet tall, and very late.

Blue Shimmer Each \$1.00, Three \$2.55, Doz. \$7.25
Clean, sparkling white with an all-over pattern of clear blue stippling. The blue seems to be peppered on the white background in an even manner, rather than in the familiar buttonhole-stitch style. The flowers are extremely large and full. Certainly one of the most outstanding Iris of the past few seasons.

California Gold Each 60c, Three \$1.50, Doz. \$4.75
We consider this one of the finest deep yellow Iris. It is simply superb, having a brilliance and purity of color and perfection of form and finish not approached by many other deep yellow Iris. The flowers are large and very freely produced.

Casa Morena Each \$1.50, Three \$3.75, Doz. \$13.00
Extra large flowers of deep, glistening, rich brown. Some solid color on standards and falls. Styles yellowish; beard brownish orange. Not just a novelty but a flower that adds an entirely new, rich note to the garden picture. Hardy and free blooming.

China Maid Each 75c, Three \$1.80, Doz. \$5.65
It is difficult to convey an adequate impression of the beauty of the flower. It is a soft pink, enhanced by an intriguing blending of golden bronzy buff and soft lilac at the edges of the petals. It is of rare charm and one of the handsomest of pink Iris. The flowers are large, well proportioned, of smooth and even texture, and grow profusely on tall, graceful stems. Planted among soft yellow and pale blue Iris it makes a picture not soon forgotten. The best new pink at a reasonable price.

Christabel Each 60c, Three \$1.50, Doz. \$4.75
Red—and it will not disappoint the most exacting critic. For sheer brilliance we rank it second to none. Glorious as a garden clump, almost a self, of large size, over 3 feet tall.

Copper Rose Each 75c, Three \$1.80, Doz. \$5.65
A smooth blending of old rose, tan and copper, brightened by a glow of golden yellow at center of flower. Standards between buff-pink and Japan-rose; falls between terra cotta and ochre-red. The beard is yellow. Coloring is rich and bright, the flowers medium to large in size, with very wide standards and falls.

Elmohr Each \$1.00, Three \$2.55, Doz. \$7.25
Dr. Loomis of Colorado originated this magnificent masterpiece, which the American Iris Society referred to as a sensation. Its immense, beautifully rounded flowers are colored somewhat between Bishop's purple and mulberry-purple. Both flower and color are highly praised by the keenest of Iris judges. It is robust, free blooming, hardy, thrives anywhere; foliage lush, blooms immense. What more could be asked? Flowers of exceptionally large size, larger than those of any other variety and greatly contribute to the distinction of this wonderful variety.

Golden Majesty Each 60c, Three \$1.50, Doz. \$4.75
Clusters of bold, gleaming deep gold unfading flowers, on 3-foot stems, place Golden Majesty among the top quality of yellow Iris. The color is rich and clear and stands out handsomely among other flowers.

Grand Canyon Each 75c, Three \$1.80, Doz. \$5.65
An odd blend of rather deep tones of plum and copper, and gold. Entirely different from any Iris. It is an Iris to be admired at close range and is especially suited to bringing indoors and associating with oriental rugs. Attractively formed and delicately ruffled. About 40 inches tall, perfectly branched, and it flowers over a very long season. Very large

Great Lakes Each 75c, Three \$1.80, Doz. \$5.65
The purest of the blue Iris. Winner of the Dykes Medal. No other blue Iris can match it for color, hardiness and freedom of bloom. The flowers are of superb substance with a pronounced flare, crispy petal texture and are strikingly fine. Rugged and hardy, exceedingly free blooming, we repeat it is unquestionably the finest of all blue Iris. Yearly, we receive reports from customers how fine it is and that they rank it as one of the finest Iris in their collection. We recommend it without hesitation.

Blue Rhythm

Blue Rhythm *Each \$1.90, Three \$2.55, Doz. \$7.25*
Very large flowers of Cornflower-blue softened by a silvery overtone. The large standards are arched and domed the broad falls are semi-flaring with smoothly colored harts. Grows from 3 to 4 feet in height, perfectly branched. A very fine blue Iris of recent introduction which we predict will go a long way

Chantilly

Chantilly *Each \$1.50, Three \$3.75, Doz. \$13.00*
A ruffled orchid pink. The edges of both standards and falls are so heavily ruffled and frilled that they have the appearance of being the same line of breeding as the famous Flamingo Pinks. 36-inch stems, strong and well branched. Makes a very handsome display in the garden and looks well alongside the variety Blue Rhythm.

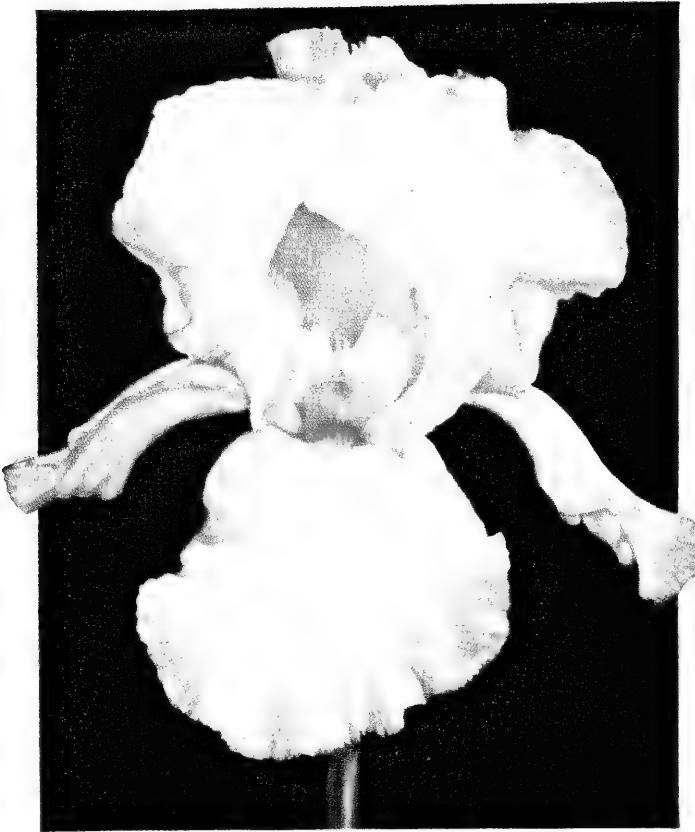

Casa Morena

Blue Shimmer

China Maid

Gudrun

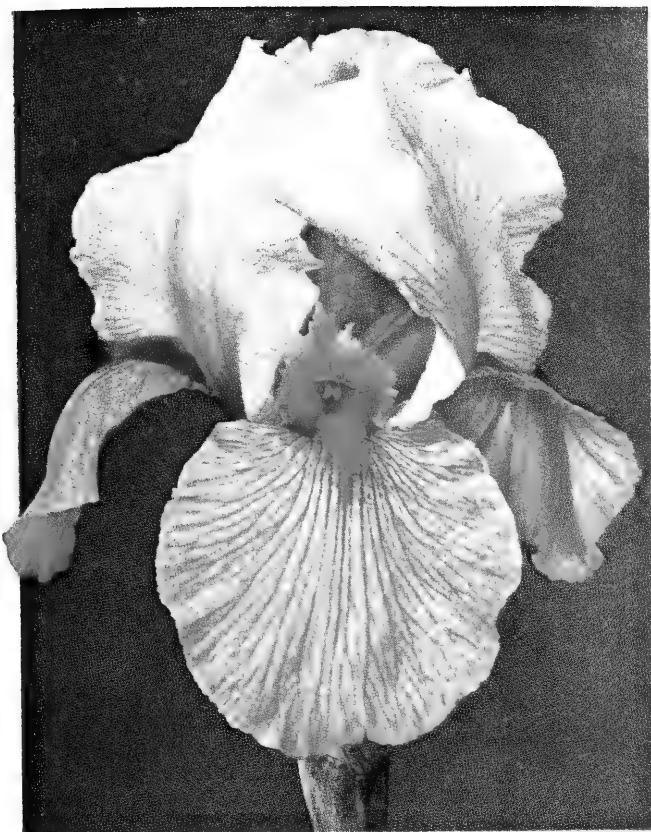

Great Lakes

Gudrun

Each 60c, Three \$1.50, Doz. \$4.75
Winner of the Dykes Memorial Medal by the English Iris Society. A top notch white Iris among so many fine new white ones and by many judges considered the finest of all. It is a massive flower of purest snow-white, undoubtedly the largest and most massive. It is one of the most popular of white varieties. We consider it outstanding and one of the finest.

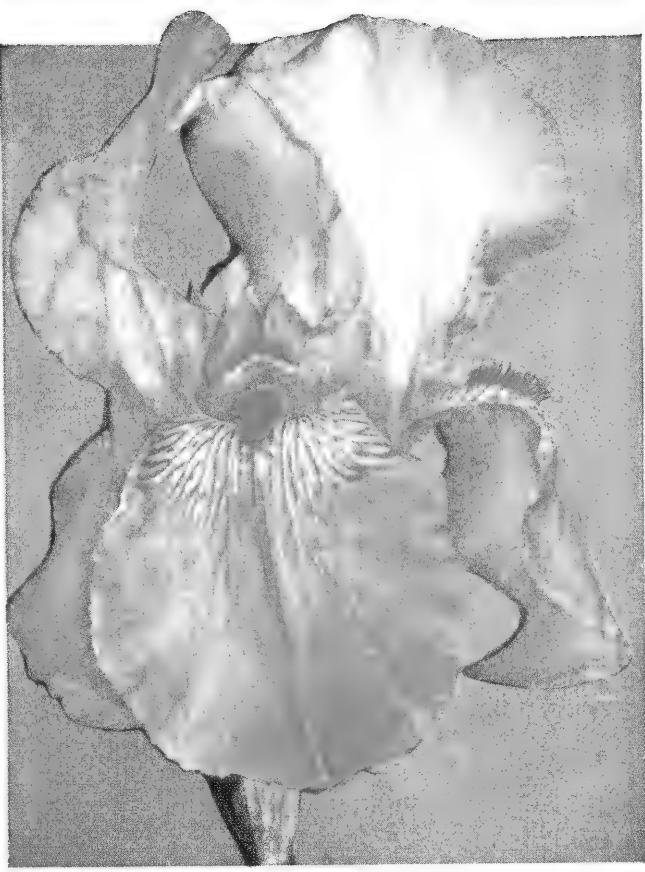

Grand Canyon

Lady Mohr

Each \$1.00. Three \$2.55. Doz. \$7.25
A new and altogether different addition to the interesting Wm. Mohr family of Iris, this one brings a color combination previously unknown in this tall bearded group. Standards are oyster-white, huge and slightly fluted, with strong midribs. Falls are pale chartreuse or greenish yellow, with prominent veining. There is a very prominent dark patch surrounding the beard. The stalks reach a height of 4 feet and carry several open blooms at one time. A superbly beautiful Iris; should be in every garden.

Copper Rose

Elmohr

Golden Majesty

Ranger

Indiana Night

Each \$1.00. Three \$2.55. Doz. \$7.25

Lustrous deepest, rich velvety purple, almost black. The finest and most satisfying dark Iris of a long series of seedlings from the famous Sable. 38-inch stems, well-branched with every good quality desired in an Iris. Midseason bloomer and long lasting.

Minnie Colquitt

Each \$1.00. Three \$2.55. Doz. \$7.25

Massive white plicata, entirely different from all others. It has a broad band of wine-purple stitching of the edges of the enormous flaring falls, and this same color is repeated in the standards. The whole flower is slightly ruffled. A thoroughly fine Iris in every way and a husky grower.

Ola Kala

Mount Cloud

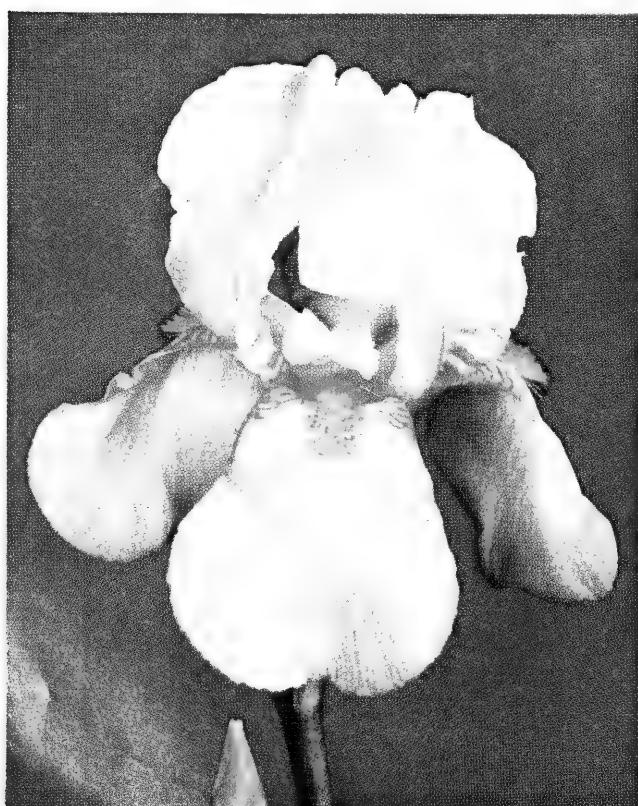

Each 75c. Three \$1.80. Doz. \$5.65

A tall, clean and clear-cut white flower with smooth, polished substance. Veining at half accentuates the pureness of this beauty. Considered one of the best and hardiest of the new white Iris.

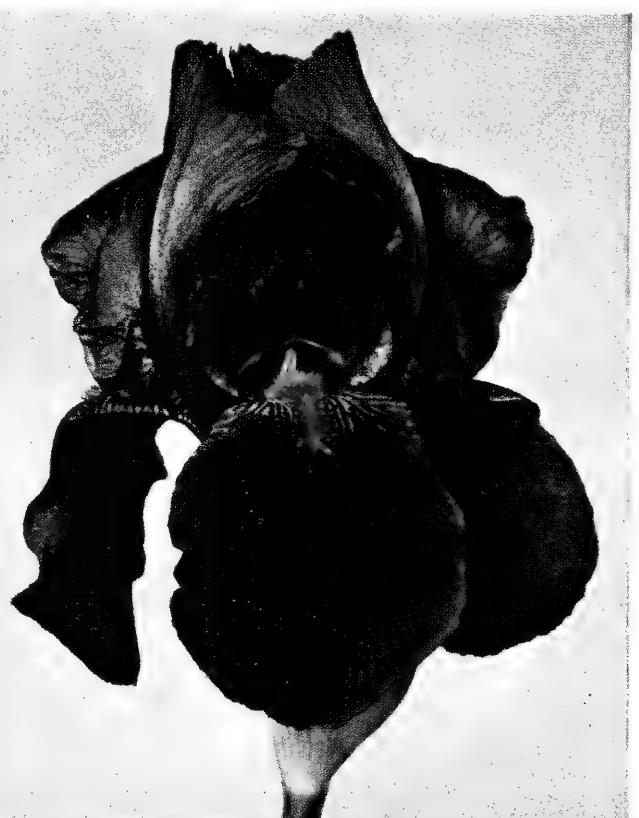

Mulberry Rose

Each 75c. Three \$1.80. Doz. \$5.65

Aptly described by the name, this new Iris is actually something new and different in coloring. Very tall stems hold the self-colored bloom well aloft, and the branching is good. Most unusual in color, it might be termed a deep pinkish mulberry, strongly shaded brown. The heavy bronze head is an added asset.

Mount Cloud

Sable

Prairie Sunset

New Snow

Each \$2.00

A white Iris which is neither warm nor cold white but is as white as new snow. The beard is full and bright yellow, adding a great deal of life. This is the only color in the flower, as there are no haft veinings or markings. Stalk is sturdy and well branched, 40 inches tall, the big flowers very much ruffled and flaring.

Nightfall

Each 60c; Three \$1.50, Doz. \$4.75

The falls are very velvety rich dark pansy-purple with almost no veining on the haft. Standards are several shades lighter than the falls making a very striking color combination. Plush-like substance with a glistening sheen. 36 inches tall, well branched. One of the finest, if not the finest of the dark blue-black Iris. Makes a superb contrast alongside of white variety.

Ola Kala

Each \$1.00, Three \$2.55, Doz. \$7.25

Here is a deep yellow Iris that perhaps outdoes all others for depth of color and in addition its petals are heavily ruffled. Medium large flowers on nicely branched, 36-inch stalks. So yellow it is almost on the orange side. Considered one of the finest new Iris.

Prairie Sunset

Each \$1.00, Three \$2.55, Doz. \$7.25

All that has been said about this gorgeous creation is true, but it simply has to be seen to be realized. The blendings of peach, apricot, rose, copper and gold are so well done that one is at a loss to describe it in a manner that might be conceived in the mind of the listener. A fine big flower, and the color will absolutely stun you when first you see it, and every time you see it! Dykes Medal, 1943.

Ranger

Each \$1.50, Three \$3.75, Doz. \$13.00

Very dark crimson-red. The standards are closed and are long and cone-shaped, while the wide falls are like smooth rich velvet. Most unusual and showy. A late bloomer.

Sable

Each 75c, Three \$1.80, Doz. \$5.65

Almost black; a uniform shade of deepest blue-black-violet, with blue beard. Sable has every attribute that a fine Iris should possess; large size, reasonably tall stalks, thick substance and a wonderfully lustrous sheen. Everybody wants Sable.

Solid Mahogany

Each \$1.00, Three \$2.55, Doz. \$7.25

This grand new red is one of the finest dark Irises of recent years. Beautifully formed, the color is aptly described by the name. No haft veinings and a deep bronze-gold beard accents the richness of the plush-like falls. Height 3 feet.

Sunny Ruffles

Each 75c, Three \$1.80, Doz. \$5.65

The name describes the Iris. Of a glorious new lemon-yellow-chrome. Form is ruffled and the falls have a deeper border of gold. The buds are ruffled also and add to the beauty of the whole plant. A very choice variety.

The Red Douglas

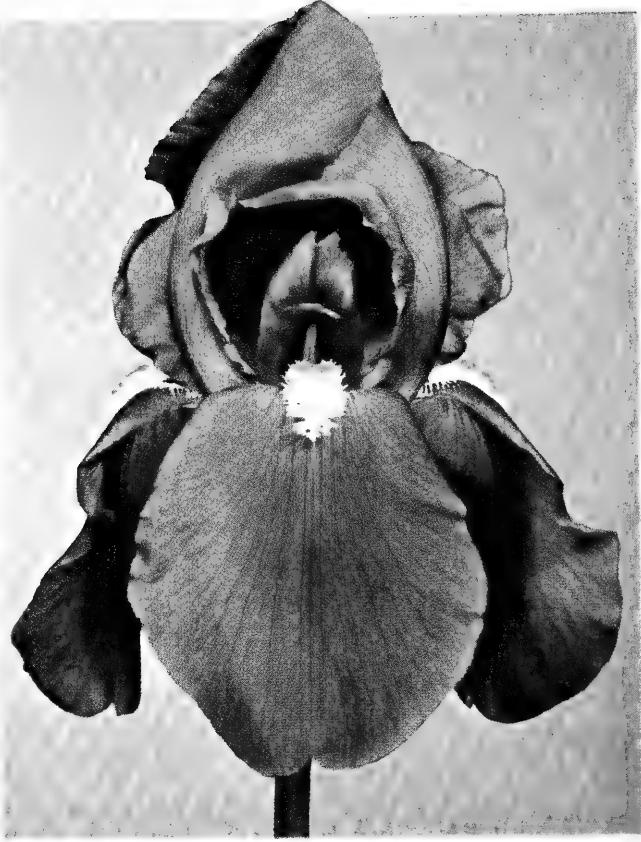

Each 75c, Three \$1.80, Doz. \$5.65

Dykes Medal, 1941. This rich deep red-purple is still a favorite with all Iris lovers. The gigantic flowers seem to glow with inner lights of red. A bright orange beard is softened by a slight flush of brown at the haft.

Wabash

Each 60c, Three \$1.50, Doz. \$4.75

Pure white standards and rich velvety deep violet falls bordered white, a most striking variety. Very tall, branched above the middle of the stalk with a profusion of large, slightly ruffled blossoms. Awarded the Dykes Medal in 1940.

Nightfall

Winter Carnival

Each \$1.00, Three \$2.55, Doz. \$7.25

A fine hardy white, bred in Minnesota. Widely flaring falls, snow-white in color, the throat heavily tinted gold. Branching is excellent and the stout stems hold the big blooms aloft. This is surely one of our best whites.

Solid Mahogany

Choice Floribunda Roses

Floribunda Roses or Cluster Roses are a group of Roses especially produced for mass planting. They are noted for their permanence, continuity of bloom, and ease of culture. Their habit of growth is bushy, and their chief characteristic is sturdiness. The plants are winter-hardy, therefore permanent, and bloom continuously in numerous clusters. Flowers are fairly large, vary from single to full double, and include the entire range of colors of Roses. A distinctive feature is the long-lastingness of the flowers in all weathers. They are best planted closely—about 14 inches apart—in large groups and masses, in beds, so they will blanket the ground. Groups of three or five of a variety placed in front of the shrub border create a superb color display.

Frensham

Goldilocks (Plant Pat. No. 672)

Each \$1.50, Three \$3.90, Doz. \$15.60
The buds are ovoid in shape, resembling miniature Hybrid Teas in form, and a rich golden yellow in color. They open slowly and gracefully. The flowers are cupped in the early stages and gradually open to 3½ inches across. They last a long time, as fresh new buds keep replenishing the over-all effect of a golden yellow mass. 2½ feet or taller.

Baby Chateau

Each \$1.35, Three \$3.75, Doz. \$13.50
This large-flowered cluster Rose produces semi-double flowers of deepest dark velvety red. It is a strong grower and makes a magnificent display when planted in solid beds or if used in combination with a white cluster Rose.

Frensham

Each \$2.00, Three \$5.25, Doz. \$21.00
If we were asked which is our favorite red Floribunda Rose, we would answer without hesitation "Frensham." It is an outstanding new English introduction and Gold Medal Award Winner. It is our idea of what a Floribunda should be. This top-notch variety has everything, color clean crimson-vermilion-red, flowers in abundance, healthy rich green foliage, vigorous growing, if you want to grow it in front of shrubs or in a bed by itself you'll be more than pleased with it and as for a hedge of red Floribunda Roses, it is unsurpassed.

Bright Eyes

Fashion

Roseneffe

Roseneffe

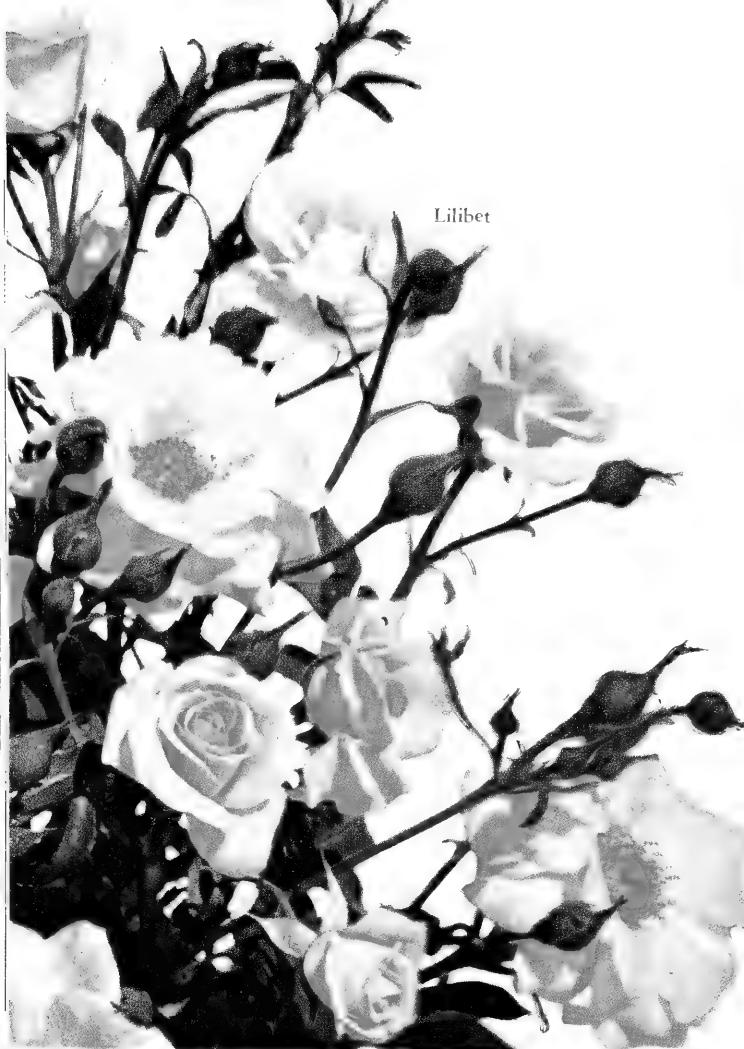

Graceful clusters of dainty La-France-pink flowers superbly suited for cutting and table decoration. The handsomely shaped small buds or open blooms lend themselves perfectly to any kind of decoration. In the garden they never fail to draw attention. Color holds up well in hottest sun. Roseneffe is a fine grower, has excellent foliage. One of the best Floribundas which is becoming more and more popular.

Bright Eyes (Plant Patent No. 880)

Each \$1.50, Three \$3.90, Doz. \$15.60
A fine new creamy yellow Floribunda. There will be hundreds of Roses smiling at you when the clustered yellow buds of Bright Eyes open in a profusion of continuous bloom. As the canary-yellow buds expand, the color alters in the opening flowers, changing to a shimmering, silvery yellow near the outer margins of the petals. At times the silvery tips are tinted in a most artistic manner with soft pastels of pink and rose.

Fashion (Plant Patent No. 789) All-America Award Winner for 1950

Each \$2.00, Three \$5.25, Doz. \$21.00
An exquisitely beautiful Floribunda. The color is luminous coral-pink overlaid with gold which softens to clear coral and then deepens into deeper tinted tones at the finishing stage. Pointed buds are Oriental red and slowly open into miniature-like Hybrid Tea form. The open flowers are about $3\frac{1}{2}$ inches across and have a delightful old rose fragrance. Grows about $2\frac{1}{2}$ to 3 feet tall; good foliage and prolific blooming. At the National Rose Society's Show in London it received the Gold Medal and was the sensation of the Show. No wonder it won the All-America Award in 1950.

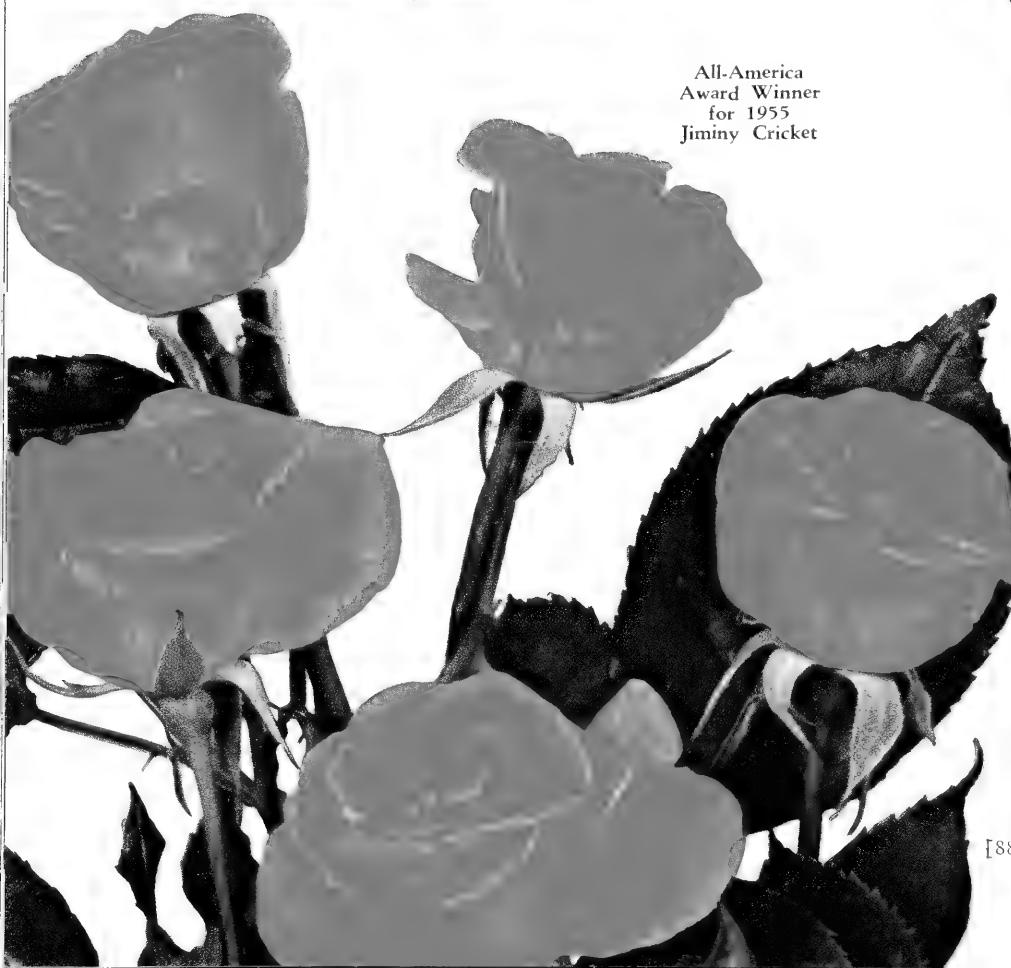

Lilibet

Else Poulsen

Else Poulsen

Flowers medium size, semi-double, lasting bright rose-pink. Continuous blooming from summer to late fall. Produced by erect growing, very thrifty plants.

All-America
Award Winner
for 1955
Jiminy Cricket

Connie Mack

Floribunda Rose, Floradora

Floradora

Each \$1.35, Three \$3.75, Doz. \$13.50

One of the gayest Floribundas. It is spectacular, constantly in bloom and an entirely new shade in Roses—a brilliant cinnabar-red, as arresting under artificial light as in the garden. No matter where they are, Floradora blooms are always the eye catchers. It grows 2 to 3 feet tall.

Lilibet (Plant Patent No. 1209) *Each \$2.00, Three \$5.25, Doz. \$21.00*

Named in honor of Her Majesty Queen Elizabeth II and chosen an All-America Rose Selections Award winner for 1954, this dainty new Floribunda is destined to be carried into the hearts of Rose lovers everywhere. Lilibet's popularity is well deserved, for it is a model plant. Its delicate appearance combined with unusual hardiness enable it to fill a variety of garden requirements.

Its blooms unfold continuously through the growing season, presenting radiant clusters in a variety of exquisite pink tones. The colors range from light rose to soft down-pink during progressive stages of bloom. Subtle gradations of tone within each petal enhance the depth and loveliness of the abundant clusters.

Jiminy Cricket (Plant Patent Applied For)

Each \$2.50, Three \$6.60, Doz. \$26.40

All-America Award winner for 1955. A new Floribunda with tangerine-red buds which open to coral-orange or vermillion and finish a pink-coral almost like Fashion. The unusual coloring is a result of a crossing of Geranium Red and Goldilocks; the color has blended and softened the red to a very lovely new coral-rose shade.

The color is interesting as it never blues or becomes unpleasant—and the Rose is intriguing whether in the garden or used as a cut flower in the house.

Connie Mack (Plant Patent No. 1062)

Each \$2.00, Three \$5.25, Doz. \$21.00

The flowers are a dark, velvety crimson in graceful clusters which have aptly been called "florists' spray" Roses. The foliage represents a marked advance in Rose breeding, being almost immune to attacks of mildew. Many clusters of blooms with long stems and long lasting qualities are produced from spring through fall. You will find the Rose "Connie Mack" to be one of the choice Floribunda Roses. The sturdiness and vigor of this variety makes it a superb garden plant as well as one of the best for cutting.

Improved Lafayette

Each \$1.35, Three \$3.75, Doz. \$13.50

Medium sized, deep glowing red flowers suffused with vivid crimson. Blooms very profusely. It is one of the finest Roses for bedding, flowering without fail until hard frost.

Ma Perkins—All-America Award Winner for 1953

(Patent No. 1143) *Each \$2.00, Three \$5.25, Doz. \$21.00*

Although the Ophelia-shaped buds start a translucent Fashion color, fortified by shades of red in the outer petals, the flowers burst open to coral-shell. The suffusion of yellow is present in all of the early stages until the very end of bloom; it finishes a soft shell-pink. The growth of Ma Perkins is strong yet compact. The flowers appear in clusters and singly throughout the season.

Improved Lafayette

Glorious (Plant Patent No. 879)

Each \$1.50, Three \$3.90, Doz. \$15.60

The extremely vigorous bushes of "Glorious" are well branched, producing strong canes that divide into many open sprays, bearing informal clusters of deep vermillion buds, expanding into semi-double flowers of Tyrian rose. It can be truthfully said, the flowers cover the plants. Taking the liberty to choose from the entire Rose family, it would be impossible to surpass the new Rose "Glorious" for the purpose of bordering drives or walks, for mass planting or grouping; in fact, for any situation where a wealth of color is desired. Its name was given by the many visitors to the nursery. From all who beheld this fine new Rose in bloom, came the exclamation: "It is glorious!"—and so the Rose was named.

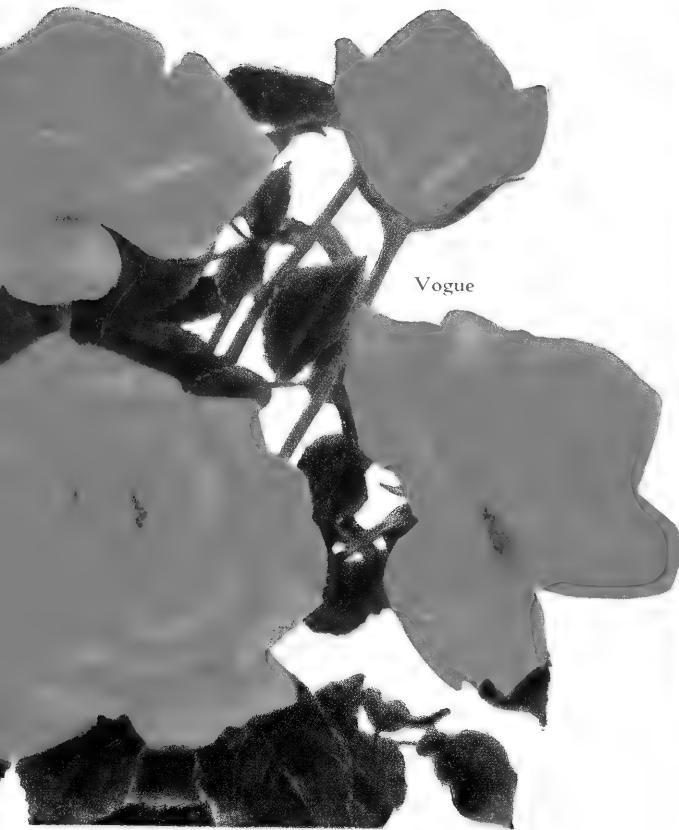

Pink Bountiful (Plant Patent No. 501)

Each \$1.50, Three \$3.90, Doz. \$15.60

This Floribunda will thrill you with clusters of soft pink blooms throughout the season. Handsome ovoid buds of deep pink unfold into perfect 3-inch flowers of buff and salmon-pink resembling a small Hybrid Tea. They are large for a Floribunda, yet delicate, and they possess a rich fragrance.

Floribunda
Rose.
Glorious

Vogue

Vogue (Plant Patent No. 926)

Each \$2.00, Three \$5.25, Doz. \$21.00
All-America Award Winner for 1952. Marvelous new Floribunda with an iridescent brilliantly glowing color of begonia-rose flushed with salmon. The individual flowers, 3-4 inches in diameter, are perfectly formed, high centered and Hybrid Tea shaped. The plant grows 2½-3 ft. tall or better when established. Fits well in foundation plantings in conjunction with evergreens or shrubs. It makes a very good edging plant along walks or drives and being a prolific bloomer it is excellent for cutting. Here are a few of the awards captured by this newcomer: All-America Rose Selections Winner, 1952; Gold Medal, Geneva, Switzerland, 1950; First Certificate, Bagatelle, Paris, 1950.

Red Pinocchio (Plant Patent No. 812)

Each \$1.50, Three \$3.90, Doz. \$15.60
The 3½-inch flowers are borne in large, long lasting unfading clusters with individual blooms scattered between the mass flowerings. Color is a rich dancing carmine, which deepens and acquires a velvety cast as it opens fully. It finishes with the same lovely cup-shaped blooms as Pinocchio and a color richer and more handsome than Donald Prior.

Summer Snow (Plant Patent No. 416)

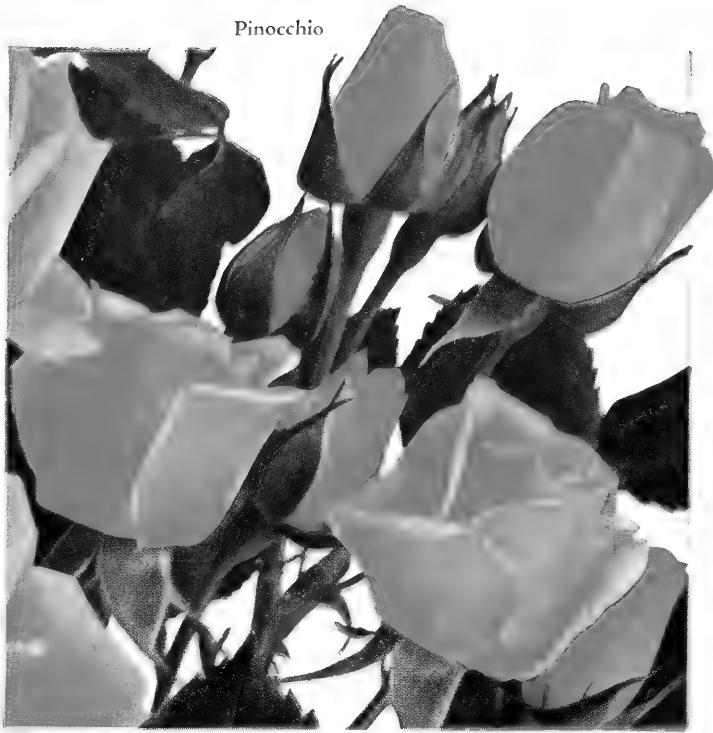

Each \$1.50, Three \$3.90, Doz. \$15.60
The most prolific of white Floribundas, with great "drifts" of beautiful large clusters, all as clean as falling snow. The remarkable profusion of heavy flower clusters covers the plant during late June, July, August and September.

White Finch

Each \$1.35, Three \$3.75, Doz. \$13.50
Same height and habit of growth as Mrs. R. M. Finch. The fine clusters of flowers are pure white. They are especially valuable for contrasts such as combination with Baby Chateau or Cheorio. Very free flowering and a good grower.

World's Fair (Plant Patent No. 362)

Each \$1.50, Three \$3.90, Doz. \$15.60
It will furnish a continuous display of color from late spring until frosts stop the performance. Ideal, bushy plants just about hide themselves under clusters of large velvety blooms of blackish scarlet, the fragrant petals surround a glowing mass of golden stamens. A very large-flowered Floribunda. A solid bed of World's Fair will give the gardener something to boast about all next winter.

Pinocchio

Pinocchio (Plant Patent No. 484)

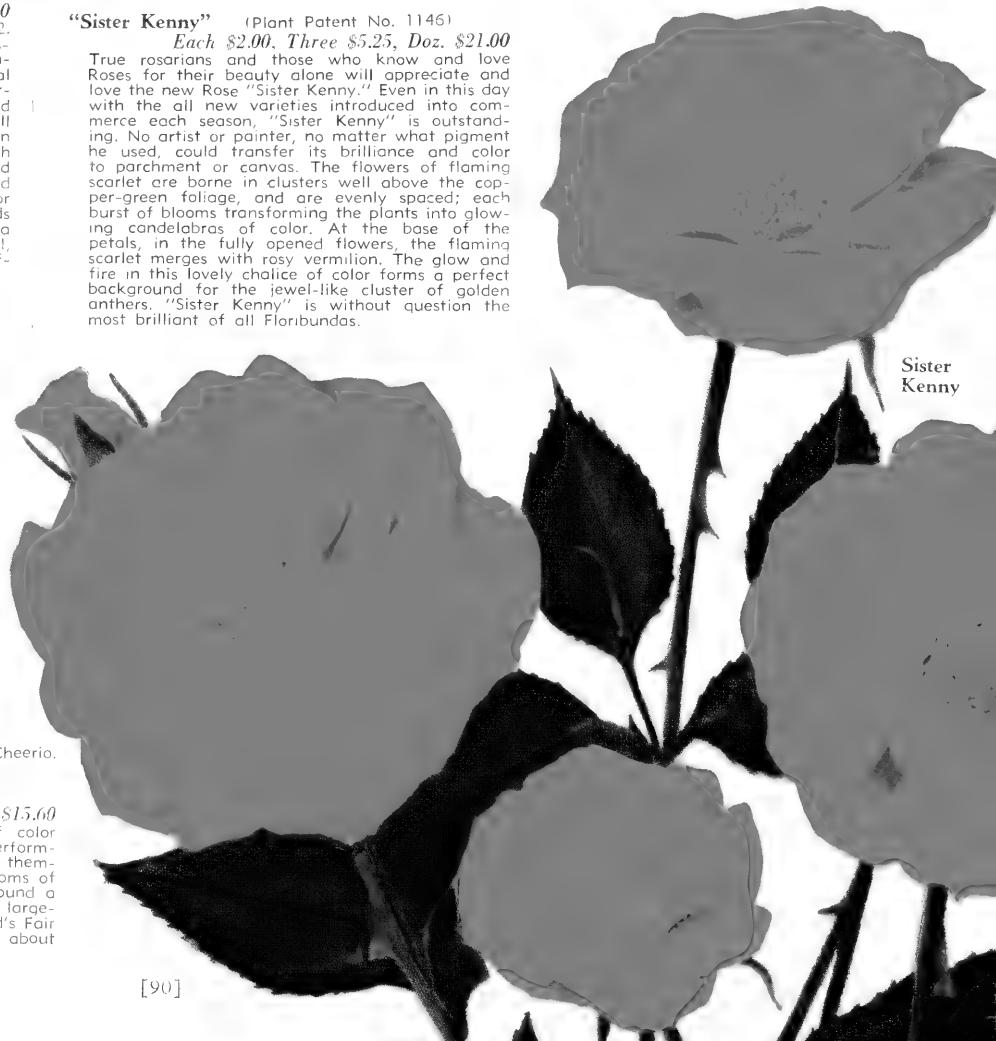

Each \$1.50, Three \$3.90, Doz. \$15.60

Artistic sprays of buds and blooms are incomparable for flower arrangements. The exotic, fruity fragrance makes it valuable in personal bouquets, such as corsages. Buds are pointed, salmon flushed gold at the base; blooms in great clusters opening slowly to miniature Hybrid Teas, 1½ inches across, soft clear pink, gradually deepening at the edges. Blooms continuously, hundreds of blooms to a bush. 20 to 24 inches tall.

"Sister Kenny" (Plant Patent No. 1146)

Each \$2.00, Three \$5.25, Doz. \$21.00

True rosarians and those who know and love Roses for their beauty alone will appreciate and love the new Rose "Sister Kenny." Even in this day with the all new varieties introduced into commerce each season, "Sister Kenny" is outstanding. No artist or painter, no matter what pigment he used, could transfer its brilliance and color to parchment or canvas. The flowers of flaming scarlet are borne in clusters well above the copper-green foliage, and are evenly spaced; each burst of blooms transforming the plants into glowing candelabras of color. At the base of the petals, in the fully opened flowers, the flaming scarlet merges with rosy vermilion. The glow and fire in this lovely chalice of color forms a perfect background for the jewel-like cluster of golden anthers. "Sister Kenny" is without question the most brilliant of all Floribundas.

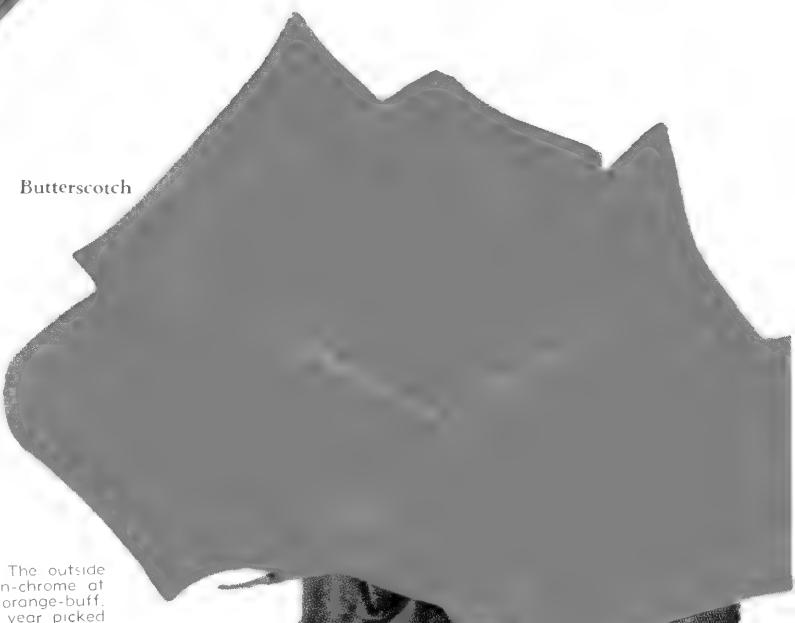

Sister Kenny

Chrysler
Imperial

Everblooming Hybrid Tea Roses

Here we list only the very choicest and most popular varieties of Tea Roses, with the majority of which every lover of the Rose is familiar. Duplicates as well as inferior varieties have been discontinued. All are good growers and free flowering and will provide you with an ample supply of blooms throughout the summer. There is not one individual sort which we cannot endorse as possessing superior merit. All are two-year-old XX No. 1 grade. The finest Northern Ohio grown stock available.

Butterscotch

Chrysler Imperial (Plant Patent No. 1167)

Each \$2.50, Three \$6.50, Doz. \$26.10

Vivid crimson-red, an outstanding red Rose. The buds are long and tapering. It is an excellent grower and free blooming. Altogether, a fine addition to the red Roses. Winner of the All-America Award for 1953.

Blanche Mallerin (Plant Patent No. 594)

Each \$2.00, Three \$5.25, Doz. \$21.90

This is that rare beauty, a pure white, fragrant Hybrid Tea Rose. The petals of the beautifully modeled blooms are as white as alabaster; with a live satiny sheen.

Butterscotch (Plant Patent No. 613)

Each \$1.75, Three \$4.50, Doz. \$18.60

Nothing like the color of Butterscotch has so far been seen in Roses and very few Roses have as beautifully shaped flowers. The length and grace of the flower petals of this new variety are outstanding. The outside of the handsome petals is soft, pale orange-yellow; the inside lemon-chrome at the base, changing to pale yellow-orange, penciled very lightly with orange-buff. The general color effect is a soft pastel capucine-buff. Visitors last year picked Butterscotch as one of the finest and most outstanding Roses in our fields. This variety is an origination of the Hill Greenhouses of Richmond, Indiana. We are sure you will find Butterscotch one of the choicest Roses you ever grew.

Charlotte Armstrong (Plant Patent No. 455) Each \$2.25, Three \$6.00, Doz. \$24.00

(Award All-America Rose Selections, 1940.) A Rose of a most unusual color, blood-red in the bud, opening to cerise in hot weather and to spectrum-red in cool weather, while the beautiful shape and extreme length of the bud, with its long, clasping sepals and the extreme floriferousness and vigor of growth and large luxurious foliage, make it a most satisfactory Rose in all respects. The bud is long and pointed, the flower is 3 to 4 inches in diameter, high-centered, never showing the center. The foliage is leathery, semi-glossy, deep green and highly resistant to mildew.

Crimson Glory

Each \$1.55, Three \$3.75, Doz. \$13.50

The plants branch freely producing a well spread, yet compact bush of good symmetry. Following the large urn-shaped buds are the well-formed flowers of an intense deep vivid crimson shaded oxblood-red and melrowed by a soft velvety nap.

Charlotte Armstrong

Crimson Glory

All-America Award Winner
for 1952,
Fred Howard

Ena
Harkness

Edith Nellie Perkins Each \$1.35, Three \$3.75, Doz. \$13.50
A Rose of outstanding merit, vigorous growth and free flowering. Long, pointed bud; flower of good size, long lasting and fragrant; double; outside of petals Orient-red shaded cerise-orange; inside salmon-pink.

Eclipse (Plant Patent No. 172) Each \$1.75, Three \$4.65, Doz. \$18.60
Golden yellow. An entirely new type, with "streamlined" buds which often exceed 2 inches in length, ornamented with narrow, branching sepals which contrast harmoniously with the gold of the petals. You can depend on "Eclipse" for almost continuous bloom on strong, upright plants with healthy, dark green foliage. The flowers are produced on long, erect stems, suitable for cutting.

Ena Harkness Each \$1.50, Three \$3.90, Doz. \$15.60
Here is one of the favorite red Roses in England. The flowers are beautifully formed and the elegantly pointed petals remind one of the true Tea Rose. The gracefully pointed petals are waxy and of velvety clean crimson-red. This variety has been tested over here in many gardens and because of its performance is regarded as one of the fine new European Roses. In our trial garden it has held its own against all the well known American introductions of similar color. This English Award winner is whole-heartedly recommended.

Etoile de Hollande Each \$1.35, Three \$3.75, Doz. \$13.50
Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Free flowering.

Fandango (Plant Patent No. 894) Each \$2.00, Three \$5.25, Doz. \$21.00
Rich deep scarlet in bud, the flower changes as it opens to a bright cerise-red which remains attractive until the last petal drops. The larger petals (16 to 22 of them) have a crisp, ruffled appearance which adds to its beauty. It will always be one of the two or three Rose varieties to bloom earliest in the spring. The compact plant does not stop blooming at any time during the season.

Forty-niner (Plant Pat. No. 792) Each \$2.50, Three \$6.60, Doz. \$26.40
Probably the most brilliant colored bi-colored Rose ever introduced. The rich contrasting bright color is its outstanding feature. Outside of petals is rich chrome-yellow, sometimes overlaid with pink, changing to straw-yellow in the open bloom. This yellow color is most evident in the bud. The inside face of the petals is a vivid Orient-red, changing to cherry-red with age. These glowing colors contrast so vividly, yet harmonize so beautifully that the bloom draws attention and admiration at first glance.

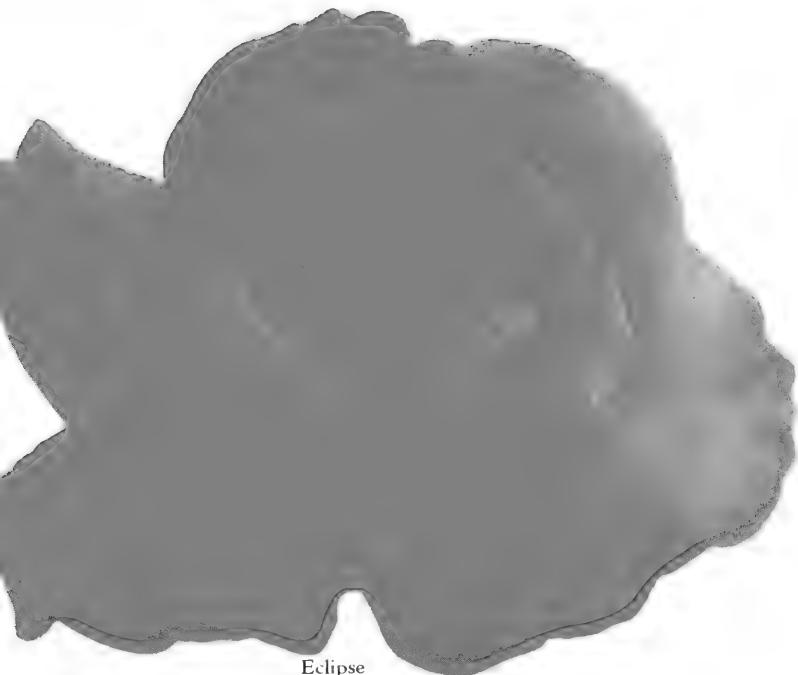

Frau Karl Druschk Each \$1.35, Three \$3.75, Doz. \$13.50
This is the ideal hardy white Rose; pure in color, perfect in form, strong grower and remarkably free flowering; superb in every way.

Fred Howard (Plant Patent No. 1006) Each \$2.50, Three \$6.60, Doz. \$26.40
The blood and breeding that makes champions is well depicted in the large, vigorous plants that attain a height of from 3 to 4 feet. This attribute is also exemplified in the lustrous green foliage and the long flower stems, strong and resilient, bearing lovely fifty-petaled yellow Roses, with all buds and flower heads up. During the latter months of the year there is a very noticeable transition in the color of the Fred Howard Rose. The yellow is washed with a lovely overtone of burnished gold and copper. The Fred Howard Rose has a distinct fragrance that can be likened to the Marechal Niel or the old Tea Roses that were so loved many years ago. Above all, the 1952 champion Rose is unstinting with flowers. Immediately after one crop of Roses is over, another takes its place.

Golden Anniversary (Plant Patent No. 806) Each \$1.75, Three \$4.65, Doz. \$18.60
It took an outstanding Rose to carry that significant name, but this is an outstanding Rose! It is a sport of Good News with flowers as handsomely formed but a fine old-gold color, flushed apricot at times. Best of all, it is a golden Rose on a truly vigorous, well branched plant with dense foliage right down to the ground.

Lowell
Thomas

Helen Traubel (Plant Patent No. 1028)
Each \$2.50, Three \$6.60, Doz. \$26.40
(All-America Award Winner for 1952.) The color is distinctive—clear pastel tones of pink to apricot, even, approaching orange at times. It has an unusually long, graceful bud, a very large open flower with good form, fine substance and a pleasing fragrance. The plant has proven to be exceedingly vigorous with us. One of those easy to grow kinds which grades up without any trouble.

Mission Bells (Plant Patent No. 923)
Each \$2.00, Three \$5.25, Doz. \$21.00
(Winner All-America Rose Selections, 1950.) Mission Bells is a deep, glowing salmon opening to a brilliant clear shrimp-pink. The flowers are full centered and when fully open measure as much as 5½ inches across. It is unusually vigorous and free branching, producing flowers in abundance. This variety will do well for all Rose growers and surely deserves the award it was given.

Henry Ford (Plant Patent No. 1218)
Each \$2.50, Three \$6.60, Doz. \$26.40
Many of America's finest Roses are attributed to the late Fred Howard. One that has found greatest favor of its color is "The Doctor", which is recognized throughout the world as one of the finest pinks in existence. The new Rose "Henry Ford"—named after one of the greatest of all America's personalities, is similar in color to The Doctor. The buds are longer, spiral in form, and rich in fragrance. The flowers are produced more freely, the bushes are more rugged. The "Henry Ford" Rose is a cross between The Doctor and Pink Dawn. From preview comments from those who are qualified to judge Roses, "Henry Ford" will equal or surpass its parents in beauty, fragrance, color and growth. There will be many fine ones; among the top ones will be the Henry Ford, named as a tribute in honor of the great man who gave America so much. The Henry Ford plants produce perfectly formed, long, spiral buds. The color is clear peach-blossom-pink, without a vestige of shading.

Peace (Plant Patent No. 591)

Each \$2.50. Three \$6.60, Doz. \$26.40

This Rose is almost unbelievable. One marvel of it is the dawn-like range of colors through which it passes, from opening yellow buds, each petal edged with pink that seems to deepen as the flower slowly opens. The shades of color vary, too, from flower to flower and through the changing seasons. Though the bloom is unusually large, long lasting and constantly fresh looking, its effect is always delicate and lovely.

La Jolla (Plant Pat. No. 1103)

Each \$3.00, Three \$7.95, Doz. \$31.80

Delicate pastel coloring with Camellia-like imbrications of the petals and a very free blooming habit are the features of this new Rose. The petal tips, flushed with soft pink, are pointed and recurve gracefully from the cream and gold colored heart of the flower. An offspring of Charlotte Armstrong, it has inherited many of its parents' fine qualities. The plant is very vigorous, upright in habit, somewhat exceeding average height. Long strong canes produce fine stems and the big shiny foliage is abundant and attractive.

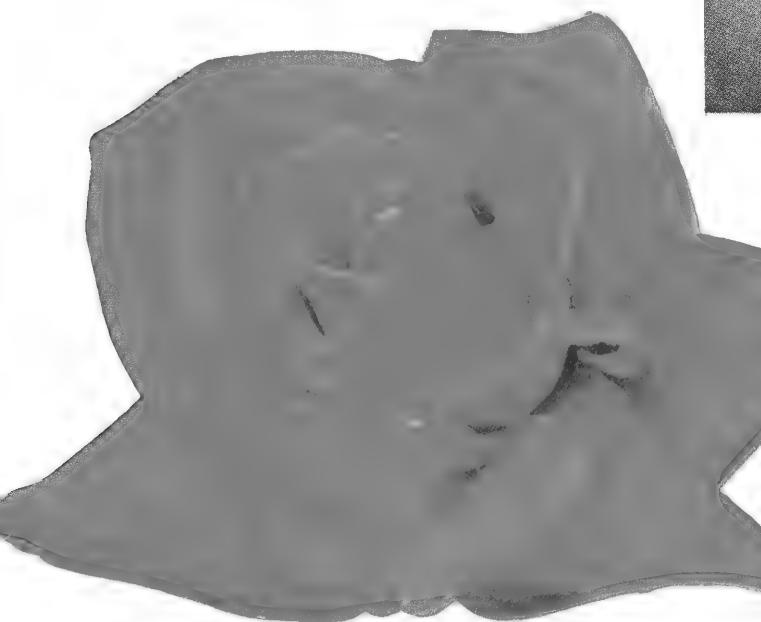

Remembrance (Plant Patent No. 1145)

Each \$2.00, Three \$5.25, Doz. \$21.00

Remembrance produces gorgeous Roses on long, erect stems. The deep canary-yellow buds are borne singly at the tips or terminals of the stems. When fully expanded, a beautiful dawn-pink flushes the tips of the laminated petals. During its development there emanates from the flowers a sheen and a glow that transforms it into Gardenia-like perfection and beauty. Its lovely form, beautiful tints and delicate coloring as well as its strong and vigorous growth make it a Rose you will long remember.

Tom Breneman

Katherine T. Marshall

Katherine T. Marshall (Plant Patent No. 607)

Each \$1.75, Three \$4.65, Doz. \$18.60

This is a Rose of rare beauty and delicacy of form. It grows vigorously with large, open, upright blooms of friendly warm glowing pink. Highly praised in all sections of the country. Bred to hardiness and perfect form. The growth and foliage are equal to the Radiance family and outstrip the old favorite, President Hoover. Fruity fragrance. Long, fine stems, ideal for cutting. Buds are long-pointed, deep coral-pink with suffusion of yellow. Full, cupped, 5-inch blooms.

Lowell Thomas

(Plant Patent No. 595)

Each \$2.00, Three \$5.25, Doz. \$21.00

(Award All-America Rose Selections, 1944.) The vibrant chrome-yellow blooms open from beautifully shaped buds. They have high-cupped centers with outward rolling petals, making magnificent glowing flowers over 4 inches across when fully open. The color is penetrating, clear and deep, having a vibrant quality not seen in other Roses of this color. It is a strong grower with good foliage and stiff stems. The finest to date of the deep yellow Roses.

McGrey's Ivory

Each \$1.35, Three \$3.75, Doz. \$13.50

Lovely large flowers of beautiful double form and moderately fragrant. The color is soft delicate creamy white merging into yellow at the base. Vigorous, disease resistant, and a prolific bloomer.

Mirandy

(Plant Patent No. 632)

Each \$2.25, Three \$6.00, Doz. \$24.00

(Award All-America Selections, 1945.) The first place winner of the All-America Rose Competition for 1945. A gorgeous, fragrant, red Rose that takes its place with the finest red Roses of the world. The big, ovoid buds, often long-pointed, are deep, rich dark red with black shadings, opening to gorgeous chrysanthemum-red. The flower displays new beauties of form as the petals unfold and eventually becomes a large full bloom, with excellent lasting qualities.

Mme. Chiang Kai-shek

(Plant Patent No. 664)

Each \$1.75, Three \$4.65, Doz. \$18.60

(Award All-America Rose Selections, 1943.) Perfectly chisled petals clasped in long, spiral buds unfurl slowly, culminating in limpid, light clear canary-yellow flowers of perfect proportions. The rich Rose perfume of this premier yellow Rose is a fragrance retrieved from the past, recalling the fragrance that hung over China Tea Roses in old and forgotten gardens of long ago.

Mojave (Plant Patent No. 1176) Each \$2.75, Three \$7.20, Doz. \$28.80

(All-America Award Winner for 1954.) Glowing radiant orange is the dominant color, highlighted by flame-like tones of scarlet and vermillion. Next to color, the outstanding feature of Mojave is the amazing number of long-stemmed buds it produces—beautiful tapering buds which open to big, pleasantly fragrant, richly colored flowers. The plant is tall, rather upright, and so vigorous and free-blooming that it is certain to please every grower whether it is in his fields or his garden. Everyone loves a winner, but this dashing All-American selection for 1954, with its bold coloring, has a lot more than just winning ways with which to capture the affections of every Rose buyer.

Mrs. Erskine Pembroke Thom Each \$1.35, Three \$3.75, Doz. \$13.50

Plants bloom heavily in June on luxuriant, vigorous, 3-foot plants with yellow flowers, deepest in center. Blooms very freely.

New Yorker (Plant Patent No. 823)

Each \$2.00, Three \$5.25, Doz. \$21.00

The perfectly formed, high-centered blooms are scarlet with rose-red undertones and each petal is overlaid with a rich sheen of velvet. Plants bloom heavily in June on luxuriant, vigorous, 3-foot plants with a breath-taking succession of flowers from then until cold weather.

Nocturne (Plant Patent No. 713)

Each \$2.00, Three \$5.25, Doz. \$21.00

(All-America Selection for 1946.) This new red Rose has one of the longest, most perfect, streamlined buds displayed by any Rose of its color. The color is bright cardinal-red with dark, deep intriguing shadings of chrysanthemum-crimson. The large petals have good substance, are richly textured, and there are plenty of them so that the flower lasts a long time. In hot weather the color becomes somewhat lighter. The blooms of NOCTURNE are pleasantly fragrant, although not approaching Mirandy in this respect. The stems are long, the foliage large, abundant and semi-glossy.

Show Girl (Plant Patent 646) Each \$2.00, Three \$5.25, Doz. \$21.00

"The Rose with Magnificent Buds." If you want to enjoy the most beautiful, the most perfect, and the longest deep pink Rosebuds you can imagine, be sure to plant this variety. The sensational buds are deep pink, almost carmine in the spring, opening to a softer tone but always deep pink. We think it is one of the finest pink Roses of all for cutting because of the magnificence of the buds and the lasting quality of the flower with its big heavy textured petals. Tall, rather slender, with big heavy canes and plenty of lovely flowers borne on long, sturdy stems.

Sleigh Bells (Plant Patent No. 1004)

Each \$2.00, Three \$5.25, Doz. \$21.00

The large, ovoid buds are borne singly on exceedingly long stems, and are produced so freely that you can gather quantities for the table. The flowers open gradually into blooms of great size, with 40 or more petals of heavy substance, and are lovely in all stages. A trace of primrose at the base of the petals adds life to the flower. Unusual for white Roses, the stems are clothed with thick leathery, glossy foliage that is exceptionally disease resistant. Best of all, this white Rose is really fragrant. Sleigh Bells is the better white Rose you have been looking for.

Sutter's Gold

(Plant Patent No. 885)

Each \$2.25, Three \$6.00, Doz. \$24.00

(Winner All-America Rose Selections, 1950.) The most outstanding feature of Sutter's Gold is its beautiful, long, pointed, yellow bud richly shaded with coppery red. When fully open it is a superb yellow Rose with coppery veins through its flower petals. It is an unusually strong grower, free branching and exceedingly free blooming for a yellow Rose. The fragrance is excellent, foliage very good; all in all a fine addition to the selection of yellow Roses.

Texas Centennial

Each \$1.35, Three \$3.75, Doz. \$13.50

A sport of Pres. Hoover, having the same wonderful qualities. The color is blood-red to cerise-red in the center.

Talisman

Each \$1.35, Three \$3.75, Doz. \$13.50

Brilliant red and gold buds, opening to well shaped blooms of scarlet-orange and rich yellow. Constantly in bloom; the most vivid color yet produced in Roses.

"Tom Breneman" (Plant Patent No. 986)

Each \$2.00, Three \$5.25, Doz. \$21.00

"Tom Breneman" was originated by the late Fred Howard, America's leading rosarian. From the time the bud unfurls until the last petals fall, you will find nothing flat or dull in this variety. The rugged plants give unstintingly throughout the entire season. The long coral-rose buds expand slowly into beautiful, long lasting blooms, during the height of the season, when the bushes are covered with their coral-rose buds and flowers.

The Doctor

Each \$1.35, Three \$3.75, Doz. \$13.50

This magnificent Howard & Smith Rose is internationally recognized as one of the outstanding new Roses. We regard this Rose as one of the best; a variety which will be greatly sought after when better known. The buds are long and pointed, expand to a simply enormous bloom in their fully developed state. The color is an exquisite silvery pink, uniform in color both in bud and open flower, with a fragrance so intense that it can be detected many yards away.

Tiffany (1955 All-America Award Winner) (Plant Patent Applied For)

Each \$3.00, Three \$7.95, Doz. \$31.80

Tiffany is a beautiful phlox-pink hybrid Tea Rose producing blooms of outstanding quality. The long pointed buds are deep pink with golden yellow shading at base of petals. The flower opens to perfectly formed, double, high centered blooms of a pleasing shade of pink with petals of heavy texture and exceptional lasting qualities, produced singly on long strong stems. This Rose is noted for its outstanding fragrance. The plant has an upright habit with very vigorous growth and beautiful dark green foliage.

Will Rogers (Plant Patent No. 256)

Each \$1.50, Three \$3.90, Doz. \$15.60

The color is black velvety crimson-maroon, which holds its color till the last petal falls. Its fragrance is so intense that a few will scent a room with "Attar of Roses" fragrance. Strong and vigorous grower with dark green foliage retained throughout the season. The blooms are quite double with a beautifully ruffled petal arrangement in the open flower. Marvelously free in bloom qualities, bearing lavish quantities of flowers from April to the advent of the following winter frosts. The Rose cut in early morning and placed in water will keep in fine condition for five or six days, and during this period dispels its most delightful fragrance.

Mme. Chiang Kai-shek

Single Hybrid Tea Roses

Perpetual Flowering

Single Roses have an appeal which enthralls many by their artistic beauty. More and more gardeners include Single Roses for their simple beauty in the garden. Single Roses also lend themselves exceptionally well to cutting and when properly arranged in a suitable container they present a picture, the like of which is not easily obtained with most other flowers. We have selected the most outstanding from every angle.

Dainty Bess

An exceedingly charming and dainty colored Single Rose of perfect form. The broad petals are delicate shell-pink which form a beautiful contrast to the conspicuous bunch of crimson stamens. It is always greatly admired for its charm and loveliness, and the blooms last exceptionally long.

White Wings (Plant Patent No. 850)

Each \$1.50, Three \$3.90, Doz. \$15.60

The flowers of White Wings are perfectly formed. The silvery white petals show to good advantage. Each separate flower is artistically placed in the spray, the flowers standing out in bold relief, bright and clear. In the center of the disk formed by the perfect circle of petals is embedded a lovely cluster of amethyst stamens tipped with anthers of gold. After White Wings has found its way across the nation, which it will surely do, we feel certain it will be acclaimed as the finest single white Rose, equaling in every respect the beauty of its counterpart in pink, the well known Dainty Bess.

Single Hybrid Tea Rose, Dainty Bess

Single Hybrid
Tea Rose,
White
Wings

Small Flowered Cluster Roses

(Polyantha Roses) Growing about 12 to 18 inches high

The Polyantha or Baby Roses are very popular for edging and for bedding purposes. The plants grow into shapely, compact bushes about 12 to 18 inches high and they are covered with a great mass of flowers from early in the season until severe frost destroys their beauty. The blooms, though small, are very effective, as they are arranged in showy trusses that accentuate their rich and beautiful coloring.

Cameo

Each \$1.35, Three \$3.75, Doz. \$13.50
A new and distinct color. Shell-pink with salmon-suffusion, over which lies a glow of gold. Flowers in large sprays constantly in bloom from June until frost.

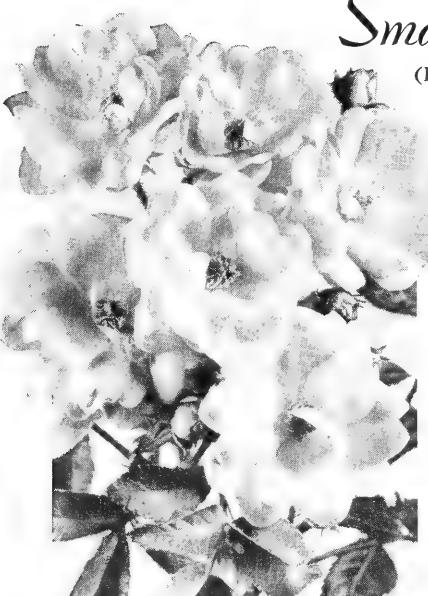

Carroll Ann (Plant Patent No. 707)

Each \$1.50, Three \$3.90, Doz. \$15.60

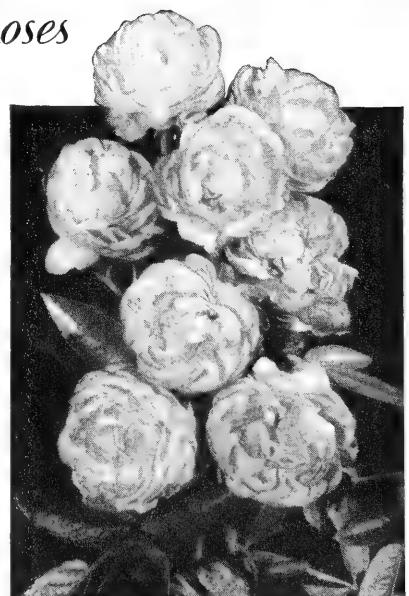

This is one of the best of the new form, and is greatly admired by visitors. The flowers are shaped like Ranunculus blooms, an entirely new form in Roses. The incurving petals produce perfectly charming globe-shaped flowers when grown in large clusters. The color is salmon-orange and does not discolor or fade in the hottest sun. Plants medium height and excellent for edgings.

Margo Koster

Each \$1.35, Three \$3.75, Doz. \$13.50
Dominant color of this lovely Ranunculus-shaped flower is salmon with rich shadings of orange and pink. The small, globe-shaped blooms occur in large clusters and are semi-double. The plant grows not over 18 inches high and therefore is a very fine variety to be used as an edging around Hybrid Tea Rose beds.

Cameo

Carroll Ann

Pinkie (Plant Patent No. 712)

Each \$1.75, Three \$4.65, Doz. \$18.60
The dainty little bud is Nevron-rose-pink and when fully open about 2 inches across. It blooms continuously from early summer until late fall. The clusters of flowers have a spicy fragrance. A lovely little Rose for cutting or corsages. The plants grow about 2 feet high, are bushy and perfect for an edging along a walk or Rose bed.

Red Ripples

Each \$1.50, Three \$3.90, Doz. \$15.60
Best called a Tall Polyantha as it grows about 2½ feet high. It produces immense flower clusters of an intensely scintillating red, individual flowers are composed of wavy rippling petals. The buds are daintily molded and perfect for boutonnieres. Red Ripples is a prolific bloomer and perfect grower. For foreground planting in the shrub border you could not pick anything more brilliant or colorful.

Sweetheart Rose

Improved Cecile Brunner (Plant Pat. No. 851)

Each \$1.50, Three \$3.90, Doz. \$15.60

This dainty new Rose produces flowers in quantities that are truly prodigious. Many stalks break from the base of the rugged plants, each stalk providing numerous sprays. Each stem of the spray is tipped with a dainty peach-pink bud, a little larger than the well known Sweetheart or Cecile Brunner. The deep peach-pink changes to salmon in the opening flowers, and at the height of the season the entire plant is a bank of soft pink and salmon. This lovely effect can be transferred into the home, where you will find its delicate flowers last for many days.

Improved Cecile Brunner

The Miniature Rose, Rouletti

Miniature Roses

Rouletti

After being lost to cultivation for many years, a plant was found growing in an Alpine window garden by M. Correvon, the Swiss rock garden authority. It is rapidly attaining popularity as a rock garden "gem" and as an edging plant in front of Rose beds. The plant grows about 6 inches tall in bushy form, is healthy and hardy, and blooms from early summer until frost. The tiny, rose-pink, quite double flowers are less than an inch in diameter.

Oakington Ruby

Received an Award of Merit from the English Royal Horticultural Society in 1934. It is a real dwarf Rose, will not attain a height of more than 12 inches. The flowers are fully double, deep crimson in the bud, opening to rich ruby-carmine, often 1½ inches in diameter. It is very free-flowering, commencing in May and continuing until late autumn.

Pumila

Double rose-pink flowers a little larger than Rouletti. It is a very free flowering variety and a favorite for low edgings around a Rose bed.

Miniature Roses are grown in pots and for that reason are not shipped in the same package containing other Roses. They are sent separately or along with hardy plants which you might order.

Charlie McCarthy

(Plant Patent Applied For)

A Rare, White, Small Flowered Cluster Rose

Presenting for the first time, Charlie McCarthy, a lovely novelty in Roses. All of the lively qualities pertaining to Charlie are exemplified in the Rose. His scintillating wit is expressed in the foliage—fresh and sparkling. And like his steady stream of answers, the bushes are profuse with an unending show of flowers.

Though the plants grow old, they never grow up—rarely exceeding 18 inches in height. The creamy white miniature buds expand into pure white flowers approximately an inch in diameter.

The bushes are unique and novel in form, being globular or rounded like a freshly clipped Boxwood. The luxuriant foliage, so bright that it has the appearance of having been shellacked or polished, lends to the plants a snappy, tailored effect that is seen in no other Rose.

From spring until fall, all through the season, the plants are literally smothered in a glistening white snowbank of Roses. Like its namesake, the new Rose Charlie McCarthy, immaculately dressed, can always be depended upon for a top-flight performance.

Each \$2.00, Three \$5.25, Doz. \$21.00

Gruss an Aachen

Perpetual Flowering Bedding Rose

GRUSS AN AACHEN

This is one of the most popular of Roses for bedding or for planting in amongst perennial plants or low shrubs in front of the border. Unlike most Roses, it flowers freely in light shade. Several good sized blooms form a fine cluster of pink flowers enhanced by a shading of pure salmon. The plant is compact and spreading in habit and flowers profusely over an exceedingly long period of time. Because of its great usefulness, hardiness and beauty, it has become the most popular of Bedding Roses.

Each \$1.35, Three \$3.75, Doz. \$13.50

Mabelle Stearns

Mabelle Stearns

(U. S. Plant Patent No. 297)

**PERPETUAL FLOWERING DOORYARD ROSE
A ROSA SETIGERA HYBRID by HORVATH
THE ROSE THAT NEVER FAILS!**

Color of Flowers: Peach-blossom-pink with silvery reflexed, sharply re-curving imbricated petals, center showing a lovely orange undertone. Flowers in panicles. Persistent grower and bloomer. Flowering period starting in June, lasting until frost; starts blooming about two weeks later than Hybrid Tea Roses, but is never without flowers the entire summer and fall. Flowers excellent for cutting and decorative work, are fully double, having from 50 to 60 petals, and are delightfully fragrant, lasting a week or ten days in water when cut.

Foliage: Bottle-green, rich and clean. Not troubled with black spot, mildew or other Rose maladies.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with little protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

Use and Size of Plant: Ultimate height about 2 feet, spreading 5 to 6 feet or more if permitted. It is a decumbent, spreading mat-like plant, making it pre-eminently fit for ground covering, hiding rocky and ugly spots, or as edging to Rose beds as well as planting in solid beds or covering slopes. Single specimens are very effective in the flower border or low shrub plantings.

Each \$2.00, Three \$5.25, Doz. \$21.00

Paul's Scarlet

Climbing Roses

Climbing Roses require no pruning in the spring beyond cutting out of very old or dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time some but not all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season.

Dream Girl, Inspiration and Prosperity are all three Perpetual Flowering varieties, blooming all summer and fall.

Blaze Each \$1.50, Three \$3.90, Doz. \$15.60

Hardy everblooming climbing Rose which inherits the blazing color of Paul's Scarlet Climber and the everblooming habit of Gruss a Teplitz, thus combining the most attractive features of both its parents. It is a very vigorous climbing variety, which will grow to considerable height.

Dream Girl (Plant Patent No. 643)

Each \$2.25, Three \$6.00, Doz. \$24.00

The new everblooming Hardy Climber and Pillar Rose. This variety fills a long-felt need for a real coral-pink, full-petaled, hardy climbing Rose. Another most appealing quality is its pleasant spicy and penetrating fragrance. The blooms last for days after cutting. Beginning in June when older climbers like Mary Wallace, Dr. W. Van Fleet and others in this class finish blooming, Dream Girl produces successive crops of flowers throughout the summer, ending with a gorgeous display in late fall. It has a neat, compact habit which allows for easy training on a 6- to 8-foot trellis or arbor; also does well when trained as a "pillar" Rose.

Dr. J. H. Nicolas (Plant Patent No. 457)

Each \$2.00, Three \$5.25, Doz. \$21.00

Gardeners are delighted with the wealth of fragrant blooms, the size of the large, double flowers so like the finest Hybrid Tea Roses, and most of all with the everblooming performance of this Rose. Immediately after the first flowers fade, new shoots appear. A galaxy of bloom repeats again and again, all summer and fall. Fully double, entrancing deep rose-pink flowers, unbelievably large, 5 to 6 inches across, 50 fine textured petals. Three or four perfect blooms to each long, strong stem. Their fragrance is rich, lovely and enduring.

Gold Rush

Each \$1.75, Three \$4.65, Doz. \$18.60

A vigorous climber, producing masses of handsome yellow flowers; has nice foliage and unlike most hardy climbers, it will produce flowers on its new growth for the season. We predict a great future for it. So far it has proven to be the best and hardiest of the yellow climbing Roses.

Inspiration

Each \$2.25, Three \$6.00, Doz. \$24.00

Inspiration is an appropriate companion Rose for the new Dream Girl, with similar growth habit. It is not too rampant or tall growing and so has many uses on trellises, arbors, and pillars of medium size and habit. Successive crops follow from June on through October and show the same sparkling tones as found in that fine old Hybrid Tea, Pink Radiance, and the once-blooming Mary Wallace Climber. It is very hardy, reliable and free blooming in all sections, same as Dream Girl Climber.

King Midas (Plant Patent No. 586)

Each \$2.00, Three \$5.25, Doz. \$21.00

Long canes, 8 to 10 feet, will ring a blaze of golden glory to pillar, porch, pergola, trellis, fence, or brighten a corner of the yard, house or garage. Blooms are large, 4 to 5 inches, in clusters on medium long stems, opening from a deep gold to a clear, unfading yellow. This variety is very prolific and continues blooming after other Climbers have ended. It is fast growing and establishes itself quickly and throws out long, stout, blooming wood from basal shoots.

New Dawn

Each \$1.50, Three \$3.90, Doz. \$15.60

(Everblooming Dr. W. Van Fleet.) Identical in every way with its parent in size and formation of its flowers, and lovely soft pink color, but blooms continuously throughout the summer and fall.

Climbing Peace (Plant Pat. No. 932)

Each \$2.00, Three \$5.25, Doz. \$21.00

Blooms identical with those on bush Peace Rose come on long, fast-growing plant canes. For the North, we advise you to give it winter protection.

Paul's Scarlet

Each \$1.50, Three \$3.90, Doz. \$15.60

This is one of the favorites. The flowers are scarlet-red, semi-double and freely produced in clusters of from three to ten flowers each on much-branched canes. It is a strong grower and very hardy; canes are flexible and easily tied to a fence, pergola or post. The plants we offer are husky and will quickly and readily develop into beautiful specimens, producing brilliant masses of bloom.

Prosperity

Each \$2.00, Three \$5.25, Doz. \$21.00

A lovely white climber which flowers throughout the summer and autumn. It is the best of the white perpetual flowering climbing Roses. The flowers are about two inches in diameter and occur in clusters of from 5 to 10 or more. Its foliage is rich dark green. This variety lends itself well to growing on fence or pillar and makes a stunning contrast if planted along with a red variety.

Silver Moon

Each \$1.50, Three \$3.90, Doz. \$15.60

Beautiful semi-double flowers, 4½ inches and over in diameter, pure white in color; petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness.

Trailing Rose

Wichuriana (Memorial Rose) Each \$1.25, Three \$3.15, Doz. \$12.50
Fragrant, single, pure white flowers with yellow stamens followed in the fall by bright red hips or berries. It has dense evergreen foliage.

4 New Perpetual Flowering Climbing Roses

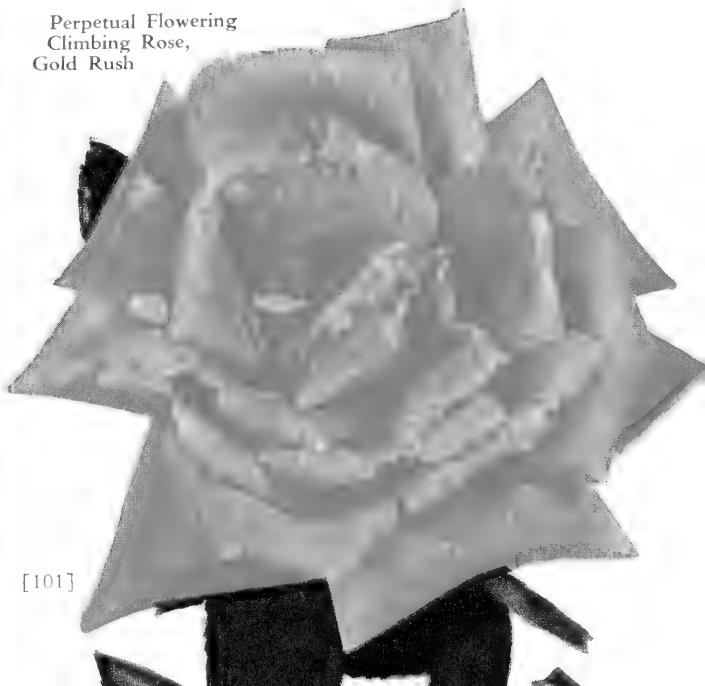

Perpetual-Flowering Climbing Rose, Prosperity

Perpetual-Flowering Climbing Rose, Dream Girl

Perpetual Flowering
Climbing Rose,
Gold Rush

Horvath Setigera Hybrid Climbing Roses

Thor GIANT SCARLET CLIMBER, ROSA XANTHINA HYBRID by HORVATH

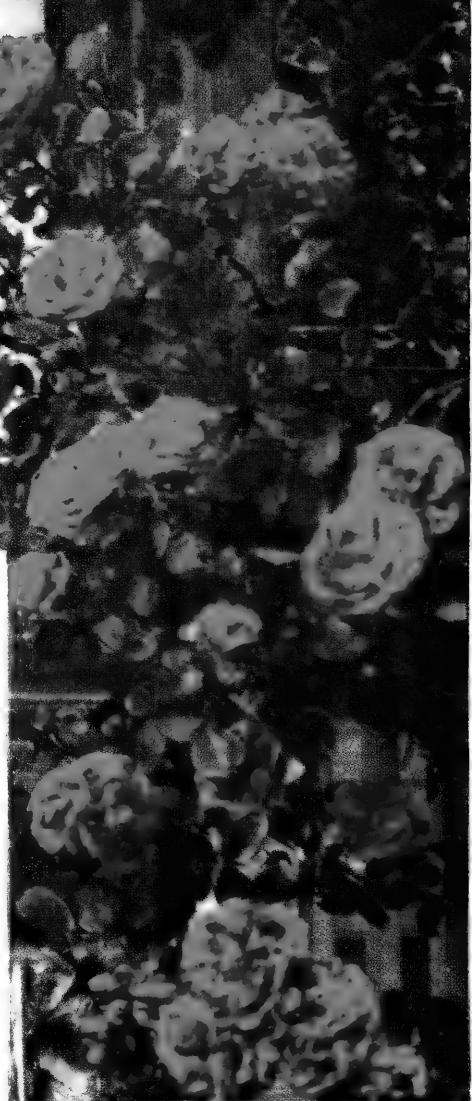

(U. S. Plant Patent No. 387)

Color of Flower: Brilliant scarlet-red of the same shade as Crimson Glory. The flowers are perfectly formed, very slow in opening and when fully open, 4 to 5 inches across. The flowers, although large, are perfectly shaped and just as handsome as those of a Hybrid Tea Rose. Flowers are produced abundantly on spur branches 12 to 18 inches long, which are stiff, holding the flowers in perfect position. Flowers have from 55 to 60 petals, do not discolor when fully open. Without any question of doubt, the finest scarlet Climbing Rose yet introduced. Horvath claims this to be the finest creation to date.

Foliage: Rich bottle-green, quite abundant. No mildew or black spot in our test garden for three years.

Hardiness: Can be successfully grown with protection in colder regions.

Size of Plant: Ultimate height about 8 to 10 feet. Canes are very plentiful, not overly thorny.

*"Thor is the Finest and
Largest Red Climber"*

Flowers easily measure 5 inches across.

An Organization Composed of Selected
Representatives of The Women's Civic Groups of
Chattanooga Dedicating Their Efforts to the
Improvement and Beautification of the City
COMMITTEE OF 100

Chattanooga, Tenn.

The Wayside Gardens Co.,
Mentor, Ohio.

Gentlemen:

In making a report on the planting of 50 Thor, Horvath Roses, the Riverview Garden Club wishes me to express their appreciation of its excellent behavior. The Roses have been satisfactory in every respect. The plants are sturdy and are vigorous growers with long stems, having clusters of from three to seven flowers on each stem, making a gorgeous display of vivid color.

That meets all the requirements for roadside and parkway planting and we are happy to recommend their use and your splendid service in supplying them.

Mrs. Oscar Lee Mitchell
Mrs. Oscar Lee Mitchell, President
THE COMMITTEE OF 100

Frau Dagmar Hartopp

Lipstick

Shrub Roses

ROSA RUGOSA HYBRIDS

Rugosa Roses are particularly valuable for hardiness, healthiness, and ability to thrive under most adverse conditions of soil and climate, withstanding almost anything. They are distinguished by erect, very spiny stems, and by their tough, curiously wrinkled or Rugosa foliage. Particularly valuable for hedge or shrubberies in seashore gardens and regions where the winters are very severe. Many are everbloomers.

Some of the hybrids do not have the true Rugosa foliage, but this does not mean that they are not as hardy. Nothing could be harder than the Grootendorst type, yet their foliage does not appear to have much Rugosa in it.

Planting Distance: Hedges—1½ to 2 feet. Shrubs—3 to 4 feet.

Pruning: Shrub types—cut out old canes and shorten new canes to 4 feet.

Height: 4 to 5 feet except where noted.

Frau Dagmar Hartopp

Each \$2.00, Three \$5.25, Doz. \$21.00

This is a fine new low growing Rugosa Rose, excellent for foreground planting or ground covering. Like all Rugosa Roses it loves the seashore and does remarkably well on the poor sandy soils which are usually found in such localities. The foliage is rich green and heavily crinkled, no black spot or similar troubles. The silvery pink flowers are studded all over the plants and rise just above the foliage from early June until frost; will stand below zero temperatures. Plants are rugged and hardy. An excellent European variety of recent introduction you will want for those difficult places not to mention for those sections of the country where Hybrid Tea Roses do not survive. Average height about 12 to 18 inches.

Crimson Rosette

Grootendorst

Each \$1.75, Three \$4.65, Doz. \$18.60
An improved variety having large, fringed, cherry-red flowers borne on a fine large, well foliated bush. Excellent as a hedge.

Sir Thomas Lipton

Each \$1.75, Three \$4.65, Doz. \$18.60
It is one of the earliest Roses to bloom, starting to open its semi-double, pure white blossoms in late May and continuing freely until late fall. The exceptionally fine fragrance alone qualifies it as a garden Rose. For hardiness, tolerance and usefulness, Sir Thomas Lipton has no equals. Maximum height 4 to 5 feet. Morton Arboretum, Lisle, Illinois Test Garden Bulletin of July, 1940.

SHRUB ROSE

Lipstick

Each \$1.75, Three \$4.65, Doz. \$18.60

A "shrub" Rose which will reach a height of 5 to 6 feet. It blooms continuously during the summer, forming large clusters of semi-double flowers. The color is a clear cerise with salmon shadings. This European variety certainly is a most interesting addition. There are so few tall growing Roses; it will be most welcome.

ROSA HUGONIS

A splendid Rose for the shrubbery border with delicate yellow, single flowers produced on long arching sprays early in May; after it has finished flowering it remains an attractive decorative bush for the balance of the season; perfectly hardy.

Each \$1.75, Three \$4.65, Doz. \$18.60

New Old-Fashioned Rosette Roses

CRIMSON ROSETTE (Plant Patent No. 901)

The crimson clusters of brilliant red Roses acting as a hood or cloak, cover the dark green, heavily foliated bushes in a continuous display of velvety red. The medium sized buds expanding slowly, finally culminate into open flowers of vivid crimson. Every flower in the spray, when fully expanded, is an exquisitely formed red rosette. Great vigor is manifested in the spreading clusters of crimson, the clusters lasting for days and days.

Each \$1.75, Three \$4.65, Doz. \$18.60

PINK ROSETTE

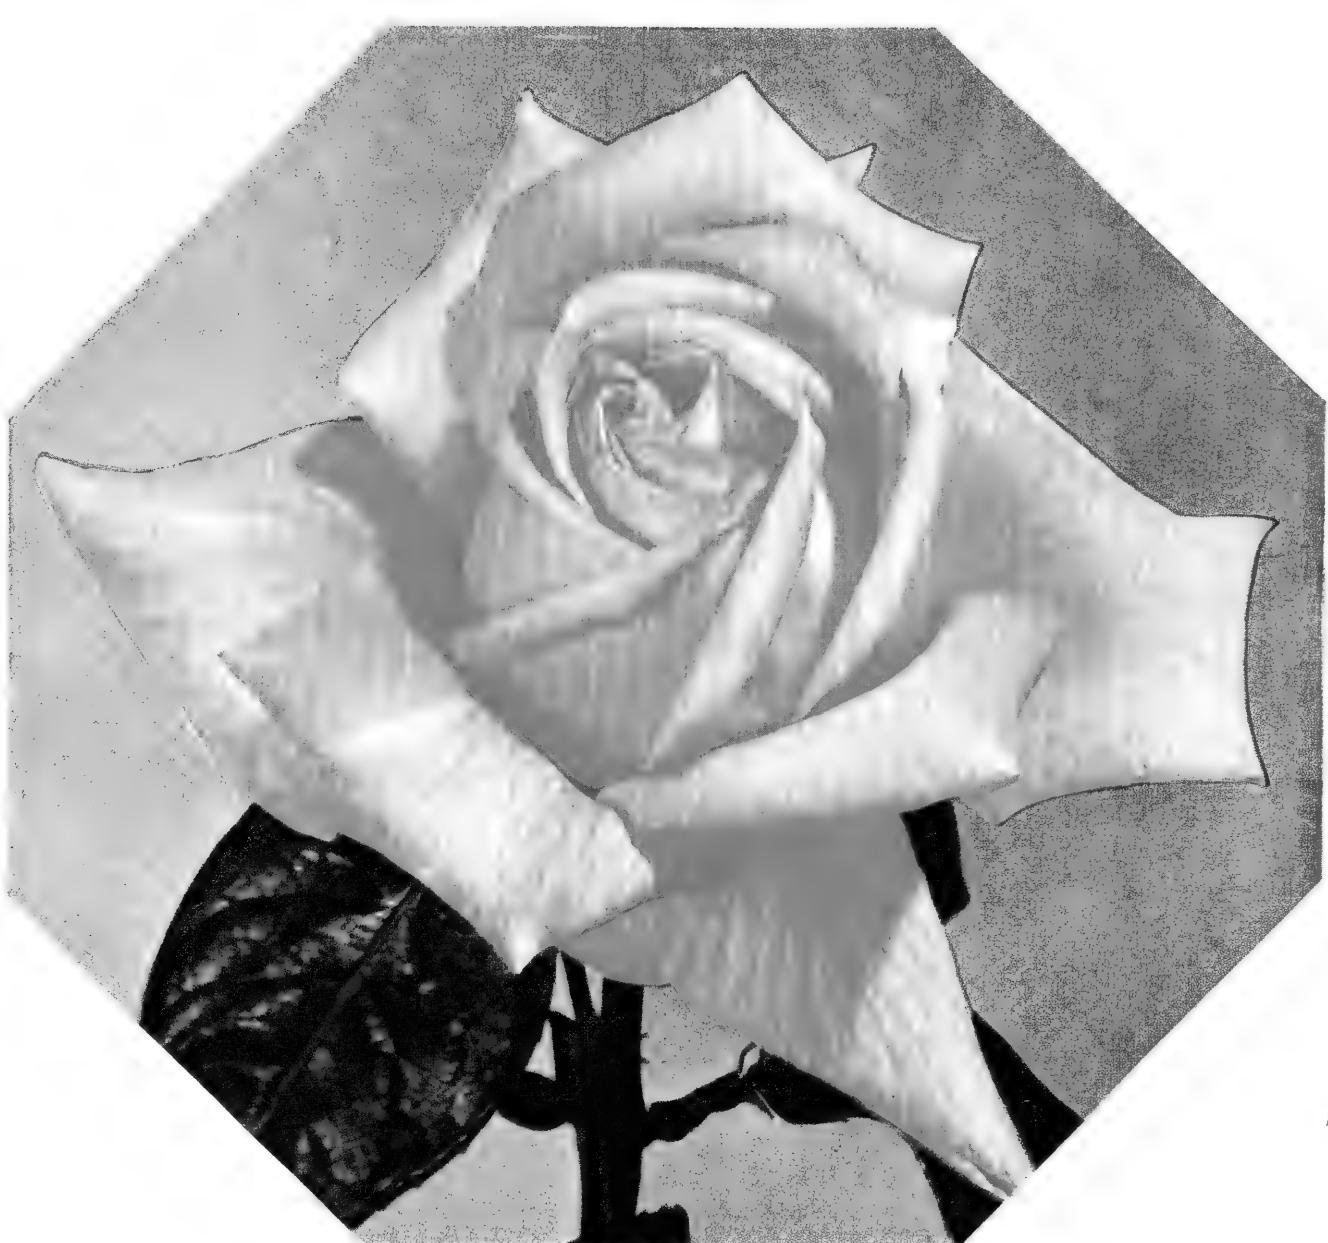

(Plant Patent No. 902)

Pink Rosette definitely links together the glamour and beauty of the present with the style and charm of the past. The sprays bearing many pure peach-pink buds unfold to open flowers of perfect proportion and form, yet for all its up-to-the-minute newness, there is about the Rose that indefinable quality that connects PINK ROSETTE with the quaint style, primness and beauty of Colonial charm. The plants are extra strong in growth. The deep green foliage is excellent. One crop of flowers is followed by another. The Rose lasts for days when cut.

Each \$1.75, Three \$4.65, Doz. \$18.60

Pink Rosette

Peace The Most Beautiful Rose of the Century

(U. S. Plant Patent No. 591)

This Rose is almost unbelievable. One marvel of it is the downlike range of colors through which it passes, from opening yellow buds, each petal edged with pink that seems to deepen as the flower slowly opens. The shades of color vary, too, from flower to flower and through the changing seasons. Though the bloom is unusually large, long lasting and constantly fresh looking, its effect is always delicate and lovely. The individual petals are long and of great substance, gradually opening, a few at a time, around a high-pointed center, to a great, golden hearted, very double, fully open flower. The plant is as superior as the bloom, and in the same

large-scale way. The flowers are borne singly on heavy stems so strong and straight. It needs no disbudding to produce exhibition blooms which hold their form and freshness longer than other Hybrid Teas. The flowers last a long time and they are produced all season in endless succession, through various stages of opening and changing colors: canary-yellow, pale gold, cream, ivory and alabaster; edged cerise, rose or apple-blossom-pink. M. Meilland, the hybridizer, has given the world many beautiful Roses, yet of this he says: "This is a rare discovery and only takes place once in the career of an originator."

Each \$2.50, Three \$6.60, Doz. \$26.40

The 1954 Collection of New Patented Roses

We believe this to be a collection of the finest and hardiest Roses you can grow. We have made a special effort to produce these varieties in quantity and of a quality which leaves nothing to be desired. These Roses will provide you with the finest flowers you have ever grown. Below are given the names of the kinds selected for this collection. Behind each name the page number is given where you will find the variety illustrated in color.

Your Rose garden may not be large enough to grow all twelve varieties here selected. We have, for that reason, grouped them in two separate collections so you can choose either one or both.

Sutter's Gold. Copper-yellow. (See page 96.)

Butterscotch. Capucine-buff. (See page 91.)

Charlotte Armstrong. Cerise-red. (See page 91.)

Nocturne. Bright red. (See page 96.)

Sleigh Bells. Pure white. (See page 95.)

Eclipse. Golden yellow. (See page 93.)

1 each of the above 6 varieties

Collection No. 100 for \$10.35.

All plants will be carefully labeled and packed.

Peace. Yellow edged pink. (See above.)

Fred Howard. Yellow. (See page 92.)

Helen Traubel. Pastel pink to apricot. (See page 94.)

Mirandy. Rich dark red. (See page 94.)

Blanche Mallerin. Pure white.

Henry Ford. Clear peach-blossom-pink. (See page 94.)

1 each of the above 6 varieties

Collection No. 200 for \$12.75.

Unusual Plants for Edging and Low Hedges

VIBURNUM OPULUS NANUM

The Hedge Viburnum. A dwarf, stubby plant never over two feet high, particularly well adapted for edgings and hedges in wet or heavy clay ground where it is difficult for other plants to thrive. Does well in light shade. It is extremely hardy. Can be clipped or left natural as desired. In either case it grows into a fine compact and low hedge which requires no care.

Each \$1.10, Three \$3.00, Doz. \$19.00,
100 \$70.00

PACHISTIMA CANBYI

A choice dwarf, compact evergreen shrub of inestimable value. Superb as an evergreen edging to flower beds or borders for walks. Perfect in front of evergreen plantings. Spreads to about 18 inches in diameter and never grows over 8 inches in height. May be trimmed or left natural. Withstands 20 degrees below zero and foliage does not burn or discolor during winter. Does well in sun and light shade. Charming as a ground cover, in small places where the usual kinds would be out of scale.

Each \$1.00, Three \$2.50, Doz. \$8.50,
100 \$60.00

TEUCRIUM CHAMAEDRYS

Shrublike plant of moderate growth. Has shrublike, shiny, dark leaves. Glossy green foliage resembling dwarf Boxwood, may be used in place of Boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches. Plant in fall or early spring, 6 inches apart, in full sun. Excellent edging to flower beds.

Three \$1.80, Doz. \$5.50,
100 \$28.00, 1000 \$250.00
(250 plants or more at 1000 rate)

SALIX

PURPUREA NANA

Dwarf Blue-Leaf Arctic Willow. Discovered north of the Arctic Circle. A charming low-growing Willow excellently suited for edgings. Grows anywhere in wet or heavy soils where other plants perish. It is able to withstand the lowest temperature encountered in this country, is of easy culture. Just the plant for low edgings, around beds or along walks in difficult soils or localities. The foliage is a lovely gray-blue-green. Can be clipped for formal effects or left natural as desired. Should be planted about 8 inches apart. May also be grown as single specimens in the rock garden or in the foreground of the shrub border.

Each 85c, Three \$2.25, Doz. \$6.50,
100 \$45.00, 1000 \$400.00
(250 plants or more at 1000 rate)

Unusual Plants for Edging and Low Hedges

TAXUS CANADENSIS STRICTA

This dwarf evergreen makes a perfect beautiful evergreen formal hedge. It is hardy; will thrive anywhere that Taxus grows. Successfully stands temperatures as low as 20 degrees below zero. May be left natural (unclipped as shown in illustration) or can be clipped round or in boxlike form of 8 to 10 inches wide and 10 to 12 inches high. It transplants readily and it is not necessary to send the smaller plants with a ball of earth. Set plants 10 to 12 inches apart. We recommend the following sizes:

8-10 in., bare root
Doz. \$13.00, 100 \$125.00
10-12 in., bare root
Doz. \$20.00, 100 \$150.00
12-15 in., bare root
Doz. \$25.00, 100 \$190.00

DWARF RED BARBERRY CRIMSON PYGMY

We obtained from Holland a number of plants of the miniature form of the Red-Leaved Barberry. Everyone who has seen it wants it because of its charm and delightful coloring of its foliage. The old leaves are bronzy blood red while the new growth tips are several shades lighter, which sparkle in the sunlight. Our oldest stock plants, now several years old, measure 15 to 18 inches in diameter and are about 3 inches high. Each one is a picture in itself. Individual plants are colorful and will make a fine showing in front of any shrub planting, in front of a house for instance. It is of slow growth and excellent as edging to walks or flower beds where it will be most attractive. We offer a limited number of plants now. Must be grown in full sun in order to obtain the brilliant foliage color. If grown in shade they will not color correctly.

Each \$1.10, Three \$3.00,
Doz. \$10.00, 100 \$70.00

LIGUSTRUM VICARI

A new dwarf growing hardy Privet with golden foliage. Not to be confused with the yellow variegated California Privet which is not hardy. Golden Vicari Privet makes a superb golden edging to walks or beds. It can be trimmed to remain 12 to 15 or 18 in. tall. Being of slow growth, it does not require frequent pruning but by the same token, it takes several years to produce a fair sized plant in the nursery. It may also be used to good advantage as an individual specimen in a planting in front of the house or shrubby border. We send out 3 to 4 year old plants which are 15-18 inches tall. As to its hardiness, we have tested it in Mentor now for six years and found it completely hardy. Should be grown in full sun for best color.

Each \$1.10, Three \$3.00, Doz. 10.00,
100 \$70.00

ILEX CONVEXA (Crenata Bullata)

This is one of the choicest of evergreens and was introduced into this country in 1919 by E. H. Wilson. It has taken many years of effort to produce this little beauty in quantities but now it is here for you to enjoy. It is very bushy, has shiny dark green, Boxwood-like foliage somewhat convex and it grows about 4 feet high and 3 feet across. The glossy leaves are so profuse that twigs are invisible. Left to itself it grows "informally formal" and blends beautifully with other evergreens. As a small "accent" plant, it is faultless. For small hedges it is a jewel, particularly in cold climates where Boxwood is impossible. Space plants 18 in. apart. An absolute "must" for every garden. Does well in light shade or full sun and is equally happy on alkaline or acid soil, and last but not least, it is hardy.

Special size for hedging, bare roots:

Three \$3.00, Doz. \$11.00, 25 \$20.00,
100 \$75.00

Bushy plants in Cloverset pots:

10-12 inches Each \$1.50, Three \$4.00
Doz. \$15.00,
100 \$100.00

For other sizes please see page 112.

New Flowering Shrubs and Trees

The New Dark Blue Caryopteris, Heavenly Blue (Plant Patent No. 1091)
(See page 109)

Here is a new color in Blue Spirea.

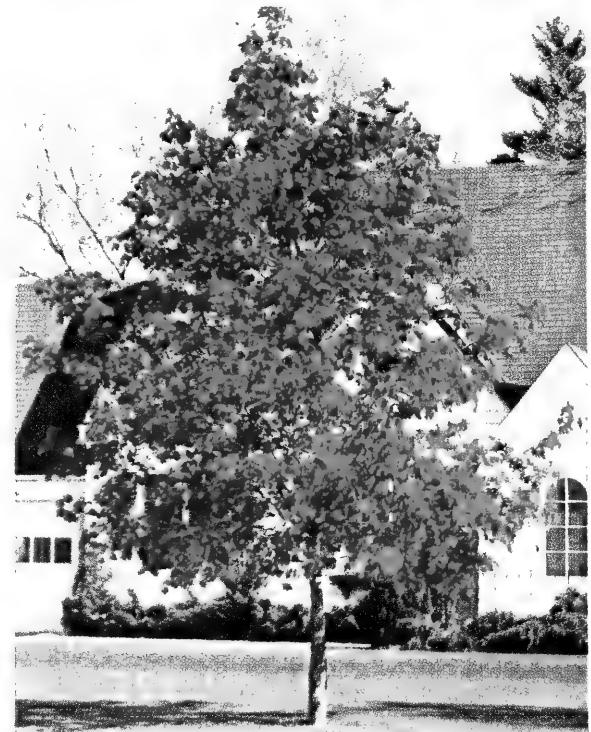

Blue Mist is noted for its lovely soft misty blue shade.

Heavenly Blue is more upright in habit and has lovely spikes of clear deep gentian-blue flowers, a color which is most welcome in autumn at a time when no other shrubs are in bloom.

Hedge Form Cydonia, Spitfire (Plant Patent No. 830) (See page 109)

Clethra Alnifolia Rosea (See page 109)

Norway Maple, Crimson King (See page 109)

Acer Platanoides Schwedleri Nigra (Patent No. 735)

Border of
Azalea Mollis

Hardy Azalea Mollis

The hardy Azalea Mollis are the aristocrats of the deciduous shrubs. In color they give an assortment of hues and wonderful pastel shades unequalled by any other hardy shrub. The opportunities for using Azalea Mollis are almost unlimited. They work in perfectly in formal plantings, in front of the house, in the foreground of a shrub border or any foundation planting. Then again bold groups can be planted where their masses of color make telling effects.

Culture: Azalea Mollis, contrary to general belief, do not require an acid soil. Beautiful specimens are being grown in Chicago as well as in Des Moines, Iowa. All they ask is a reasonably good garden soil and an occasional top dressing of cow manure to make them grow freely. They do not require a lot of water nor is it essential to prepare soils with a lot of peat or leaf mold. While they do quite well in shade, they prefer full sun. To insure a heavy mass of blooms each year, it is recommended that the faded flowers be removed and not permitted to go to seed. Do not cultivate deeply as all Azaleas root quite close to the surface of the soil.

Azalea Mollis Named Varieties

Here we offer a collection of the finest colors in named varieties. These plants have been grafted and are four years old. They are about 10 to 15 inches in height, depending on the variety. Some are taller growers and some bushier than others, according to their habit and natural form. Each variety offered is a choice one and planted by the thousands in Europe where their value and merit has been appreciated for many years.

Chevalier de Reali Each \$3.00, Three \$8.50, Doz. \$32.00
This is considered by many experts as the best pale yellow Azalea Mollis. Its lovely straw-yellow flowers make a fine show over a long period and blend perfectly with the other varieties or it makes a good background for Tulips.

Directeur Moerlands Each \$3.00, Three \$8.50, Doz. \$32.00
Probably one of the handsomest of the Azaleas. Produces handsome clusters of soft golden yellow flowers in abundance. A beautiful variety. The magnificent color of its flower blends superbly with other spring flowers.

Koster's Brilliant Each \$3.50, Three \$9.75, Doz. \$35.00
This variety is one of the most brilliant of the Azalea Mollis. Its fine clusters of flowers are a fiery brilliant coppery flame color. There are no red Azalea Mollis, but this variety comes nearest to this color, and cover the plant completely. Be sure to plant it in full sunlight because when grown in the open it shows at its best.

Lemonora Each \$3.00, Three \$8.50, Doz. \$32.00
The upper flower petals are Indian yellow while the lower ones are a shade lighter, and have a few small emerald-green spots in them. Flowers and flower clusters are large and a beautiful sight when in full bloom. This is one of the best of the pale yellow tinted varieties.

Queen Emma Each \$3.25, Three \$9.25, Doz. \$33.50
The large, individual flowers are grouped in big clusters which cover the plant completely. Color is deep apricot-yellow with soft buff-persimmon overtones, giving a fine, bright, yet soft effect. This is one of the much desired varieties.

Azalea Schlippenbachi (Royal Azalea)

The Royal Azalea is one of the first to bloom. It produces clusters of big, showy Rhododendron-like flowers which are a soft rose-pink, clean and clear in color, making a beautiful show. Ultimate height of plant varies from 3 to 5 feet and they never fail to flower. What is more, they are hardy under below zero temperatures, do well in shade or sun and do not require an acid soil nor do they need a heavy ball of earth for successful transplanting. Here is a fine low-growing profuse flowering shrub for the border or planting in front of the house.

12 to 15 in. Bushy plants

10 to 12 in. Bushy plants

Each \$5.00

Each \$4.00

Hardy Azalea Mollis All Colors Mixed

The color range of our mixed Azalea Mollis runs through innumerable shades of copper, old gold, flame, yellow, red, amber and salmon-orange of the most brilliant hues.

All plants offered are three years old or more, have nice flower buds and will bloom freely. The ultimate height of these mixed Mollis will run from 3 to 6 feet, depending on the habit of the plant.

ACER - Japanese Red-Leaved Maple

Palmatum atropurpureum

12-15 in. Each \$4.00, Three \$11.00, Doz. \$40.00
15-18 in. Each \$5.00, Three \$14.00, Doz. \$50.00
Magnificent purple-red foliage, gracefully laciniated; one of the best of all small-leaved shrubs. It is attractive at all seasons and makes a handsome specimen on the lawn or a colorful group in the foreground of the shrub border.

NORWAY MAPLE, "CRIMSON KING"

Acer Platanoides Schwedleri Nigra

(U. S. Plant Patent No. 735)

About ten years ago a fascinating purple or maroon leaved Norway Maple tree was sent to America from Europe. It created the same sensation over here as it did in Europe. Several specimens were propagated and planted along the East Coast as well as on the Pacific Coast for observation. The results have been most gratifying. It proved perfectly hardy and happy where Maples grew and it retained its magnificent leaf color throughout the entire summer. The effect is not unlike that of the Copper Beech, but in addition, the tips of the branches and the young foliage are of a lighter shade and glisten brilliantly in the sun. One would think the tree was in bloom.

Here truly is a rare thing in trees; a superb plant for lawn small or large, street trees or specimen for contrast among other trees. Unfortunately not many big trees are available so we decided to offer our customers what is known as a "whip." This is a two-year grafted single stem tree about 6 to 7 feet tall without side branches. When this "whip" is planted in the nursery it immediately starts to grow branches. It will do so, for you, in your garden. In two years time you will have a fast growing, vigorous young tree which makes it possible for you to enjoy this beautiful novelty two years sooner. Our supply is limited and will be for several years to come. Order promptly and you will possess one of the finest trees you ever owned.

Crimson King Maple Whips

Slightly branched

6 to 7 feet tall, Each \$6.00
6 to 7 feet tall, Each \$8.00

ALTHEA; HIBISCUS - Rose of Sharon

Erect growing shrubs of stately and formal shape, particularly well suited for screens or specimens in the shrub border. They bloom from July to frost and give color when most other shrubs have finished blooming. We offer four beautiful varieties of recent introduction, practically unknown, and in our estimation the four best. Their ultimate height is about 10 feet.

Celestial Blue

Each \$1.75, Three \$4.75, Doz. \$17.50

A magnificent, distinct and truly blue Althea. The gorgeous single disc-like blue flowers are produced in large amounts. Planted with our white variety, Snowdrift, it makes a most handsome color effect in the summer border. Plants we send out will bloom this year.

Hamabo

Each \$2.00, Three \$5.75, Doz. \$20.00

This most interesting cheerfully colored Althea is not new but practically unknown in this country. It is a great favorite in Europe and we can quite understand why. For several years we have tested it at Wayside and found it as hardy as any of the others. But it is so arresting that everyone visiting us has wanted a plant of it. Flowers are white and red, charmingly colored, brilliant and gay, and contrast beautifully with the dark green foliage. Here is a real contribution to the summer flowering shrubs. The plants we send you will flower only a few months after planting.

Woodbridge

Each \$1.75, Three \$4.75, Doz. \$17.50

This is an improvement over Rubis. Produces very large, wide-open, flaring flowers of a fine, clear rose-pink color. The best and most brilliant of the pink Altheas. Its freedom of bloom is outstanding.

W. R. Smith

Each \$1.75, Three \$4.75, Doz. \$17.50

Large, delicate, pure white flowers which open flat and are produced in great numbers from early July until frost. Most white Althea blooms do not open fully and therefore are not showy. W. R. Smith is the one exception. Its flowers are large, open wide and are superb.

Caryopteris - Hardy Blue Spirea

Blue Mist

Each \$1.50, Three \$4.00, Doz. \$15.00

(*Mastacanthus x Mongolica*) This charming low growing shrub is a very real contribution to the meager list of summer and fall flowering shrubs. It is covered from August till autumn frost with numerous clusters of powdery blue, fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making a small mound about 2 feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubbery border. **Perfectly hardy** and particularly valuable because it is one of the latest flowering shrubs.

Heavenly Blue

Each \$2.00, Three \$5.75, Doz. \$20.00

(Plant Patent No. 1091)

A delightfully deep blue colored autumn flowering shrub. It is the dark blue form of Caryopteris Blue Mist which Wayside Gardens introduced several years ago. Heavenly Blue is our own origination; the result of crosses and selections made at Mentor. Heavenly Blue is upright in growth. When mature, it is about 15 to 18 inches in diameter and 18 to 24 inches tall. One shrub will produce 30 or more beautiful deep blue flower spikes, a color which we all know is quite rare at any time and particularly so in the autumn garden. It does best in a light soil; in fact, the sandier the better, and must be grown in full sun. It comes to perfection in a warm, dry, sunny spot. We consider this new shrub one of the finest things available for rich autumn color.

Cydonia - Flowering Quince

(State regulations forbid the shipment of Cydonia, Crataegus and Malus into the states of Colorado and Utah.)

One of the first shrubs to bloom in spring. Their brilliant flowers and shiny foliage place them among the No. 1 plants for the spring garden. They may be allowed to grow into specimen plants or trimmed into hedges. Ultimate height about 5 to 6 feet. We offer here a collection of new hybrids not yet known in this country. These varieties are outstanding. The size of their blooms as well as the quantity in which they are produced is almost unbelievable.

SPITFIRE - NEW UPRIGHT CYDONIA

(Plant Patent No. 830)

Perfect for Hedges and Single Specimens

Here is a fine, early flowering shrub with excellent habit. It grows upright to a height of about 6 to 7 feet when mature. It may be held down to 4 or 5 feet if you wish by simply topping it once or at the most twice a year; side pruning is not necessary. The flowers are large and deepest crimson-red. The upright stems are covered with them from the ground up. You can well imagine what a brilliant effect is made when Spitfire Cydonia is used for a hedge. The plants are not more than 2 feet across when mature so that it is an excellent subject to use as a single specimen as well as in shrub plantings where space is limited. No flower buds have ever been killed nor has there been any damage from frost to the wood in temperatures as low as 15 degrees below zero. We have had this plant under test for ten years and think it is a fine addition to flowering shrubs that may be successfully used for hedging as well as specimen planting. We offer plants about 3 feet tall, ready to bloom.

Each \$3.00, Three \$8.50, Doz. \$32.00

Hybrid Cydonias

The beautiful hybrid Cydonias offered under this heading are great improvements and, as soon as they become more plentiful and better known, will be universally grown. Our stock is decidedly limited. We, therefore, urge you to send for yours at once and be one of the first to have them in your own garden.

Aurea

Many shrubs flower in May and June, but few can surpass the beauty of this lovely dwarf Quince. It is completely covered with rose suffused salmon-tinted yellow flowers from March to May. It is particularly fine for dwarf hedges in its natural form, or it can be clipped if a formal hedge is desired. Growing less than 3 feet high, it is no problem to keep it in form. It makes a perfect picture in front of taller shrubs and looks well in the flower border along with Tulips and other spring flowers.

Charming

Large flowers of soft shell-pink deepening towards the ends of the petals. A nice upright shrub which produces a mass of color early in the spring. When fully grown it will be about 6 feet tall. We offer plants about 3 feet tall, ready to bloom.

Each \$3.50, Three \$9.75, Doz. \$35.00

Coral Beauty

Its lovely coral blooms are a real treat to behold. Exceedingly free blooming; it makes a grand show in the spring and provides a fine background for Tulips or other spring bulbs. As a cut flower you will find it also most desirable. The plants we send are about 3 feet tall and ready to bloom.

Knaphill Scarlet

This fine flowering Quince originated in England and is a choice low growing plant. Eight-year-old specimens in our nursery are about 16 inches high and 18 inches across. It forms a small mound which in early spring is completely covered with big vermillion-red flowers. An ideal variety for planting in front of the shrub border or foundation plantings; it may also be used for low edgings. Knaphill Scarlet will unquestionably become as great a favorite here as it is in Europe. We offer nice bushy specimens about 12 to 15 inches high.

Nivalis

This is the best pure white Quince. The sparkling white flowers contrast well with the dark green foliage. A very handsome flower for cutting as well as a fine early flowering shrub for the border.

Stanford Red

This new hybrid we believe to be the finest red hardy Quince in cultivation. The flowers are extraordinarily large, open geranium-red and deepen to an intense blood-red of great strength and carrying power. It is excellent for cutting, the flowers lasting a long time and in addition, it's almost thornless. A beautiful shrub to grow with white Tulips. A "must" for your garden. We offer plants about 3 feet tall, ready to bloom.

Each \$3.50, Three \$9.75, Doz. \$35.00

CALICCARPA - Violet Jewel Berry

Purpurea

Each \$2.00, Three \$5.75, Doz. \$20.00

Gracefully recurving branches, covered in August with thousands of closely set, small pink tinted flowers. These are followed in late September by masses of violet-purple berries which last until mid-winter. There are few shrubs which give as much pleasure in the garden or which are so satisfactory for cutting. Ultimate height about five feet. We offer nice plants that will bear fruit at once.

CERCIS - Red Bud

Chinensis

Each \$3.00, Three \$8.50, Doz. \$32.00

This charming, brilliant spring-flowering shrub is a Chinese counterpart of the American native Redbud. It flowers at the same time, but the quantity and quality of its flowers far surpass those of our common wild form. It is shrub-like in growth, and when in bloom every branch and twig is covered with thousands of bright purple blossoms almost double the size of the common variety and noticeably darker. You will want this in your garden surely. Ultimate height from 6 to 8 feet.

CLETHRA ALNIFOLIA ROSEA

The Pepper Bush is a compact neat plant of many slender, upright branches rarely over four to five feet high. Each branch is topped with finger-like clusters of small deliciously scented pink flowers. To many people, the fragrance is reminiscent of pepper; hence, its name. This is a very fine and useful shrub, especially for low moist places or damp woodland conditions. It grows equally well in full sun or shade. Here is the rare pink form of the much loved white Pepper Bush, giving bloom when most needed in late summer and early autumn with fine dark green foliage to boot.

Each \$2.50, Three \$7.00, Doz. \$25.00

WHITE DOGWOOD

Special Offer of Medium Sized Trees

We are able to offer you a real bargain. Two years ago and again this past year we were very fortunate in obtaining a remarkable germination of seed with the result that we now have several thousand fine young trees, more than our normal requirements call for. So here's your chance to plant large numbers of them. At the low price we are offering them, we cannot sell them in smaller quantities than units of five plants.

Plants will be nicely branched, about 12 to 15 in. high, or better, and will start blooming second year after planting.

1 Bundle of 5 White Dogwood plants.....	\$ 5.00
2 Bundles or 10 White Dogwood plants.....	9.00
5 Bundles or 25 White Dogwood plants.....	20.00

COTONEASTER - The Queen of Shrubs

All the species of Cotoneaster will thrive either in shade or full sun, and are very suitable for growing under trees, "clothing" north or other walls, and for covering wet, dry or shady banks, etc.

The outstanding characteristics of this genus are the beautiful, conspicuous clusters of berries, ranging in color from brilliant orange-scarlet, through varying shades of red to black, all preceded by the profusion of white or pinky white flowers wreathing the branchlets, and also in many species the rich autumnal coloring of their foliage. For hedges they are becoming more and more popular, Divaricata being especially well adapted for that purpose. The under-mentioned list contains most of the best recent introductions from China, to which country they are native.

Apiculata (Cranberry Cotoneaster)

Each \$2.50, Three \$7.00, Doz. \$25.00

A beautiful hardy dwarf Cotoneaster from Western China. This little known variety grows about 2 feet high with arching branches weighted down during the autumn with masses of bright crimson fruits about the size of a Cranberry. The foliage is shiny green and beautiful through the year. Perfectly hardy.

Divaricata Each \$1.50, Three \$4.00, Doz. \$15.00, 100 \$100.00

A low growing, much branched and graceful shrub from China. Its ultimate height is about five feet and it is perfectly suited for hedges of medium height, say from 3 to 5 feet. Foliage is small and round, highly polished dark green. It creates a splendid effect. Brilliant small egg-shaped, red fruits in autumn add to its beauty. Few shrubs equal Cotoneaster Divaricata in the border or as a hedge plant.

Floribunda

Each \$2.00, Three \$5.75, Doz. \$20.00

Grows into a beautifully shaped round bush. Branches slightly arching and heavily covered with handsome blue-green foliage. It flowers as freely as the English Hawthorn and in fall is covered with thousands of small brilliant red berries.

Multiflora

Each \$2.00, Three \$5.75, Doz. \$20.00

One of the finest of the species, growing 10 feet tall. The branches are slightly pendulous. Covered in autumn and late summer with deep red fruits, making a lovely picture in the autumn garden. Of easy culture and perfectly hardy.

Cotoneaster Divaricata in Flower

Cornus, White Cloud

CORNUS - Dogwood

It has been our experience as well as that of many of our customers that medium-sized Dogwood trees establish more easily and grow more rapidly than large trees, unless the big trees are moved with a big ball of earth.

We have therefore grown a special size plant. It is bushy, well shaped and about 3 feet tall, with a wonderfully nice root system. It will grow fast and bloom for you not later than one year after planting.

White Cloud 2½ to 3 ft., Each \$4.50, Three \$12.50, Doz. \$45.00

From thousands of seedlings of white Dogwoods, we selected several years ago an outstanding variation. This distinctive tree was replanted and grown by itself for further observation until we were satisfied we had something extra fine in white Dogwoods. It is outstanding in particular, for the immense amount of flowers it produces as well as the rapidity with which it starts flowering so freely. At opening the flowers give a creamy yellow effect which, after a few days, changes over to white. When in bloom the tree is literally a white cloud; the foliage is almost not to be seen. Instead of just planting ordinary seedling trees, particularly when space is limited, try this new variety. It will reward you with greater masses of blooms for all your life.

Florida rubra (Pink Dogwood)

2½ to 3 ft., Each \$6.00, Three \$16.00, Doz. \$60.00

There are no trees or shrubs which possess a larger measure of attractiveness throughout the whole year. The rare pink Dogwood is similar in all respects to the common variety except that the flowers are a beautiful shade of pink. A good specimen in full bloom is a magnificent sight in spring. Does well in shade. We offer plants about 3 feet tall, which is best size for transplanting.

ENGLISH HAWTHORNS (Crataegus Oxyacantha)

State regulations forbid the sending of Crataegus, Cydonia and Malus into Colorado and Utah.

The English Haw or Hawthorn is a lovely flowering shrub or small tree about 15 feet high, with spreading branches and stout spines. The leaves are broad, the 3 to 5 lobes much toothed. Its flowers are in large clusters and are produced in immense quantities. The fruits are scarlet. They are especially well suited for the small garden or as specimens on the lawn where a Maple would be too big and create too much shade.

Paul's Scarlet English Hawthorn

Each \$5.00, Three \$14.00, Doz. \$50.00

This is a brilliant rosy red, double-flowered variety. One of the choicest ornamental trees in existence. Foolproof and hardy; sure blooming. It is a joy to see it each spring.

Crataegus, Autumn Glory

Each \$5.50, Three \$15.00

This magnificent hybrid Thorn grows into a medium sized tree about 15 to 18 feet high. Makes a shapely head and has deep green foliage. In spring it is very attractive with its many big clusters of white blooms. But in early autumn it really is a sight to behold when the immense clusters of giant berries turn a brilliant red. In our opinion it is even more spectacular than the well known and popular Mountain Ash. The fruit remains on the tree well into winter. A rare, beautiful and unusual small tree you will enjoy in your garden for many, many years.

Daphne

Daphnes are lovely, fragrant plants and the two varieties offered give bloom from very early spring to May and, occasionally, through the summer. Both are of delicious fragrance and dainty, compelling beauty. They are hardy with little protection except in the coldest sections of the country.

Culture: They prefer a sunny position in well drained, sandy soil. In order to keep the evergreen foliage perfect, protect it with a little straw during the coldest part of the winter. The plants will withstand temperatures as low as 10 below zero. Water sparingly in summer. Daphnes will not grow well in cold, poorly drained soil.

*Cneorum (Garland Flower)

These shrubs are of spreading habit and do not grow over 8 to 12 inches high; producing delicately perfumed, rose-pink blossoms. The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

Each Three Doz.

Heavily budded plants, 7-9 in. spread ... \$1.75 \$4.75 \$17.50
Heavily budded plants, 9-12 in. spread .. 2.00 5.75 20.00
Heavily budded plants, 12-15 in. spread .. 2.50 7.00 25.00

Hardy Daphne "Somerset"

(Plant Patent No. 315)

This deliciously fragrant and **easy to grow** Hybrid Daphne originated in England a few years ago. It has received the highest honors from the Royal Horticultural Society of Great Britain. When first shown in London, England, it was one of the highlights of the show. It has been on test at Wayside Gardens for many years, and has successfully wintered without protection all kinds of weather that occurred during those several years.

During May and early June the plants are covered with delightfully scented blush-pink, star-shaped flowers in clusters 6 to 8 inches long. The fragrance is not unlike that of Daphne Cneorum or Viburnum Carlesii. It grows and flowers exceptionally well in light shade.

The foliage is rich dark green, giving the plants the appearance of Boxwood. It remains green in northern Ohio until the beginning of March when the new leaves push the old ones off the branches. In those sections of the country where temperatures are moderate, Daphne Somerset is evergreen.

Left unclipped it grows about 5 feet high and 4 feet wide.

It is a lovely low shrub in front of the shrub border and blends happily with hardy plants in the flower border as well as with other evergreens.

Visitors to our nursery, professional as well as amateur, all have admired it. Mr. F. F. Rockwell, garden expert and writer of many horticultural books and articles, remarked when he saw it in bloom this spring: "Here is one of those rare things that happens once every 25 years or so." It is a choice plant with a great future.

FLOWERING PLANTS FROM POTS

Daphne Somerset grows best and fastest when it is transplanted while not too big. We, therefore, offer nice young plants from pots which will bloom the first year. They average about 12 to 18 inches tall, and in one year will grow to almost twice the size.

Each \$2.50, Three \$7.00, Doz. \$25.00

Althea, Woodbridge

Euonymus (Evergreen Bittersweet)

The Most Versatile, Hardy, Easily Grown Evergreen Vine and Shrub
The Plant of 1000 Uses

Radicans vegetus

(Evergreen Bittersweet.) A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequalled. Beautiful on big old trees or shady places.

Each Three Doz.

12 to 15 in., well-branched plants	\$2.25	\$6.25	\$22.50
15 to 18 in., well-branched plants	2.75	7.75	27.50
18 to 24 in., heavy plants	3.50	9.75	35.00

*Kewensis

Each 80c, Three \$2.00, Doz. \$5.75, 100 \$30.00

(Miniature Evergreen Bittersweet.) A variety with very small, dark green foliage. Everyone who has seen this appreciates its value as a rock plant. It grows close to the ground, and is a most valuable plant for a shady place in the garden where a delicate evergreen is needed. Fine ground cover under small trees.

EUONYMUS

Alatus compactus (Dwarf Flame)

Each \$2.50, Three \$7.00, Doz. \$25.00

In the Arnold Arboretum in Boston this shrub causes much comment each autumn for its unbelievable brilliance of foliage. Its compact growth, easy culture, and slow growth make it one of the outstanding shrubs for hedges as well as individual specimens in the garden. Its ultimate height is six feet. Be sure to plant one or more of them in your garden for a brilliant autumn foliage display. Does well in shade.

Monstrosus

Each \$4.00, Three \$11.00, Doz. \$40.00

A rare new shrub particularly interesting during the winter. Its bark is corky and spreads out in big flat wings of most interesting character. The common Euonymus alatus does this also but not in the same degree as this new variety Monstrosus. Grows beautifully in shade or full sun; in autumn its foliage becomes a brilliant, glowing, fiery mass. Ultimate height about 5 feet. Grows anywhere and is hardy anywhere.

Patens

Each Three Doz. 100

Bushy plants 15 to 18 inches	\$1.75	\$4.75	\$17.50	\$120.00
Bushy plants 18 to 24 inches	2.50	7.00	25.00	190.00

This is one of the finest and easiest grown evergreen shrubs. Compact and shapely, and ultimately about six feet tall. Its foliage is rich green, somewhat like that of Euonymus vegetus and remains on the plant practically throughout the entire winter and is quickly replaced by shiny new foliage in spring. It is a plant par excellence for growing in shady places, under tall trees or in sunless corners. It makes a fine hedge and can be pruned any way to suit. Blends beautifully with evergreens, grows equally well on acid or alkaline soils and is iron-clad hardy. In autumn numerous orange berries add to its charm. Transplants easily either in fall or spring. Does excellently in shade.

CORYLUS

Maxima atropurpurea (Purple-Leaved Filbert)

Each \$2.00, Three \$5.75, Doz. \$20.00

For a rich display of bronze foliage there is not much better than the Purple Leaved Filbert. It is a much branched shrub covered from top to bottom with fine, bronze leaves which make a pleasant break in the monotony of the green leaves in the shrubbery border. The richest and deepest colors are obtained when it is grown in full sun. It grows well in shade but it then loses part of its coloring. Maximum height about 10 feet. Can be kept any height up to 5 feet with pruning. Hardy anywhere! A fine plant for the lawn as a single specimen. Superb foliage for cutting and use with flowers.

DEUTZIA

All Deutzias are showy flowering shrubs of **very** bushy habit. They have many stems rising directly from the root, arching upward and outward, thickly covered with foliage which almost completely disappears in May under a superabundance of panicles of small, frilled, bell-like flowers. They are hardy throughout most of the country.

Gracilis

Each \$1.50, Three \$4.00, Doz. \$15.00

Seldom more than 2 or 3 feet high. This is one of the prettiest and most graceful of all the Deutzias. The plant makes a fountain-like bush attractive at all times of the year. In May it is covered with an astonishing profusion of delicate snowy white flowers. It does well in light shade and is well adapted for low edging to walks or paths, excellent in clumps in the foreground in the border.

HYDRANGEA

Domotoi (Hardy Semi-Double Hydrangea)

Each \$2.00, Three \$5.75, Doz. \$20.00

This beautiful hardy variety produces large, globe-shaped clusters 12 to 15 inches in diameter, composed of immense semi-double flowers. Very frequently the main stem produces 3 or 4 additional smaller bloom clusters below the main flower head, creating a veritable bouquet. The flower heads are well above the foliage and last 8 to 10 weeks or more. The color is pure pink on alkaline soil but will change to a magnificent light blue if the plant is grown in acid soil. It grows into a stout plant two to three feet in diameter and about the same in height, has healthy decorative foliage throughout the season, and last but not least it is one of the hardiest of the Hydrangeas.

KOLKWITZIA - Beauty Bush

Amabilis

A handsome flowering shrub which came from China. While upright in growth its branches at the ends are arching, almost pendulous, so that they cover the ground about them and never look "leggy" and bare. It is perfectly hardy anywhere, has excellent foliage and in June is a fountain of bell-shaped, light pink flowers not unlike the Weigela. Grows anywhere and does exceedingly well in dry, sandy, poor soil. Kolkwitzias do not bloom the first year or two after planting. Ultimate height about 7 to 8 feet.

Ilex Convexa. The finest of small leaved Evergreens.
Priceless in a foundation planting.

ILEX - Holly

Convexa (Crenata bullata)

10-12 in., bushy plants, in Cloverset Pots.

Each \$1.50, Three \$4.00, Doz. \$15.00, 100 \$100.00

12-15 in., tall bushy plants, in Cloverset Pots.

Each \$2.00, Three \$5.75, Doz. \$20.00, 100 \$150.00

This is one of the choicest of evergreens and was introduced into this country in 1919 by E. H. (Chinese) Wilson. It has taken many years of effort to produce this little beauty in quantities, but now it's here for you to enjoy. It is very bushy, has shiny dark green, Boxwood-like foliage somewhat convex and it grows about 4 feet high and 3 feet across. The glossy leaves are so profuse that twigs are invisible. Left to itself it grows "informally formal" and blends beautifully with other evergreens. As a small "accent" plant it is faultless. For small hedges it is a jewel, particularly in cold climates where Boxwood is impossible. Space plants 18 inches apart. An absolute "must" for every garden. Does well in light shade or full sun and is equally happy on an alkaline or acid soil, and last but not least, it is hardy.

ILEX CONVEXA

See page 106.

Small Hedging Size

It is a very fortunate fact that it is possible to transplant the smaller sizes of *Ilex convexa* without a ball of earth, and obtain complete success, providing the transplanting is done before the end of May. A reasonable amount of watering shortly after planting is advisable although *Ilex convexa* does not do well in overly wet soil. It prefers good drainage and full sun. Its popularity is spreading and it is being used in increasing numbers. We can well understand this because we do not know of many other plants as handsome as this. Please turn to page 106 where you will see an illustration of *Ilex convexa* in color. We have grown a number of this type of plant for hedging purposes, and they will average from about 8 to 12 inches or better in height. Nice tall well grown plants, but are not quite as bushy as those grown in pots. Space them 12 to 15 inches apart and before many summers go by, you will have a lovely medium size evergreen hedge you'll enjoy always.

Ilex Convexa hedging size, bare root, nice well grown plants.
Three \$3.00, Doz. \$11.00, 25 \$20.00, 100 \$75.00

Glabra

Each \$4.00, Three \$11.00, Doz. \$40.00

The Inkberry is a loose, spreading shrub, 4 to 5 feet high at maturity, with shining dark green leaves and a profusion of glittering black berries through the winter. It is an excellent plant for hedges in shady situations. It may also be effectively used as individual plants mixed with evergreens or in front of the shrubbery border.

Serrata (Sieboldi)

Each \$2.00, Three \$5.75, Doz. \$20.00

This is the deciduous Holly. It is slow growing and ultimately reaches a height of about 10 feet. In winter, after the leaves have been shed, it is one of the most showy shrubs because of the persistent brilliant red berries which hang on practically all winter. They make a cheerful showing outside against the snow and are charming for cutting and winter decorations.

New Forsythias

Lynwood Gold

This splendid new Forsythia originated in Ireland and we predict it will replace, before many years, all other varieties of deep yellow color. It is one of several fine new shrubs we have obtained in Europe for introduction in this country. The branches are erect and literally smothered under golden yellow flowers from top to bottom. Not only are the flowers produced in the most profuse manner but the individual blooms are better and fuller in form as well as of greater substance, apparently never minding bad weather. For a magnificent show of golden yellow, there is nothing better. It is superb for cutting and flowering in the house during the winter months. It has been carefully tested for several years in Mentor and we recommend it without hesitation. Ultimate height 5 to 7 feet depending on conditions. Lynwood Gold Forsythia is a worth-while companion to the fine new and popular pale yellow variety, Spring Glory, we have been introducing during the past few years.

We offer nice 3- to 4-ft. plants at:

Each \$3.00, Three \$8.50, Doz. \$32.00

Bushy 2- to 3-ft. plants at: Each \$2.50, Three \$7.00, Doz. \$25.00

Spring Glory

Forsythia Spring Glory is without question the loveliest of all the Golden Bells. When seen in bloom, it is a sight not easily forgotten, its large pale yellow flowers completely cover the branches in such masses that they literally bend with their weight. It would not be far amiss to say that it produces twice the number of blossoms of the common Forsythia. Further, the pale yellow color is very pleasing and brilliant, infinitely more attractive and cheerful than that of the varieties now in general use. If you desire a sparkling and cheerful display in your garden in early spring, plant a few Forsythia Spring Glory. There is nothing which will make you forget winter as quickly nor announce spring as flamboyantly. Spring Glory is "the variety" to grow for flowering indoors. Branches cut during January and February burst into bloom without any trouble in a few days and make a gorgeous show in the house during the winter months at practically no cost to you.

3 to 4 ft., Each \$1.75, Three \$4.75, Doz. \$17.50

4 to 5 ft., Each \$2.25, Three \$6.25, Doz. \$22.50

LABURNUM - Golden Chain

Vossi

Each \$5.00, Three \$14.00, Doz. \$50.00

Long-clustered Golden Chain. Small tree-like shrub with green bark and foliage like exaggerated Clover leaves. Flowers are pure golden yellow and formed exactly like those of Wisteria. The hanging clusters are 18 to 20 inches long and are borne very profusely in late spring. Very beautiful. Usually bloom the first year after planting.

MAHONIA

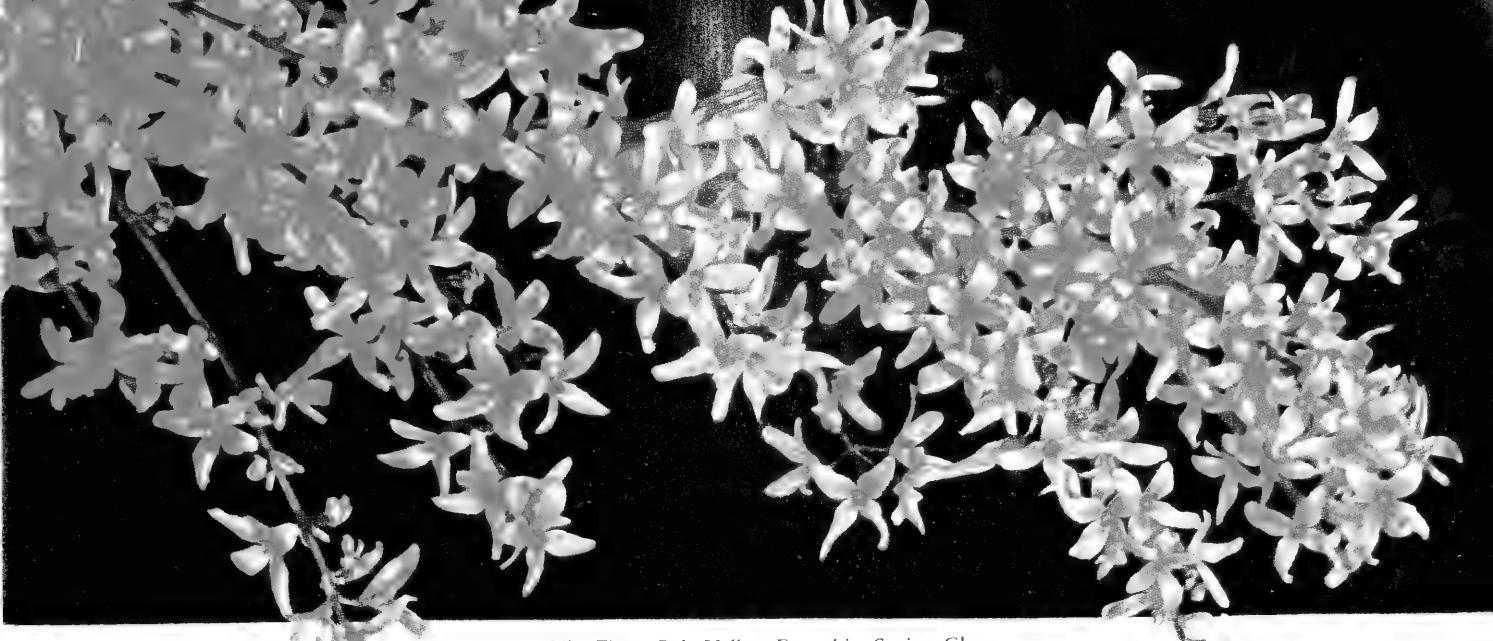

Aquifolium

Each \$2.25, Three \$6.25, Doz. \$22.50

This is more popularly known as the Oregon Holly-Grape. It has shiny, large, spiny, metallic looking leaves which turn to a bronzy red in autumn. In spring the clusters of yellow flowers are very attractive. These flowers are followed by blue fruit in June and July. We consider it one of the most attractive evergreens of easy cultivation. Does perfectly in north exposure in plantings of evergreens. Ultimate height about 2 1/2 to 3 feet, depending on location where grown.

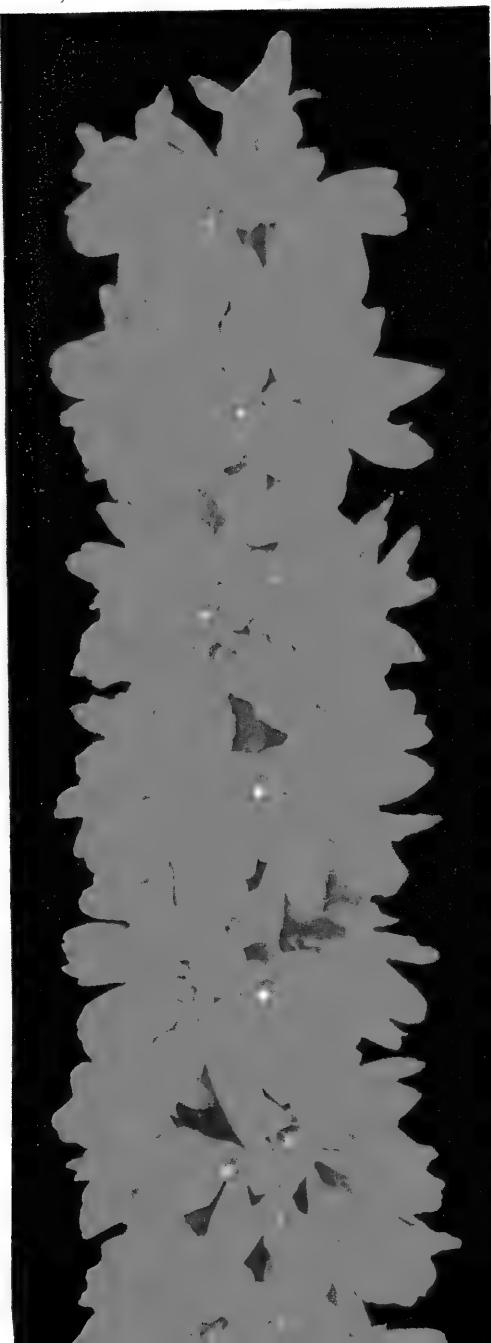

Mahonia Aquifolium

New Forsythia,
Lynwood Gold

The Finest Pale Yellow Forsythia, Spring Glory

Daphne, Somerset (See page 111)

(Plant Patent
No. 315)

Hypericum, Sungold (Plant Patent No. 568)

Hydrangea Petiolaris—Climbing Hydrangea

One of the choicest vines

Par excellence for growing on shady walls (See page 127)

Hypericums

Attractive and charming low growing, summer-flowering shrubs. Their brilliant flowers are beautifully formed and grow on slender branches from early summer until stopped by frost. Excellent subjects for the flower border or in the foreground of taller shrubs, as well as foreground covering.

Calycinum

Each \$1.25, Three \$3.50, Doz. \$12.00, 100 \$85.00
This is a most valuable variety because it can also be used as a ground cover for both sunny and semi-shady places. The underground runners are produced so freely as to completely cover the ground; at the top the golden yellow flowers shine like jewels. Its height is about 12 to 18 inches. We recommend this as one of the best and hardiest.

Hidcote

Each \$1.50, Three \$4.00, Doz. \$15.00
From the famous Hidcote estate in England we obtained this fine variety a few years ago. It grows into a twiggy shrub about 18 inches tall and about the same diameter. Throughout the summer it is covered with bright yellow cup-like flowers about 2 inches in diameter. In cold winters it freezes back to the ground but this does not matter because it springs up from the base producing each summer its masses of blooms. A fine shrub for the foreground in the border in cold climates. In the temperate parts of the country it will reach a height of about 3 to 4 ft. Flowers are fragrant and appear late June continuing until mid-October.

Hypericum, Sungold

(U. S. Plant Patent No. 568)

A hardy, shapely, dwarf shrub which grows into an almost completely oval shape of 2½ to 3 feet in diameter, and about 18 to 24 inches in height, densely covered with foliage that is handsome throughout the summer. It bears its cymes of golden flowers at the end of every shoot of the summer's new growth. It flowers more freely and much longer than any of the Hypericum Patulum now in general use. Its flowers are bigger and produced in immense quantities, transforming the lovely plant into a small mound of gold when in full bloom.

Of particular interest and value is its exceptional hardiness. In our nursery tests over five years it has proven its ability to withstand cold weather as well as outgrow and outbloom any Hypericum we have ever seen. The average size of bloom is from 2½ to 3 inches in diameter.

Each \$2.50, Three \$7.00, Doz. \$25.00

MAGNOLIA

Soulangeana

Nice bushy { 2-3 ft., Each \$4.50, Three \$12.50
Plants { 3-4 ft., Each \$6.00, Three \$16.00
4-5 ft., Each \$7.00, Three \$18.00

Soulange's Magnolia, sometimes called the Saucer Magnolia for no reason at all, is the rather rare Pink Magnolia of city gardens and parks. It makes a small tree with gorgeous shining foliage and in early spring produces its enormous, pinkish white flowers, more or less purplish outside and slightly fragrant. This Magnolia is the showiest of the family for planting in northern gardens, and when in bloom, even one plant will dominate the garden—yes, the neighborhood, if it is a sizeable specimen. A whole street in Rochester, lined with this variety is a mecca for all enthusiasts every spring.

[114]

Magnolia Soulangeana

Hopa Crab

Malus *Flowering Crabs*

(State regulations forbid the shipment of *Malus* and *Crataegus* into the states of Colorado and Utah.)

Two groups of flowering trees, the Cherries and the Crabs, stand far above all others in daintiness and grace. The Japanese Cherries are well advertised by the spectacular planting in Washington, D. C., but the even lovelier Crab Apples have never received justice at the hands of American planters. Crabs are extremely hardy and will thrive in positions and exposures which would be fatal to the more delicately constituted Cherries. They also exhibit a greater variety in character of tree, a wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet and crimson. No other flowering trees equal the flowering Crabs in profusion of bloom, and amongst other good qualities varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

Crimson Brilliant Crab

An Unusually Fine Pink FLOWERING CRAB

Hopa Each \$4.00, Three \$11.00, Doz. \$40.00
Beautiful in bloom, beautiful in foliage, beautiful in fruit. In the spring it is completely covered with fragrant, bright pink flowers. From midsummer till severe freezing, the clusters of small, red Crab Apples gleam brightly along the branches. This fruit makes very fine jelly. In the spring the foliage is a rich maroon. Perfectly hardy, easy to grow, thriving in any soil.

Malus Crimson Brilliant

The Most Brilliant Red Flowering Crab to Date!

(Plant Pat. No. 939)

This new brilliant red, semi-double Flowering Crab comes to us from Des Moines, Iowa. We are indebted for this beautiful tree to Mr. A. F. den Boer, who is recognized as America's leading expert on Flowering Crabs. More than 27 years of breeding and selecting have gone into the creation of this, his choicest specimen. First of all, it is very hardy and can be grown anywhere. It is of medium size; when mature it is about 15 feet tall so it can be grown in small gardens without crowding out other things. It grows quickly and will flower a year after planting, but as the tree grows older it increases in floriferousness. The fruit is purple-red in color and about the size of a Cherry and the flesh is also red. The six-year-old specimen illustrated was completely covered with crimson flowers of a shade not unlike that of the well known Darwin Tulip City of Haarlem. Crimson Brilliant Crab is without any question the finest of the red Crabs. There is nothing that can compare with it and it is our choicest introduction of new Crabs.

Each \$7.00

Malus Floribunda Atropurpurea

Malus Hillieri

Pink Weeper Crab

Baccata Mandschurica *Each \$4.00, Three \$11.00*
The first of the Crab Apples to bloom, leading all species by a week or more. Buds are deep pink which open into large, fragrant white blossoms. The flowers are so profuse the tree is transformed into a veritable snowball. Ultimate height 25 ft.

Charlotte *Each \$4.00, Three \$11.00, Doz. \$40.00*
This charming variety originated in the vicinity of Waukegan. It is not unlike the well known Bechtel's Crab but those who have seen it prefer it to the latter. The flowers are 2 to 2½ inches in diameter, semi-double and a lovely shade of soft pink with prominent brown anthers. It is deliciously fragrant and has glossy green foliage.

Dorothea *Each \$4.00, Three \$11.00, Doz. \$49.00*
From the Arnold Arboretum in Boston we received our start of this lovely fragrant Crab. 2-inch double pink flowers in immense quantities transform this tree into a lovely bouquet. Many people claim that the Dorothea Crab will ultimately replace the Bechtel's variety. Be that as it may, Dorothea is one of the great shows when flowering Crabs are in bloom.

Floribunda atropurpurea *Each \$2.75, Three \$7.75, Doz. \$27.50*
The flowers are red and when this tree is in bloom it will stop every passer-by. The bronzy red foliage also contributes mightily to its showiness and beauty. In the autumn when the thousands of small Apples turn red you again behold a lovely sight. It is a strong grower and will bloom profusely on small plants.

Floribunda Hillieri *Each \$5.00, Three \$14.00, Doz. \$50.00*
This handsome new English Crab will soon replace the common Floribunda. The flowers are almost an inch in diameter and semi-double; crimson in bud, opening a beautiful shade of bright pink, wreathing the arching stems in clusters of from 5 to 8 flowers. It blooms late and prolongs the flowering season by several days. One of the best of the double Crabs. Ultimate height, about 10 to 12 feet.

Ioensis plena *Each \$3.00, Three \$8.50, Doz. \$32.00*
Bechtel's Crab is a double form of the Wild Crab Apple of the Mississippi Valley. The original plant was discovered near Staunton, Illinois, in 1850. It is a robust, round-headed tree with double, pale pink flowers about 2 inches across, exactly like little Roses. They have a delicate violet scent.

Kaido or Fragrant Crab *Each \$3.00, Three \$8.50*
This is an indispensable, noted for its deliciously fragrant, soft pink flowers. It blooms early and the exquisite coloring of its rose-pink buds and rich clear pink flowers makes it one of the finest small pink flowered trees. In growth it is decidedly upright, in fact, almost pyramidal and when fully grown will be about 8 to 10 feet in height, and not much more than 4 feet across. A rare tree which we are happy to be able to offer at last. We send 4-year-old trees, about 3 to 4 feet high.

Pink Weeping Crab *Each \$3.50, Three \$9.75, Doz. \$35.00*
This is an unusually handsome Weeping Flowering Crab. The main stem is upright. The branches are weeping and droop onto the ground. The effect is like a fountain and when in bloom in spring, a picture not easily forgotten. Makes a perfect small specimen tree for the lawn. The flowers are crimson-purple when open; the buds blood-red. A beautiful flowering, small weeping tree. Its attractiveness is prolonged by its fruits until late in the fall. Ultimate height 12 to 15 feet. We offer nicely shaped trees about 4 to 5 feet.

Scheideckeri *Each \$3.00, Three \$8.50, Doz. \$32.00*
The flowers of Scheidecker's Crab are double, bright pink, last a long time, and the fruit, which is produced in great profusion, is waxy yellow. The tree has a regular pyramidal habit, about 15 feet high. One of the earliest to bloom.

Malus Ioensis Plena—Bechtel's Crab

Malus Scheideckeri

Prunus

State quarantines prohibit the sending of certain fruits and their flowering horticultural forms such as:
 Flowering Almonds, Flowering Plums, and Purple-Leaf Plum,
 Into Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon,
 Utah and Washington

FLOWERING ALMOND

Glandulosa alba

Each \$2.50, Three \$7.00, Doz. \$25.00

The small, very double, white rosettes grow in great quantities along the stem in late April and early May. Lovely when in bloom. Ultimate height about 4 to 5 feet.

Glandulosa rosea

Each \$2.50, Three \$7.00, Doz. \$25.00

Produces very double, rose colored flowers in great profusion in spring. One of the most charming old-fashioned early flowering shrubs, and is still unsurpassed in beauty in its season. Our plants are grown on their own roots, thus insuring extra vigor and more lasting satisfaction as well as no "wild suckers."

FLOWERING PLUMS

Pissardi rosea (Purple-Leaved Plum "Special Selection")

Each \$3.50, Three \$9.75, Doz. \$35.00

The deep bronzy purple foliage of this small tree is its great attraction; however, the thousands of pink, single flowers in spring are not to be overlooked. Most "purple" leaved trees lose much of their color throughout the summer but this is not the case with this special selection of ours recently imported from England. Its foliage is of the deepest shade of purplish red imaginable, almost black. It makes a fine contrast plant and helps give variety and color in the garden, easily grown and ideal for the small yard or a special point of interest. Ultimate height about 10 feet. Occasional pruning will keep it in shape desired.

Triloba

Each \$2.25, Three \$6.25, Doz. \$22.50

The flowering Plum blooms early in May before the leaves come out. The delightful double, quilled, bright pink flowers stud every twig and branchlet so heavily no wood is visible. Very handsome and should not be left out of any garden. We offer plants growing on their own roots because they are so much more satisfactory. Ultimate height about 8 feet.

Veitch's Double Pink Flowering Plum

Each \$3.50, Three \$9.75, Doz. \$35.00

This small tree grows about 15 feet tall. In early spring it is covered with large clusters of double pink blossoms like those of the double flowering Cherry. In fact, it is often mistaken for a flowering Cherry. It is very hardy and should be used in place of flowering Peaches or Cherries in those localities where the latter are not hardy. In addition to the delightful display of double pink flowers you will enjoy the bronze-colored foliage as well as the delicious, small, sweet Plums which ripen in early autumn. Here is a small tree equally charming for the small garden or as a specimen on the large lawn. It is the first tree to bloom along with the Forsythia.

KERRIA

Japonica flore-pleno

Each \$2.00, Three \$5.75, Doz. \$20.00

Double Kerria is sometimes called the Globe Flower because the choice double golden flowers have a ball-like shape not unlike the button Chrysanthemums. The plant grows vigorously and attains a maximum height of 4 to 5 feet. It is bushy in habit with many bright green stems, attractive all winter. Give it a sunny location in front of the border and its golden yellow blooms all summer will be a pleasure. The flowers last well in water and are excellent for cutting.

Kerria Japonica Flore-Pleno

[117]

Prunus Pissardi Rosea

Veitchi Early Flowering Double Pink Plum
 (Prunus Veitchi)

Vitex Macrophylla

Potentilla *Fruticosa*

Gold Drop

Each \$2.50, Three \$7.00, Doz. \$25.00

A charming small shrub of such compact growth as to resemble a small irregular shaped mound about 2 to 2½ feet high. It is closely and densely covered with small fernlike leaves and studded with intensely brilliant golden yellow, Buttercup-like flowers from early June until October. This delightful small shrub may be used in front of the shrub border or in the foreground of any perennial planting. It does best in full sun and is hardy in below zero temperatures. The original plant we selected from the common *Potentilla Fruticosa*. It is far superior both in flowering qualities, habit and general appearance. We know of no shrubs which flower so consistently and remain so cheerfully brilliant throughout the entire summer and fall. Spaced 12 inches apart in a single row, it will make one of the most charming low hedges that can be imagined.

Katherine Dykes

Each \$3.00, Three \$8.50, Doz. \$32.00

A graceful, small, 3-foot high shrub, upright in growth, yet compact. Foliage is dense and fernlike in effect. From early June until November, the plants are studded with light chrome-yellow, chalice-like blooms. A splendid, low-growing and graceful shrub for foreground planting. Fits in perfectly with perennial plants in the hardy border. Prefers a sunny location. Is hardy in below zero temperatures and is a perfect plant for the coldest sections of our country.

Potentilla, Katherine Dykes

Hybrid Rhododendron

VITEX Chaste Tree

Macrophylla Each \$2.00,
Three \$5.75, Doz. \$20.00

A graceful shrub with attractive spikes of lovely lavender-blue flowers. Blooms profusely from July until fall and grows more than ten feet high unless pruned back. It is a most desirable summer-flowering shrub of distinctive appearance. Fits in well in the border and is also suitable as a lawn plant. Its form, foliage and lilac flowers are very unusual.

Hybrid Rhododendrons

Hybrid Rhododendrons do not require shade, in fact they do just as well in full sun, with some shade needed in the south where sun is extremely hot. They are easy to grow but do require an acid soil, free from lime. The most effective plantings are those in masses combining all colors for contrast and interest. The gorgeous flowers of these beloved broad-leaved evergreens assume shades and tints to fit any color scheme and are suitable for large or small home plantings.

Rhododendron Hybrids are unquestionably among the most magnificent of flowering shrubs. Their fine, evergreen, leathery foliage has a majestic dignity, which proves most effective during the winter months.

We offer a fine lot of flowering plants in four sizes in various shades of Crimson and Red, Light and Deep Pink, Lavender and Lilac, Purple and Violet as well as White. They will be furnished with names attached to each plant.

12-15 inches tall, Each \$4.50

15-18 inches tall, Each \$5.50

18-24 inches tall, Each \$7.00

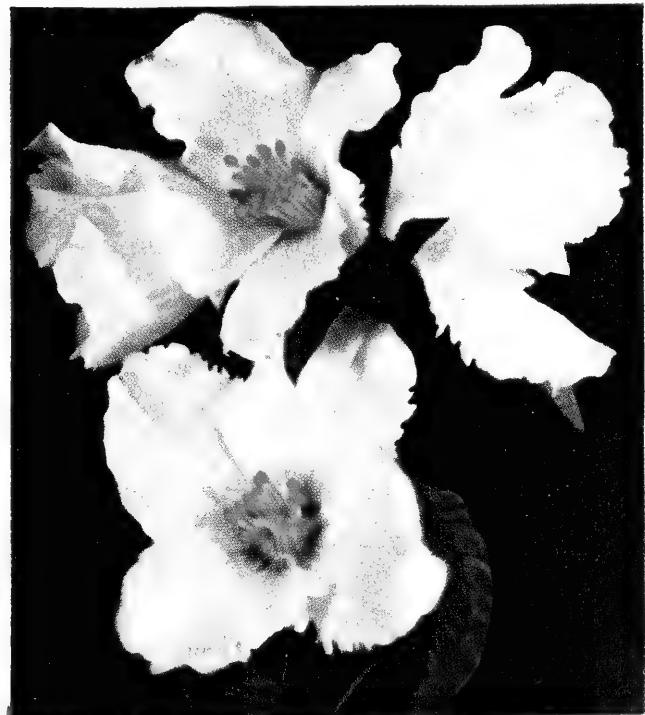

Potentilla, Gold Drop

Sorbus (Mountain Ash)

SORBUS - Mountain Ash Each \$5.00, Three \$14.00, Doz. \$50.00

This prolifically fruiting variety resembles the well known Mountain Ash very closely. It does not grow quite as tall, only 20 to 25 feet, but produces twice the amount of flowers and fruit. The branches literally bend under the brilliant loads of orange fruit. This small tree can be grown in every small garden without damaging nearby flowers. Transplants readily. We offer nice young trees about 6 feet tall.

Fragrant Star *Belle Etoile* (Beautiful Star)

BRISTOL RUBY

(Plant Patent No. 492)

Flowers in Spring and Fall
The flowers illustrated were cut from
a 3-year-old bush in late September.
(See page 126)

Three Outstanding New LILACS

Primrose

(Plant Patent No. 1108)

This is the famous Yellow Lilac which has recently been developed in Holland. It has made quite a name for itself in Europe during the past few years. Shown at the famous Chelsea Show in London in 1952, it created a mild sensation. Sample plants were sent to us as soon as stock was available. These were planted at Mentor. The results here have been more than gratifying. As the plants became better established and the flowering normal, the color showed up a lovely soft yellow, much deeper than our illustration shows. The plants are bushy and dense, producing an exceptional number of flowers. We are quite enthusiastic about it and recommend it as a fine rare plant that should be in every garden. There just isn't anything like it.

We expect to license other growers to grow and sell it but for the present, it is available only at Wayside. We have a nice lot of young flowering plants available for distribution now. Don't miss ordering this rare Lilac.

Each

12-18 in., bushy plants	\$5.00
18-24 in., bushy plants	6.00

(It requires two years for Lilacs to become well established and flower freely. They must be grown in full sun, like lime and heavy feeding which should be applied in winter.)

Esther Staley

The Best Pink Lilac to Date!

(Plant Pat. No. 768)

A magnificent new Lilac in a most desirable and unusual color. Pink Lilacs have been waited for and wanted for many years. There is nothing like it. Buds are red; flowers are single, moderately large and soft Paul-Neyron-rose, making a delightful contrast when the large clusters are partially expanded. During the several years it was being tested, cut flowers at Lilac shows always elicited great admiration and most favorable comment. Blooming time is midseason, shortly after the really early varieties. The plant is healthy and has remarkable vigor. (So far as we know, and our large collection gives ample opportunity to judge, this is the only pink Lilac introduced to date.)

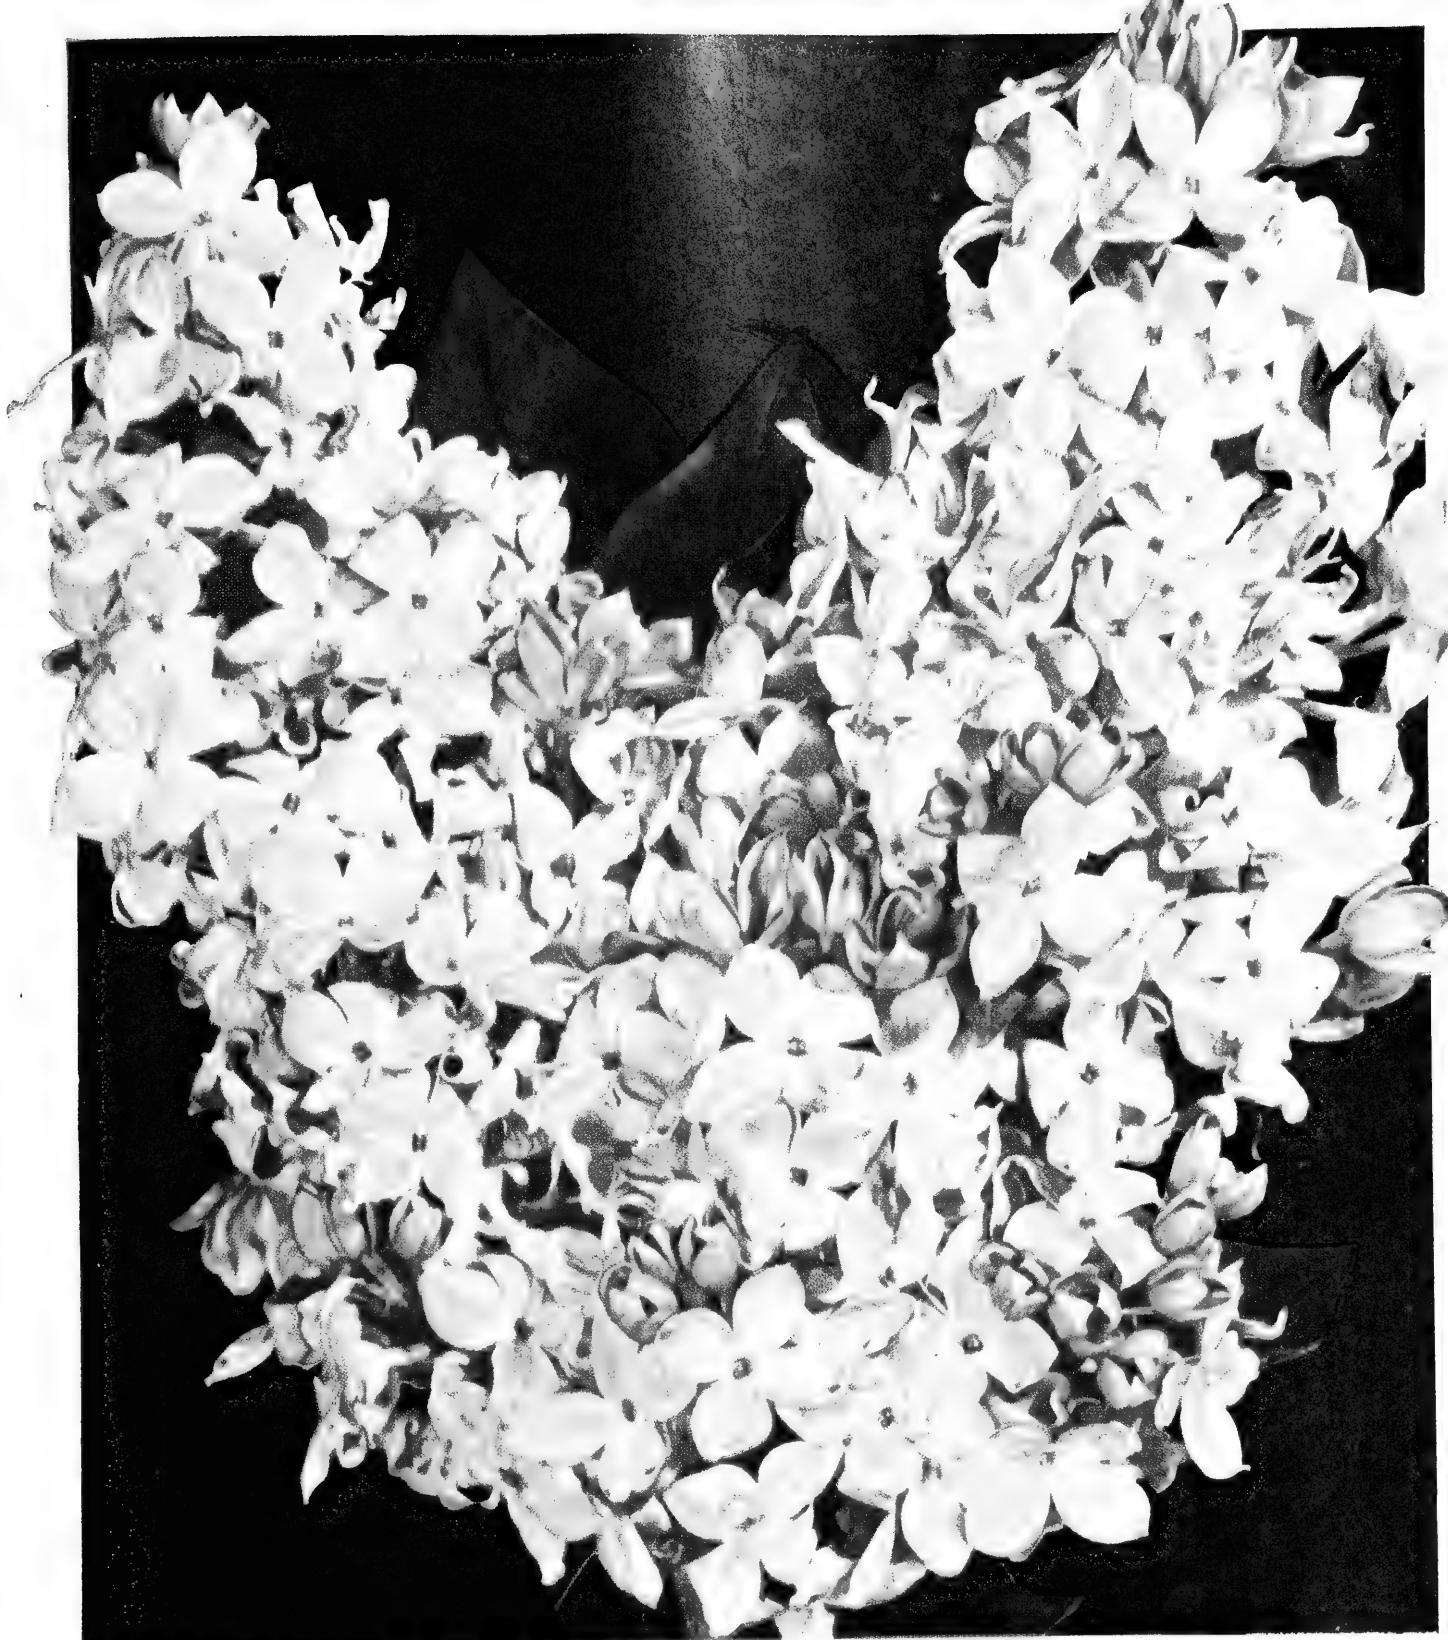

Each

18-24 in., bushy plants	\$4.00
2-3 ft., bushy plants	5.00
3-4 ft., bushy plants	6.00

COLLECTION OF NEW LILACS

We will send you nice bushy plants measuring about 18 to 24 inches tall which will flower second year after planting.

1 Each of Primrose, Esther Staley and Clarke's Giant for \$12.00.
3 Each for \$30.00.

The Magnificent New Lilac, Clarke's Giant

(Plant Patent
No. 7541)

When we say the "biggest and best" Lilac in existence, we mean just that! It is immense in every respect. Its leaves are bigger, it grows better, its flower trusses are larger, individual flowers are of greater size than in any other variety we know about. Last but not least, as a cut flower it is longer lasting than any other kind we have ever tried.

In our opinion the most outstanding features of Clarke's Giant Lilac are the great size of the individual flowers, $1\frac{1}{4}$ to $1\frac{1}{2}$ inches across, the truly huge size of the flower clusters together with their unusual four sided pyramidal form. It is safe to say they attain a length of 12 inches or better and are about 7 to 8 inches wide at the base of the cluster.

18-24 inch plants, Each \$4.00; 2-3 foot plants, Each \$6.00

The remarkable vigor and growth accompanied by about the largest leaves we have ever seen on Lilacs, as well as the abundance with which the flowers are produced, makes it the finest and surpasses by far any other Lilac introduced to date. It may sound like a big statement but we here feel that it would be difficult to praise this magnificent novelty too highly.

The color is soft gentian-blue when fully open. The flower clusters are carried well above the foliage. The fragrance leaves nothing to be desired.

It will be very difficult to improve Clarke's Giant. At the moment there is nothing anywhere near like it. It is one of the finest spring flowering shrubs of the country.

FRENCH LILACS

The finest and highest rated varieties.

The following are the "cream" of the cream of Lilacs. They stand out above other varieties because of their enormous trusses and exquisite colors, as well as their fragrance. No more need be said than "these are the best to date." Although our collection of French Lilacs comprises only a limited number of varieties, the purpose of this list is to bring to your attention the very newest and most interesting developments at the earliest possible date.

The plants offered are healthy and vigorous, about 2 to 3 feet tall, depending on the habits of the variety, and will flower promptly and profusely as soon as they have become well established.

Paul
Thirion

[122]

Alice
Eastwood

Ami
Schott

Alice Eastwood (New)

Each \$4.00, Three \$11.00, Doz. \$40.00
The buds are claret-purple, when open are handsome double Cyclamen-purple. Clusters are beautifully formed and slender, almost "spike like" and are particularly handsome when used as cut flowers. A unique and extra fine variety.

Ami Schott

Each \$3.50, Three \$9.75, Doz. \$35.00
Magnificent double deep cobalt-blue flowers with paler reverse. The panicles are dense and broad. This is a superb novelty.

Captaine Perrault

Each \$4.00, Three \$11.00, Doz. \$40.00
Immense spikes of large, full, double flowers of a superb rosy mauve, buds of the same color. A magnificent late flowering variety.

Paul Thirion

Each \$3.00, Three \$8.00, Doz. \$30.00
This is a middle season bloomer. Though the trusses are very small they bloom very heavily. The buds are a rich dark color that open to a bright crimson.

Firmament (New)

Each \$4.00, Three \$11.00, Doz. \$40.00
Immense panicles of large form flowers of a beautiful shade of sky-blue, truly a gem among blue varieties. We consider this Lemoine's best single light blue to date. It is exceptionally fine in every way.

General Sheridan

Each \$3.00, Three \$8.00, Doz. \$30.00
This is an exceptional double white Lilac with extremely large trusses composed of many small florets. Its blooming period tends to be later than most of the other French Lilacs which makes it an ideal variety for combined plantings.

Henri Martin

Each \$4.00, Three \$11.00, Doz. \$40.00
One of the top ranking Lilacs, a Lemoine introduction in 1912. We consider it excellent and so do the experts. Massive clusters of double pinkish lilac blooms which stand well above the foliage. Makes a beautiful show in spring.

Marechal Lannes

Each \$4.00, Three \$11.00, Doz. \$40.00
This variety is a good grower and free bloomer. Its massive clusters of double flowers are a lovely shade of bluish violet while the buds are brilliant carmine-rose. The contrast is spectacularly beautiful. Introduced by Lemoine in 1910; it is still a top rank variety.

Marechal Foch

Each \$3.50, Three \$9.75, Doz. \$35.00
A sensational new Lilac. The expert horticulturist, Felix Crousse, pronounced this to be the handsomest of all single Lilacs. The high panicles, carried by long, straight stems, are truly immense and very light. The individual flowers, fully one inch in diameter, perfectly shaped, are of a bright carmine-rose with a pink eye when opening, contrasting with the mauve of the older flowers and the deep carmine of the buds.

Mrs. Edward Harding

Each \$4.00, Three \$11.00, Doz. \$40.00
This variety was awarded in 1921 the special prize founded by Mrs. Edward Harding for the best double red Lilac. Large panicles of large, full flowers of the brightest carmine. The best in this color.

Miss W. E. Marshall

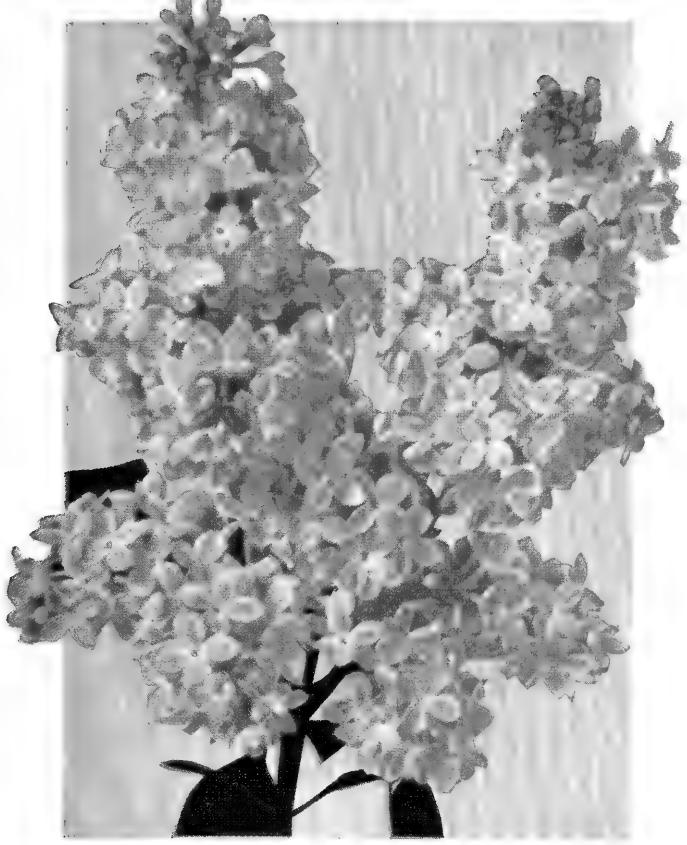

Each \$3.50, Three \$9.75, Doz. \$35.00
Introduced by Havemeyer in 1924 and has been a favorite ever since. It is considered one of the finest single, dark purple Lilacs. Fine clusters of flowers which are borne well above the foliage.

Vestale

Each \$3.50, Three \$9.75, Doz. \$35.00
Immense trusses in great abundance of purest white. Single.

Miss Ellen Willmott

Each \$4.00, Three \$11.00, Doz. \$40.00
Extremely floriferous, immense double flowers of purest alabaster-white. Large branched panicle, round flowers.

Marechal Foch

Two Rare and Very Fine Hybrid Species Lilacs

THE DAPHNE LILAC

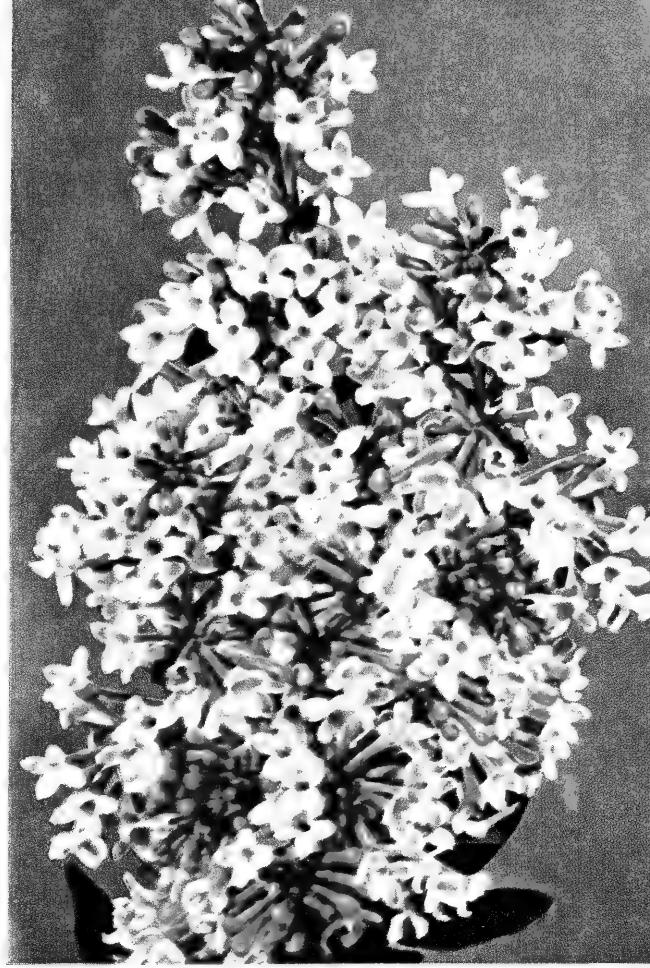

Microphylla Superba Each \$3.00, Three \$8.50, Doz. \$32.00

A remarkably lovely shrub, deliciously fragrant, introduced from China. Graceful, slender stems; pinkish red buds opening to lilac-pink panicles of small individual florets. The flowers produce a two-tone effect that is very pleasing and novel. The main truss is on top of each stem and smaller trusses are set down the branches, so that the entire plant forms one large bouquet. The foliage is very decorative, about one inch long and three-fourths inch wide. Blooms again in the fall. Of neat habit, seldom growing over 5 feet tall.

THE PINK PEARL LILAC

Sweginflexa Each \$3.50, Three \$9.75, Doz. \$35.00

A handsome Hybrid Species of neat clean growth, makes a fine looking shrub about 6 to 7 feet tall when fully grown. At the end of May when the French Hybrid Lilacs have finished blooming, Sweginflexa produces a profusion of long, graceful flower panicles of perfect form. The flowers are long tubed, reflexing at the tip, delightfully fragrant and a soft coral-pink or empire-rose. The pearly effect of its color is responsible for the common name, "Pink Pearl Lilac." Blooming after other Lilacs have finished, this is a lovely and valuable plant which helps to continue the procession of bloom in the garden. Hardy anywhere, an unusual plant. We send plants about 2 feet tall which will bloom first year after planting.

Syringa Microphylla Superba

Syringa Sweginflexa

Viburnum Carlcephalum

(Plant Patent No. 776)

The New Fragrant Snowball

THE FINEST FRAGRANT SHRUB IN A DECADE

This is the famous and splendid Hybrid from V. Carlesii and V. macrocephalum, which originated in England just before the war. The originator turned this wonderful shrub over to Wayside Gardens for introduction this country.

It is absolutely hardy and has gone through several winters here in Mentor with temperatures as much as ten degrees below zero. It is of inching habit and quick growth, growing about six to seven feet high and be pruned to any size or shape desired. Does equally well in acid or alkaline soils which are alkaline.

It is a most profusely flowering shrub with large cymose clusters of blossoms which may be as much as six inches across, rarely ever smaller than four inches, either flattened or globular, mostly the latter. The flowers are exceedingly fragrant, rivaling its seed parent.

It is a deciduous shrub and carries a wealth of foliage. The leaves are practically identical with those of Carlesii but in the autumn are brilliantly colored.

This Hybrid was shown at the Royal Horticultural Show in London before the war where it received the highest awards and praise. It has taken quite some time to test it here in Mentor and we claim without reservation that it is one of the finest spring-flowering shrubs we have ever seen.

We can supply three sizes:

	Each	Three	Doz.
15 to 18 in.	\$5.00	\$14.00	\$50.00
18 to 24 in.	6.00	16.00	60.00
24 to 36 in.	7.50	20.00	75.00

Viburnum-Snowball

Beware, never use any spray containing sulphur on or near any Viburnums. Sulphur will produce black spots on the leaves and may defoliate the plants altogether.

Burkwoodi

Bushy plants, 3-4 ft. Each \$6.00, Three \$16.00, Doz. \$60.00
Bare root, 2-3 ft. Each \$5.00, Three \$14.00, Doz. \$50.00

A most amenable new shrub thriving in sunless places and smoky towns. Waxy bluish-white and delicately perfumed, the flowers of this new Viburnum are produced in early spring when the leaves are unfolding. They form round, domed clusters, and the Gardenia-like fragrance is so sweet as to pervade a large area. The plant grows about 6 feet high and 4 to 5 feet in diameter. It likes a well drained location with plenty of moisture.

Carlesii

Each \$5.00, Three \$14.00, Doz. \$50.00
For many years this has been one of the most popular of early spring flowering shrubs; flowering when the Tulips are in bloom it spreads its fragrance throughout the garden. Just when the leaves are unfolding its globe-shaped flowers are at their best, waxy white and deliciously fragrant. It is hardy and easy to grow. We send nice flowering plants about 2 to 3 feet high.

Dilatatum Xanthocarpum (Golden-Fruited Cranberry Bush)

Each \$2.50, Three \$7.00, Doz. \$25.00

This makes a handsome bush 5 to 7 feet high. It is particularly attractive from July to December after when its beautiful blossoms are replaced by immense clusters of 1½-inch golden yellow fruits. The clusters of berries are many and heavy, and create a beautiful show against the rich green foliage. The plants we ship are about 4 feet tall.

Mariesii

Each \$3.00, Three \$8.50, Doz. \$32.00

This variety is an improved form of *Tomentosum*. The plants do not grow quite as tall nor quite as fast (about 6 to 7 ft. when mature) but it blooms more profusely and while still young. When in flower this shrub is handsomer than the *White Dogwood*. If you have some tanky overgrown shrubs in your garden, replace them with *V. Mariesii* and we assure you that you will treasure this as one of the finest plants you possess. There is nothing finer! Beautiful flowers and foliage, brilliant red fruit, easy culture, hardy and free from bugs. We send plants about 3 ft. tall which already have flowered in the nursery.

Opulus Nanum (The Hedge Viburnum)

Each \$1.10, Three \$3.00, Doz. \$10.00, 100 \$70.00

A dwarf, stubby plant never over two feet high, particularly well adapted for edgings and hedges in wet or heavy clay ground where it is difficult for other plants to thrive. Does well in light shade. It is extremely hardy. Can be clipped or left natural as desired, in either case it grows into a fine compact and low hedge which requires no care.

Tomentosum

Each \$2.50, Three \$7.00, Doz. \$25.00

If all the other Viburnums were thrown into the discard, this one would justify the family. It is a superb flowering shrub and the spectacle of a good *Tomentosum* in bloom is a sight not ever to be forgotten. In early June the horizontal branches become perfect mosaics of wheel-like clusters ringed with dazzling white flowers with spidery sunburst centers, resembling a fall of snow. Ultimate height 8 feet.

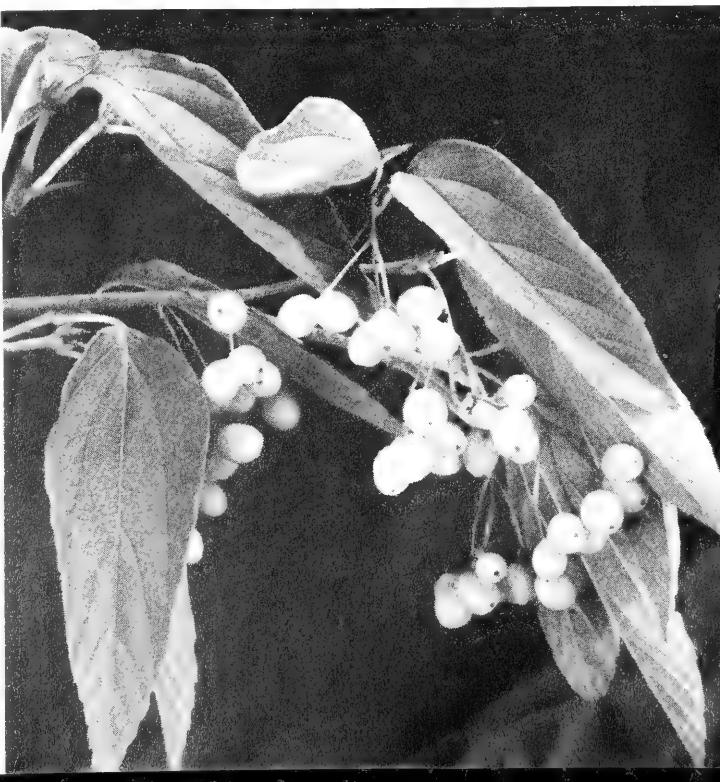

Viburnum Mariesii

Setigerum (Theifernum)

Each \$2.50, Three \$7.00, Doz. \$25.00

In the autumn and late summer this shrub is literally covered with clusters of brilliant red berries and is one of the outstanding show pieces in the garden at that time. We know of no other shrub that is so showy and so easily grown. White flowers in early summer and clean, deep green, large leaves. This Viburnum belongs in the list of elites. Its average height when fully grown is about 10 feet. A rare plant yet little known but one of the finest tall shrubs in cultivation.

Fruit of Viburnum Setigerum

Philadelphus - Mock Orange

FRENCH MOCKORANGE

Atlas (Giant Mockorange) *Each \$2.50, Three \$7.00, Doz. \$25.00*
 This giant-flowered Mockorange, with its pure white blooms as large as those of Dogwoods, will be sensational in your garden and we predict will replace many of the more common and indifferent shrubs. This magnificent hybrid came to us a few years ago from France. It has been carefully tested and not found wanting. Hardy, of easy culture, grows most anywhere, good upright habit, and covered with immense blooms which slightly lack being 3 inches in diameter that are magnificent for cutting. Decidedly a "must" for shrubby borders.

Belle Etoile (Fragrant Star Mockorange)

Each \$2.50, Three \$7.00, Doz. \$25.00

We, as well as others who have seen and smelled the charming flowers of this Mockorange, consider this one of the finest and choicest. It is an origination of that great Frenchman Lemoine. The star-like flowers open in Lily-like fashion, the centers showing a decided light purple flush. This extra touch of color, plus its intense and delightful fragrance which can be detected over the entire garden, sets this shrub aside as one in a class by itself. Its growth is orderly, nice and bushy, and grows about 5 feet tall and 4 feet in diameter. It is one of our last importations from France, and a few years ago received the Award of Merit from the Royal Horticultural Society of Great Britain. Dig up an old, unsightly bush and replace it with this beautiful Mockorange.

Enchantment (Tall-Growing Double Mockorange)

Each \$3.00, Three \$8.50, Doz. \$32.00

Has erect branches furnished with long thick panicles of double white flowers. The blossoms are set very closely, creating a most striking effect. Sweetly fragrant. Does quite well in light shade. Very hardy and easily grown. As its name implies, it will enchant you. Ultimate height about 6 feet. A handsome shrub.

Innocence (Alabaster-White Mockorange)

Each \$2.50, Three \$7.00, Doz. \$25.00

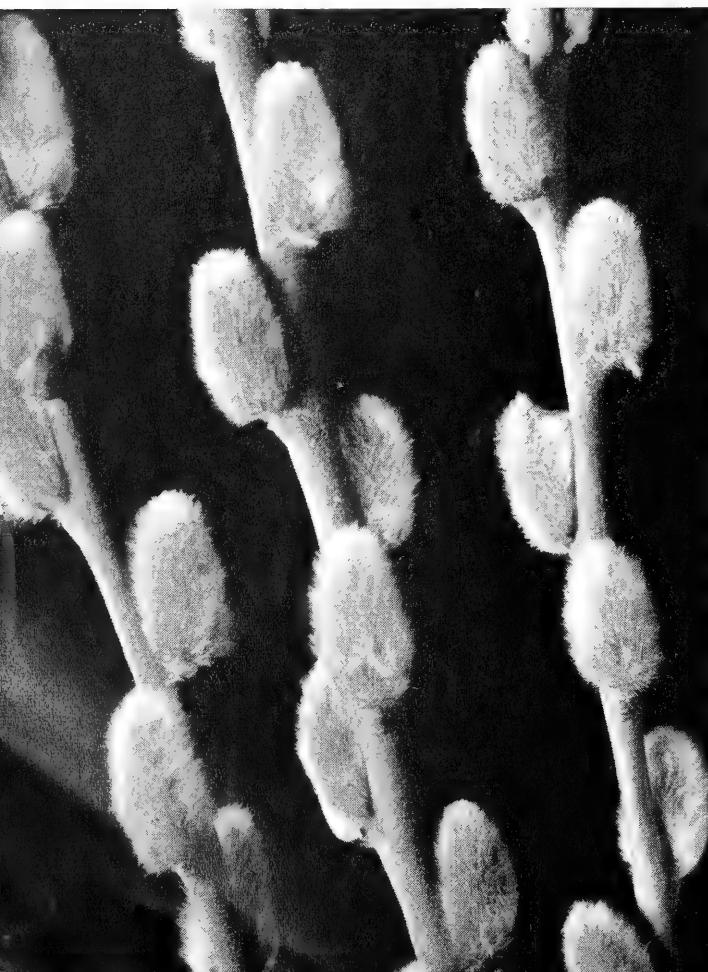

The long arching branches carry a wealth of large single alabaster-white flowers. So heavily loaded with flowers are the slender branches as to assume the appearance of sheaves of bloom. They are of such purity of whiteness as to make all other Mockoranges seem gray by comparison. The fragrance is delightful, more delicate, yet more penetrating than that of Jasmine. Its flowers are so intensely white, one constantly marvels at its ethereal effect. A "must" in every garden. Ultimate height about 6 feet.

Virginalis

Each \$2.00, Three \$5.75, Doz. \$20.00

This is perhaps the most popular of the double-flowered Mockoranges and one of its habits is to produce a few flowers throughout the summer and fall after its normal blooming period. Plants grow rather tall, 7 to 9 ft., so this variety should always be planted in the background. We send flowering plants about 3 to 4 ft. tall.

Salix—French Pussy Willow

New Weigelas

The Weigelas are an interesting and useful family of shrubs, flowering in May, June and July. The flowers in shape may be likened to those of a Foxglove and are borne in immense quantities. They prefer a moist soil and do not like shade or roots of large trees encroaching on them. Otherwise their culture is simple. The average ultimate height of most varieties is about 5 to 6 feet.

Avalanche

Each \$2.00, Three \$5.75, Doz. \$20.00

This is the best pure white Weigela. It grows about 5 to 6 feet high. In late spring and early summer it is a beautiful plant to see with its thousands of pure white trumpet-like blooms. It makes a fine contrast if planted alongside of Bristol Ruby. We send plants about 2 to 3 feet tall.

Fairy

Each \$2.00, Three \$5.75, Doz. \$20.00

A handsome shrub for any garden, big or small. Grows about 5 feet tall and in spring is completely covered with light pink blooms which possess a great depth of color and sparkle like pearls. It is early flowering and one of the great French hybridist Lemoine's latest and best. We send plants about 3 to 4 feet tall.

Bristol Ruby (Spring and Autumn Flowering)

(Plant Patent No. 492)

The color of the flowers is pleasing, sparkling ruby-red, shading to garnet-crimson. They are produced in immense quantities and create a wonderful display of colors. After the big spring display is past there is again a fine showing of bloom throughout the summer and entire autumn. Few shrubs produce flowers as freely and over so long a period as does Bristol Ruby Weigela. It attains a height of 6 to 7 feet at maturity, and grows into a perfectly formed, well-rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. Excellent reports from Canada and Vermont and other difficult regions fully substantiate our own estimate of its unusual hardiness. Bristol Ruby is definitely superior to any other red Weigela in every respect and visitors here at the nursery are quick to note its better qualities.

Each Three Doz.

<i>Bushy plants, 18 to 24 in. high</i>	<i>\$2.00</i>	<i>\$5.75</i>	<i>\$20.00</i>
<i>Bushy plants, 2 to 3 ft. high</i>	<i>2.50</i>	<i>7.00</i>	<i>25.00</i>
<i>Bushy plants, 3 to 4 ft. high</i>	<i>3.00</i>	<i>8.00</i>	<i>30.00</i>

BRONZE-LEAVED SUMAC

Rhus Cotinus Rubrifolius

Each \$3.50, Three \$9.75, Doz. \$35.00

Here we have the rare bronze-leaved and "bronze-plumed" Smoke Tree. The common Smoke Tree is too well known, nothing more need be said about it except that it has been a favorite garden shrub for hundreds of years. The bronze-leaved form has handsome bronze tinted foliage and a bronze colored so-called plume or smoke. It is one of the outstanding shrubs in our nursery and has caused a great deal of comment. We are sure that this rare shrub will make a fine display in your garden. We offer nice bushes about 2 to 3 feet tall.

SALIX - Willow

French Pussy Willow

Each \$2.00, Three \$5.75, Doz. \$20.00

Not the wild Pussy Willow but a fine cultivated French variety. Branches of this variety have been selling at retail during the winter months in cities at from \$1.00 to \$2.00 per dozen. **You can grow them on your own lawn!** Enjoy these dainty silvery pink flowers every winter. A beautiful round shrub in summer or use them for fall screens or backgrounds. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silver-pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure. Ultimate height 10 feet. Cut back branches to 6 inches when planting and each spring after catkins have formed to promote long, vigorous new canes.

Purpurea nana

Each 85c, Three \$2.25, Doz. \$6.50, 100 \$45.00

Dwarf Blue-Leaf Arctic Willow. Discovered north of the Arctic Circle. A charming low-growing Willow excellently suited for edgings. Grows anywhere in wet or heavy soils where other plants perish. It is able to withstand the lowest temperatures encountered in this country, is of easy culture. Just the plant for low edgings, around beds or along walks in difficult soils or localities. The foliage is a lovely gray-blue-green. Can be clipped for formal effects or left natural as desired. Should be planted about 8 inches apart. May also be grown as single specimens in the rock garden.

SPIRAEA

A very important family of shrubs. Most Spiraeas are sun loving, but withstand much abuse in location and soil conditions, and are a source of joy and satisfaction.

Japonica coccinea

Each \$1.50, Three \$4.00, Doz. \$15.00

Similar in growth and habit to the Anthony Waterer Spirea. The flowers of this new variety are much better and richer crimson-red. No one will ever again plant the old Anthony Waterer once they have seen this fine improvement. Ultimate height about 30 to 36 inches.

TAMARIX - Tamarisk

Tamarix should be cut back to 6 or 8 inches when transplanted. If this is not done, success is doubtful.

Summer Glow

Each \$2.00, Three \$5.75, Doz. \$20.00

There is a lacy loveliness and charm about this lovely shrub not found in any others. The beautiful silvery blue-gray foliage is like a veil. A sharp and delightful contrast is made by the airy Tyrian rose flower spikes which appear on top of the delightful foliage all summer long. The flowers and foliage are lovely for cutting. This shrub is also excellent for seashore or lakeshore gardens, being very tolerant to salt air and wind. The plants we send out will bloom the first year. Ultimate height about 8 feet. Can be pruned and kept to 5 or 6 feet if desired.

VITEX - Chaste Tree

Macrophylla

Each \$2.00, Three \$5.75, Doz. \$20.00

A graceful shrub with attractive spikes of lovely lavender-blue flowers. Blooms profusely from July until fall and grows more than ten feet high unless pruned back. It is a most desirable summer-flowering shrub of distinctive appearance. Fits in well in the border and is also suitable as a lawn plant. Its form, foliage and lilac flowers are very unusual.

Hardy Vines

AMPELOPSIS - Boston Ivy

Lowi (Miniature Boston Ivy) Each \$1.25, Three \$3.50, Doz. \$12.00

The small-leaved Boston Ivy is a charming self-clinging and quickly climbing vine. The leaves are small, palmlike and deeply lobed, turning into beautiful autumn tints before falling. This variety is especially well adapted to cover house walls as well as stone gateposts or low walls. The close fitting short-stemmed leaves do not allow birds to nest. Its effect is tracer-like and does not completely cover the brick or stonework. It is quickly replacing the common Boston Ivy or Veitchi variety because it is so much more charming.

Veitchi

(Boston Ivy.) The most popular climbing plant for covering brick walls, stone or wooden walls, trees, etc. When it becomes established it is of very rapid growth, and clings to the smoothest surface with the tenacity of ivy.

Strong, 3-year-old plants Each \$1.25, Three \$3.50, Doz. \$12.00

BIGNONIA - Trumpet Vine

Mme. Galen

The Scarlet Trumpet Vine, Bignonia Radicans, is one of the popular vines found growing on many fences, barns or stone walls. It has been discontinued by us, however, in favor of the much lovelier hybrid, Mme. Galen. The blooms of Mme. Galen are open, flaring flowers 2 1/2 to 3 inches across and grow in clusters all summer long. The color is rich apricot, tinted orange, handsome and showy against the fine foliage of the plant. No insects bother it. It is clean, quick growing and requires no support. It will fasten itself to brick or wood. Is perfectly hardy but likes a sunny location. You will never fail to admire its flowers throughout the summer.

Yellow Trumpet

Each \$2.00, Three \$5.75, Doz. \$20.00

This rare Trumpet Vine with golden yellow flowers is one of the choicest and rarest of climbers. Its growth, habit and flowering are the same as of the scarlet Trumpet Vine. No insects bother it, and it thrives in hot, dry weather. You'll be proud to have this fine climber on a fence or wall. Must be grown in full sun only.

CELASTRUS - Bittersweet or Wax Work

Loeseneri (Chinese Bittersweet)

Each \$1.75, Three \$4.75, Doz. \$17.50

Surest and most prolific fruiting variety known. This new importation is a rare species from Central and Western China. The clean leaves are glaucous green and somewhat larger than those of the common Bittersweet. It is the most prolific fruiting kind we know. In autumn, yellow and orange-scarlet berries cover the vine all over instead of an occasional small cluster as in the common Bittersweet. It's a sure fruitier. We do not recommend you plant two plants in one hole.

EUONYMUS (See page 111)

LONICERA - Honeysuckle

Their climbing qualities are all that can be desired, but the fragrance of their flowers makes their strongest bid for favor. They are perhaps to the old-fashioned garden as a vine what the Hollyhocks are as a plant. They simply should be there somewhere.

Goldflame

Each \$1.25, Three \$3.50, Doz. \$12.00

Immense showy clusters of trumpet-shaped buds and fragrant blooms. The outside of the petals is brilliant flame-pink, the inside a creamy golden yellow. Dark glossy foliage adds to its charm. The plants can be sheared to form a hedge or allowed to grow naturally as a vine or shrub. Bloom freely from early spring until heavy frost.

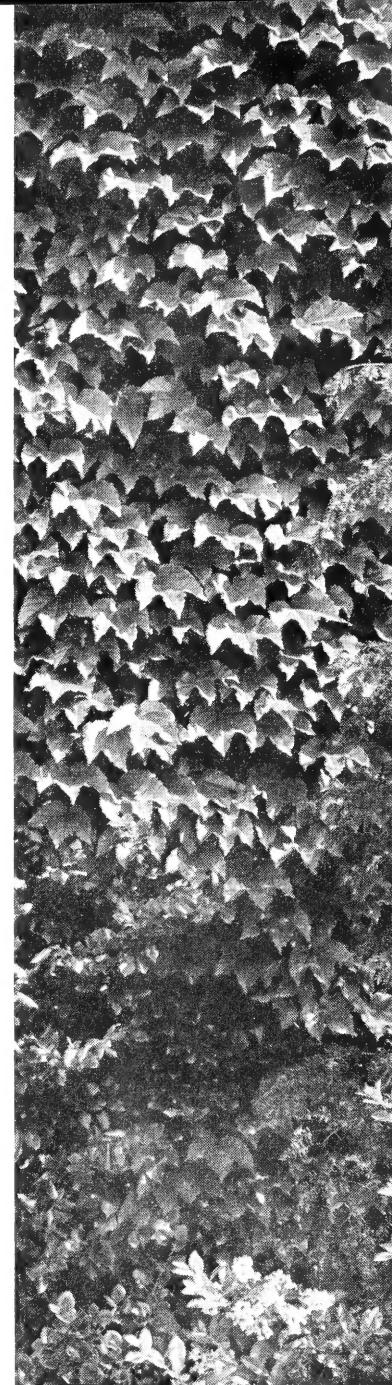

Halliana

An intermingling of white and yellow. Fragrant; most satisfactory.

Sempervirens Magnifica

Each \$1.50, Three \$4.00, Doz. \$15.00

A magnificent evergreen Honeysuckle with coral-colored blooms of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers are freely produced; a worth-while novelty which is particularly well adapted where a not too large space must be covered, because it does not grow as big as any of the other kinds offered. The most brilliantly colored of all the Honeysuckles. Hardy anywhere and blooms from spring till frost. In our opinion the best of the lot.

Ampelopsis Veitchi—Boston Ivy

Hardy Baltica Ivy—
Hedera Helix Gracilis

Hardy Baltica and English Ivy

For Ground Covering in Shade

The famous English Ivy with its familiar evergreen, glossy foliage, requires winter protection in cold sections of the country where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds anywhere. Gracilis is perfectly hardy and we recommend its use on the north side and west side of buildings and walls or in shady places or as a ground cover under trees in dense shade. The 2 1/2-inch pot plants offered are very economical and especially grown for use as a ground cover.

ENGLISH IVY—*Hedera helix*

A lovely vine as well as a splendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in dense shade.

Plants from 2 1/2-inch pots Doz. \$5.50, 100 \$25.00, 1000 \$225.00

BALTICA IVY—*Hedera helix gracilis*

Identical in habit with the English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north or west exposures, also excellent ground cover.

Plants from 2 1/2-inch pots Doz. \$5.50, 100 \$25.00, 1000 \$225.00

Plants from 5-inch pots Each \$1.25, Three \$3.05, Doz. \$0.50

POLYGONUM - Silver Lace Vine

Auberti (Silver Lace Vine) Each \$1.50, Three \$4.00, Doz. \$15.00

One of the fastest growing vines in cultivation. The foliage is perfectly clean, no insects bother it. It has no pests and it grows 15 to 20 feet the first year after planting. In summer it is covered from top to toe with foamy sprays of white flowers. It requires a warm, sunny exposure and well drained sandy soil, fairly rich. If given these conditions its growth is outstanding. Will cling to any kind of support, and it will cover an unsightly building, wall or barn in two years time. Be sure and plant only in full sun, eastern or southern exposures.

Hydrangea Petiolaris

Climbing Hydrangea—The Choicest of All Vines

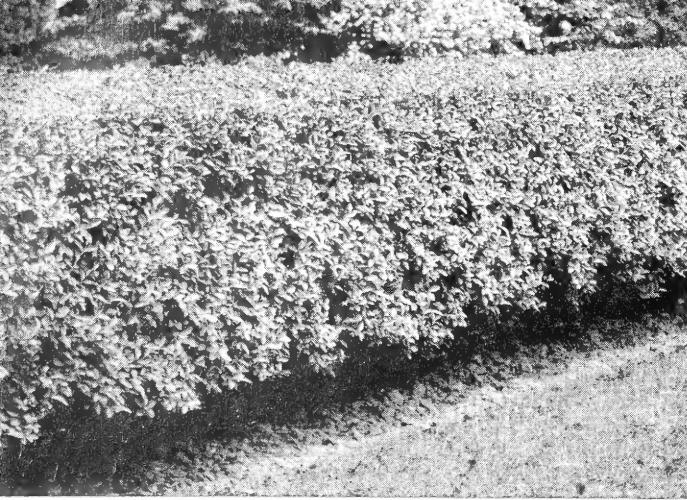

This perhaps is the finest and choicest of all the vines offered in our catalog. It is not a rampant growing plant but when established makes good growth each year. It is woody but clings to brick or wooden walls without support, and also does fine on old trees or stumps.

Its foliage is bold, clean and shrublike; and a rich dark green color. Short spur branches projecting from the wall are topped with white fragrant Hydrangea-like blooms throughout the summer. The effect created is most artistic as well as amazing.

Last, but not least, it does equally well in shade or sun. In fact, we recommend the Climbing Hydrangea for north, west walls or such places where shade is dense in summer. If you own one of these vines you will have something you will admire all your life. The height can be easily controlled from 10 to 20 feet as desired.

Strong plants about 2 feet high

Each \$3.00

Untrimmed Hedge of *Berberis Mentorensis* Showing Perfect Natural Hedge Form

Ligustrum Sinense (Chinese Privet)

This is a very hardy Privet. It is upright, bushy and twiggy in habit and not too rapid a grower. It makes a beautiful dense hedge which is very formal and neat even though not pruned. In our part of the country, it usually remains evergreen. Exceptional weather conditions may cause it to drop part of its foliage late in winter. This, however, rarely happens here and it certainly would not occur where temperatures are milder. Our plants originally were obtained from the Arnold Arboretum in Boston where it has proven to be most satisfactory even though foliage occasionally burns under extreme weather conditions as it also does in Mentor. It is a better and superior plant than *Ligustrum amurensis* (Amur River Privet) and we recommend it wholeheartedly. Its medium rate of growth and fine texture are of great importance in the making of a fine hedge. We send out plants about 3 feet tall. Makes a complete hedge in 1 year.

Each 75c, Three \$2.00, Doz. \$6.00, 100 \$40.00

[128]

Regel Privet

The true Regel Privet has for many years also been called *Ibota Privet*. It is a dense shrub which grows to a maximum height of 5 to 6 feet. It is spreading and branching, and for that reason it makes a beautiful thick hedge. Regel Privet retains its foliage well and is almost evergreen. This is the popular hardy hedge plant. For hedges from 3 to 5 feet in height, it is perfect. We send plants about 15 to 18 in. tall, which is the best size for transplanting and rapid dense growth.

Doz. \$8.00, 25 \$15.00, 100 \$55.00

The Best Barberry

Drought Resistant Mentor Barberry

No blight—no pruning.

BERBERIS MENTORENSIS

(Plant Patent No. 99)

It has very stiff, upright growing branches and quite formidable thorns. Its foliage is heavy and thick and of perfect color—a green as dark as the Japanese Yew. In hot and dry seasons or in localities where high temperatures go hand in hand with lack of rain, it never shows any signs of rust and discoloration of foliage no matter how hot or dry it may be. In Ohio the leaves remain green until after the holidays. In Kansas, Oklahoma, Utah, and the Southwest, *Berberis Mentorensis* is evergreen and considered the **finest evergreen plant for hedges**. It is amazingly satisfactory growing around areaways or close to dry foundation walls, and does an outstanding job in city gardens, either in single specimens or as a hedge. Its unusual ability to withstand heat and drought is nothing short of wonderful. Always good and clean looking, upright in growth, easy upkeep (requires really no pruning), and its tenacious foliage, more than compensates for the lack of berries. We heartily recommend *Berberis Mentorensis* to you. For hedges plant in a single row, 15 to 18 inches apart for best effect.

First—It is evergreen practically the year around. Think what that means.

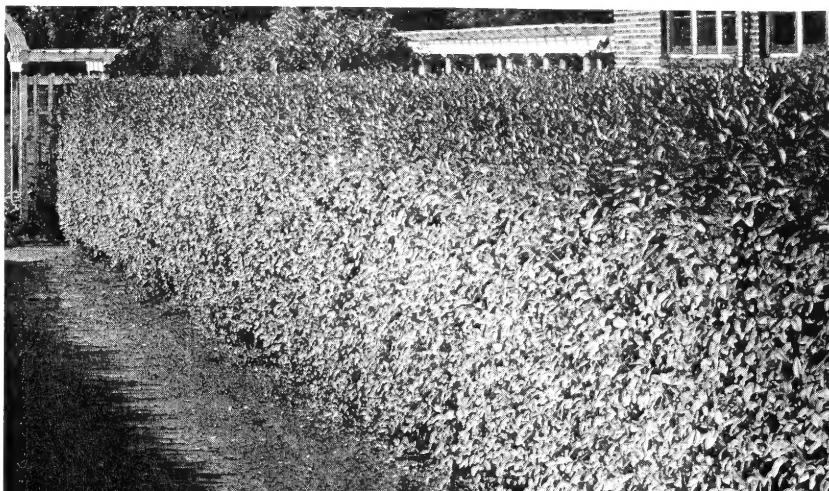

Second—Its sturdy, erect growth carries a thick, dark green foliage right down to the ground. Is never bare-legged.

Third—When used for a hedge, its thorny, strong growth forms a formidable barrier to man or beast.

Fourth—Needs no pruning. It is of erect growth which becomes dense when the plant is three or four years old. No upkeep! No pruning!

Fifth—Combined in a foundation planting with evergreens, it provides a beautiful and artistic contrast at very small expense and without elaborate preparation of soil.

It's Easy To Order By Mail From Wayside

New Customers are Invited to Read This Page Before Ordering

Your Confidence in Wayside

We appreciate your confidence in ordering from us—and we will do our utmost to deserve it. Based on many years' experience we have worked out systems for handling orders expeditiously and correctly.

However, you can help us, and enable us to give you the best possible service, if you will order as early as possible and help us keep those seasonable rush periods down to a minimum.

When to Order

Send us your order as soon as you have made your selection. Do not delay mailing it to us! Much preliminary work must be done before the actual shipping of bulbs or plants is possible. Nursery products are not manufactured but are grown so that in case of "short crops" early orders have first consideration. It is good judgment on your part to have your order "in" early and it is helpful to us.

Report Errors Promptly (Always Give DATE of Order)

It is impossible to avoid or escape rush periods in the nursery business. Errors are possible at such times. Therefore, check over your order as soon as you receive it. Shrubs, Roses, bulbs, and plants, etc., are sent in separate packages sometimes several weeks apart because they do not mature at the same time. This is particularly true in the autumn. Perennial plants are never included in the same bundle with shrubs as they do not arrive satisfactorily if handled that way. If you receive anything which has been damaged in transit advise us at once. Be specific and always state the **name** of the variety and **quantity** of damaged goods. With detailed and specific information at hand, we are able to immediately send you a free replacement for that which was received damaged. It is important we have complete information if we are to make speedy replacements.

We Ship at Proper Planting Time

All plants, roses or shrubs, and bulbs will be shipped at the proper time for planting in your locality. This often requires two or more shipments. If there is a special date on which you would like to receive your order, mention it on the order blank. We desire to comply with your request, weather permitting, of course. Upon receipt of your package, open it at once and admit air but keep plants in a cool place, away from sun or wind.

Preplanting Treatment of Roses and Shrubs

Upon receipt of package, open it at once and insert roots of shrubs and Roses in a tub or pail of water. If possible, permit the water to reach half way up the branches. Leave them there to soak up water for at least 24 hours before planting. It will reduce loss to a minimum and speed growth of stock immeasurably.

Quantities and Prices

1 or 2 plants of one kind are sold only where each rate is quoted. 3 to 5 plants of one kind are sold at the three rate. We do not sell any hardy plants in smaller units than three unless the variety is specifically quoted per each. 6 to 24 plants of one kind are sold at the dozen rate. 25 or more plants of one kind are sold at the hundred rate.
